Welcome to Red Rocks Community College —
We’re Glad You’re Here!

Whether you have chosen to attend Red Rocks to earn a degree or certificate, to prepare to transfer to a four-year college or university, to upgrade your job skills, or to pursue a topic of personal interest, please be assured that you have made the right choice. I know I have.

In December 2007, I was offered the job of president of Red Rocks Community College, and I gladly accepted. Before making my decision, however, I read about the college and talked with many people who know Red Rocks. When I visited the Lakewood and Arvada campuses, I found the faculty, staff, and administrators to be open, friendly, helpful, and—most of all—dedicated to providing quality education and support for all students.

Of course, it is easy to talk about quality, but Red Rocks has proof. For example, it is the college of first choice in the state and the country for Jefferson County high school graduates. In addition, our chapter of Phi Theta Kappa, the international honor society for two-year colleges, has been judged one of the top 12 in the world. And, more of our graduates transfer to the prestigious Colorado School of Mines than from any other college in the nation.

I am proud of those accomplishments, but I am equally proud that Red Rocks is a college for every student, not only for those who want to transfer to four-year universities. Anyone age 17 or over, even those still in high school, can attend RRCC.

For the majority of our students who work part or full time, we offer several ways of taking classes—to discover all the options, meet with an advisor as you plan your schedule. Our Financial Aid counselors are ready to work with you to ensure that you receive all the aid for which you qualify, and the Red Rocks Foundation provides more than $300,000 in scholarships to our students each year. Our goal is to create an environment in which all our students can learn, make progress, feel proud of themselves, and accomplish their goals.

At Red Rocks, you will find friendly faces among our experienced and enthusiastic faculty and advisors. They want you here, they want you to succeed, and they want to share in the delight of your personal accomplishments, as I do.

When you have settled in at Red Rocks, please stop by my office and say hello. We have a lot to share.

Dr. Michele Haney
President, Red Rocks Community College

Welcome from the President

Dr. Michele Haney, RRCC President, has been with Colorado community colleges since 1992. She served as vice president of instruction and student services at Front Range Community College (FRCC) from 1992 to 1995, as vice president of the Westminster campus of FRCC from 1995 to 2000, and as chief executive officer of the Boulder County campus of FRCC from 2000 to 2003. In August of 2003, she accepted the presidency of Morgan Community College, with the state’s largest service area of 11,500 square miles. During Haney’s time at Morgan, the college ranked number one in retention and graduation rates within the community college system.

Prior to coming to Colorado, Haney worked as an associate dean for instruction and as dean of life, health, and physical sciences at Laramie County Community College in Wyoming.

Haney received her doctorate in counseling at the University of Wyoming in Laramie, her master of arts in counseling from Chapman College in Orange, California, and her bachelor of arts in political science at the University of New Mexico in Albuquerque.
RRCC is a community of 14,000 learners each year studying at campuses in Lakewood and Arvada – and around the world through online courses. We are one of 13 Colorado community colleges charged with preparing a state workforce for the emerging needs of employers. We also offer an affordable start for students who plan to earn a four-year degree.

Lakewood Campus

The Lakewood campus lies just off 6th Avenue and Indiana Street (along the 6th Ave. Service Road) on a 140-acre hillside with sweeping views of the Front Range.

The quarter-mile-long building houses everything from state-of-the-art multimedia graphics computer labs to construction technology worksites, to traditional classrooms and labs, to health-careers practice areas.

The full range of services for students includes an assessment center, academic advising, tutoring, financial aid, a library, a project center, and a student employment center. A bookstore provides new and used text books, snacks, gifts, and school supplies. Students with disabilities can find support and services, including an Assistive Technology lab, at the Office of Special Services.

In addition to academic support, the campus offers extras including a cafeteria and coffee shop, recreational facilities and a fitness center. The Children’s Center offers full-day care for children from 18 months to kindergarten entry.

See a locator map at www.rrcc.edu/maps/lakewood.html or call 303.914.6600 for more information.

Arvada Campus

The Arvada campus lies just northwest of the intersection of I-70 and Kipling. The campus is known for its expansive views to the west and the view of downtown Denver to the east.

The campus offers innovative scheduling options in a helpful and friendly atmosphere. Students can apply for admission, meet with an advisor, receive career counseling, register for classes, take college placement assessment exams, and receive financial aid information, all in one convenient location.

The LARC (Learning and Resource Center) is the centerpiece of the campus which houses the computer commons, assessment, online writing support and library services, tutorial services, free GED pre-testing, career resources, and study areas with wireless Internet access. The Arvada Campus is home to the Process Technology program and the Medical Imaging program which includes X-ray technology and ultrasound.

Courses offered range from accounting to speech, including guaranteed transfer general education courses and basic skills courses in English and mathematics.

See a locator map at www.rrcc.edu/maps/arvada.html or call 303.914.6010 for more information.

RRCC Guiding Principles

Vision:
To be the college of first choice.

Mission:
To create a passion for learning through our dedication to students, our commitment to excellence, and our own love of learning.

Values:
These are the principles that define our values and guide us in our actions and decisions:

- Innovation
- Teamwork
- Diversity
- Communication
- Integrity

RRCC is:

- A committed business partner responding to industry and community needs through innovative solutions.
- A coalition builder initiating opportunities for creative problem-solving through teamwork.
- A proponent for diversity providing an environment that respects differences among us.
- A believer in communication fostering a culture that promotes an open exchange of ideas.
- A model of integrity supporting our mission with thoughtful and judicious decision-making.
Red Rocks welcomes everyone who can benefit from our instructional programs and courses, including high school graduates, non-graduates, and students 17 years and older who are currently enrolled in high school.

The Director of Enrollment Services reviews any questions regarding admission. Any admission based on false statements or documents may be reversed, and credits for classes completed under these circumstances may be revoked. The college may review the enrollment of a student who does not appear to be profiting from instruction or who poses a hazard to herself, himself, or others.

Admission does not ensure acceptance into a particular course or program. Some programs have limited space and special admissions procedures; applicants for these programs must contact the appropriate department.

Admission Procedures

In order to enroll, follow these steps:

1. **Apply for admission.**
   - Submit an application for admission which is available in the printed schedule, in the Admissions Office, and online at www.rrcc.edu.
   - **Information:** 303.914.6348 or www.rrcc.edu/admis/

2. **Apply for the College Opportunity Fund (COF).**
   - Colorado residents should complete the application. The State of Colorado provides funding for students to attend college through COF. This is the state paid portion of your tuition which is a benefit of being a Colorado resident. If you do not apply for COF funding, you are responsible for both the student share and the state share of all tuition and fees. For more information and to apply, visit [https://cofweb.csdp.org/cofapp/](https://cofweb.csdp.org/cofapp/).

3. **Meet one of the following assessment requirements.**
   - ACT scores (Reading 17, Sentence Skills 18, Math 19)
   - SAT Scores (Verbal 430, Math 460)
   - Successful completion of college-level math and English courses
   - Take the Accuplacer computer placement test at RRCC.
   - **Information:** 303.914.6720 or www.rrcc.edu/assessment/

4. **Meet with an academic advisor** who can help you select courses, identify course prerequisites, obtain program information, evaluate assessment results, assist with transfer planning to a four-year college or university, and prepare you for graduation. They can check your progress in AA, AS, and AGS degree plans and develop a course schedule that fits your needs and academic goals. A team of academic advisors is available year-round on a walk-in basis. An important step toward succeeding at RRCC is meeting regularly with an academic advisor.
   - **Information:** 303.914.6255 or www.rrcc.edu/advising/

5. **Register for classes** online or in person at the Lakewood or Arvada campus.

   To register online, go to www.rrcc.edu and click on “My Community Education.”
   - **Information:** 303.914.6348 or www.rrcc.edu/admis/

---

**Five steps and you’re in:** 1. Apply for admission. 2. Apply for COF. 3. Meet assessment requirements. 4. Meet with an advisor. 5. Register for classes.
International Students
International students must contact the English Language/Intercultural Services Office to begin their application process. See page 12 for more information.

Information: 303.914.6416 or www.rrcc.edu/international/

Former Students
If you are returning to RRCC after an absence of more than one year, you must re-apply for admission. If you have earned credit at another college and plan to use that credit to fulfill requirements for an RRCC degree or certificate, submit a formal transcript to the Student Records Office prior to the semester in which you plan to graduate.

Information: 303.914.6352

High School Students
RRCC welcomes high school students who are at least 17 years old and can benefit from our instructional programs. To enroll, follow these simple steps:
1. With approval from your high school counselor, you may take courses at RRCC for dual credit (high school and college credit). Ask your counselor about Post-Secondary Enrollment Options (PSEO), Warren Tech, and other concurrent enrollment options.
2. Complete paperwork available at your high school counseling office.
   - Complete an RRCC Community College Application for Admission.
   - Complete a Statewide Agreement form for high school concurrent enrollment.
   - Additional forms may be required for the specific program you enter at RRCC. Consult with your high school counselor.
3. Complete the Accuplacer assessment at RRCC or submit qualifying ACT/SAT scores to the Assessment Center. The Accuplacer measures your readiness for college-level coursework. It is not a test of whether you can attend RRCC but is a tool to help advisors place you in appropriate college courses. Call 303.914.6720 or visit www.rrcc.edu/assessment/timecomp.html for more information regarding where and when to take the Accuplacer assessment.
4. Call the High School Relations Office at 303.914.6350 or visit www.rrcc.edu.hs/ to schedule an appointment for academic advising and registration.

Assessment
The state of Colorado requires incoming students to complete the Accuplacer, an assessment test of basic skills, to guide your choice of courses. You must complete the assessment or present exemption documents before you register for classes. The Accuplacer test assesses your proficiency in English, reading, and mathematics and is taken on a computer in the Assessment Center. Plan on 90 minutes for the test. There is no cost the first time you take the Accuplacer, but you must show a picture ID. You will receive your scores as soon as you complete the test which will help you make course selections when you meet with an academic advisor.

You cannot “fail” the Accuplacer; your score is an indication of the level of coursework you are ready to take. We strongly recommend that you review the online study guides available prior to taking the Accuplacer. The study guides can be found on our Web site at www.rrcc.edu/assessment/

If your assessment scores are below college level, you are responsible for enrolling in basic skills courses during your first 30 credit hours of attendance. Students enrolling in Fire Science or Emergency Services coursework must consult the Emergency Services Department for their assessment requirements.

You may take the Accuplacer at either the Lakewood or Arvada campus. Please refer to the Assessment Center Web site for additional information about the Accuplacer and testing hours at both campuses.

Exemptions to the Assessment Requirement
The state of Colorado requires all students under 20 years of age to take the Accuplacer or to supply exemption documents. Students who meet one of the following requirements do not have to take the Accuplacer test.

• If you have earned an associate of arts, associate of science, or higher degree from an accredited college or university, you must submit your transcript(s) to RRCC to receive the exemption.
• If you have completed college-level English composition or college algebra with a grade of C or better, or you have qualifying AP/IB test scores, you can submit your transcript(s) and/or score report to RRCC to be exempt from taking the corresponding section(s) of the Accuplacer. Qualifying scores are listed on the RRCC Web site: www.rrcc.edu/assessment/
• If you have qualifying ACT scores (English, 18 or higher; reading, 17 or higher; mathematics, 19 or higher) or SAT scores (verbal, 440 or above; math, 460 or above) and submit the scores to the RRCC Admissions Office, you do not have to take the Accuplacer test.
Credit for Prior Learning (CPL)
You may receive academic credit for education earned through earlier schooling, work, experiential learning, or other non-traditional means. It must be comparable to courses offered at RRCC and related to your current program. Methods available for CPL are the following:

• College Level Examination Program (CLEP)
• Portfolio (documentation of past learning)
• Institutional Challenge Examination (CPL) The handbook and forms are available online.

Information: 303.914.6720 or www.rrcc.edu/assessment/

Career Resources
Career Assessments
Red Rocks offers individual appointments for the Myers-Briggs and Strong Interest Inventory career assessments at the Arvada Campus. Assessments are $20 each for students and alumni or $30 each for community members.

Call to make an appointment: 303.914.6016

Career Development Course
PSY 110, Career Development, is offered each spring and fall semester in the classroom and online during the summer. PSY 110 covers all areas of the career development process, including formal and informal assessments (personality, interests, skills, values, and beliefs); personal career exploration; occupational, labor, and job market resources; the changing workplace; goal-setting; decision-making; networking; informational interviewing; résumé writing; and interviewing skills. Upon completion, students will have created their own career development plans.

Information: 303.914.6016 or dan.macy@rrcc.edu

Choices Explorer and Planner
These two free career resources are available to all students and include basic career interests, values, skills career assessments, and a résumé builder. Links to occupational information and videos, along with college educational program databases and other career and educational resources, make Choices Explorer and Planner a user-friendly tool. To access, visit www.collegeincolorado.org, create an account, log in to Choices Explorer and Planner, and then create your portfolio to be able to access all resources.

Military Science (U.S. Army)
The Military Science Program at RRCC is offered in conjunction with the University of Colorado at Boulder (CU) and Colorado School of Mines (CSM). The Department of Military Science offers programs leading to an officer’s commission in the active Army, Army Reserve, or National Guard in conjunction with an undergraduate or graduate degree. Military science courses supplement a regular degree program by offering practical leadership and management experience. Students attend classes at either CU or CSM.

Register for Army ROTC classes through the Student Records office, Room 1200.

Information: 303.914.6353

Transcripts
There are several ways to order a transcript. If you took classes before summer 1996, contact the Student Records Office. You may also print a transcript request form found on the Red Rocks Web site under “Student Records.” You can mail or fax this form to Student Records.

If you took classes during or after summer 1996, you may order your transcript by going to www.rrcc.edu and clicking on “My Community Education.” Enter your user ID and six-digit PIN. Your user ID starts with the letter R or S. Your PIN is your birth date (mmddyy). You may also print the form from the Web site and mail or fax it to Student Records.

Student Records Fax: 303.989.6919

There is no charge to order a transcript. Phone requests are accepted only for transcripts sent to other colleges. Transcripts will not be released for students who have failed to fulfill their financial obligations to the college.

Information: 303.914.6352
Transfer of Credits
The Colorado Community College System (CCCS) uses a common course numbering system to simplify transfer to other state colleges and universities and to ensure curriculum quality across the system. Information is posted at www.cccs.edu. Once you are on the site, click on CCCS Common Courses.

1. Initial transcript evaluation is completed in Student Records. (Transcripts must be sent from a previous college to RRCC and become the property of RRCC.)
2. Grade point average (GPA) from transfer institutions is not calculated into your RRCC GPA.
3. The college reserves the right to validate and examine all courses to determine if they are obsolete. If a course is obsolete, you may be required to take a similar course at RRCC.
4. The college will accept transfer credit only from post-secondary institutions accredited by one of the six regional accrediting associations. Credits earned in a Colorado community college that are applicable to a specific AAS degree or certificate will be accepted in an equivalent program.
5. All received and/or evaluated transcripts become the property of RRCC. Only grades of C or better will be accepted for transfer. If you are pursuing a degree or certificate and wish previous college credits to be considered for transfer, submit official transcripts either sent from a previous institution or hand-carried in a sealed envelope to Student Records as soon as possible after registering for classes. Transcripts will not be evaluated until you are registered.

Information: 303.914.6355

Transferring from RRCC to Four-Year Colleges and Universities
RRCC has established transfer agreements with the following institutions:

- Adams State College
- Colorado Christian University
- Colorado College
- Colorado School of Mines
- Colorado State University:
  - Fort Collins
  - Pueblo
- Colorado Technical University
- DeVry University
- Fort Hays State University
- Fort Lewis College
- Franklin University
- Governors State University
- Jones International University
- Metropolitan State College of Denver
- Mesa State College
- Naropa University
- Northwest Missouri State University
- Regis University
- St. Francis University
- United States Air Force Academy
- University of Colorado:
  - Boulder
  - Colorado Springs
  - Denver
  - Denver Health Sciences University of Denver
  - Daniels College of Business
- University of Northern Colorado
- University of Phoenix
- Western State College

These agreements specify how Red Rocks courses transfer and identify their equivalents at these institutions. They are written guarantees of transferability when a prescribed curriculum is satisfactorily completed.

Information: 303.914.6255 or www.rrcc.edu/transfer/

Warren Tech
Warren Tech is the career and technical high school for Jefferson County Public Schools. Classes follow the Warren Tech/Jeffco Public Schools calendar. Deadlines and class start and end dates differ from those of RRCC. Anyone who has graduated from high school, received a GED, or is age 21 or older may attend Warren Tech by enrolling through RRCC. Adults attend Warren Tech on a space-available basis. Warren Tech classes are conducted on a block schedule, usually for 15 hours per week.

Adult students pay tuition to RRCC but attend programs on the Warren Tech campus. Typically, Warren Tech programs are the equivalent of 14 college credit hours per semester. Costs for all-day programs in hairstyling and culinary arts are higher.

Warren Tech Information Guides are available at Warren Tech or RRCC. For more information, contact the RRCC-WT Liaison at 303.982.5232 or the RRCC Admissions Office at 303.914.6543. Admissions and registration requirements can be obtained from either office. All students who apply to a Warren Tech program are required to take the Accuplacer test at RRCC.

The following Warren Tech programs are available to RRCC students on a space available basis:

- Auto Collision Repair
- Automotive Technology
- Cosmetology: Esthetics
- Cosmetology: Hairstyling
- Cosmetology: Nail Technology
- Culinary Arts
- Dental Assisting
- Floral Design
- Hotel and Travel
- Landscape Operations
- Precision Machining Technology
- Welding
College Opportunity Fund

The College Opportunity Fund (COF) is a state-funded program that provides a per-credit subsidy for Colorado residents attending state-supported and participating private colleges and universities. This money, referred to as the COF stipend, is applied to an in-state student’s tuition. You have to apply for the COF stipend only once, but you must authorize its use every semester as part of the registration process. The college you are attending will receive the money, and it will appear as a tuition credit on your bill. The COF stipend is set by the state legislature. See the class schedule for the current stipend amount. You must enroll online; the link to the COF enrollment site is available on the RRCC home page: [www.rrcc.edu](http://www.rrcc.edu/)

If tuition is a problem, RRCC has many scholarships and other financial aid options that can help you.

Financial Aid

Approximately one-third of our students receive some type of financial aid each year. Four types are available:

- Scholarships are generally based on academic performance, accomplishments, and need.
- Grants are federal and state programs based on need.
- Loans must be repaid, unlike scholarships and grants.
- Work-study agreements allow you to work for the college while you are enrolled.

The Financial Aid Office can provide details for the following:

- Local and regional scholarships
- Federal and Colorado Work-Study Program

Once you have applied for financial aid, it can take eight to ten weeks to process your request. Although the application for financial aid can be submitted throughout the year, priority dates have been established to assure the availability of funding. Financial aid applications must be complete and correct by priority date (see below). For complete financial aid information, see the Financial Aid Handbook.

Information: [303.914.6256 or www.rrcc.edu/finaid/](http://www.rrcc.edu/finaid/)

Financial Obligations of Students

Payment dates for tuition, fees, and materials are published in the current class schedule. You are financially obligated for full tuition and fees for all classes you have not officially dropped by the drop/refund date.

Do not assume you have been dropped from a class for missing payment deadlines or for not attending a class.

Non-resident Students

For tuition purposes, Colorado law determines whether a student is classified as an in-state (resident) or out-of-state (non-resident), based on information supplied on the application for admission.

To change from non-resident to resident status, obtain a petition form for in-state status from Admissions. (A copy of the regulations governing residency classification is included with the petition.) Deadlines for submission of the petition are published each semester in the current class schedule. Petitions received after the deadline will not be considered until the following semester.

Changes in classification become effective at the time of your next registration. The final decision regarding tuition status is determined by the Director of Enrollment Services.

Information: 303.914.6255

Tuition Payment

Pay in person:
You can pay by cash, personal check, MasterCard, Visa, Discover Card, or American Express at the Cashier’s Office at the Lakewood campus; the Arvada campus does not accept in-person payments. If you are sponsored by a third party, such as an employer or other agency, bring a check to the Cashier’s Office from the sponsor or a letter stating that the sponsor will pay upon receipt of billing and before grades are released.

Pay Online:
Go to [www.rrcc.edu](http://www.rrcc.edu). Click on “My Community Education.” Log in using your student ID# and PIN (birth month and date – for example, May 11 = 0511, unless you have selected your own PIN). Only MasterCard and VISA are accepted online.

Pay by mail:
You can mail a check or money order to:
Red Rocks Community College
Cashier’s Office, Box 2
13300 W. 6th Ave.
Lakewood, CO 80228-1255
The RRCC Foundation is a not-for-profit organization founded in 1993 to provide financial support to the college and to its students and to increase public and business awareness of the college’s important role in the community. The Foundation exists because of individuals who believe in the value of a college education and the need for students of all income levels to have access to higher education.

The Foundation began with one donor, a board of directors, and the Foundation staff, all of whom aspired to assist students and make a difference in their lives. Now, more than ten years later, we have hundreds of donors who help us each year. The Foundation has raised more than $6.5 million, awarded $2 million in scholarships to 2,000 students, and provided more than $1 million to the college for the Learning and Resource Centers at the Lakewood and Arvada campuses. In addition, the Foundation funds mini-grants for innovative faculty, the Teaching Chair program that recognizes excellence in the classroom, instructional equipment, and other faculty, staff, and student grants.

More than $400,000 is distributed annually to students, college staff, and institutional priorities. Scholarship applications are accepted year-round. The deadline for submission is early June of each year. Scholarships are given on the basis of both need and merit. The Foundation accepts and manages a variety of gifts, including cash, pledges, stock transfers, planned gifts, and bequests. Gifts may be designated for specific purposes or for the area of greatest need as determined by the Foundation board and college administration.

Only with the assistance of people who care can we continue to meet our goals and successfully assist our students. If you are a student needing assistance or a donor wishing to participate, call us at 303.914.6425 or visit our Web site at www.rrcc.edu/foundation/

Foundations Board
The Foundation is governed by a board of up to 30 community and business leaders.

The Learning and Resource Center (LARC) is a welcoming place where you can study on your own or meet with a tutor, a study group, or an instructor. Learning and Resource Centers are located at both the Lakewood and Arvada campuses.

