entering 7th, 8th and 9th grade!

Life Savers

July 13-15

9 am - 3 pm, \$50

Learning, observing and experiencing “behind the scenes” activities with the police, paramedics & fire department

Learning, observing and experiencing “behind the scenes” activities with the police, fire department and paramedics. Three jam-packed days of learning firsthand what these exciting occupations do on a day-to-day basis.

Day one features the Arvada Police and includes crime scene processing, laser enforcement, car stops, building searches, dispatch, report writing and a police K-9 demonstration.

Day two meets at the Arvada Fire Training facility and will include a tour, car extrication, air packs and hose demonstrations, extinguisher training, problem solving, prevention techniques and the “maze.”

On day three, Pridemark Paramedic Services and Red Rocks Community College Emergency Services representatives will present activities including CPR training, other life saving techniques and scenarios along with an ambulance demonstration.