Information: 303.914.6705 or www.rrcc.edu/larc/

College Success for All Students
Do you want to be a better student but don’t know how? Do you want to study smarter, not harder? AAA 050 (Semester Survival) and/or the Connect to Success Office can help answer these questions, and more.

- AAA 050 (Semester Survival) gives both first-time and returning students the opportunity to learn and adopt proven methods that lead to success in college. Students will be introduced to a variety of skills critical to success, such as short- and long-term educational goal-setting and career planning, effective communication and time management, critical and creative thinking, motivation, note-taking, efficient text book reading, and other study techniques needed for academic success. AAA 050 is taught as a hybrid using both class time and Internet study.
  Information: 303.914.6701

- Connect to Success is a learning support service that assists students with study tips and success strategies, learning styles, goal-setting, and interest inventories while also providing information about college services and community resources. Students can stop by the office in room 1665, e-mail dana.kobold@rrcc.edu, or call for information.
  Information: 303.914.6317 or www.rrcc.edu/success/

English Language/Intercultural Services
The English Language/Intercultural Services Office provides college preparatory English classes for international and resident students for whom English is not a primary language. Also provides academic and cultural advising for a diverse student population, and specific immigration advising for international students.

Information: 303.914.6416, 303.914.6536, 303.914.6538, or www.rrcc.edu/international/

ESL/Foreign Language Lab
The ESL/Foreign Language Lab offers CD-ROM, videotape, and audiocassette materials to help students and staff learn more than 100 world languages. Tutoring is available in Spanish, French, German, Italian, and English as a Second Language (ESL).

Information: 303.914.6719 (Foreign Language) 303.914.6416 (ESL)

GED Pre-test and Preparation
A free practice test for the General Education Development (GED) is offered on a walk-in basis at the Arvada and Lakewood campuses. The GED pre-test allows students to determine whether or not they are ready for the official GED. The GED preparation course offered on the Lakewood and Arvada campuses is open-entry; therefore, students may begin at any time. The course is self-paced, so students learn based on their individual needs with personalized help from friendly, supportive tutors.

Information: www.rrcc.edu/ged/

Examen de práctica y preparación para el GED se ofrece un examen de práctica y una clase de preparación en español en los dos cámpuses de Lakewood y Arvada.

Por más información, llame a 303.914.6538.
Library
The library offers extensive print, audiovisual, and electronic research resources. The library’s online services access the library’s book, electronic book, and audiovisual holdings; thousands of full-text articles plus several full-text encyclopedias; the holdings of other area libraries; and the research resources of the World Wide Web. All online services are accessible from on and off campus. The library’s video collection provides an alternative means of learning about subjects taught in RRCC classes while the book, electronic book, and article collections support traditional research. Interlibrary Loan lets you borrow materials from virtually any library in the world, but you must plan ahead since it can take several days for the materials to arrive at RRCC.
Information: 303.914.6740 or www.rrcc.edu/library/

Tutoring
Tutoring is provided by professional and peer tutors. Walk-in tutoring for math, writing, the sciences, accounting, Microsoft applications, and other subjects is free to RRCC students.

One-to-one tutoring is available for vocational students having difficulty with their classes and for transfer majors whose grades fall below average in selected content areas.
Information: 303.914.6701 or www.rrcc.edu/larc/tutoring.html

Writing Center and Online Writing Center
The mission of the Writing Center is to help students become better writers. Tutors are available to work individually with students in any subject area to improve their writing skills, offering them strategies and resources for succeeding in any kind of writing assignment, including essays, research papers, and essay exams. Tutors will help students generate ideas, organize and develop topics, revise and edit with confidence, and observe conventions of format and documentation.
Information: 303.914.6321 or www.rrcc.edu/writing/

Office of Special Services
The Office of Special Services (OSS) coordinates services to provide equal opportunities for individuals with documented disabilities to pursue their educational goals. The OSS staff makes determinations and provisions regarding access and reasonable accommodations and provides advocacy services for students and visitors with disabilities. The office is also a resource for college employees regarding disability issues. Services include sign language interpreters, books in alternate format, note takers, readers, tutoring for remedial classes, test accommodations, and adaptive technology. The office also arranges orientations for new and potential students with disabilities.

Any student requesting a math waiver or substitution must contact the Office of Special Services for the procedure and application. Requests must be made at the time a major is declared.
Information: 303.914.6733 (V), 303.914.6737 (TTY) or www.rrcc.edu/specialservices/
International Students

Admission Information
International students are those students admitted into the U.S. on an F1 non-immigrant student visa. If you are an international student, submit the following documents:

1. RRCC “International Student Admissions Application,” available in the English Language/Intercultural Services Office, or the application may be downloaded from our Web site, www.rrcc.edu/international. International students must not use the electronic application on the college main Web page.

2. A statement of financial resources sufficient for tuition and living expenses while in the U.S. (currently $20,300/year based on tuition of $4,250/full time per semester). Tuition and fees are subject to change without notice. After the admissions materials have been reviewed, we will issue the U.S. Immigration Form I-20 to qualified applicants. Applicants outside the U.S. must then present the I-20 and original copies of financial support documents to the nearest U.S. consulate or embassy to obtain the F-1 visa.

Upon arrival in the U.S., you will need to provide proof of health insurance coverage, including medical evacuation and repatriation. Health insurance application forms are available through the English Language/Intercultural Services Office.

Application Deadlines
International students should apply as early as possible in order to allow sufficient time for the college to assess all necessary documents and for the U.S. State Department’s visa interview process.

The following deadlines are application submission guidelines for new international students only. Transfer students already in the U.S. generally have one additional month to prepare their documents.

Fall, July 15
Spring, Dec. 1
Summer, April 15
New admissions are not accepted after classes begin.

Assessment
Prior to registering for classes, you must take the Accuplacer basic-skills assessment and/or the English placement test and follow the placement requirements. The Accuplacer takes at least 90 minutes and is available on a walk-in basis. Test times are listed in the current schedule and on our Web site. Initial tests are free; retesting is available for a fee of $5.00 per test section. All non-native English speakers are tested for English ability in addition to taking the Accuplacer test. You will then be placed in English as a Second Language or college level classes as appropriate.

Guaranteed Transfer to Universities
Many RRCC courses will transfer. Please consult with an RRCC academic advisor as well as a transfer counselor at the institution you wish to attend.

Generally, if you
• complete your AA or AS degree, including 35 credits of state-guaranteed general education courses, and
• earn a C grade or better in each course, then
• at least 60 hours of your AA/AS degree will transfer completely, upon admission, to a liberal arts and sciences program in Colorado’s public four-year institutions,* and
• you are guaranteed to be able to finish your liberal arts and sciences degree in another 60 hours.

Certain majors require essential lower-division courses. Please meet with an advisor for information about obtaining a transfer guide that will help you select lower-division credits to finish your degree.

Credit earned for prior learning, advanced placement, correspondence courses, CLEP, and other credit from “testing out” of a course may not apply. The institution to which you transfer will evaluate these credits according to its own policies.

Housing/Family Homestay Assistance
American family homestay opportunities are often available to you, in addition to a variety of local housing arrangements.

Intensive English Program
If you wish to study only English as a Second Language or continue with college-level courses after ESL studies, you may enter our Intensive English Program. The program offers full-time English instruction (20-25 hours per week) at the beginning, intermediate, and advanced skill levels.

Non-Intensive English Program
If you have tested beyond the Intensive English Program, you are eligible to enroll in non-intensive English classes. The program offers four semester-length classes designed to boost your English skills for the reading, writing, and communication demands of college classes. Classes include advanced reading, composition, pronunciation, and iBT TOEFL preparation.

Information: 303.914.6416, 303.914.6536, 303.914.6538, or www.rrcc.edu/international/

* Meet with a transfer advisor as soon as possible for a list of applicable degrees. Special articulation agreements for teacher education, business, nursing, and engineering specify which lower-division credits you need.
Accelerated
An accelerated course takes the content from a traditional 15-week, 3-or 4-credit class and compresses it into a shorter time frame. Accelerated online classes compress 15 weeks of instruction into seven weeks.

Accelerated classes are designed to meet the needs of busy professionals and students with active lifestyles. Characteristics of successful students include:

- Excellent time management skills
- Self-motivation
- Ability to learn on their own
- Commitment to their education

Independent Study
Most areas of study at RRCC offer opportunities to engage in intensive study and/or research on a topic under the direction of a qualified faculty member. The student and the instructor determine independent study course content, credit, and contact hours jointly. Permission of the instructor is required prior to registering. Independent study can be taken an unlimited number of times, but no more than six credits will be applied to any associate degree program.

Online Courses
RRCC Online Courses
Courses through RRCC Online are taken anytime, anywhere at your convenience. Most courses follow a traditional semester schedule, and many also have accelerated seven-week online sections. They offer regular communication with faculty and fellow students who may be anywhere in the world. At the same time, you learn to use the Internet, chat rooms, and threaded discussions to enhance your learning experience.

You can register, pay, order books, attend class, and use library services online. If you do not have access to a computer, you can come to the Learning and Resource Center (LARC) on the RRCC Lakewood or Arvada campus to use computers.

CCCOnline Courses
Colorado Community College Online provides a centralized program where you can take classes, earn a certificate, or even complete an associate’s degree from the community college of your choice. Meet with an RRCC advisor for details.

Self-Paced
Working with an instructor, students will design their own schedules. Self-paced courses provide flexibility and the opportunity to study when students have the most time. Most instructors will meet with their students at the beginning of the semester, and then students will send assignments back and forth via traditional mail, drop-in, or email. Students who are successful in self-paced courses:

- Are self-starters
- Work independently
- Regularly meet deadlines
- Have strong reading and writing skills
- Are not looking for a social learning setting
- Are highly motivated

Weekend College
If you work, have a family, or want something interesting to do on Friday nights, Saturdays, and/or Sundays, Weekend College classes are for you. You can work on a college degree, take classes for fun, or brush up on skills you need for your job.
STUDENT SERVICES

Bookstore
The RRCC Bookstore supplies new and used textbooks, recommended titles, reference books, and supplies for art and drafting. College specialty items and clothing are also available.
Information: 303.914.6232
http://rrcc.bkstore.com

Cafeteria
The RRCC Café on the Lakewood campus serves hot and cold food selections.
Information: 303.914.6374
The Coffee Bar, located in the Student Center, offers brewed coffee, espresso drinks, smoothies, plus quick meals and snacks.
Information: 303.914.6586

Campus Police
The safety of our students and staff is important to RRCC. The Campus Police Department keeps our campuses secure by responding to medical emergencies, investigating criminal acts and auto accidents, and enforcing traffic rules.
Officers also open and close campus buildings, provide safety escorts when needed, provide car battery jumpstarts, and deliver emergency messages. A 911 Communications Center takes calls and sends officers and guards where they are needed.
To contact Campus Police, stop by the information desk at the main entrance of the Lakewood campus or:
Emergency Dispatch: 911
Non-emergency Dispatch: 303.914.6394

Child Care
The Children’s Center at RRCC offers full-service, full-day care for children from 18 months to kindergarten entry. The high-quality program provides secure and nurturing care. The Center serves students, staff, faculty, and the community. Some subsidies are available for low-income families. The Center does not provide drop-in care.
Information: 303.914.6328

Fitness Education Center
The Fitness Education Center at Red Rocks offers students the opportunity to improve cardiovascular fitness, flexibility, muscle strength, and endurance. Equipment includes free weights, weight machines, computerized bicycles, treadmills, stepmills, a body track, and a ricochet court. Individualized fitness and nutrition programs are available.
Register for PED 110 or PED 111, Life Fitness. Or, if you don’t want college credit, pay $4 for each visit or purchase a punch card offering five visits for $18.
Information: 303.914.6375

Health Insurance
Red Rocks does not endorse a specific health or dental insurance plan; therefore, the responsibility for obtaining insurance has been left to individual students. We recommend that you contact your family physician/dentist for referrals to companies that may provide student insurance plans or check the Yellow Pages of the phone directory.

Student Center
The Lakewood campus Student Center offers various services and activities for students, including:
- Campus/community events and entertainment
- FAX and copy services
- Leadership opportunities
- Publications and bulletin boards
- Recreation
- Student clubs and organizations
- Student ID cards
- Sports tickets and movie tickets
- Study groups
- Computers for academic and leisure use
- Locker rentals
- Food Bank

Students who are taking courses at other RRCC locations are encouraged to visit the main campus and take full advantage of the student services and resources available. The Student Center includes pinball, gaming computers, TV room, pool table, foosball, ping pong, vending machines, fitness center, coffee bar, The Den, the Student Life Desk, and the Student Project Center.
Information: 303.914.6370 or 303.914.6900
A “Training Agreement” signed by the student, the college, and the employer defines the responsibilities of all parties. In addition, students identify job-oriented learning objectives for approval by the work supervisor and faculty coordinator. Weekly time sheets, appropriate individual assignments, and a final report are also required to comply with specific program requirements. Evaluation of the work experience is similar to that used in other courses, with additional emphasis on the employer’s rating, which constitutes part of the final evaluation process. A three-way partnership – the employer (mentor), the student (intern), and an RRCC faculty/staff member (support) – enhances the student’s success during the internship.

A minimum of 45 clock hours of work experience is required to earn each hour of college internship credit. Most programs offer work experience opportunities, and some require them for graduation. The total number of credits that may apply toward a degree in a specific area is identified in the “Programs” section of this catalog. For programs not requiring work experience, internships are considered as an approved substitute or an elective upon permission of the faculty advisor.

Transferability of internship college credit is contingent upon approval of the receiving institutions. General education internship credit transfers to the University of Colorado, Denver and Colorado State University. All internship courses carry a specific course prefix and course number and can be found in the respective program listings and course descriptions in the catalog. Permission of the faculty coordinator is required to enroll, and all students interested in pursuing internships must begin their enrollment process in the Student Employment/Internship office.

For the latest information, visit www.rrcc.edu
Affirmative Action/Equal Opportunity

RRCC is committed to diversity in its people and programs. The college is an equal opportunity educational institution and does not discriminate based on race, color, religion, national origin, sex, sexual orientation, gender expression, age, veteran status, or disability. It also does not tolerate acts of ethnic intimidation, which are any unlawful acts against persons or groups because of race, color, ancestry, religion, or national origin for the purpose of inciting and provoking bodily injury or damage to property. The State Board for Community Colleges and Occupational Education has approved the RRCC Affirmative Action/Equal Opportunity Program Plan (available for individual, public, and agency review in the Personnel Office). The college has designated the Director of Personnel as its affirmative action officer.

Students with Disabilities

RRCC offers many special services to students with disabilities. The college complies with and fully supports Section 504 of the Rehabilitation Act of 1973, with amendments of 1974, as well as the Americans with Disabilities Act (ADA) of 1990 regarding non-discrimination based on disability. Reasonable accommodation is provided upon request for persons with disabilities. If you require an accommodation to participate in any class, program, service, or other activity at RRCC, contact the Office of Special Services. Any student requesting a math waiver or substitution must contact the Office of Special Services for the procedure and application. Requests must be made at the time a major is declared.

Drug and Alcohol Abuse Information

The Law

Red Rocks is a state-system community college governed by the State Board for Community Colleges and Occupational Education. Board policy requires Red Rocks to comply with the Drug Free Schools and Communities Amendments of 1989 (PL-101-226) in federal law. A copy of this law is on file in the Office of Student Life.

Standard of Conduct

Neither students nor employees shall engage in the unauthorized or unlawful manufacture, distribution, possession, use, or abuse of alcohol or illicit drugs on college property or as a part of any college activity.

Illegal Substances

A listing of controlled substances is on file in the Office of the Vice President of Student Services.

Legal Sanctions

There are legal sanctions for violations of the Standard of Conduct. Any student or employee who is convicted of the unlawful manufacture, distribution, possession, use, or abuse of illicit drugs or alcohol is subject to criminal penalties under local, state, and federal law. These penalties range in severity from a fine of $100 up to $8,000,000 and/or life imprisonment. The exact penalty assessed depends upon the nature and severity of the individual offense.

College Penalties

The college will impose penalties against students and employees who violate the Standard of Conduct. Violators will be subject to disciplinary action under employee and student disciplinary policies. The sanctions include, but are not limited to, probation, suspension, or expulsion from the college or probation, suspension, or termination of employment, and referral to authorities for prosecution as appropriate.

Health Risks

Many health risks are associated with drug and alcohol abuse. Risks include, but are not limited to, malnutrition, brain damage, heart disease, pancreatitis, cirrhosis of the liver, mental illness, death, low birth weight babies, and babies with drug addictions. Personal relationships, family dynamics, and the ability to work and study are also at risk.

Illegal Substances

A listing of controlled substances is on file in the Office of the Vice President of Student Services.

For a complete explanation of Student Rights and Responsibilities, refer to the current edition of the RRCC Student Handbook.
**Student Rights**

**Resources**
A packet containing a list of community resources is available through the Connect to Success Office, room 1655, 303.914.6317.

Consult the yellow pages of the local telephone book for a listing of all private and community-based programs. Check listings under “Alcoholism Treatment” and “Drug Abuse Information and Treatment.”

For 24-hour assistance, call:
• National Alcohol and Substance Abuse Hotline, 1.800.784.6776  
• National HOPEline Network, 1.800.273.8255

**Smoking**
Consistent with State of Colorado statute, smoking is NOT PERMITTED in any Red Rocks building or facility. Signs designating certain outside areas as “smoke free” are posted and enforced accordingly.

**Firearms**
Firearms of any kind are not prohibited on campus, with the exception of those carried by peace officers, guards while working, and with prior approval from the Chief of the Red Rocks Community College Police Department.

**Privacy Notification**
The Family Educational Rights and Privacy Act of 1974 (FERPA) permits RRCC to release directory information about you to interested parties. This does not include grades but does include:
• student’s name
• date of birth
• major field of study
• participation in officially recognized activities and sports
• dates of attendance
• degrees and certificates awarded
• most recent educational institution attended
• enrollment status

If you do not want the college to release directory information about you without your specific consent, sign a directory restriction form in the Student Records. Your directory restriction will remain in effect until you cancel the request for non-disclosure.

Information: 303.914.6356

**Notification of Rights Under FERPA for Postsecondary Institutions**
The Family Educational Rights and Privacy Act (FERPA) affords you certain rights with respect to your education records.

Information: Contact the College Registrar at 303.914.6350

**Your rights include:**
1. The right to inspect and review your education records within 45 days of the day RRCC receives a request for access. Submit written requests that identify the record(s) you wish to inspect to the Registrar or Coordinator of Student Records. The RRCC official will make arrangements for access and notify you of the time and place where the records may be inspected.

2. The right to request the amendment of education records that you believe are inaccurate or misleading. You may ask RRCC to amend a record that you believe is inaccurate or misleading. Write to the above RRCC official responsible for the record and clearly identify the part of the record you want changed, specifying why it is inaccurate or misleading. If RRCC does not amend the record as you request, RRCC will notify you of the decision and advise you of the right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to you when you are notified of the right to a hearing.

3. The right to consent to disclosures of personally identifiable information contained in your education records, except to the extent that FERPA authorizes disclosure without consent. One exception which permits disclosure without consent is disclosure to a school official with legitimate educational interests. A school official is an employee of the college in an administrative, supervisory, academic, research, or support staff position (including law enforcement unit, personnel, and health staff); a person or company with whom the college has contracted (such as an attorney, auditor, or collection agent); a member of the State Board for Community Colleges and Occupational Education; an individual serving on a college advisory committee; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by RRCC to comply with the requirements of FERPA.

Family Policy Compliance Office
U.S. Department of Education  
600 Independence Avenue, SW  
Washington, DC 20202-4605

For a complete explanation of Student Rights and Responsibilities, refer to the current edition of the RRCC Student Handbook.
Academic Integrity

Everyone associated with the college’s academic community has a responsibility for establishing, maintaining, and fostering understanding and respect for academic integrity. The following principles are associated with academic integrity:

- Cite (give credit for) words and/or ideas in an academic exercise that are not expressly your own.
- Use information, computer programs, another person’s work, study aids and/or other materials only when allowed by the instructor.
- Remove materials from the library, labs, and other college facilities only when an official representative of the college grants permission.
- Use copyrighted materials only with permission.
- Refuse to help another commit an act of academic dishonesty.
- Use only the resources specifically allowed when completing a test or other assignment.

Academic dishonesty is the intentional act of fraud when an individual claims credit for the work of another, uses unauthorized materials, or fabricates information in any scholarly exercise. Academic dishonesty also includes, but is not limited to, forging educational documents, damaging or destroying the works of another, or assisting others in acts of academic deception. If you are aware of an incident of academic dishonesty, please report the occurrence to a faculty member, department chair, or administrator. Those committing academic dishonesty will be subject to disciplinary action, such as failing the assignment or course and/or expulsion from the course or college.

Grading Symbols

A  Distinguished achievement for superior work
B  Better than acceptable achievement
C  Acceptable achievement for advancement in the same or related studies
D  Less than acceptable achievement for advancement in the same or related studies (credit may not transfer or count toward some degrees or certificates)
E  Failure to achieve or master the learning objectives of the course. A grade of E does not apply toward certificates or degrees.
AU  Audit. If you want to take a course without earning credit, you can register to audit that course. You must pay full tuition and fees, and you will not receive the COF stipend for the course. You must declare your intention to audit no later than the course’s tuition refund date. Once you have registered to audit a course, you cannot change your registration from auditing to earning credit for the course. The college will not award credit for any audited course.
AW  Administrative Withdrawal. The grade of AW may be given at the discretion of the individual faculty member.
W  Withdrawal. Through Admissions, you have officially withdrawn from the course or the college by the approved date and time listed in the current semester’s schedule.
I  Incomplete. If you are not able to complete the learning objectives before the end of a course because of verifiable extenuating circumstances, the instructor may assign a grade of incomplete at his or her discretion. Before you are eligible to receive an I, you must have completed a minimum of 75% of the course work with a grade of C (or better) by the withdrawal date (see W). Before the end of the course, you are responsible for making arrangements with the instructor to sign an Incomplete Grade Contract. If you do not complete the course work by the agreed-upon deadline, the instructor will change the I to the letter grade stipulated in the contract.
S  Satisfactory. Equivalent to a grade of C or higher and is available only for certain predesignated courses.
U  Unsatisfactory. Equivalent to a grade of D or F and is available only for certain predesignated courses.

Details of the Student Code of Conduct are found in the most current edition of the RRCC Student Handbook.
S/A, S/B, S/C These are satisfactory grades awarded only for developmental courses. The A, B, and C indicate the level of satisfactory performance. These grades are not included in the GPA calculation. The course will count for attempted and earned credits. U/D, U/F These are unsatisfactory grades awarded only for developmental courses. The D and F indicate the level of unsatisfactory performance. These grades are not included in the GPA calculation. The course will count in attempted credits but will not carry earned credits. SP Satisfactory Progress. Under the college’s continuous enrollment policy, certain courses have been designated open-entry. You are eligible to receive an SP only if you are enrolled in an open-entry course. By the end of the semester, you must have completed course work (prorated by your registration date) with a grade of C (or better) before you can be eligible for an SP. Also, you can request an SP based on verifiable extenuating circumstances. Before the end of the semester, you are responsible for making arrangements with the instructor to sign a SP Grade Contract. If you do not complete the course work by the agreed-upon deadline, the instructor will change the SP to the letter grade stipulated in the contract.

Academic Probation
If you have completed 13 or more credits with a GPA of less than 2.00, you will be placed on academic probation. Meet with an advisor at this point. Continued GPA of less than 2.00 after being placed on probation may lead to suspension from enrollment at Red Rocks Community College. You have the right to appeal if there are extenuating circumstances.

Academic Second Chance
All course work taken at RRCC is reflected on your permanent transcript; however, you can petition to remove up to 30 credit hours of substandard grades earned from your cumulative grade point average (GPA). Before submitting the required written request, you must have been out of school for two years after the substandard course work was completed. Also, you must have completed a minimum of six credit hours of new course work at RRCC with a cumulative GPA of 2.0 or higher. You may petition only once to remove grades and credits from your cumulative GPA. Once Student Records has removed these grades and credits from your cumulative GPA, they cannot be reinstated or used for any degree or certificate. The grades and credits will still appear on your permanent academic transcript. Information: 303.914.6352

Grade Point Average (GPA) Calculation
When computing your cumulative grade point average (GPA), various numerical values are assigned and used. Those that appear on your transcript are:

(AHRS) Attempted Credit Hours
If you earn a final course grade of A, B, C, D, or S, you will receive earned credit hours for that course. Earned hours are not used to calculate your GPA.

(EHRS) Earned Credit Hours
If you earn a final course grade of A, B, C, D, or F, you will receive quality credit hours for that course. Quality hours are used to calculate your GPA.

(QPTS) Quality Points
The main grading symbols are given points: A=4, B=3, C=2, D=1, and F=0. The points assigned to the letter grade multiplied by the quality credit hours received for the course give a numerical value called quality points. These points are used to compute your cumulative GPA.

(GPA) Grade Point Average
Your grade point average is the numerical value found by dividing the total number of quality points (QPTS) by the total number of quality credit hours (QHRS). The GPA’s highest possible numerical value is 4.0.

Petitioning for Waivers/Program Substitutions
If you wish to petition for a waiver and/or substitution of program requirements, you must complete a Waiver/Program Substitution Request form. The form is available in the Student Records office or from a faculty advisor. Complete the request, have it approved by your faculty advisor and the appropriate instructional dean, and submit it to Student Records where it will be kept on file. Information: 303.914.6353

\]
Repeating Courses
You may retake any course taken at RRCC. After completing the course at RRCC, you must fill out a “Petition for Repeated Course” form to have only the highest grade used in calculating your GPA. The previous course credits and grades will still appear on your transcript, but they will not be used to calculate either your GPA or total credit hours toward a degree or certificate. You may obtain the form in Student Records.
Information: 303.914.6352

Recognition of Achievement

Honors Program
Students and faculty participate in a community of learners that nurture their intellectual and personal growth. The program strives to develop leadership skills, to recognize excellence, and to challenge participants in the honors program through experiential learning, interdisciplinary course work, scholarly research, and educational partnerships. Scholarships are available to two students from each high school served by RRCC each year. The scholarship awards cover tuition and books for four semesters to a maximum of 60 credits.
Information: 303.914.6123

Phi Theta Kappa
RRCC sponsors a chapter of Phi Theta Kappa, the national student honors organization for two-year colleges. Members plan programs and events which encourage scholarship, service, and leadership. To be eligible for membership, you must have completed at least 12 credits of study at RRCC, have a minimum GPA of 3.5, and obtain a faculty letter of recommendation. Membership opportunities occur twice a year, once in the fall and once in the spring semesters.
Information: 303.914.6372

Veterans’ Progress
Veterans are certified only for courses that apply to their degree programs. If you are eligible to receive VA benefits, you are required to maintain a cumulative 2.0 grade point average (GPA) for all course work attempted. If your cumulative GPA is below 2.0, you will be placed on academic probation for the following term. If your GPA is not increased to 2.000 during the probationary term, certification to the Veterans Administration will be suspended for one academic term. You may be reinstated after you have received approved counseling.

Because credit is not given for audited courses, they are not eligible for certification. If you stop attending but do not officially drop or withdraw from the course, you are considered non-attending. You may be dropped administratively and your benefit certification adjusted accordingly. These actions can result in you owing the federal government money. Copies of the veteran regulations are available for review in the Veteran Services office on campus.
Information: 303.914.6353
Catalog Graduation Requirements
You will graduate under the catalog requirements in effect for the semester that you were first enrolled. If you interrupt attendance for two consecutive semesters (excluding summer term) or more and then return, you must meet the requirements of the catalog in effect at the time you re-enroll. You also can choose to use the catalog that is in effect the semester you graduate. Be sure to keep a copy of your catalog.

You will not receive a diploma until you have met all financial obligations to the college, including payment of tuition, fees, police tickets, and library fines.

Graduation Requirements
1. You must earn a cumulative grade point average of 2.0 (C average). Some programs will require at least a B or C in specific courses.
2. The college reserves the right to substitute or delete courses in degree or certificate programs.
3. Not all programs or courses are available each semester.
4. Courses numbered below 100 will not count toward any degree or certificate.
5. You must submit an Application for Graduation during the term in which you intend to graduate according to the deadline published in the class schedule for that semester.

ASSOCIATE DEGREES

Associate of Arts
Transfer
The Associate of Arts degree (60 credits) is for the student who intends to transfer to a four-year college or university and wants an education with a liberal arts emphasis. This degree provides a basis of study in business, communications, foreign languages, the arts and humanities, and social and behavioral sciences. To earn the Associate of Arts degree, you must complete the state designated general education requirements for a total of 38-42 credits. Other requirements are found on the degree requirement checklists and individual catalog emphasis areas. Emphases are available in the following areas:

Art
Business
Communication Disorders
Communication/Speech
Early Childhood Education
Economics
Elementary Education
English and Literature
Foreign Languages:
  French
  German
  Spanish
History
Musical Theatre
Philosophy
Political Science
Psychology

Associate of Science
Transfer
The Associate of Science degree (60 credits) is for the student who intends to transfer to a four-year college or university and wants an education with a science-related emphasis. It provides a basis of study in computer science, engineering, nursing, mathematics, and the organic and physical sciences. To earn the Associate of Science degree, you must first complete the state designated general education requirements for a total of 38-42 credits. Emphases are available in the following areas:

Biology
Biotechnology
Chemistry
Computer Science
Engineering
Geology
Mathematics
Physics

Associate of General Studies – Generalist
Career-Oriented
The Associate of General Studies–Generalist degree (60 credits) is for the student who wants to complete a combination of college-level general education courses and a variety of vocational courses. Courses are considered for transfer on an individual basis by the receiving four-year college or university.

Associate of General Studies – Specialist
Articulated Transfer
The Associate of General Studies–Specialist degree (60 to 68 credits) is for the student who wants to complete a pre-professional transfer degree in one of the fields specified below. Agreements exist between RRCC and certain four-year colleges for the following career areas:

Criminal Justice
Graphic Design/Print Production
Motion Graphics and Animation
Video Production
Outdoor Recreation
Outdoor Physical Education

(Certificates are also available for each area.)

## Arts and Humanities: 3 courses (9 credits)

Select 3 courses, with no more than 2 courses from any 1 category.

- **Arts and Expression**
  - ART 110 Art Appreciation - (3)
  - ART 111 Art History Ancient to Medieval - (3)
  - ART 112 Art History Renaissance to Modern - (3)
  - ART 207 Art History 1900 to Present - (3)
  - MUS 120 Music Appreciation - (3)
  - MUS 121 Music History I - (3)
  - MUS 122 Music History II - (3)
  - THE 105 Introduction to Theatre Arts - (3)
  - THE 211 Development of Theatre I - (3)
  - THE 212 Development of Theatre II - (3)

- **Foreign Languages**
  (Must be intermediate/200-level)
  - FL 211 Second Year Foreign Language - (3)
  - FL 212 Second Year Foreign Language - (3)

- **Literature and Humanities**
  - HUM 121 Humanities: Early Civilization - (3)
  - HUM 122 Humanities: Medieval to Modern - (3)
  - HUM 123 Humanities: The Modern World - (3)
  - LIT 115 Introduction to Literature - (3)
  - LIT 201 Masterpieces of Literature I - (3)
  - LIT 202 Masterpieces of Literature II - (3)
  - LIT 205 Ethnic Literature - (3)
  - LIT 211 Survey of American Literature I - (3)
  - LIT 212 Survey of American Literature II - (3)
  - LIT 213 British Literature I - (3)
  - LIT 214 British Literature II - (3)
  - LIT 215 Introduction to Shakespeare - (3)

- **Ways of Thinking**
  - PHI 111 Introduction to Philosophy - (3)
  - PHI 112 Ethics - (3)
  - PHI 113 Logic - (3)
  - PHI 114 Comparative Religion - (3)
  - PHI 214 Philosophy of Religion - (3)

## Social and Behavioral Science: 3 courses (9 credits)

Select 3 courses, 1 of which must be history, with no more than 2 courses from any 1 category.

- **History**
  - HIS 101 History of Western Civilization I - (3)
  - HIS 102 History of Western Civilization II - (3)
  - HIS 111 World Civilization I - (3)
  - HIS 112 World Civilization II - (3)
  - HIS 201 U.S. History I - (3)
  - HIS 202 U.S. History II - (3)
  - HIS 247 Contemporary World History - (3)

- **Economic & Political Systems**
  - ECO 201 Macro Economics - (3)
  - ECO 202 Micro Economics - (3)
  - ECO 245 Environmental Economics - (3)
  - POS 105 Introduction to Political Science - (3)
  - POS 111 American Government - (3)
  - POS 205 International Relations - (3)
  - POS 225 Comparative Government - (3)

- **Geography**
  - GEO 105 World Regional Geography - (3)
  - GEO 106 Human Geography - (3)

- **Human Behavior, Cultural & Social Frameworks**
  - ANT 111 Physical Anthropology - (3)
  - ANT 107 Introduction to Archaeology - (3)
  - ANT 111 Physical Anthropology - (3)
  - PSY 101 General Psychology I - (3)
  - PSY 102 General Psychology II - (3)
  - PSY 201 General Psychology I - (3)
  - PSY 202 General Psychology II - (3)
  - PSY 205 Psychology of Gender - (3)
  - PSY 217 Human Sexuality - (3)
  - PSY 226 Social Psychology - (3)
  - PSY 227 Psychology of Death and Dying - (3)
  - PSY 235 Human Growth & Development - (3)
  - PSY 238 Child Development - (3)
  - PSY 249 Abnormal Psychology - (3)
  - SOC 101 Introduction to Sociology I - (3)
  - SOC 102 Introduction to Sociology II - (3)
  - SOC 215 Contemporary Social Problems - (3)
  - SOC 216 Sociology of Gender - (3)
  - SOC 231 Sociology of Deviant Behavior - (3)

## Physical and Life Sciences: 2 courses (8-10 credits)

Additional credits beyond 8 apply as electives toward AA degree.

- AST 101 Astronomy I - (4)
- AST 102 Astronomy II - (4)
- BIO 105 Science of Biology* - (4)
- BIO 111 General College Biology I with Lab - (5)
- BIO 112 General College Biology II with Lab - (5)
- BIO 201 Anatomy & Physiology I - (4)
- BIO 202 Anatomy & Physiology II - (4)
- BIO 208 General College Microbiology - (5)
- BIO 220 General Zoology - (5)
- CHE 101 Introduction to Chemistry I* - (5)
- CHE 111 General College Chemistry I - (5)
- CHE 112 General College Chemistry II - (5)
- CHE 113 General College Chemistry III - (5)
- CHE 114 General College Chemistry III - (5)
- CHE 115 General College Chemistry IV - (5)
- CHE 116 General College Chemistry IV - (5)
- CHE 117 General College Chemistry V - (5)
- CHE 118 General College Chemistry V - (5)
- GED 111 Physical Geology - (4)
- GED 121 Historical Geology - (4)
- MET 150 General Meteorology - (4)
- PHY 105 Conceptual Physics* - (4)
- PHY 111 Physics: Algebra-Based I with Lab - (5)
- PHY 112 Physics: Algebra-Based II with Lab - (5)
- PHY 211 Physics: Calculus-Based I with Lab - (5)
- PHY 212 Physics: Calculus-Based II with Lab - (5)
- SCI 155/156 Integrated Science I/II* - (4/4)
  (Both must be taken to satisfy science credit. Recommended for Teacher Education only.)

## Approved electives (18-22 credits) ________ • Total Credits (60 required) ________

Note: This guarantee excludes majors in education, business, and engineering which have special articulation agreements with public four-year colleges and universities. Your advisor can assist you in choosing specific courses toward your major and transferring college. Check with your advisor periodically as updates and changes can occur.

For the latest information, visit [www.rrcc.edu](http://www.rrcc.edu)
You will graduate under the catalog requirements listed for the semester that you were first enrolled. If you interrupt attendance for two consecutive semesters (excluding summer term) and then return, you must meet the requirements of the catalog in effect at the time you re-enroll. You also may choose to use the catalog that is in effect the semester you graduate. Be sure to keep a copy of your catalog.

**Approved elective credit courses for the Associate of Arts degree**

These courses transfer to one or more of the public four-year colleges or universities in Colorado. All courses will count toward the AA degree. However, transferability depends on the four-year institution. Additional courses may be transferable to one or more of the public four-year colleges or universities in Colorado. For specific information, please consult an advisor in the Advising Center.

### Other degree requirements

1. A minimum of 60 credits is required for the Associate of Arts degree.
2. You must complete 18-22 semester elective credits. These must be college-level transfer courses and may include no more than three credits in physical education (PED)—see approved electives above. Please meet with an advisor in your area of emphasis for specific course suggestions. Credits earned above the minimum to satisfy a requirement may be applied to a different area.
3. You must earn a cumulative grade point average of 2.0 (C average) in order to graduate. The grade in all state general education transfer courses must be a C or better.
4. If you are planning to transfer to a four-year college or university, meet with an appropriate faculty advisor.
5. You must complete a minimum of 15 credits at RRCC.
6. You must file an application for graduation during the term in which you intend to graduate according to the deadline published in the class schedule for that semester. You must apply to graduate within one year of completing requirements.
7. No more than six credits of independent study course work may be applied toward an associate degree program.
8. There is no limit on special-topics courses allowed to count toward a degree. In individual cases, the limit will be determined by the program area. If you are taking special-topics courses, consult with your advisor regarding how these credits will apply toward a degree.
9. If you are applying for an additional degree at RRCC, you must complete an additional 15 credits at RRCC and the requirements for the degree.

Many four-year college transfer guides are available via the CCHE Web site at:

http://highered.colorado.gov/Academics/Transfers/Guides/default.html

**Approved Electives (18-22 credits)**

**Total Credits (60 required)**

*Note: This guarantee excludes majors in education, business, and engineering which have special articulation agreements with public four-year colleges and universities. Your advisor can assist you in choosing specific courses toward your major and transferring college. Check with your advisor periodically as updates and changes can occur.*
AS • ADDITIONAL CATALOG REQUIREMENTS

You will graduate under the catalog requirements listed for the semester that you first enrolled. If you interrupt attendance for two consecutive semesters (excluding summer term) and then return, you must meet the requirements of the catalog in effect at the time you re-enroll. You also may choose to use the catalog that is in effect the semester you graduate. Be sure to keep a copy of your catalog.

Approved electives for the Associate of Science degree*

These courses transfer to one or more of the public four-year colleges or universities in Colorado. All courses will count toward the AS degree. However, transferability depends on the four-year institution. For specific information, please consult an advisor in the Advising Center.

NOTE: To get the most from your elective choices, examine your program of study in the RRCC Catalog or speak with an academic advisor.

* Please meet with an advisor for details.

Many four-year college transfer guides are available via the CCHE Web site at:
http://highered.colorado.gov/Academics/Transfers/Guides/default.html

Other degree requirements

1. A minimum of 60 credits is required for the Associate of Science degree.
2. You must complete an additional 18 credits in any of the science or math disciplines listed above. Please meet with an advisor in your program of study for specific course suggestions. Credits earned above the minimum to satisfy a requirement may be applied to a different area.
3. You must earn a cumulative grade point average of 2.0 (C average) in order to graduate. The grade in all state general education transfer courses must be a C or better.
4. If you are planning to transfer to a four-year college or university, meet with an appropriate faculty advisor.
5. You must complete a minimum of 15 credits at RRCC.
6. You must file an application for graduation during the term in which you intend to graduate, according to the deadline published in the class schedule for that semester. You must apply to graduate within one year of completing requirements.
7. No more than six credits of independent study course work may be applied toward an associate degree program.
8. There is no limit on special-topics courses allowed to count toward a degree. In individual cases, the limit will be determined by the program of study. If you are taking special-topics courses, consult with your advisor regarding how these credits will apply toward a degree.
9. If you are applying for an additional degree at RRCC, you must complete an additional 15 credits at RRCC and the requirements for the degree.
AGS • ASSOCIATE OF GENERAL STUDIES—SPECIALIST DEGREE

This degree is a pre-professional degree intended to transfer to specific four-year colleges or universities in Colorado with whom RRCC has signed an articulation agreement. Some courses may be considered for transfer to other colleges and universities on an individual basis.

1. A minimum of 60 credits is required for the AGS – Specialist Degree.

2. General education requirements depend upon the transfer agreement in place of the specific degree.

3. Program specific requirements depend upon the transfer agreement in place of the specific degree.

4. You must complete a minimum of 15 credits in your program of study at RRCC.

5. You must complete the degree requirements as listed for the specific AGS you are earning. Consult a faculty advisor for course information.

AGS – Specialist Programs

The following four programs have a transfer agreement with Metropolitan State College of Denver:
Criminal Justice
Graphic Design/Print Production
Motion Graphics and Animation
Video Production
Outdoor Recreation
Outdoor Physical Education

Degree Requirements
Meet with a faculty advisor from your area of study to review a degree worksheet.
You will graduate under the catalog requirements listed for the semester that you were first enrolled. If you interrupt attendance for two consecutive semesters (excluding summer term) and then return, you must meet the requirements of the catalog in effect at the time you re-enroll. You also may choose to use the catalog that is in effect the semester you graduate. Be sure to keep a copy of your catalog.

Other AGS – Specialist degree requirements

1. A minimum of 60 credits is required for the Associate of General Studies degree. Meet with a faculty advisor.

2. You must earn a cumulative grade point average of 2.0 (C average) in order to graduate. The grade in all transfer courses must be a C or better.

3. You must complete a minimum of 15 credits in your program area at RRCC.

4. You must file an application for graduation during the term in which you intend to graduate according to the deadline published in the class schedule for that semester. You must apply to graduate within one year of completing requirements.

5. No more than six credits of independent study course work may be applied toward an associate degree program.

6. There is no limit on special-topics courses allowed to count toward a degree. In individual cases, the limit will be determined by the program area. If you are taking special-topics courses, consult with your advisor regarding how these credits will apply toward a degree.

7. The college reserves the right to substitute or delete courses.

8. If you are applying for an additional degree at RRCC, you must complete an additional 15 credits at RRCC and the requirements for the degree.

9. With the approval of a faculty advisor, up to three credits of internship may count toward a degree.
Degree Requirements

The AGS generalist degree is available if you would like to complete a broad program of both college transfer and/or career courses without the constraints of specialization. The AGS general education course requirements transfer to all public baccalaureate colleges and universities in Colorado. Career courses within this degree may be accepted in a four-year baccalaureate program; however, each course will be considered on an individual basis.

General Education Requirements (16 credits)

Communication - (3 credits)
ENG 121 English Composition I

Mathematics - (3 credits minimum)
Select one course from the following list.

- MAT 120 Mathematics for the Liberal Arts - (4)
- MAT 121 College Algebra - (4)
- MAT 122 College Trigonometry - (3)
- MAT 123 Finite Math - (4)
- MAT 125 Survey of Calculus - (4)
- MAT 155 Integrated Math I
- MAT 156 Integrated Math II - (6)
- MAT 166 Pre-Calculus - (5)
- MAT 201 Calculus I - (5)
- MAT 202 Calculus II - (5)
- MAT 204 Calculus III with Engineering Applications - (5)
- MAT 261 Differential Equations with Engineering Applications - (4)

Arts and Humanities - (3 credits)
Select one course from the following list.

- ART 110 Art Appreciation - (3)
- ART 111 Art History Ancient to Medieval - (3)
- ART 112 Art History Renaissance to Modern - (3)
- ART 207 Art History 1900 - Present - (3)
- FL 211 Second Year Foreign Language - (3)
- FL 212 Second Year Foreign Language - (3)
- HUM 121 Humanities: Early Civilization - (3)
- HUM 122 Humanities: Medieval to Modern - (3)
- HUM 123 Humanities: The Modern World - (3)
- LIT 115 Introduction to Literature - (3)
- LIT 201 Masterpieces of Literature I - (3)
- LIT 202 Masterpieces of Literature II - (3)
- LIT 205 Ethnic Literature - (3)
- LIT 211 Survey of American Literature I - (3)
- LIT 212 Survey of American Literature II - (3)
- LIT 221 British Literature I - (3)
- LIT 222 British Literature II - (3)
- LIT 225 Introduction to Shakespeare - (3)
- MUS 120 Music Appreciation - (3)
- MUS 121 Music History I - (3)
- MUS 122 Music History II - (3)
- PHI 111 Introduction to Philosophy - (3)
- PHI 112 Ethics - (3)
- PHI 113 Logic - (3)
- PHI 114 Comparative Religions - (3)
- PHI 214 Philosophy of Religion - (3)
- THE 105 Introduction to Theatre Arts - (3)
- THE 211 Development of Theatre I - (3)
- THE 212 Development of Theatre II - (3)

Social and Behavioral Science - (3 credits)
Select one course from the following list.

- ANT 101 Cultural Anthropology - (3)
- ANT 107 Introduction to Archaeology - (3)
- ANT 111 Physical Anthropology - (3)
- ECO 201 Macro Economics - (3)
- ECO 202 Micro Economics - (3)
- ECO 245 Environmental Economics - (3)
- GEO 105 World Regional Geography - (3)
- GEO 106 Human Geography - (3)
- HIS 101 History of Western Civilization I - (3)
- HIS 102 History of Western Civilization II - (3)
- HIS 111 World Civilization I - (3)
- HIS 112 World Civilization II - (3)
- HIS 201 U.S. History I - (3)
- HIS 202 U.S. History II - (3)
- HIS 247 Contemporary World History - (3)
- POS 105 Introduction to Political Science - (3)
- POS 111 American Government - (3)
- POS 205 International Relations - (3)
- POS 225 Comparative Government - (3)
- PSY 101 General Psychology I - (3)
- PSY 102 General Psychology II - (3)
- PSY 205 Psychology of Gender - (3)
- PSY 217 Human Sexuality - (3)
- PSY 226 Social Psychology - (3)
- PSY 227 Psychology of Death and Dying - (3)
- PSY 235 Human Growth & Development - (3)
- PSY 238 Child Development - (3)
- PSY 249 Abnormal Psychology - (3)
- SOC 101 Introduction to Sociology I - (3)
- SOC 102 Introduction to Sociology II - (3)
- SOC 215 Contemporary Problems - (3)
- SOC 216 Sociology of Gender - (3)
- SOC 231 Sociology of Deviant Behavior - (3)

Physical and Life Sciences - (4 credits minimum)
Select one course from the following list.

- AST 101 Astronomy I - (4)
- AST 102 Astronomy II - (4)
- BIO 105 Science of Biology - (4)
- BIO 111 General College Biology I - (5)
- BIO 112 General College Biology II - (5)
- BIO 201 Anatomy & Physiology I - (4)
- BIO 202 Anatomy & Physiology II - (4)
- BIO 208 Micro Biology with Lab - (5)
- BIO 220 General Zoology with Lab - (5)
- CHE 101 Introduction to Chemistry I - (5)
- CHE 111 General College Chemistry I - (5)
- CHE 112 General College Chemistry II - (5)
- GEY 111 Physical Geology - (4)
- GEY 121 Historical Geology - (4)
- MET 150 General Meteorology - (4)
- PHY 105 Conceptual Physics - (4)
- PHY 111 Physics: Algebra Based I - (5)
- PHY 112 Physics: Algebra Based II - (5)
- PHY 211 Physics: Calculus Based I - (5)
- PHY 212 Physics: Calculus Based II - (5)

College level electives—(16 credits) Select any generally transferable academic courses from the list on the next page.

General electives—(30 credits) Select any courses numbered 100 or above.
Total Credits (60 required) ______
You will graduate under the catalog requirements listed for the semester that you were first enrolled. If you interrupt attendance for two consecutive semesters (excluding summer semester) or more and then return, you must meet the requirements of the catalog in effect at the time you re-enroll. You also may choose to use the catalog that is in effect the semester you graduate. Be sure to keep a copy of your catalog.

Courses numbered below 100 will not apply to any degree.

Approved college-level elective credit courses for the Associate of General Studies – Generalist degree

These courses transfer to one or more of the public four-year colleges or universities in Colorado. All courses will count toward the AGS – Generalist degree. However, transferability depends on the four-year institution. Additional courses may be transferable to one or more of the public four-year colleges or universities in Colorado. For specific information, please consult an advisor in the Advising Center.

Accounting  ACC-121 and 122
Anthropology  ANT-All courses
Art  ART-All courses
Astronomy  AST-All courses
Biology  BIO-All courses
Business  BUS-115, 216, 217, and 226
Chemistry  CHE-All courses
Communication Disorders  CMD-160, 260, 265, 266, and, 267
Communication/Speech  COM-All courses
Dance  DAN-All courses
Early Childhood Education  ECE-101, 111, 205, and 241
Economics  ECO-All courses
Education  EDU-All courses above 200
English  ENG-All courses above 122
Environmental Science  ENV-101
Foreign Language  FRE, GER, SPA
Geography  GEO-All courses
Geology  GEY-All courses
Health and Wellness  HWE-100
History  HIS-All courses
Humanities  HUM-All courses
Literature  LIT-All courses
Management  MAN-226
Marketing  MAR-216
Mathematics  MAT-All courses 120 and above
Music  MUS-All courses
Philosophy  PHI-All courses
Physical Education  PED-All courses
Physical Ed. and Recreation  PER-128, 252, and 253
Political Science  POS-All courses
Psychology  PSY-101, 102, 110, 205, 215, 217, 228, 227, 235, 238, and 249
Sociology  SOC-All courses
Speech  (See Communication)
Theatre  THE-All courses

Many four-year college transfer guides are available via the CCHE Web site at: http://highered.colorado.gov/Academics/Transfers/Guides/default.html

Other AGS – Generalist degree requirements

1. A minimum of 60 credits is required for the Associate of General Studies degree.
2. You must earn a cumulative grade point average of 2.0 ( C average) in order to graduate.
3. If you are planning to transfer to a four-year college or university, meet with an appropriate faculty advisor and consult the Transfer Guide.
4. You must complete a minimum of 15 credits at RRCC.
5. You must file an application for graduation during the term in which you intend to graduate according to the deadline published in the class schedule for that semester. You must apply to graduate within one year of completing requirements
6. No more than 6 credits of independent study course work may be applied toward an associate degree program.
7. There is no limit on special-topics courses allowed to count toward a degree. In individual cases, the limit will be determined by the program area. If you are taking special-topics courses, consult with your advisor regarding how these credits will apply toward a degree.
8. If you are applying for an additional degree at RRCC, you must complete an additional 15 credits at RRCC and the requirements for the degree.
9. With the approval of a faculty advisor and an instructional vice president, up to three credits of internship may count toward a degree.
The Associate of Applied Science degree is for the student who is preparing for entry-level employment in a career-oriented program of study or who is upgrading skills in a specific occupation.

This degree is not intended for transfer; however, courses are considered for transfer on an individual basis by the receiving college or university.

1. A minimum of 60 credits is required for the Associate of Applied Science degree. Some degrees require more than 60 credits. These must include 45 credits in specific program courses and 15 credits in general education courses.
2. If you are planning to transfer to a four-year college or university, meet with an appropriate faculty advisor and consult the Transfer Guide.
3. You must complete a minimum of 15 credits in your program area at RRCC.
4. No more than six credits of independent study course work may be applied toward an associate degree program.
5. There is no limit on special-topics courses that count toward a degree. In individual cases, the limit will be determined by the program area. If you are taking special-topics courses, consult with a faculty advisor regarding how these credits will apply toward a degree.
6. The college reserves the right to substitute or delete courses in a degree or certificate program.
7. If you are applying for an additional degree at RRCC, you must complete an additional 15 credits at RRCC and the requirements for the degree.
8. With the approval of a faculty advisor, an internship may count toward a degree. Some AAS degrees will require internship credits.

## Associate of Applied Science Programs

Emphases are available in the following career areas:

### Accounting
- Accounting Paraprofessional
- Accounting Technician

### Air Conditioning, Heating and Refrigeration
- Air Conditioning, Heating and Refrigeration
- Air Conditioning
- Refrigeration
- Heating
- Hydronic Heating
- Building Automation

### Applied Technology

### Auto Collision Technology
*(In cooperation with and taught at Warren Tech)*

### Automotive Service Technology
*(In cooperation with and taught at Warren Tech)*

### Business
- Interdisciplinary
- Management and Supervision
- Real Estate

### Business Technology
- Administrative Professional

### Carpentry

### Computer Information Systems* with emphases in:
- Cisco Network Associate*
- Computer Support Technician*
- Game Arts and Development*
- Microsoft Application Developer MCAD*
- Microsoft Database Administrator MCDBA*
- Microsoft Network System Administrator MCSA*
- Microsoft Network System Engineer MCSE
- PC Application Specialist*
- Programming Specialist*
- Web Design*
- Web Development*

### Construction Technology
- Construction Management
- Construction Technology Technician
- Building Maintenance Technician
- Trades Degree
- Building Code Enforcement

### Criminal Justice*
- Law Enforcement
- Victim Assistance

### Culinary Arts
*(In cooperation with the Rocky Mountain Chefs of Colorado and taught at Warren Tech)*

### Diagnostic Medical Sonography

### Early Childhood Education

### Electricity Commercial/Industrial/Residential
- Construction Electrician
- Maintenance Electrician
- Fire Protection Technology
- Construction Electrician/IBEW/NECA
- Power Technology

### Emergency Management and Planning*
*(CCConline)*

### Emergency Medical Services
- Paramedicine

### Engineering Graphics Technology with emphases in:
- Architectural*
- Mechanical*
- Civil*
- Interior Design*

### Fine Woodworking

### Fire Science Technology
- Fire Science Technology
- Fire Service Management

* Certificate is also available

Degree Requirements
(Meet with a faculty advisor for a degree worksheet.)

Specific program requirements (45-60 credits)

General education requirements (15 credits)

Communication - (3 Credits)
(ENG or COM)

Mathematics - (3 credits)
(MAT 106 and above)

Credit from any two of the following three areas (6 credits):
Arts and Humanities - (3 credits)
(ART, FRE, GER, HUM, ITA, JPN, LIT, MUS, PHI, SPA, THE)
Physical and Life Sciences - (3 credits)
(AST, BIO, CHE, ENV, GEY, PHY, SCI)
Social and Behavioral Science - (3 credits)
(ANT, ECO, GEO, GIS, HIS, POS, PSY, SOC)

Electives from any of the above subjects (3 credits)

Note: Individual departments may specify particular courses for general education.
AAS • ADDITIONAL CATALOG REQUIREMENTS

You will graduate under the catalog requirements listed for the semester that you were first enrolled. If you interrupt attendance for two consecutive semesters (excluding summer semester) or more and then return, you must meet the requirements of the catalog in effect at the time you re-enroll. You also may choose to use the catalog that is in effect the semester you graduate. Be sure to keep a copy of your catalog.

Courses numbered below 100 will not apply to any degree.

Other AAS Degree Requirements

1. You must earn a cumulative grade point average of 2.0 (C average) in order to graduate.

2. If you are planning to transfer to a four-year college or university, meet with an appropriate faculty advisor and consult the Transfer Guide.

3. You must complete a minimum of 15 credits in your program area at RRCC.

4. You must file an application for graduation during the term in which you intend to graduate according to the deadline published in the class schedule for that semester. You must apply to graduate within one year of completing requirements.

5. No more than six credits of independent study course work may be applied toward an associate degree program.

6. There is no limit on special-topics courses allowed to count toward a degree. In individual cases, the limit will be determined by the program area. If you are taking special-topics courses, consult with your advisor regarding how these credits will apply toward a degree.

7. The college reserves the right to substitute or delete courses in a degree or certificate program.

8. If you are applying for an additional degree at RRCC, you must complete an additional 15 credits at RRCC and the requirements for the degree.

9. With the approval of a faculty advisor, no more than five credits of internship may count toward a degree. (Some AAS degrees will require internship credits.)
In addition to two-year degrees, RRCC students can earn certificates in a variety of specialties. A certificate can require as few as five credits and also may count toward a two- or four-year degree.

1. You must earn a cumulative grade point average of 2.0. Some programs may require at least a C in specified courses.
2. You must complete at least 50 percent of your coursework at RRCC to receive a certificate.
3. The college reserves the right to substitute or delete courses in a degree or certificate program.

**Accounting**
- Bookkeeping Clerk
- Accounting Clerk

**Air Conditioning, Heating and Refrigeration**
- Air Conditioning
- Level I Refrigeration
- Level II Refrigeration
- Refrigeration
- HVAC Fundamentals
- HVAC Controls Technician
- Forced-Air Heating
- Hydronic Heating
- Building Automation
- Air Conditioning, Heating-Refrigeration
  - Apprenticeship program

**Auto Collision Technology**
(In cooperation with and taught at Warren Tech)
- Non-Structural Analysis and Damage Repair
- Painting and Refinishing
- Structural Analysis and Damage Repair
- Mechanical and Electrical Components
- Management

**Automotive Service Technology**
(In cooperation with and taught at Warren Tech)
- Lubrication and tire service
- Manual drive train
- Brake specialist
- Automatic transmission
- Suspension and Steering
- Engine performance
- Heating and air conditioning
- Electrical/electronics
- Engine repair
- Auto parts specialist

**Basic Law Enforcement Training Academy**
(See Criminal Justice)

**Business**
- Management and Supervision
- Real Estate
- Small Business Start Up

**Business Technology**
- Clerical Assistant
- Office Professional

**Carpentry**

**Computer Information Systems**
- Cisco Network Associate
- Computer Support Technician
- Game Development
- Microsoft Application Developer (MCAD)
- Microsoft Database Administrator (MCDBA)
- Microsoft Network System Administrator (MCXSA)
- Microsoft Network System Engineer (MCSE)
- Oracle Database Administrator
- PC Applications Specialist
- Programming Specialist
- Web Design
- Web Development

**Construction Technology**
- Construction Management 1
- Construction Management 2
- Construction Management 3
- Construction Technology Fundamentals
- Construction Technology Technician
- Building Maintenance Technician
- Building Codes
- International Residential Code
- International Plumbing and Mechanical Codes
- Building Code Enforcement (online only)

**Cosmetology**
(In cooperation with and taught at Warren Tech)
- Cosmetologist
- Hairstylist
- Manicurist
- Esthetician (skin)

**Criminal Justice**
- Investigations
- Victim Assistance Administration
- Victim Assistance Direct Service
- Basic Law Enforcement Training Academy

**Culinary Arts**
(In cooperation with the Rocky Mountain Chefs of Colorado and taught at Warren Tech)
- Diagnostic Cardiac Sonography (See Medical Imaging)
- Diagnostic Medical Sonography (See Medical Imaging)

**Early Childhood Education**
- Preschool Group Leader
- Infant/Toddler Group Leader
- Director Early Childhood Education

**Electricity Commercial/Industrial/Residential**
- Electrical Installation
- National Electrical Code
- Residential Construction Electrician
- Construction Electrician
- Advanced Construction Electrician
- Post-Degree Specialization for Advanced Construction Electrician
- Maintenance Electrician
- Advanced Maintenance Electrician
- Post-Degree Specialization for Advanced Maintenance Electrician
- Control Systems Technician
- Fire Code
- Fire Alarm and Detection Technician

**Emergency Management and Planning**

**Emergency Medical Services**
- Emergency Medical Technician - Basic

The Rocky Mountain Education Center (RMEC) located at the Lakewood campus is the continuing education department of the community college. Our mission has expanded over the years from environmental, safety and health training to include all professional workforce development training. In 1992, the Department of Labor/OSHA selected RRCC as one of four training centers in the U.S. to offer OSHA training. We are one of two Department of Labor’s authorized OSHA Training Institutes in Region VIII which consists of CO, WY, MT, SD, ND, and UT.

The RMEC specializes in customizing all facets of health, safety management, and supervisory training programs. From computer training to mortgage loan certification, we are a one-stop training organization dedicated to providing high quality, effective, and affordable training for our customers. As with all our programs, we can customize each course to fit your organization’s needs and bring that course to your company.

Accounting

If you plan to transfer to a four-year college or university to complete a major in accounting, you should consider the AA degree with a business emphasis. Consult with an accounting faculty advisor early in your college career to explore all your educational options. You must earn a C or better in all accounting courses to graduate with a degree or certificate in accounting.

Degrees: Associate of Applied Science
Accounting Paraprofessional
Accounting Technician

Certificates:
Bookkeeping Clerk
Accounting Clerk

AAS Degree
Accounting Paraprofessional
This program prepares you to work as an accounting paraprofessional or accounting assistant.

Air Conditioning, Heating and Refrigeration

This program provides the knowledge and skills for entry into the air conditioning, heating and refrigeration industry in the areas of installation and maintenance as well as upgrading and refresher courses for those already employed in the field. Please consult with a construction technology advisor at 303.914.6511

Bachelor of Science transfer program: All Construction Technology Associate of Applied Science graduates are eligible to participate in the Colorado Community College Pathways program, a strategic partnership between DeVry University – Colorado and Red Rocks Community College. Students may transfer 80+ credit hours from Red Rocks Community College to DeVry University and complete a Bachelor of Science in Technical Management in as few as two semesters. Additionally, graduates of the HVAC/R Program may transfer to Ferris State University to pursue a baccalaureate degree. Contact your Construction Technology advisor for details.

Related course work may be found under Carpentry, Construction Technology, Electricity, Industrial Maintenance Technology, Plumbing, Process Technology, and Renewable Energy Technology.

Applied Technology
Degree: Associate of Applied Science
Applied Technology

Students desiring to complete the AAS degree in Applied Technology may complete the technical coursework contained in a state-approved certificate career and technical education program at one of the four area vocational technical schools (AVTS). The four AVTS are Delta-Montrose Area Vocational Technical Center, Emily Griffith Opportunity School, San Juan Basin Technical College, and Pickens Tech Center.

The general education and other degree requirements are completed at one of the Colorado public community/junior colleges. The AAS degree is conferred by the community college at which the general education and other degree requirements have been completed.

The approved certificate career and technical education programs at the AVTS prepare you by providing technical, applied academic and employability skills. Credit in varying amounts from these certificate programs is applicable to the community college’s AAS degree in Applied Technology. Individual coursework from the AVTS is credited to your transcript upon completion of the requirements of both institutions.

You may enroll concurrently in both an AVTS and a community college. You must comply with the regulations and requirements relating to admission and attendance at each institution.

Art
Degree: Associate of Arts

If you plan to transfer to a four-year college or university to complete a major in art, you should complete the following courses. Consult with a faculty or academic advisor before beginning this program of study. These courses provide the basic preparation leading to art-related careers.

Auto Collision Technology
(In cooperation with and taught at Warren Tech)

This is a National Certified Auto Collision Repair program with the primary purpose of preparing you for careers in the auto collision industry. You can also achieve the necessary credits to obtain an associate degree. A minimum of 46 ACT credits and 15 general education credits are required for the AAS degree. Some courses may transfer to a bachelor’s degree in automotive management. It is imperative that all students comply with personal and environmental safety practices associated with clothing, respiratory protection, eye protection, hand tools, power tools, power equipment, proper ventilation, and the handling, storage, and disposal of chemicals/materials in accordance with local, state, and federal safety and environmental regulations.

Degree: Associate of Applied Science
Auto Collision Technology

Certificates:
- Non-Structural Analysis and Damage Repair
- Painting and Refinishing
- Structural Analysis and Damage Repair
- Mechanical and Electrical Components Management
### AAS Degree

Automotive Service Technology

(In cooperation with and taught at Warren Tech)

This program is a nationally certified automotive repair program (NATEF) which provides you with entry-level skills in the automotive industry or upgrading for those currently in the field. Demonstrated mastery of skills is required and all tasks must be completed to satisfy industry standards. All automotive (ASE) courses are held at the Warren Tech automotive classroom/lab. The instructors are ASE Certified Master Technicians. Consult with an automotive service technology advisor before beginning your program of study.

Degree: Associate of Applied Science
Automotive Service Technology

Certificates:
- Lubrication and tire service
- Manual drive train
- Brake specialist
- Automatic transmission
- Suspension and Steering
- Engine performance
- Heating and air conditioning
- Electrical/electronics
- Engine repair
- Auto parts specialist

AAS Degree

### Biology
#### Degree: Associate of Science
The completion of the following courses is appropriate if you are planning to transfer to a four-year college or university to complete a major in biology. You should consult with a biology faculty advisor before beginning any program of study. These courses provide the basic preparation leading to biology-related careers. Some courses might not be offered each semester.

**Required Courses**
- BIO 111 General College Biology I*  5
- BIO 112 General College Biology II*  5
- MAT 121 College Algebra*  4
- BIO 201 Human Anatomy and Physiology I  4
- BIO 202 Human Anatomy and Physiology II  4
- BIO 208 Microbiology  5

*Fulfills General Education requirements

**Additional General Education Courses**  27
- See page 27.

**Approved electives**  6

Business

Businesses are looking for people who can help them achieve their goals. Training in business helps increase your opportunity for advancement within a corporate or administrative structure. If you plan to transfer to a four-year college or university to major in business, you should consider the AA degree with a business emphasis. You should consult with a business faculty advisor early in your college career to explore all your educational options.

**Business Technology**

**Degree: Associate of Applied Science**

**Administrative Professional**

**Certificates:**

- Clerical Assistant
- Office Professional

These program options are designed to prepare you for entry-level positions and/or advancement in business, governmental agencies, and other institutions that employ people in office occupations. If you aspire to advanced work placement, you should expect to have several years of work experience in addition to the degree.

BTE 111 and BTE 112 may be waived or challenged with a validated typing speed of 65 wpm for five minutes with five or fewer errors. Please see your BTE faculty advisor for choice of elective and general education courses, program planning, and transfer information. You must earn a minimum grade of C in all BTE, CIS, and ACC courses required for a certificate or degree.

Chemistry

Degree: Associate of Science

The completion of the following courses is appropriate for those planning to transfer to a four-year college or university to complete a major in chemistry. You are urged to consult with a chemistry faculty advisor before beginning any program of study. These courses provide the basic preparation leading to chemistry-related careers. Some courses might not be offered each semester.

Communication Studies

Degrees: Associate of Arts
Communication Disorders (Speech – Language Pathology and Audiology)
Communication Studies

AA Degree

Communication Disorders
This program is designed to provide orientation into a course of study in communication disorders, which usually includes speech-language pathology or audiology. The program will prepare you to pursue an undergraduate degree in the speech-language pathology or audiology areas. An articulation agreement is in place with the University of Northern Colorado for students who complete this degree. Consult a faculty advisor or the department chair before beginning this course of study.

MAT 121 College Algebra 4
Total Credits 60

Highly recommended for transfer to UNC
(Consult a faculty advisor):
BIO 202 Human Anatomy and Physiology II 4

AA Degree

Communication Studies
The study of communication helps you develop oral and written communication skills. Critical thinking, problem-solving, interpersonal skills, presentation skills, and teamwork are some of the concepts addressed. This program provides basic preparation leading to communication-related careers in organizations and corporations dealing with education, business, public service, tourism, journalism, public relations, politics, broadcasting, and sales.

Completion of the following courses is intended to be appropriate for those who plan to transfer to a four-year college or university to complete a major in communication. Consult with a faculty advisor prior to beginning any program of study.

ASL 121 American Sign Language 5
Computer Information Systems Requirements for all AAS Degrees

The Computer Information Systems associate of applied science degree prepares you for entry-level positions in all areas of emphasis that are listed following the core requirements. You must earn a minimum grade of “C” in all CIS, CNG, CSC, CWB, and MGD courses required for a certificate or degree.

**Required Courses**

| Faculty advisor-approved business course |  
|----------------------------------------|---|
| ACC 121 Accounting Principles I        | 4 |
| ENG 121 English Composition I          | 3 |
| ENG 122 English Composition II         | 3 |
| ENG 131 Technical Writing              | 3 |
| MAT 121 College Algebra (or higher)    | 4 |
| COM 115 Public Speaking                | 3 |
| THE 118 Acting Skills: Trades/Business | 3 |
| CIS 101 Computer Issues                | 1 |
| CIS 268 System Analysis and Design I   | 3 |
| CIS 289 Capstone                       | 3 |

**Credit from any two of the following three areas:** 6

- **Humanities** (ART, FRE, GER, HUM, LIT, PHI, SPA, THE)
- **Science** (AST, BIO, CHE, GGY, PHY)
- **Social and Behavioral Science** (ANT, ECO, GEO, HIS, POS, PSY, SOC)

**Total Credits** 29-30

AAS Degree

**Cisco Network Associate**

This area of emphasis prepares you to take the Cisco INTRO and Cisco ICND (Interconnecting Network Devices) certification exams equating to the Cisco Certified Network Associate (CCNA) certification. Content includes basic network principles, basic router and switch configuration, intermediate routing and switching, and Wide Area Networking (WAN). Focus is on hands-on performance and assessment.

**Required Courses**

| CNG 121 Computer Technician I: A+      | 4 |
| CNG 122 Computer Technician II: A+     | 4 |
| CNG 211 Windows Configuration: Vista   | 3 |
| CNG 260 Cisco Network Associate I      | 5 |
| CNG 261 Cisco Network Associate II     | 5 |
| CNG 262 Cisco Network Associate III    | 5 |
| CNG 263 Cisco Network Associate IV     | 5 |

**Computer Information Systems Requirements** 29-30

See page 53.

**Total Credits** 60-61
AAS Degree
Computer Support Technician
This area of emphasis provides both hardware and operating systems experience needed to work as a support person for both local and wide area network environments.

Required Courses
CNG 121 Computer Technician I: A+ 4
CNG 122 Computer Technician II: A+ 4
CNG 211 Windows Configuration: Vista 3
CNG 212 Manage MS Windows Server Environment 4
CNG 213 Manage MS Windows Network Infrastructure 4
CNG 260 CISCO Network Associate I 5
CNG 261 CISCO Network Associate II 5
CNG 262 Cisco Network Associate III 5
   or
CNG 263 Cisco Network Associate IV 5
   or
CNG 124 Networking I: Net+ 3
   and
CNG 125 Networking II: Net+ 3

Computer Information Systems Requirements 29-30
See page 53.
Total Credits 64-65

AAS Degree
Game Arts and Development
This area of emphasis prepares you for a broad range of careers in the gaming industry or as an independent game developer. You will develop 2D and 3D digital modeling, digital animation, and programming skills using an industry standard gaming engine. Course electives allow you to gain experience with digital sound, 2D game development, and additional 3D modeling.

Required Courses
CWB 162 Introduction to Image Editing: Photoshop 3
   or
MGD 111 Adobe Photoshop I 3
CSC 119 Introduction to Programming 3
   and
CSC 154 Introduction to MS Visual Basic. Net (OOP) 3
   or
CSC 160 Computer Science I: C++ 4
   or
CWB 245 Complete Web Animation: Flash 3
   or
MGD 143 Motion Graphics Design: Flash 3
CSC 126 Game Design and Development 3
   or
MGD 167 Game Design I 3
MGD 112 Adobe Illustrator I 3
MGD 152 Digital Animatics 3
MGD 153 3D Animation: Cinema 4D 3
   and
MGD 163 Sound Design I 3
CSC 200 Game Programming I 3
CSC 227 3D Game Programming 3
CSC 228 3D Game Scripting 3

Choose one elective 3-4
CSC 161 Computer Science II 4
CSC 240 Java Programming 3
CSC 251 Programming in Visual Basic.NET 3
CSC 261 Programming in C#.NET 3
MGD 119 Maya I 3
MGD 121 Painter for Digital Media 3
MGD 122 Sculpting for Digital Media 3
MGD 161 Director I 3
MGD 163 Sound Design I 3
MGD 219 Maya II 3
MGD 211 Adobe Photoshop II 3
   or
CWB 262 Advanced Image Editing 3
MGD 243 Motion Graphics Design II: Flash 3
MGD 267 Game Design II 3
MUS 105 Introduction to Electronic/Computer Music 3

Required Credits 37-40
Computer Information Systems Requirements 29-30
See page 53.
Recommended General Education Courses to satisfy Humanities Category:
ART 121, ART 131, ART 156 or MUS 105
Total Credits 66-70

AAS Degree
Microsoft Application Developer (MCAD)
This area of emphasis provides you with the skill set necessary to complete the MCTS (Microsoft Certified Technology Specialist) and MCPD (Microsoft Certified Professional Developer). You will develop and maintain Windows and Web applications that use the .NET Framework and Visual Studio.

Required Courses
CIS 240 Database Design and Development 3
CIS 252 Implement and Maintain SQL Server Database 3
CWB 110 Complete Web Authoring: HTML 3
CWB 164 XML 3
CSC 119 Introduction to Programming 3
   and
CSC 154 Introduction to MS Visual Basic .NET (OOP) 3
   or
CSC 160 Computer Science I 4
CIS 251 Intro to Structured Query Language (SQL) 3
CSC 251 Programming in Visual Basic .NET 3
   or
CSC 261 Programming in C# .NET 3
CSC 250 Programming with MS ADO .NET 3
CSC 253 MS ASP .NET Web Application Development 3
CSC 262 VS.NET Application Development: VB & C# 3

Required Credits 28-30
Computer Information Systems Requirements 29-30
See page 53.
Total Credits 60-63

AAS Degree
Microsoft Database Administrator (MCDBA)
This area of emphasis provides you with the skills necessary to design, implement, and administer Microsoft SQL Server databases.

Required Courses Credits
CSC 119 Introduction to Programming and 3
CSC 154 Introduction to MS Visual Basic .NET (OOP) 3
CSC 160 Computer Science I 4
CIS 240 Database Design and Development 3
CIS 251 Intro to Structured Query Language (SQL) 3
CIS 252 Implement and Maintain SQL Server Database 3
CIS 253 Programming Microsoft SQL Server Database 3
CNG 227 Administering a Microsoft SQL Server Database 3
CSC 250 Programming with MS ADO .NET 3
CWB 110 Complete Web Authoring: HTML 3
CWB 164 XML 3

Choose one elective 3

Required Credits 31-33
Computer Information Systems Requirements 29-30
Total Credits 60-63

AAS Degree
Microsoft Network System Administrator (MCSA)
This area of emphasis provides the skills necessary to manage and troubleshoot system environments based on Microsoft Windows Platforms.

Required Courses Credits
CIS 118 Introduction to PC Applications: MS Office 3
CSC 119 Introduction to Programming or
CSC 154 Introduction to MS Visual Basic .NET (OOP) 3
CNG 121 Computer Technician I: A+ 4
CNG 122 Computer Technician II: A+ 4
CNG 124 Networking I: Net+ 3
CNG 125 Networking II: Net+ 3
CNG 211 Windows Configuration: Vista 3
CNG 212 Manage MS Windows Server Environment 4
CNG 213 Manage MS Windows Network Infrastructure 4

Choose two electives 6
CNG 217 Implement Security in a MS Windows Environment 3
CNG 226 Implementing and Managing Microsoft Exchange 3
CNG 227 Administering a Microsoft SQL Server Database 3

Required Credits 31-33
Computer Information Systems Requirements 29-30
Total Credits 60-63

AAS Degree
Microsoft Network System Engineer (MCSE)
This area of emphasis provides the skills necessary to design and implement an infrastructure solution based on the Windows platform and Microsoft Servers software.

Required Courses Credits
CSC 119 Introduction to Programming 3
CSC 154 Introduction to MS Visual Basic .NET (OOP) 3
CNG 211 Windows Configuration: Vista 3
CNG 213 Manage MS Windows Network Infrastructure 4
CNG 214 Plan MS Windows Server Network Infrastructure 4
CNG 216 Plan MS Windows Server Active Directory Infrastructure 3
CNG 221 Design MS Directory and Network Infrastructure 3

Choose three electives 9-11
CNG 121 Computer Technician I: A+ 4
CNG 122 Computer Technician II: A+ 4
CNG 124 Networking I: Net+ 3

CSC 251 Programming Visual Basic.NET  3
CSC 261 Programming C#.NET  3
MGD 112 Adobe Illustrator I  3
MGD 119 Maya I  3
MGD 121 Painter for Digital Media  3
MGD 122 Sculpting for Digital Media  3
MGD 152 Digital Animatics  3
MGD 153 3D Animation I: Cinema 4D  3
MGD 161 Director I  3
MGD 163 Sound Design I  3
CWB 262 Advanced Image Editing: Photoshop  
or
MGD 211 Adobe Photoshop II  3
MGD 243 Web Motion Graphics Design II: Flash  3
MGD 267 Gaming Design II  3
MUS 105 Introduction to Electronic/Computer Music  3
Total Credits  32-35

Certificate

Microsoft Application Developer (MCAD)

This area of emphasis provides you with the skill set necessary to complete the MCTS (Microsoft Certified Technology Specialist) and MCPD (Microsoft Certified Professional Developer). You will develop and maintain Windows and Web applications that use the .NET Framework and Visual Studio.

Required Courses  Credits
CIS 240 Database Design and Development  3
CIS 252 Implement and Maintain SQL Server Database  3
CWB 164 XML  3
CWB 210 Complete Web Authoring: HTML  3
CSC 119 Introduction to Programming and
CSC 154 Introduction to MS Visual Basic .NET (OOP)  3
or
CSC 160 Computer Science I  4
CIS 251 Intro to Structured Query Language (SQL)  3
CSC 251 Programming in Visual Basic .NET  
or
CSC 261 Programming in C# .NET  3
CSC 250 Programming with MS ADO .NET  3
CSC 253 MS ASP .NET Web Application Development  3
CSC 262 VS.NET Application Development: VB & C#  3
CIS 268 System Analysis and Design  3
CIS 201 Computer Issues  1
Total Credits  37-41

Certificate

Microsoft Database Administrator (MCDBA)

This area of emphasis provides you with the skills necessary to design, implement, and administer Microsoft SQL Server databases.

Required Courses  Credits
CSC 119 Introduction to Programming and
CSC 154 Introduction to MS Visual Basic .NET (OOP)  3
or
CSC 160 Computer Science I  4
CIS 240 Database Design and Development  3
CIS 251 Introduction to Structured Query Language (SQL)  3
CIS 252 Implement and Maintain SQL Server Database  3
CIS 253 Programming Microsoft SQL Server Database  3
CIS 268  Systems Analysis and Design  3
CNG 227  Administering a Microsoft SQL Server Database  3
CWB 164  XML  3
CIS 201  Computer Issues  1
Choose one elective  3
CSC 253  MS ASP .NET Web Application Development  3
CSC 262  VS.NET Application Development: VB & C#  3
CSC 263  MS ASP .NET XML Web Service Development  3
Total Credits  34

Certificate
Microsoft Network System Administrator (MCSA)
This area of emphasis provides the skills necessary to manage and troubleshoot system environments based on Microsoft Windows Platforms.

Required Courses  Credits
CSC 119  Introduction to Programming  3
or
CSC 154  Introduction to MS Visual Basic .NET (OOP)  3
CNG 121  Computer Technician I: A+  4
CNG 122  Computer Technician II: A+  4
CNG 124  Networking I: Net+  3
CNG 125  Networking II: Net+  3
CNG 211  Windows Configuration: Vista  3
CNG 212  Manage MS Windows Server Environment  4
CNG 213  Manage MS Windows Network Infrastructure  4
CIS 201  Computer Issues  1
Choose one elective  3
CNG 217  Implement Security in a MS Windows Environment  3
CNG 226  Implementing and Managing Microsoft Exchange  3
CNG 227  Administering a Microsoft SQL Server Database  3
Total Credits  32

Certificate
Microsoft Network System Engineer (MCSE)
This area of emphasis provides you with the necessary skills to design, implement, and administer an Oracle Database.

Required Courses  Credits
CSC 119  Introduction to Programming  3
and
CSC 154  Introduction to MS Visual Basic .NET (OOP)  3
or
CSC 160  Computer Science I  4
CIS 240  Database Design and Development  3
CIS 251  Intro to Structured Query Language (SQL)  3
CIS 243  SQL PL/SQL  3
CIS 246  Oracle Database Administrator I  4
CIS 247  Oracle Database Administrator II  4
CIS 249  Oracle Performance Tuning  4
CIS 268  System Analysis and Design  3
CIS 201  Computer Issues  1
Total Credits  29-31

Total Credits 60

Construction Technology Programs

Information for Students in All Construction Technology Programs:

Construction Technology Core Requirements and General Education Requirements are included in most program areas degree requirements. The basic requirements are outlined below. A Construction Technology advisor will work with you to identify courses within the area which complement your career goals.

Construction Technology Core Requirements

Choose a minimum of 10 credits from the following course prefixes: CON, ENT, ENY AEC, OSH.

General Education Requirements

English/Communication: 3
ENG, COM 100 or higher

Mathematics: 3
MAT 107-Technical or higher

Choose from any two of the following areas: 6
Humanities:
ART, FRE, GER, HUM, LIT, MUS, PHI, SPA
Science:
AST, BIO, CHE, GEY, PHY
Social and Behavioral Sciences:
ANT, ECO, GEO, HIS, POS, PSY, SOC

Three credits from the General Education Electives 3
(from any of the above prefixes)

Total General Education Requirements 15

Advising: Please contact the Construction Technology office directly at 303.914.6511 for information about the programs. You will be assigned an advisor in your program area.

Bachelor of Science transfer program: All Construction Technology programs’ associate of applied science graduates are eligible to participate in the Colorado Community College Pathways program, a strategic partnership between DeVry University – Colorado and Red Rocks Community College. Students may transfer 80+ credit hours from Red Rocks Community College to DeVry University and complete a bachelor of science in Technical Management in as few as two semesters. Additional transfer options may be available in individual program areas. Contact your Construction Technology advisor for details.

Continued on next page
Construction Technology Programs continued

Skills upgrade courses, certificates, and associate of applied science degrees are available in the following program areas (see next page):

Air Conditioning, Heating and Refrigeration
(See page 41.)

Carpentry
(See page 51.)

Construction Technology
(See page 62.)

Electricity: Commercial/Industrial/Residential
(See page 72.)

Fine Woodworking
(See page 80.)

Industrial Maintenance Technology
(See page 87.)

Plumbing
(See page 104.)

Process Technology
(See page 107.)

Renewable Energy Technology
(See page 109.)

Water Quality Management Technology
(See page 115.)

Construction Technology

Construction Technology coursework bridges all trade and specialty areas, providing the basic technology, supervision and management skills needed in all segments of the industry. Coursework in this program will provide the entry-level skills needed to begin a career in construction management, building maintenance, or the trades. The flexible program allows you to choose courses that build on previous employment or academic experience. Consult with a Construction Technology advisor to develop your individual educational plan.

EIC 155 AC Circuit Fundamentals 4
EIC 167 Electrical Maintenance Techniques 4
EIC 240 Fire Alarm Fundamentals 4
Plumbing
PLU 100 Introduction to Plumbing 4
PLU 101 Piping Skills 4
PLU 104 Plumbing Service 4
PLU 244 Commercial Plumbing Service 4
PLU 247 Hot Water Heating Systems 4

AAS Degree

Trades Degree
The trades AAS degree program consists of a maximum of 58 credits of trade-specific credits. Students may earn these credits via apprenticeship training (classroom and on-the-job hours) or technical education course work and training, plus a maximum of 20 credits of core general education courses at RRCC. For those registered apprentices who complete a three-year registered apprenticeship program, 20 RRCC credits will be required. For those completing a four-year or five-year apprenticeship program, 17 RRCC general education credits will be required. This program is offered jointly by RRCC, Emily Griffith Opportunity School, and the Joint Apprenticeship Training Committee.

AAS Degree
Building Code Enforcement
(This is an online degree.)

Major Requirements:
Building Code Enforcement Certificate 31
EMP 101 Principles of Emergency Management 3
EMP 109 Incident Command Systems 3
EMP 247 Decision Making in a Crisis 3
MAN 116 Principles of Supervision 3
MAN 226 Principles of Management 3
General Education Requirements
ENG 131 Technical Writing I 3
GEY 111 Physical geography 3
MAT 106 (or higher) Survey of Algebra 4
PSY 101 General Psychology I 3
SOC 101 Introduction to Sociology I 3
Total Credits 61

Certificate
Building Code Enforcement

Major Requirements
CON 140 Intro to Building Codes & Enforcement 3
CON 241 Overview of International Codes 4
CON 242 Residential and Non-Residential Plan Review 3
ECO 201 Principles of Macroeconomics 3
EMP 105 Emergency Planning 3
EMP 240 Leadership and Influence 3
EMP 241 Decision Making and Problem Solving 3
EMP 242 Effective Communication 3
EMP 244 Developing Volunteer Resources 3
EMP 291 Public Information Officer 3
Total 31
Certificate
Building Codes
Choose any two courses:
CON 142 International Residential Code 4
CON 143 International Building Code 4
EIC 130 National Electrical Code I 4
EIC 135 National Electrical Code II 4
HVA 206 International Mechanical Code 4
PLU 207 International Plumbing Code 4
PLU 208 International Fuel Gas Code 4
Total Credits 8

Certificate
International Residential Codes
Required Courses Credits
CON 142 International Residential Code 4
HVA 200 International Residential Code/ Mechanical and Fuel Gas 2
PLU 150 Code and Piping Calculations 2
PLU 202 International Residential Code-Plumbing 2
Total Credits 10

Certificate
International Plumbing and Mechanical Codes
Required Courses Credits
HVA 200 International Residential Code-Mechanical and Fuel Gas 2
HVA 206 International Mechanical Code 4
PLU 150 Code and Piping Calculations 2
PLU 202 International Residential Code-Plumbing 2
PLU 207 International Plumbing Code 4
PLU 208 International Fuel Gas Code 4
Total Credits 18

Certificate
Cosmetologist
The comprehensive Cosmetologist Certificate is designed to develop the skills necessary for entry-level employment in areas of the cosmetology field to include hairstylist, esthetician (skin), and manicurist (nail technology). In order to obtain this certificate, the hairstylist, manicurist, and esthetician programs must all be completed.

Required Courses Credits
COS 103 Shampoo/Rinses/Conditioners I 1
COS 203 Shampoo/Rinse/Conditioners II 1
COS 110 Intro to Hair Coloring 2
COS 111 Intermediate I: Hair Coloring 2
COS 210 Intermediate II: Hair Coloring 2
COS 211 Advanced Hair Coloring 2
COS 120 Introduction to Hair Cutting 2
COS 121 Intermediate I: Hair Cutting 2
COS 220 Intermediate II: Hair Cutting 2
COS 221 Advanced Hair Cutting 2
COS 130 Intro to Hair Styling 2
COS 131 Intermediate I: Hair Styling 2
COS 230 Intermediate II: Hair Styling 2
COS 231 Advanced Hair Styling 1
COS 140 Intro to Chemical Texture 1
COS 141 Intermediate I: Chemical Texture 1
COS 240 Intermediate II: Chemical Texture 1
COS 241 Advanced Chemical Texture 1
NAT 110 Intro to Manicures & Pedicures 3
NAT 111 Intermediate Manicures & Pedicures 2
NAT 210 Advanced Manicures and Pedicures 2
NAT 211 Application of Artificial Nails 5
EST 110 Intro to Facials & Skin Care 3
EST 111 Intermediate Facials & Skin Care 2
EST 210 Advanced Massage & Skin Care 2
EST 211 Facial Makeup 1
EST 212 Hair Removal 3
COS 150 Laws, Rules and Regulations 1
COS 250 Mgmt, Ethics, Interpersonal Skills & Sales 1
COS 160 Intro to Disinfection, Sanitation & Safety 2
COS 161 Intermediate I: Disinfection, Sanitation & Safety 1
COS 260 Intermediate II: Disinfection, Sanitation & Safety 2
COS 261 Advanced Disinfection, Sanitation & Safety 1
Total Credits 60

Cosmetology
(In cooperation with and taught at Warren Tech)
The Cosmetology Program is designed to develop the skills necessary for entry-level employment in areas of hairstylist, esthetics (esthetician-skin care), and nail technology (manicurist).

Certificates:
- Cosmetologist
- Hairstylist
- Manicurist
- Esthetician (skin)

Criminal Justice

Degree: Associate of Applied Science

Criminal Justice

Areas of Emphasis:
Victim Assistance
Law Enforcement

Degree: Associate of General Studies

Certificates:
Investigations
Victim Assistance Administration
Victim Assistance Direct Service
Basic Law Enforcement Training Academy

The Criminal Justice Program is designed for those seeking a career in the criminal justice field. If you have a felony conviction, or any kind of criminal or significant driving record, you may not be employable in the criminal justice field. The associate of general studies degree is articulated with Metropolitan State College of Denver (Metro), Regis University, the University of Colorado at Denver, and the University of Northern Colorado for those planning to continue in the criminal justice and criminology field. An associate of general studies degree with an emphasis in criminal justice with the AA or AS core completed and stamped will be considered to have completed Metro’s lower division general studies. Consult with a criminal justice faculty advisor early in your college career to explore all your educational options.

Total Credits 21
AAS Degree
Law Enforcement
You must complete seven CRJ courses for a total of 21 credits, but first confer with a CRJ advisor to determine the appropriate courses. Specific courses required may vary, depending upon your background and work experience. Upon completion of this program, you should be able to be employed as a law enforcement patrol officer at departments requiring a two-year college degree. The following courses are required for all law enforcement students:

Required Courses
CRJ 151 Domestic Violence
or
CRJ 152 Sexual Assault 3
CRJ 225 Crisis Intervention 3
CRJ 239 Managing Emergency Worker Stress 3

The remaining four courses must be chosen with CRJ faculty approval.

Total Credits 21*
*With proof of successful completion of a POST-certified academy and passing the POST exam, you will receive credit for the following five or six courses:

Courses
CRJ 118 Report Writing 3
CRJ 125 Law Enforcement Operations 3
CRJ 126 Patrol Procedures 3
CRJ 220 Human Relations and Social Conflict 3
CRJ 240 Criminal Investigations* 3
CRJ 246 Traffic Investigation 3

Total Credits 15-18
*CRJ 240 credit is given only to those who graduated POST academy from Dec. 2005 to the present.

AGS Degree
Criminal Justice
You are urged to consult with the criminal justice faculty advisor before beginning any program of study. This degree is articulated for transfer to Metropolitan State College of Denver (Metro State), University of Northern Colorado (UNC), and University of Colorado at Denver (UCD). These courses provide the basic preparation leading to criminal justice-related careers. The Criminal Justice program also offers an AGS transfer degree to Regis University for completion of a bachelor of science degree in public administration, criminal justice. Contact 303.914.6434 for advising. Note: The general education requirements are specific to this articulation agreement between RRCC and Regis.

Required Courses
CRJ 110 Introduction to Criminal Justice 3
CRJ 111 Substantive Criminal Law 3
CRJ 112 Procedural Criminal Law 3
CRJ 118 Report Writing 3
CRJ 210 Constitutional Law 3
CRJ 220 Human Relations and Social Conflict 3
CRJ 240 Criminal Investigations* 3
CRJ 245 Interview and Interrogation 3

General Education Courses Required 35
(must include PHI 112)
See page 29.

Total Credits 63
The Criminal Justice degree is also available online. Transfer your credits to Regis University and complete a bachelor of science in public administration online as well.

Certificate
Investigations
The Investigations Certificate Program will be of interest to you if you are seeking employment in the private sector or academic recognition in a specialized area of law enforcement.

Required Courses
CRJ 110 Introduction to Criminal Justice 3
CRJ 111 Substantive Criminal Law 3
CRJ 112 Procedural Criminal Law 3
CRJ 118 Report Writing 3
CRJ 210 Constitutional Law 3
CRJ 240 Criminal Investigations 3
CRJ 245 Interview and Interrogation 3

Elective Courses (Select two courses):
CRJ 190 Financial Investigations 3
CRJ 218 Drug Investigative Strategies 3
CRJ 231 Introduction to Forensic Science and Criminalistics 3
CRJ 246 Traffic Investigation 3
FST 252 Fire Arson Investigation 3

Total Credits 27

Certificate
Victim Assistance Direct Service
You must be computer literate and write well. If you do not have experience using a computer, take CIS 118, Introduction to PC Applications: 3 credits. Upon successful completion of this program, you should have the skills necessary for entry-level employment in victim assistance.

Required Courses
CRJ 110 Introduction to Criminal Justice 3
CRJ 150 Victims of Crime and Trauma 3
CRJ 151 Domestic Violence 3
CRJ 152 Sexual Assault 3
CRJ 153 Violence Against Children 3
CRJ 225 Crisis Intervention 3

CRJ 125 Law Enforcement Operations 3
CRJ 135 Judicial Function 3
CRJ 145 Correctional Process 3
CRJ 210 Constitutional Law 3
CRJ 220 Human Relations and Social Conflict 3
CRJ 230 Criminology 3
CRJ 289 Capstone 1

Certificate
Victim Assistance Direct Service
You must be computer literate and write well. If you do not have experience using a computer, take CIS 118, Introduction to PC Applications: 3 credits. Upon successful completion of this program, you should have the skills necessary for entry-level employment in victim assistance.

Required Courses
CRJ 110 Introduction to Criminal Justice 3

Victim Assistance Administration
Upon successful completion of this program and employment experience as a victim advocate, you should be able to perform the duties of a victim assistance agency director or administrator.

Required Courses
CRJ 110 Introduction to Criminal Justice 3
CRJ 150 Victims of Crime and Trauma 3
CRJ 239 Managing Emergency Worker Stress 3
ACC 121 Accounting Principles I 4
MAN 200 Human Resources Management I 3
MAN 226 Principles of Management 3
MAR 216 Principles of Marketing 3

Total Credits 22

Certificate

Basic Law Enforcement Training Academy P.O.S.T. Certification
This certificate program exceeds the Colorado Peace Officers Standards and Training (P.O.S.T.) requirements for peace officer entry-level training. Students earn 36 credits during this intense course of study. Eighteen of these credits may be used to meet a portion of the Law Enforcement Emphasis Area requirement of the Associate of Applied Science degree in Criminal Justice. This is not an open enrollment offering. You must make separate application to the Academy. See the Academy Director for details. Information: 303.914.6464 or 303.914.6462.

Required Courses
CRJ 101 Basic Police Academy I 6
CRJ 102 Basic Police Academy II 12
CRJ 104 Basic Law Enforcement Academy IV 1
CRJ 105 Basic Law 8
CRJ 106 Arrest Control Techniques 3
CRJ 107 Law Enforcement Driving 3
CRJ 108 Firearms 3
PED xxx Check with academy director 1

Total Credits 37

Culinary Arts
(In cooperation with the Rocky Mountain Chefs of Colorado and taught at Warren Tech)
This program is designed to prepare culinarians in hands-on, paid, full-time employment with an approved RMCC sponsoring house. Related classes are taught at Warren Tech for five hours per week, 90 hours per semester. This demanding six-semester (three-year) program will prepare and teach you to achieve certified culinarian status through the American Culinary Federation (ACF) and to earn a journeyman certificate through the United States Department of Labor, Bureau of Apprenticeship. For additional information, contact Joachim Schaaf at 303.982.8556.

Economics

Economics is the study of how society feeds, clothes, houses, and otherwise materially supports itself. It answers the fundamental questions of How? What? and For whom? Graduates work in business, government, and education in very colorful and varied careers, and they are able to contribute in many ways to answering these basic questions that confront all societies and individuals. Consult with a faculty advisor before beginning any program of study.

If you plan to transfer to a four-year college or university to complete a major in economics, you should complete the following courses. Consult with a faculty or academic advisor before beginning this program of study. These courses provide the basic preparation leading to political science-related careers.

Degree: Associate of Arts

Required Courses Credits  
MAT 121 College Algebra * 4  
POS 105 Introduction to Political Science* 3  
HIS 247 Contemporary World History* 3  
ECO 201 Principles of Macroeconomics* 3  
ECO 202 Principles of Microeconomics* 3  

* Fulfills General Education requirements.

Additional General Education courses  29  
See page 25.

Approved Electives  15  
See page 26.

Total Credits  60  

Electricity Commercial/Industrial/Residential

This program prepares you for the many career opportunities in the electrical industry. A thorough treatment of DC, AC, and polyphase electric circuits and solid-state power devices minimizes the possibility of technological obsolescence. Motor controls and programmable controllers let you design and build control systems. The electrical installation courses use the latest techniques according to the National Electrical Code. The electrical code and fire alarm classes are especially useful as preparation for state license and NICET certification examinations. This program is excellent for electricians, engineers, firefighters, building department inspectors, and maintenance personnel because it uses an extensive lab environment for important, hands-on experience in electrical classes. For advising, please call 303.914.6511.

Bachelor of Science transfer program: All Construction Technology associate of applied science graduates are eligible to participate in the Colorado Community College Pathways program, a strategic partnership between DeVry University – Colorado and Red Rocks Community College. Students may transfer 80+ credit hours from Red Rocks Community College to DeVry University and complete a bachelor of science in Technical Management in as few as two semesters. Contact your Construction Technology advisor for details.

Related course work may be found under Air Conditioning, Heating and Refrigeration, Carpentry, Construction Technology, Industrial Maintenance Technology, Plumbing, Process Technology, and Renewable Energy Technology.

AAS Degree

Fire Protection Technology

This degree prepares you for entry into a career in fire alarm systems design, fire alarm systems technician, or fire sprinkler systems design. This degree is also useful for anyone working for building or fire departments and conducting plan review or inspections. Emphasis is placed on the latest technologies in accordance with national and local fire codes. Preparation for NICET (National Institute for Certification in Engineering Technologies) certification in fire alarm systems levels I, II, III and IV is included in the program.

AAS Degree

Construction Electrician/IBEW/NECA

Combine your four or five years of apprenticeship with general education classes at RRCC for an associate of applied science degree via an articulation agreement between IBEW/NECA and RRCC.

The objective of the program is to allow members who have served their apprenticeship program through the National Joint apprenticeship (NJATC) to earn associate’s degrees. This program allows you to combine your excellent trade skills with your academic skills. Upon completion of the IBEW/NECA NJATC apprenticeship program, RRCC will grant 43 credits toward an AAS degree. The degree requires a total of 61 credits, of which 18 must be taken at RRCC or through RRCC Online. You must show proof of completion of IBEW/NECA Wireman or Outside Lineman NJATC programs. Consult with a Construction Technology advisor for details.

AAS Degree

Power Technology

Emphasis determined by the apprenticeship program completed:

- Line Technician
- Substation Electrician
- Meter Specialist
Apparatus Electrician
Instrument and Control Specialist
Electrician Specialist
Mechanic Specialist
Power Plant Operator
Field Engineering Specialist
Relay and Control Specialist
Utility Engineering Standards Specialist Tech

This associate of applied science degree is available for those who have completed or are currently enrolled in a power utility based apprenticeship. RRCC’s Construction Technology Electrical Program will grant 43 college credits toward an AAS degree. The degree requires a total of 61 credits, of which 18 must be taken at RRCC or through RRCC Online. By using your apprentice training and taking only six additional classes, you may obtain a degree online, at home, and at times of your choosing. Consult with a Construction Technology advisor for details.

Elementary Education
(See Teacher Education)

Emergency Management and Planning
(In cooperation with the Colorado Division of Emergency Management)

Degree: Associate of Applied Science
Emergency Management and Planning

Certificate:
Emergency Management and Planning

AAS Degree
Emergency Management and Planning
(Offered through CCCOnline)
Completion of this curriculum prepares you for
- Entry into a career in emergency management and planning.
- Promotion within an emergency management agency or the private sector.
- Advancement to a four-year college in pursuit of a bachelor of science degree in public administration with emphasis in emergency management and planning.

Emphasis is placed on modern emergency management and planning techniques as currently practiced by the public and private sectors. The ability to perform essential work in a disaster requires unique skills and knowledge of emergency management and planning. These skills are covered in depth. The Federal Emergency Management Agency (FEMA) recognizes this program as one of the pioneering programs in the country. The emergency management and planning courses are available over the Internet, providing flexibility and avoiding lengthy and costly travel. You may register for the program online at www.ccconline.org. (Click on the RRCC choice, then Emergency Management and Planning.)

Information: 303.914.6462.

Required Courses Credits
(30 credits required)
EMP 101 Principles of Emergency Management 3
EMP 105 Emergency Planning 3
EMP 106 Exercise Design and Evaluation 3
EMP 107 Emergency Operations Center and Communications 3
EMP 109 Incident Command System 3

Emergency Medical Services

This program is designed to train workers in the field of emergency medical service. It begins with an entry-level EMT-Basic certificate program and includes an associate of applied science degree in Paramedicine. Consult with an Emergency Medical Service faculty advisor early in your college career to explore all your educational options. A grade of C or better must be achieved in all EMS courses to graduate. Student’s must complete a criminal background check prior to enrolling in this program by using American Data Bank’s online background check procedures: www.healthcareex.com.

See page 27.

Total Credits 60

Engineering Graphics Technology

The Engineering Graphics Technology Program offers associate of science degrees and certificates. This program prepares you for employment as a design drafter. Prerequisites may be waived or challenged for previous educational, occupational, or related experience. The curricula are designed to develop communication, leadership, and critical thinking skills. The classroom setting will provide experience in the team approach to problem solving. You will use CAD (Computer-Aided Design) to form the foundation for drafting standards, conventions, layouts, designs, and details of working drawings and models. Specifications, handbooks, and technical data applicable to engineering graphics are emphasized. Lab fees are assessed. Consult with an Engineering Graphics Technology faculty advisor with any questions you have at 303.914.6572. Students must earn a C or better in all courses to graduate.

English

If you plan to transfer to a four-year college or university to complete a major in English or literature, you should complete the following courses. Consult with a faculty or academic advisor before beginning this program of study. These courses provide the basic preparation leading to English-related careers. You may earn an associate of arts degree by meeting the general education requirements on page 25. See page 26 for approved electives.

Degree: Associate of Arts

Required Courses Credits
LIT 115 Introduction to Literature * 3
ENG 221 Creative Writing 3
Choose two courses from the following:
LIT 201 Masterpieces of Literature I * 3
LIT 202 Masterpieces of Literature II* 3
LIT 211 Survey of American Literature I* 3
LIT 212 Survey of American Literature II* 3
LIT 221 Survey of British Literature I* 3
LIT 222 Survey of British Literature II* 3
*State-guaranteed general education courses

Additional General Education Courses 32
See page 25.

Approved electives 16
Select electives with ENG and LIT prefixes from the list on page 26 after talking to an English faculty advisor.

Total Credits 60

Entrepreneurship

(See Business)
FIW 206 Chairmaking  
(the Maloof Chairmaking class may be substituted with advisors permission)  
FIW 213 Furniture Making  
FIW xxx FIW Electives  
Additional Electives (see description above) 10  
General Education Electives 15  
See page 34.  
Total Credits 61

Certificate  
General Fine Woodworking  
Required Courses  
FIW 101 Introduction to Woodworking 8  
FIW 104 Elements of Design 2  
FIW 118 Lathe Turning 4  
FIW 125 Finishing 4  
(4 credits of special topics finishing classes may be substituted for FIW 125 with the advisor’s permission)  
FIW 201 Joinery 4  
(Honors joinery is highly recommend)  
FIW 213 Furniture Making 4  
Approved Electives 6  
Total Credits 32

Certificate  
Woodworking Fundamentals  
This certificate is designed to give students the basics of most woodworking applications. It is well suited for those students seeking an occupation within an existing woodworking industry and/or continuing their pursuit of a degree or a more advanced certificate.  
Required Courses  
FIW 101 Introduction to Woodworking 8  
FIW 201 Joinery 4  
Total Credits 12

Certificate  
Wood Turners  
This certificate is designed for students desiring to validate their experience in the world of wood turning. Students who successfully complete this degree are seeking to begin their own woodturning or craft-based businesses.  
Required Courses  
FIW 100 Fundamentals of Woodworking 4  
FIW 118 Lathe Turning 4  
FIW 119 Intermediate Turning I 4  
FIW 121 Intermediate Turning II 4  
Total Credits 16

Certificate  
Luthier Fundamentals  
As students progress through our rapidly growing luthier program, they often seek employment within the musical instrument repair and construction business or become entrepreneurs within this field of woodworking. Students should plan to take their electives under the luthier program with special topic classes focused on their field of study. This certificate is designed to validate their experience in this field.  
Required Courses  
FIW 101 Introduction to Woodworking 8  
FIW 102 Classical Guitar Making 5  
FIW 103 Steel String Guitar Making 5  
FIW xxx FIW Electives as selected by advisor 10  
Total Credits 28

Certificate  
Cabinetmaker  
Students seeking employment within the cabinetmaking business are required to show competencies on the tools associated with and the design of, basic box cabinetmaking. This certificate is designed to include those skills which are commonly sought within this field.  
Required Courses  
FIW 101 Introduction to Woodworking 8  
FIW 128 Doormaking 4  
FIW 209 Cabinetmaking 4  
Total Credits 16

Certificate  
Craftsman  
This certificate is designed for students who desire to show evidence of their knowledge of the basic skills required for a woodworking craftsman in order to pursue an entrepreneurial career within the field.  
Required Courses  
FIW 101 Introduction to Woodworking 8  
FIW 201H Honors Joinery (Bench Building) 4  
FIW 171 Woodworking Lab II 2  
FIW 213 Furniture Making 4  
Total Credits 18

Certificate

Artisan
The artisan of old was the builder of the product. As students progress through this certificate, they come to realize that the builder needs to have an intimate relationship with design. This certificate requires the completion of two particular projects chosen to illustrate the need to combine the building with the designing in the field of custom furniture building. The first project is a workbench and the second the completion of a toolbox. These are designed by the student to fit his or her individual needs. Projects will be judged by a panel of instructors and/or professionals in the field.

Certificate

Post-Degree Master Craftsman
This certificate expands skills to the level of Master Craftsman. Students are expected to develop individual portfolios that demonstrate their ability to set up and maintain equipment, design and build original pieces, and demonstrate specific skills through presentations from each course. Design skills and drawing proficiency are required. Additional courses may be required. A Master Craftsman designation requires submittal of three pieces to be judged by a board of professional woodworkers and instructors. Preliminary rehearsal submittals are encouraged to establish standards of craftsmanship.

Fire Protection Technology

(See Electricity)
# Fire Science Technology

## Degree: Associate of Applied Science

Fire Science Technology  
Fire Service Management  

### Certificates:
- Fire Fighter I  
- Fire Instructor  
- Fire Officer I  
- Fire Officer II  
- Fire Officer III  
- Driver Operator  
- Technical Heavy Rescue  
- Wildland Management  
- Fire Inspector  
- Fire Investigator  

Completion of this curriculum prepares you for  
- Entry into a career in fire suppression, prevention, or related fields  
- Promotion within a fire department or within the fire service  
- Transfer to a four-year college in pursuit of a bachelor of science degree.

## AAS Degree

### Fire Science Technology

This program of study is designed for students new to or preparing for the fire service. Students must earn a C or better in all fire science and general education courses to graduate.

### Fire Service Management

This degree is for students experienced as firefighters preparing for career advancement. Students must earn a C or better in all fire science and general education courses to graduate.

Emphasis is placed on the latest methodologies of fire prevention, incident management, and leadership principles within the fire service. Upper level course work includes the study of fire scene strategy and tactics, the national incident management system, legal and administration issues in the fire service, and fire service leadership. The majority of this degree program is available online.

The Fire Service Management degree program credits may be transferred to Regis University, or other colleges, towards a bachelor of science degree in public administration or applied science.

Foreign Languages

If you plan to transfer to a four-year college or university to complete a major in a foreign language, you must complete the following courses. Consult with a faculty or academic advisor before beginning this program of study. These courses provide the basic preparation leading to professional advancement in careers such as business, computer technology, medicine, engineering, and in the natural and behavioral sciences.

Degree: Associate of Arts

Required Courses Credits
Choose one (FRE, GER, SPA)  
FRE/GER/SPA 111 French/German/Spanish Language I 5
FRE/GER/SPA 112 French/German/Spanish Language II 5
FRE/GER/SPA 211* French/German/Spanish Language III 3
FRE/GER/SPA 212* French/German/Spanish Language IV 3
* Fulfills General Education requirement

Additional General Education Courses 32
See page 25.

Approved Electives 12
See page 26.

Total Credits 60

Geology

The completion of the following courses is appropriate for you if you plan to transfer to a four-year college or university to complete a major in geology. Consult with a geology faculty advisor before beginning any program of study. Some courses might not be offered each semester. These courses provide the basic preparation leading to geology-related careers.

Degree: Associate of Science

Required Courses Credits
BIO 112 General College Biology II 5
CHE 111 General College Chemistry I 5
GEY 111 Physical Geology* 4
GEY 121 Historical Geology* 4
GEY xxx GEY elective 4
MAT 121 College Algebra* 4
MAT 122 College Trigonometry 3
*Fulfills General Education requirement

Additional General Education Courses 27
See page 27.

Approved electives 4
Total Credits 60

Hairstylist

(See Cosmetology)

Health Professions

Certificates:

- Phlebotomy
- RN Refresher Program
- Nurse Aid
- Holistic Health Professional

Certificate

Holistic Health Professional
This program was originally created for nurses and is now open to all interested persons who are ready to expand their knowledge and skills in holistic care. The program is intended to enhance health-care practice as well as to prepare you to be a facilitator in the redesigning of the new health care system. Courses are offered to integrate healing on all levels – physical, emotional, mental, and spiritual. To ensure enrollment, register no later than 10 days before class.

Required Courses Credits
HHP 229 Wellness Counseling 1
HHP 244 Holistic Health I 1
HHP 254 Holistic Health II 2
HHP 256 Holistic Health III* 2
*13 credits must be completed before participating in HHP 256 Holistic Health III

Faculty advisor-approved electives 10

Total Credits 16

Certificate

Nurse Aide
Requirements for this program: Proof of immunizations, health care provider - BLS, and a letter from a physician stating you are physically and mentally able to participate in this course, including a lifting requirement. Register for the NUA 170 clinical section that corresponds to the NUA 101 class. You must pass NUA 101 with a grade of C or better in order to participate in the NUA 170 clinical rotation. You must pass both NUA 101 and NUA 170 with a grade of C or better in order to receive a certificate of completion. For further information, call 303.914.6621. You must complete a criminal background check prior to enrolling in this course (valid for 90 days) by using American DataBank’s online background check procedures at www.healthcareex.com. The cost is currently $59.00.
Certificate
Phlebotomy
This CCHS approved certificate is designed to prepare individuals to gain employment as a phlebotomist in the health care industry. Students will receive an extensive and varied program of study that includes theory and practice, specimen setup and process, medical terminology specific to the laboratory, customer service skills, regulatory issues, venipuncture and fingerstick technique and numerous other collection procedures. After successful completion of this course and the phlebotomy internship, the student is eligible to apply and sit for the national AMT (American Medical Technologist) certification exam. Immunizations and background check are required before the start of the internship. Students must complete a criminal background check 90 days prior to enrolling in the internship by using American DataBank’s online background check procedures at www.healthcareex.com. The internship, HPR 180, must be started within four months of completing HPR 112. Please fill out an application form to be considered for this course. This can be found on the Red Rocks/programs/ Health Careers Web site. Permission of the instructor is required to register for both courses. Students must be at least 18 years old to register for this program.

Required Courses Credits
HPR 112 Phlebotomy Certification 4
HPR 180 Phlebotomy Internship 3
Total Credits 7

Certificate
RN Refresher Program
Requirements for this program: A current Colorado RN license, proof of immunizations, liability insurance, Health Care Provider – BLS certification, and a letter from a physician stating you are physically and mentally able to participate in this course, including a lifting requirement. You must pass HPR 210 and NUR 290 with a grade of C or better in order to participate in NUR 291 clinical rotation. You also must pass HPR 210, NUR 290, and NUR 291 with a grade of C or better in order to receive a Certificate of Completion. For further information, call 303.914.6621. You must complete a criminal background check prior to enrolling in this course (valid for 90 days) by using American DataBank’s online background check procedures at www.healthcareex.com. The cost is currently $59.00.

Required Courses Credits
NUR 290 RN Refresher 10
NUR 291 RN Refresher Clinical 2
HPR 210 Physical Assessment 2
Total Credits 14

History
The completion of the following courses is appropriate for students who plan to transfer to a four-year college or university to complete a major in history. This program provides preparation if you are interested in teaching, government service, law, research, business and industry, journalism, publishing, libraries, or working with historical societies, museums, and/or archives. Consult with a faculty advisor before beginning this program of study.

Required Courses Credits
HIS 101 Western Civilization I* 3
HIS 102 Western Civilization II* 3
HIS 111 World Civilization I* 3
HIS 112 World Civilization II* 3
HIS 201 U.S. History I* 3
HIS 202 U.S. History II* 3
HIS 247 Contemporary World History* 3
*Fulfills General Education requirement.

Holistic Health Professional
(See Health Professions)

HVAC/R
(See Air Conditioning, Heating, and Refrigeration)
Industrial Maintenance Technology

The Industrial Maintenance Technology program will prepare students for entry level employment as industrial maintenance technicians. An industrial maintenance technician is a vital member of a team of people responsible for planning, analyzing, and maintaining a wide variety of complex production equipment, power generation equipment and sophisticated control systems. Colorado industrial firms require employees with knowledge and skills in technology application, engineering and design, production processes planning and control, equipment maintenance, communication and data manipulation and file exchange. Increasingly complex and automated industrial electrical and mechanical systems require maintenance skills, diagnostic and troubleshooting skills and repair skills to assure their continued and safe operation.

This AAS degrees and certificates found within this program will provide the student with the basic skills required to safely maintain production equipment and understand the basic principles of operation and control. The graduate will understand the technical aspects of the work, the work place responsibilities of the individual and the importance of safety in this vitally important, shift oriented position.

The industries interested in the graduates from the program include, but are not limited to alternate energy source production, petroleum product manufacturing, pharmaceutical production, food and beverage, electric power generation, drinking water treatment and wastewater treatment, oil exploration and production, mining and mineral processing and numerous product manufacturing facilities.

Mathematics

If you plan to transfer to a four-year college or university to complete a major in mathematics, you should complete the following courses. Consult with a faculty or academic advisor before beginning this program of study. These courses provide the basic preparation leading to mathematics-related careers. You may earn an associate of science degree by meeting the general education requirements.

Medical Imaging

Radiologic Technology Program

Degree: Associate of Applied Science

Radiologic Technology

The Radiologic Technology Program is designed to provide medical diagnostic radiography training for students who wish to establish eligibility to participate in the national certification examination of the American Registry of Radiologic Technologists. Graduates who pass this national certifying examination are qualified to assume diagnostic radiographer positions in thousands of medical facilities across the nation, both in hospitals and private clinics or offices. After gaining on-the-job experience, you may be allowed to participate in advanced level examinations, such as computed tomography, magnetic resonance imaging, or mammography. The radiography program is also an entry-level program for advanced imaging modalities, such as ultrasound, nuclear medicine, and radiation therapy. You must complete 17 credits of general education course work, as well as HPR 178 and RTE 101, prior to applying. Please visit the Medical Imaging Web site or contact a Medical Imaging advisor for more information on the application process. Information sessions for the Radiologic Technology Program are held regularly throughout the year.

**Additional fees are charged for RTE 181.

### Medical Imaging Sonography Program

**Degree: Associate of Applied Science**

- **Diagnostic Medical Sonography***
- **Vascular Technology***
- **Diagnostic Cardiac Sonography***

**Certificates:**
- **Diagnostic Medical Sonography***
- **Vascular Technology***
- **Diagnostic Cardiac Sonography***

* Pending Approval

The program prepares you for entry-level positions in the field with specialization in general sonography, vascular technology, or cardiac sonography. Upon completion of the program, you will be eligible to take the American Registry for Diagnostic Medical Sonography (ARDMS) certifying examination. You may choose between the associate of applied science degree option or the certificate of completion option. You must earn a C or better in all DMS courses to graduate.

**Additional fees apply for DMS 281.**

**Information:** 303.914.6034

Medical Office Technology

The medical office programs are designed to prepare the student for a career as an allied health professional, assisting physicians in ambulatory settings. The TOEFL or Accuplacer test is required for international applicants whose primary language is other than English. CPR certification and immunizations are required prior to the start of clinical (Assisting) internships. Students must complete a criminal background check 90 days prior to enrolling in internships by using American DataBank’s online background check procedures at www.healthcareex.com. A minimum grade of C must be achieved for all required courses to graduate with a certificate or degree. Students should consult with the Medical Assisting Coordinator to ensure proper sequencing of courses and other educational options.

Medical Assisting

The Medical Assisting program prepares you for a career as a multi-skilled professional in the allied health field performing administrative and clinical procedures. This program is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP). All students who successfully complete the program are required to take the national certification exam (AAMA) to become a Certified Medical Assistant, fee for national certification exam included with internship. A math prerequisite of MAT 060 or higher is required for MOT 140 and 150 for all certificate and degree students. Internship must be started within four months of completing MOT 140. Please note that not all courses are offered in the summer session.

Required Courses Credits
BIO 106 Basic Anatomy and Physiology 4
CIS 118 Introduction to PC Applications 3
COM 126 Communications in Healthcare 3

Multimedia Graphic Design

The MGD & Photography Department uses state-of-the-art equipment and has four classroom instructional labs with 16 - 24 workstations in each classroom. The MGD/PHO Student Computer Lab allows you to work outside the classroom with the same applications that are used in the classrooms. The computers in MGD & PHO are the fastest available. Currently, the labs are equipped with both Dell PC computers and Macintosh Power Macs and G5s. Peripheral devices are also available, including color output, black and white output, flatbed scanners, 3D digital scanner, Wacom tablets and video capture stations.

The MGD Department also has two darkrooms for the use of PHO and MGD students. The department has several film, digital, and digital video cameras which students may use on a 48-hour check-out basis.

Red Rocks Community College offers both associate degrees and certificates in Multimedia Graphic Design Program. If you plan to transfer to a baccalaureate institution, you should consider the Associate of General Studies. The certificate program and associate of applied science degrees will prepare you to enter the work force upon graduation.

AAS Degree
Emphasis in Graphic Design & Print Production
The Graphic Design/Print Production emphasis within the Multimedia Graphic Design Department prepares you to work in the traditional graphic design and printing industries. You will develop designs for electronic production for both digital and traditional press. In addition, you will learn design techniques for packaging and point of sale and other forms of print media. Printing press technology is also addressed.

Certificate
Emphasis in Game Art
The game design certificate prepares you for entry-level art positions in the gaming industry. Common projects are the creation of character models and textures from concept art, storyboarding, and animating in 2D or 3D. You will also have the opportunity to work with an industry-standard gaming engine. Course electives allow you to gain experience with game programming and sound design.

Required Courses Credits
MGD 111 Adobe Photoshop I 3
or
CWB 162 Introduction to Image Editing 3
MGD 112 Adobe Illustrator I 3
MGD 167 Game Design I 3
or
CSC 126 Game Design and Development 3
MGD 152 Digital Animatics 3
MGD 143 Motion Graphics Design I: Adobe Flash 3
or
CWB 245 Complete Web Animation: Adobe Flash 3
MGD 153 3D Animation I: Maxon Cinema 4D 3
MGD 119 Autodesk Maya I 3
MGD 267 Game Design II 3
MGD/CSC Advisor Approved Electives 6
Total Credits 30

Certificate
Emphasis in Web Design
The Web design express certificate within the Multimedia Graphic Design Department prepares you for entry-level work in Web page production. You will learn the importance of page layout, user interface, and design, as well as site design.

Required Courses Credits
CWB 110 Complete Web Authoring: HTML 3
MGD 111 Adobe Photoshop I 3
MGD 112 Adobe Illustrator I 3
MGD 141 Web Design I: Dreamweaver 3
MGD 143 Web Motion Graphic Design I: Flash 3
Total Credits 15

Certificate
Emphasis in Advanced Web Design
You will evaluate the look and feel of Web sites, learn HTML and HTML editors, and learn advanced Web production techniques, such as adding sound, video, or animation to a Web site. You are exposed to pre-production, production, and post-production concepts. Motion graphic techniques, video-editing, and sound design used in Web development will be addressed. You must complete or be concurrently enrolled in the Web Design Certificate program.

Required Courses Credits
MGD 104 Videography I 3
MGD 163 Sound Design I: Apple Logic Pro 3
MGD 164 Digital Video Editing I: Final Cut Pro 3
MGD 241 Web Design II: Adobe Dreamweaver 3
MGD 243 Web Motion Graphic Design II: Adobe Flash 3
Total Credits 15

Certificate
Emphasis in Professional Photography – Traditional Film
You will learn traditional film photography techniques in photographic darkroom production, lighting, equipment, and business management. History and photographic film theory are covered as well. You will need a 35mm SLR film camera with Manual Controls.

Required Courses Credits
ART 113 History of Photography 3
ART 138 Film Photography I 3
ART 139 Film Photography II 3
ART 140 Color Film Photography I 3
PHO xxx Sp. Tp. Close-up and Macro Photography 3
PHO 260 Event and Wedding Photography 3
ART 251 Portrait Photography 3
PHO 204 Commercial Studio Lighting 3
PHO xxx Special Topic: Business of Photography 3
JOU 121 Photojournalism 3
Total Credits 30
Certificate

Emphasis in Professional Photography – Digital Photography
Students learn techniques in digital photography such as camera techniques, digital printing production, lighting, equipment, and business management. History and digital photography theory are covered as well. Students need a digital SLR camera or a digital camera with manual settings.

Certificate

Emphasis in Professional Photography – Traditional Film and Digital Photography
You will learn techniques in both film and digital photography such as camera techniques, print production, lighting, equipment, and business management. History and photographic theory are covered as well. You will need both a traditional film SLR camera and a digital SLR camera or a digital camera with manual settings.

Certificate

Outdoor Recreation Leadership
(Pending approval)

By completing the Outdoor Recreation Leadership Certificate Program, you will have a well-rounded outdoor education experience and a high degree of training specific to employment within the outdoor industry. Types of organizations that may employ graduates include alpine/cross country ski areas, flyfishing guide services, summer adventure camps, community nature centers and outdoor programs, whitewater river outfitters, outdoor equipment purveyors, and companies employing wilderness guides. In addition to field-based experiential learning of basic technical skills, you will be prepared to be a future outdoor trip leader by examining and developing the interpersonal skills needed for positions in outdoor leadership.

In order to complete the Outdoor Recreation Leadership Certificate, you must complete the following required courses and at least one (1) area of emphasis.

<table>

Outdoor Recreation Leadership Certificate 20
You can design your own course of study by choosing at least four credits from each of the three programs of emphasis above, in addition to the required Outdoor Recreation Leadership Certificate courses. Students completing this program emphasis can expect a well-rounded outdoor recreation experience and training in various aspects of outdoor recreation and leadership competencies.

| Total Required Credits | 32 |

100
Park Ranger Technology

The Park Ranger Technology Program provides training for those seeking careers in natural resource protection, interpretation, and management. Law enforcement, natural resource interpretation, public safety services and outdoor recreation/education are the major areas of concentration, reflecting the needs of the industry and potential employment in all levels of government as well as private companies.

To become a full-time professional Park Ranger, most hiring agencies have three basic requirements: 1) a bachelor’s degree from an accredited institution of higher learning; 2) basic park ranger knowledge and skills; 3) seasonal park ranger employment experience. The Park Ranger Technology (PRT) certificate programs are designed around all agency requirements and allow students to design a program around specific interests, career goals, and previous training or education. The PRT Certificate Program is appropriate for the following individuals:

- Students with a high school diploma, or some college, wishing to begin a program of study to prepare them for employment as a professional Park Ranger. In addition to the PRT Certificate of Concentration, the PRT program advisor will help you design an appropriate 2-year associates degree that can be transferred to a four-year institution.
- Students seeking part-time or full-time seasonal employment as a Park Ranger with an agency (local, state, or federal) which may not require a four-year degree. Students must first consult with the PRT program advisor before beginning any program of study.
- Students who already have a four-year degree in an unrelated field and who wish to make a career change.

Physical Education/Outdoor Education

Degree: Associate of General Studies – Specialist

The completion of the following recommended course of study is appropriate if you intend to transfer to the University of Northern Colorado in order to complete a bachelor’s degree with a minor in Outdoor/Adventure Education. This degree also will transfer to Western State College. Please meet with the Outdoor Physical Education faculty advisor (303.914.6238) before beginning this program.

The associate of general studies degree in outdoor physical education is also designed as a stand-alone program to allow you to enter a career as an outdoor educator, wilderness guide, or one of many careers in the outdoor industry.

Information: 303.914.6238 or email bill.haas@rrcc.edu

Required Courses Credits
PED 163 Orienteering/Routefinding 3
PED 162 Map and Compass for the Outdoors 3
PED 165 Wilderness Survival Skills 2
PED 166 Winter Survival Skills 1
PER 168 Outdoor Equipment and Facilities 3
PED 207 Intermediate Whitewater Canoeing 1
PED 237 Paddle Sports 2
PER 153 Whitewater Rafting Guide 2

Total Required and Elective Credits 30

Certificate
Resource Interpretation
The Resource Interpretation Certificate is for those working with resource interpretation, naturalists, and/or other nature center work with the public.

Required Courses Credits
PRA 102 Introduction to Park Ranger Technology 3
PRA 203 Natural Resource Management 3
PRA 205 Resource Interpretation 3
PRA 218 Outdoor Recreation Leadership 3
PRA 280 Park Ranger Internship 3

Total Credits 15

Philosophy

Degree: Associate of Arts

The completion of the following courses is appropriate if you are planning to transfer to a four-year college or university to complete a major in philosophy. Meet with a philosophy faculty advisor before beginning any program of study.

Required Courses Credits
PHI 111 Introduction to Philosophy 3
PHI 112 Ethics 3
PHI 113 Logic 3
PHI 114 Comparative Religions 3

Phlebotomy

(See Health Professions)

Photography

(See Multimedia Graphic Design)
The rigorous, year-round, full-time, 24-month curriculum leads to a certificate that qualifies graduates to sit for the Physician Assistant National Certifying Examination (PANCE). The first 12 months of the program is devoted to classroom, laboratory, and small-group work, most of which is on campus. The second 12 months is devoted to series off-campus clinical rotations, some of which may be scheduled at sites outside of the Denver-Aurora metropolitan area. Qualified students may seek to co-register at an affiliate institution to obtain a master’s degree to be completed at the same time as the certificate.

Program Application and Prerequisites:
Candidates must submit an application to the program found at the program’s Web site at www.rrcc.edu/pa/
A personal interview is required prior to matriculation. The annual application deadline is December 19 for admission the following August of each year. Currently at the time of application, candidates must have completed a minimum of 90 credits at a regionally accredited institution of higher education with a minimum grade point average of 3.0 in the last 45 undergraduate credits undertaken. This requirement will be changing to; a Bachelors degree from a regionally accredited institution of higher education with a minimum grade point average of 3.0 in the last 45 credits undertaken. At the time of application, the following courses must have been completed with a grade of C or better:

Minimum Prerequisite Course Credits:
College algebra or higher math 4
English electives 6
Human Anatomy and Physiology (200 level or higher) 6
Microbiology (200 level or higher) 3
Introduction to Statistics 3
Chemistry (with either a 200 level or higher organic or biochemistry component) 10
Psychology or social science electives 6
General College Biology 3

International transcripts must be evaluated by an agency acceptable to RRCC. A TOEFL test with a computer-based score of at least 100 or paper equivalent is required of international candidates whose primary language is other than English or whose transcripts reflect course work not taught in English. An essential packet of materials is available online at www.rrcc.edu/pa/ or by calling 303.914.6386.

If selected for the program, students will be required to prove competency in medical terminology or to take a medical terminology course in the summer before the program begins. At the time of application, candidates must have had at least 2,000 hours of direct human patient care in a formal health care setting. The many professions that meet this requirement include pharmacist, EMT/paramedic, nurse, respiratory therapist, certified nursing assistant, medical office assistant with direct patient care duties, X-ray or surgical technologist. A more extensive list can be found on the Web site. One class of 28 students is admitted in August of each year. Advanced placement and credit for prior learning are not available. Tuition is approximately $300.00/credit for Colorado residents and $400.00/credit for nonresidents. Student fees average $400.00 per semester for all students. Tuition and fees are subject to change.

Once accepted into the program, students must complete a criminal background check using American DataBank’s online background check procedures at www.healthcareex.com. The cost is currently $60.00.

Prior to clinical rotations, students must undergo a health screening and produce evidence of: a current cardiopulmonary resuscitation (CPR) card; current immunization or immunity (immunization series or positive titer) to diphtheria, pertussis, tetanus, measles, mumps, rubella, varicella, and hepatitis B or sign a declination form; and a screening for tuberculosis (TB).

Required First Year Courses:
PAP 200 Biochemistry and Cell Biology 3
PAP 203 Role of the PA and Health Care Issues 1
PAP 205 Human Anatomy and Development 3
PAP 207 Health Promotion 1
PAP 210 Human Physiology 3
PAP 212 Introduction to Emergency Medicine 1
PAP 217 Introduction to Laboratory Medicine 1
PAP 218 Eval. of the Medical Literature 1
PAP 219 History and Physical Examination I 2
PAP 220 History and Physical Examination II 2
PAP 221 Clinical Medicine I 3
PAP 222 Clinical Medicine II 3
PAP 223 Pediatrics 2
PAP 224 Introduction to Surgery 1
PAP 225 Women’s Health Care 1
PAP 226 Clinical Procedures 1
PAP 228 Problem-Based Learning 2
PAP 230 Pharmacology I 1
PAP 231 Pharmacology II 3
PAP 235 Human Pathology 4
PAP 240 Behavioral Science in Primary Care 3
Total First Year Credits 42

Required Second Year Courses:
PAP 261 - 269 (4 credits each)
Clinical rotations in family medicine, internal medicine, pediatrics, emergency medicine, surgery, women’s health, orthopedics, geriatrics, and psychiatry
Total Second Year Credits 42
Total Program Credits 78
**Physics**

The completion of the following courses is appropriate for you if you plan to transfer to a four-year college or university to complete a major in physics. Consult with a physics faculty advisor before beginning any program of study. These courses provide the basic preparation leading to physics-related careers. Some courses might not be offered each semester.

- 60

**Plumbing**

This program provides basic entry level and job upgrade skills. It is also intended to assist in the preparation of plumbers for successful completion of state plumbing exams. Completion of plumbing related coursework at Red Rocks Community College can replace the field experience (work under a master plumber) required to qualify to take the exams as follows: one hour of classroom training equals one hour of on the job training up to a maximum of one year.

**Bachelor of Science transfer program:** All Construction Technology Associate of Applied Science graduates are eligible to participate in the Colorado Community College Pathways program, a strategic partnership between DeVry University – Colorado and Red Rocks Community College. Students may transfer 80+ credit hours from Red Rocks Community College to DeVry University and complete a Bachelor of Science in Technical Management in as few as two semesters.

The plumbing career pathway curriculum is under revision. Beginning in Fall 2008, the sequence of basic skills courses will align with the Plumbing, Heating, Cooling Contractors (PHCC) national four-year apprentice-training curriculum. Slight changes will be made to reflect Colorado Codes and regulations. Consult with a Construction Technology advisor at 303.914.6611 for additional details.

Specialized and job up-grade courses (for example, PLU–207 International Plumbing Code, PLU–205 Backflow Prevention Certification Training, PLU–247 Hot Water Heating Systems) will continue to be taught as stand alone courses.

Apprenticeship courses will be offered (pending approval) in the Fall 2008/Spring 2009 semesters:

**Fall – 2008**

- PLU – 111 Year 1 Apprenticeship – First Semester - 5 Credits
  Introduces the student to the plumbing profession in a lab / lecture format. It provides students the opportunity to learn the application of basic materials, and proper use of hand and power tools. Students will also review the application of basic mathematics used in the profession.
  OSH – 127 is a co-requisite for PLU 111. This requirement will be waived for students who provide documentation of completion of the OSHA 10 Hour Construction Safety and Health Outreach Training.

**Spring- 2009**

- PLU – 112 Year 1 Apprenticeship – Second Semester – 5 Credits
  Covers installation of piping and fixtures and the application of relative physical science of plumbing systems in a lab / lecture format. The course also includes an introduction to blueprint reading and sketching.
  MAT – 107 or higher level MAT course is a co-requisite for PLU 112. This requirement will be waived for students who have previously completed an approved college level math course.

Power Plant Technology
(Awarded through Bismarck State College)

The field of power plant technology offers one of the best paying and most interesting careers for the technician/operator. Job demand is strong in the power plant technology field. Graduates are often hired for work in other operations besides power plants because of their theoretical and practical training in mechanical and electrical technology. Possible opportunities exist in other industrial process operations, research and development, or sales and service fields.

Information: 303.914.6063 chuck.beck@rrcc.edu
www.rrcc.edu/isod/

Degree: Associate of Applied Science
Power Plant Technology

RRCC offers a unique opportunity for Colorado-based students to earn a highly sought after degree from the premier Power Plant Technology Program in the United States. Through a cooperative agreement between RRCC and Bismarck State College, you will complete your general education credits and basic electrical fundamentals credits at the RRCC campus and enroll for online courses from Bismarck State College for the specialized power plant technology courses.

Pre-Nursing

Admission and course requirements vary among nursing programs. Please work closely with an advisor from the college or university you plan to attend to earn your RN degree.

Recommended Courses  Credits
ANT 101  Cultural Anthropology  3
BIO 201  Human Anatomy and Physiology I  4

- Instrumentation
- Process Plant Safety
- Process Plant Operations
- Process Plant Quality Management

AAS Degree

Process Technology

The Process Technology Program will prepare students for entry level employment as process operators or technicians. A process operator/technician is a key member of a team of people responsible for planning, analyzing, and controlling the production of electrical energy, oil and gas energy resources, alternate energy production and food and beverage and consumer products.

This program will provide the student with an understanding of process equipment and its principles of operation and control. The graduate will understand the technical aspects of the work, the responsibilities of the work and the importance of safety in this vitally important, shift oriented position.

For the latest information, visit www.rrcc.edu
The industries interested in the graduates from the program include, but are not limited to oil exploration and production, mining and mineral processing, petroleum product manufacturing, pharmaceutical production, food and beverage, electric power generation, drinking water treatment and wastewater treatment.

Psychology
Degree: Associate of Arts

The field of psychology is concerned with the study of normal and abnormal human behavior. Psychologists frequently provide personal counseling in hospitals, clinics, schools, corrections facilities, or in their own private practices. Experimental psychologists work in laboratories and try to develop theories of why and how people behave as they do. Completion of the following courses is appropriate for students who plan to transfer to a four-year college or university to complete a major in psychology. Consult with a faculty advisor before beginning any program of study.

Required Courses Credits
PSY 101 General Psychology I * 3
PSY 102 General Psychology II * 3
Choose one of following advanced classes
PSY 215 Psychology of Adjustment 3
PSY 226 Social Psychology 3
PSY 235 Human Growth and Development * 3
PSY 238 Child Development 3
PSY 249 Abnormal Psychology 3
*Fulfills General Education requirement.

Renewable Energy Technology*
*Program pending approval
Renewable energy sources are the cutting edge of America’s quest for a diversified and secure energy future. Environmentally friendly and regenerating, renewable energy sources have always been the right choice, but with rising fuel costs, renewable energy sources are no longer a choice but a requirement. Careers in renewable energy will be increasing dramatically nationally as well as locally. There is an increasing demand for skilled workers in the local area for solar installers, home energy auditors and many other areas.

AA Degree

Elementary Education
The AA degree requirements comply with the state-wide Elementary Teacher Education Articulation Agreement between RRCC and Colorado’s public four-year colleges and universities. If you plan to transfer to a four-year college or university within Colorado to complete teacher certification, you must complete the 41 credits outlined below with a C or better. The remaining 19 credits needed for the AA degree are specific to individual transfer schools. Before beginning to take classes, you must meet with RRCC’s Teacher Education faculty advisor to plan a course of study and to examine the list of approved credits for each four-year institution in Colorado.

General Education Courses

Communication
ENG 121 English Composition I (B or better) 3
ENG 122 English Composition II (B or better) 3

Humanities
LIT 115, LIT 201, or LIT 202 3

Mathematics

Total Credits  61

AA Degree

Secondary Education
If you plan to transfer to a four-year college or university to complete a secondary education certification program, meet with the RRCC teacher education faculty advisor to design a course of study. Electives will include RRCC education courses and courses in your area of emphasis.
AAS Degree
Paraeducator
The federal No Child Left Behind Act mandates paraeducator requirements. In order to be considered as a highly qualified paraeducator, you must meet one of the following requirements:

- successfully complete two years of post-secondary education
- OR
- demonstrate your knowledge through a formal academic assessment (the Work Keys test) of writing, reading, and mathematics skills.

RRCC has developed a Paraeducator Certificate and an education track to assist paraeducators in meeting these new requirements. If you plan to transfer to a four-year college or university to complete teacher certification, you should consider the Associate of Arts degree, Elementary Education. This AAS degree prepares you to work as a paraeducator in the K-12 classroom.

Certificate
Costume Basics
The Certificate in Costume and Fashion is appropriate for those who want to prepare for a career in costume and fashion design. Upon completion of the courses, you will be prepared for entry-level employment in costume and fashion careers as a stitcher, wardrobe assistant, costume shop assistant, tailor, makeup artist, window dresser, and other fashion and entertainment-related employment opportunities. This certificate also prepares you for pursuing an advanced degree in costume design and fashion. Consult with the Director of Theatre Arts and Dance early in your college career to explore all your educational options. You must earn a C or better in all theatre courses to graduate.

This certificate is intended for a one-year course of study, divided in two semesters.

Required Courses Credits
THE 105 Introduction to Theatre Arts 3
THE 104 Basic Costume and Apparel Construction 3
THE 109 Basics of Pattern Drafting 3
THE 135 Stage Makeup I 2
THE 211 Development of Theatre I 3
or
THE 165 Costume and Fashion Industry 3

Vascular Technology
(See Medical Imaging)

Water Quality Management Technology

The Water Quality Management Technology Program is a comprehensive study of all levels and areas of operations in the water and wastewater industry. You will be introduced to the many functions and career opportunities within the field. You can then establish an educational program that best fits your goals and interests.

If you are working in the industry, you can obtain higher education and skill levels for higher operator certification by attending specific courses offered. A degree in water quality management technology will give you all the instruction necessary to work in supervisory and management positions.

### Welding

*(In cooperation with and taught at Warren Tech)*

This program is designed to develop the skills necessary for entry-level employment in the welding industry. Entry-level welder certification from the American Welding Society may be earned upon completion of the program.

### Degree: Associate of Applied Science

**Welding**

### Certificates:

- OFW and OFC Certificate
- SMAW Certificate
- GMAW Certificate
- FCAW Certificate
- GTAW Certificate

### AAS Degree

Woodworking
(See Fine Woodworking)
Watch Your Future Grow

Red Rocks Fact:
Last fall, over 600 Red Rocks graduates transferred to four-year colleges and universities across the country.

Where will Red Rocks take YOU?

www.rrcc.edu • 303.914.6600
Here you will find descriptions of the courses offered in each of our programs. These course descriptions and course numbers are used by all Colorado Community Colleges to make it easier for you to select courses and transfer among state colleges. (A course numbered XXX means that the course is pending approval by the RRCC Curriculum Committee and CCCS.)
AAA – Academic Achievement

AAA 050 Semester Survival
2 credits
AAA 050 emphasizes basic study skills in order to bolster your chances of completing the current semester successfully.

AAA 101 The Student Experience
1 credit
AAA 101 introduces you to college culture and prepares you for the challenges you will face in higher education. Through a series of interactive seminars, you will discover learning in a multicultural environment and use college and community resources to attain educational and career goals.

ACC – Accounting

www.rrcc.edu/business/

ACC 101 Fundamentals of Accounting
3 credits
ACC 101 presents the basic elements and concepts of accounting, with emphasis on the procedures used for maintaining journals, ledgers, and other related records, and for the completion of end-of-period reports for small service and merchandising businesses.

ACC 116 Computerized Billing
3 credits
ACC 116 introduces the concepts and operations of a computerized billing system. Topics include searches, queries, entries and posting account charges and payments, corrections and audits of journals, and preparation and printing of reports.

ACC 121 Accounting Principles I
4 credits
Prerequisites: Accuplacer scores of 80 or better for reading and 45 or better for elementary algebra or equivalent SAT scores ACT scores or course work. ACC 121 introduces the study of accounting principles for understanding of the theory and logic that underlie procedures and practices. Major topics include the accounting cycle for service and merchandising companies, special journals and subsidiary ledgers, internal control principles and practices, notes and interest, inventory systems and costing, plant assets and intangible asset accounting, and depreciation methods and practices.

ACC 122 Accounting Principles II
4 credits
Prerequisite: ACC 121 or equivalent ACC 122 continues the study of accounting principles as they apply to partnerships and corporations. Major topics include stocks and bonds, investments, cash flow statements, financial analysis, budgeting, and cost and managerial accounting.

ACC 123 Accounting Principles I Recitation
1 credit
Corequisite: ACC 121
ACC 123 offers an accompanying recitation for ACC 121, Accounting Principles I. The course exposes you to a broader accounting experience in the foundational studies of accounting. You will be introduced to additional problems, case studies, and applications of accounting in real-world business situations, using individual and team problem solving.

ACC 124 Accounting Principles II Recitation
1 credit
Corequisite ACC 122
ACC 124 offers an accompanying recitation for ACC 122, Accounting Principles II. The course exposes you to a broader accounting experience in financial and managerial accounting. You will be introduced to additional problems, case studies, and applications of accounting in real-world business situations, using individual and team problem solving.

ACC 131 Income Tax
3 credits
Prerequisite: ACC 121 strongly recommended
ACC 131 presents basic concepts of federal income taxation, including gross income, deductions, accounting periods and methods, and property transactions, with emphasis on taxation of individuals and sole proprietors.

ACC 135 Spreadsheet Applications for Accounting
3 credits
Prerequisite: ACC 121 ACC 135 introduces spreadsheets as an accounting tool. Using an accounting perspective, you will apply fundamental spreadsheet concepts. The spreadsheets are used as a problem solving and decision making tool.

ACC 138 Payroll and Sales Tax
3 credits
Corequisite: ACC 101, ACC 121 or equivalent knowledge
ACC 138 acquaints you with laws pertaining to payroll and sales taxes including record keeping rules. You will prepare various federal, state, and local forms for reporting payroll taxes and sales taxes. A computerized payroll simulation is included in the course.

ACC 211 Intermediate Accounting I
4 credits
Prerequisite: ACC 122
ACC 211 focuses on comprehensive analysis of generally accepted accounting principles (GAAP), accounting theory, concepts, and financial reporting principles for public corporations. It is the first of a two-course sequence in financial accounting and is designed primarily for accounting and finance majors. It focuses on the preparation and analysis of business information relevant and useful to external users of financial reports; explores the theories, principles, and practices surveyed in Accounting Principles; and critically examines real-world financial analysis and reporting issues.
ACC 212 Intermediate Accounting II
4 credits
Prerequisite: ACC 211
ACC 211 focuses on the theoretical and practical aspects of accounting for long-term liabilities, shareholders equity, investments, pensions, and leases. It includes income tax allocation, financial statement analysis, cash flow statements, and accounting methods changes.

ACC 216 Governmental and Not-for-Profit Accounting
3 credits
Prerequisite: ACC 122
ACC 216 addresses concepts of budgetary control as a matter of law and public administration theory. Accounting principles and procedures necessary to implement budgetary controls for governmental units and other not-for-profit institutions and organizations are presented.

ACC 226 Cost Accounting
3 credits
Prerequisite: ACC 122
ACC 226 presents cost accumulation methods and reports. It focuses on the concepts and procedures of job order, process, standard, and direct cost systems, budgeting, planning, and control of costs.

ACC 227 Cost Accounting II
3 credits
Prerequisite: ACC 226
ACC 227 is a continuation of ACC 226 and focuses on the decision-making aspects of managerial accounting using electronic spreadsheet applications for assigned problems. Topics include product pricing strategy, capital budgeting, the statement of cash flows, and application of linear programming.

ACC 245 Computerized Accounting with a Professional Package
3 credits
Prerequisite: ACC 121 or ACC 101
ACC 245 integrates accounting principles and practices with a computerized accounting package such as Peachtree, DacEasy, or other professional package. This course emphasizes computerized functions of the general ledger and integrated accounts payable, accounts receivable, invoicing, and payroll systems.

ACC 275 Special Topics in Accounting
1-3 credits
ACC 275 provides you with a vehicle to pursue in depth exploration of special topics of interest.

ACC 280 Internship
1-3 credits
Prerequisite: Permission of Instructor
ACC 280 meets the individual needs of students. You will engage in intensive study or research under the direction of a qualified instructor.

ACE – Architectural

ACE 221 Building Electrical/Mechanical Systems
3 credits
ACE 221 acquaints you with electrical and mechanical equipment and systems in buildings. Lectures cover the basic principles of electrical distribution, artificial lighting, fire protection, plumbing systems, and heating, ventilating, and air conditioning (HVAC) systems.

ACE 275 Special Topics in Accounting
1-3 credits
ACC 275 provides you with a vehicle to pursue in depth exploration of special topics of interest.

ACE 285 Independent Study
1-3 credits
Prerequisite: Permission of instructor
ACC 285 meets the individual needs of students. You will engage in intensive study or research under the direction of a qualified instructor.

ACT – Automotive Collision Technology

www.rrcc.edu/autotech/

ACT 101 Introduction to Automotive Collision Technology
4 credits
ACT 101 is designed as an orientation to the automotive collision repair industry. You will receive an overview of job possibilities as well as learn various types of automobile construction. Names, uses, and maintenance procedures for a variety of tools and equipment are covered. The course focuses on general collision repair and refinishing shop safety procedures with an emphasis on personal and environmental safety issues. You will also learn the proper handling and disposal of hazardous materials, parts. Safety procedures and equipment use are included.

ACT 110 Safety in Collision Repair
2 credits
ACT 110 introduces the student to safety techniques and operation as it relates to shop safety and industry standards. The student is exposed to regulations and collision shop operations. In addition, the student becomes involved with VICA, developing writing and speaking skills.

ACT 111 Metal Welding and Cutting I
3 credits
ACT 111 covers sheet metal oxygen-acetylene welding and MIG welding techniques including safety, materials, equipment and setups. Personal and vehicle protective measures prior to welding procedures is presented.

ACT 112 Non-Structural Repair Preparation
3 credits
ACT 112 covers the basic characteristics of preparation for automotive repair. Students familiarize themselves with damage analysis, extent of damage and the sequence of repair. Focuses on removal of vehicle components and protection of panels along with storage and labeling of parts. Safety procedures and equipment use are included.

ACT 122 Panel Repair and Replacements
3 credits
Prerequisite: ACT 101, ACT 110, or Faculty Consent
ACT 122 covers straightening options prior to replacement decisions, and emphasizes the identification, handling, and replacement of parts such as adjustment and alignment of bolt-on parts, fixed parts, and accessories.

For the latest information, visit www.rrcc.edu
ACT 123 Metal Finishing and Body Filling
3 credits
Prerequisite: ACT 101, ACT 110, or Faculty Consent
ACT 123 covers metal finishing, metal shrinking, and the use of cosmetic fillers. Emphasis is placed on the use of proper tools required to perform these tasks, including use, selection, and safety procedures for tools and equipment selected.

ACT 124 Exterior Panel Replacement (Weld-on)
3 credits
Prerequisite: ACT 101, ACT 110, or Faculty Consent
ACT 124 covers the replacement of welded on panels such as quarters, roofs, cab panels, side panels, etc. Emphasis is placed on the use of proper tools required to perform these tasks, including use, selection, and safety procedures for tools and equipment selected.

ACT 131 Structural Damage Diagnosis
3 credits
Prerequisite: ACT 101, ACT 110, or Faculty Consent
ACT 131 focuses on methods of frame measurement using dimension charts and service manuals. It includes the use of self centering gauges and mechanical and electronic measuring. Appropriate terms and definitions of vehicle structures and vehicle diagnosis is covered including identification and analysis of damage. This course includes the techniques for basic hook ups and safety procedures used in making corrective pulls.

ACT 132 Structural Damage Repair
3 credits
Prerequisite: ACT 101, ACT 110, ACT 131, or Faculty Consent
ACT 132 continues the study and application of frame measurement and repair. You will apply methods found in dimension charts and service manuals for vehicle diagnosis and straightening. Training includes the replacement of a structural panel with the identification of damaged suspension components replaced according to manufacturer’s recommendations.

ACT 141 Refinishing Safety
1 credit
Prerequisite: ACT 101, ACT 110, or Faculty Consent
ACT 141 covers correct use of safety procedures used in refinishing. Proper fit and use of various types of protective equipment is emphasized. The identification of tools and equipment, with use and maintenance is covered including national guidelines for proper disposal and handling of hazardous materials.

ACT 142 Surface Preparation I
2 credits
Prerequisite: ACT 101, ACT 110, or Faculty Consent
ACT 142 covers surface preparation for refinishing including cleaning, sanding, feather edging, chemical treatment of bare materials, and priming. The application of primers, including rationale and use is covered. In addition you will learn skills for proper removal and storage of exterior trim and protection of adjacent panels.

ACT 143 Spray Equipment Operation
2 credits
Prerequisite: ACT 101, ACT 110, or Faculty Consent
ACT 143 covers the inspection, cleaning, and determination of the condition of spray guns and related equipment. You will learn skills for adjusting spray guns by setting-up and testing spray gun operations.

ACT 144 Refinishing I
2 credits
Prerequisite: ACT 101, ACT 110, or Faculty Consent
ACT 144 provides the knowledge needed for application and use of automotive paint systems. This course includes locating color codes, mixing formulas, matching, and selections of materials. Proper paint gun use and adjustments is taught for the product being applied. In addition, you will practice correct masking and detailing techniques.

ACT 151 Plastics and Adhesives I
1 credit
Prerequisite: ACT 101, ACT 110, or Faculty Consent
ACT 151 is designed to teach the state-of-the-art repair for both rigid and flexible plastic components and choosing adhesives using the latest manufacturer’s repair techniques.

ACT 160 Custom Painting
3 credits
Prerequisite: ACT 101, ACT 110, or Faculty Consent
ACT 160 provides instruction in basic custom paint application such as pearl paints, candy colors, metal flakes, etc.

ACT 170 Automotive Collision Technology Lab Experiences I
1-9 credits
Prerequisite: Completion of all courses in ACT specialization area.
ACT 170 is designed to prepare you to perform basic tasks for a specialized area in a controlled instructional lab.

ACT 171 Automotive Collision Technology Lab Experiences II
1-9 credits
Prerequisite: Completion of all courses in ACT specialization area.
ACT 171 is a continuation of lab experience designed to prepare the individual to perform basic tasks for a specialized area in a controlled instructional lab.

ACT 172 Automotive Collision Technology Lab Experiences III
1-9 credits
Prerequisite: Completion of all courses in ACT specialization area.
ACT 172 is a continuation of Lab experience designed to prepare the individual to perform basic tasks for a specialized area in a controlled instructional lab.
ACT 175 Special Topics
0.5-9 credits
ACT 175 assists those who are interested in individual topics within the normal curriculum. You will identify and select objectives that you need for industry upgrades or special training to enter the workforce. The student may explore current topics, issues or activities related to one or more aspects of the automotive collision industry.

ACT 180 Automotive Collision Repair Internship
1-9 credits
Prerequisite: Completion of coursework in specialized area.
ACT 180 is designed to meet the needs of the student in selected specialized area in a work-based environment. Individualized instruction at the job site is coordinated based on student’s interest and instructor approval.

ACT 181 Automotive Collision Repair Level II Internship
1-9 credits
ACT 181 course is a continuation of Level I Internship. Student uses the knowledge and skills acquired throughout the ACT program in a job site placement.

ACT 205 Estimating and Shop Management
3 credits
Prerequisite: ACT 101, ACT 110, or Faculty Consent
ACT 205 initiates written estimates on damaged vehicles. You will learn shop management including work orders, ordering supplies, operating costs, time cards, shop liabilities, employee’s safety, and insurance management issues.

ACT 211 Metal Welding and Cutting II
2 credits
Prerequisite: ACT 101, ACT 110, or Faculty Consent
Corequisite: ACT 111, 124 ACT 211 covers mig welding procedures of seam weld, stitch welds, and destructive testing. Resistance spot welding, which includes two-sided spot weld, plasma cutting, safety, materials, and equipment and operating procedures, with emphasis on shop safety are also presented.

ACT 220 Structural Repair II
4 credits
Prerequisite: ACT 101, ACT 110, and all other lower Structural Repair courses or Faculty Consent
ACT 220 provides training on the operation of equipment and techniques used to straighten and align damaged frames. Identification and analysis of frames, hot and cold stress relieving, servicing and sectioning of structural frames is also included. Liability issues and the importance of making these corrections according to the manufacturer’s recommendations and industry standards are emphasized.

ACT 226 Production
4 credits
Prerequisite: ACT 101, ACT 110, ACT 205, or Faculty Consent
ACT 226 simulates the actual working procedures of an auto collision repair technician. The student performs a variety of structural and non-structural repairs, as well as refinishing operations in accordance with industry procedures, and in compliance with estimates and flat-rate times from collision estimating guides. You will also develop leadership abilities and time management skills.

ACT 231 Advanced Structural Damage Diagnosis and Repair
3 credits
Prerequisite: ACT 101, ACT 110, and all other lower Structural Repair courses or Faculty Consent
ACT 231 covers major automotive body repair in vehicles with major damage on conventional structures and unibody structures. Student learns the operation of equipment and techniques used to straighten and align damaged frames. Identification and analysis of frames, hot and cold stress relieving, servicing and sectioning of structural frames is also included. Liability issues and the importance of making these corrections according to the manufacturer’s recommendations and industry standards are emphasized.

ACT 232 Fixed Glass Repair
2 credits
Prerequisite: ACT 101, ACT 110, or Faculty Consent
ACT 232 covers the removal and replacement of fixed glass using manufacturer’s specifications, proper tools, and recommended materials. Application of skills is demonstrated and used for the removal and replacement of modular glass using manufacturer’s specifications and procedures.

ACT 241 Paint Defects
3 credits
Prerequisites: ACT 101, ACT 110, and all other lower level Refinishing courses or Faculty Consent
ACT 241 covers paint defects and emphasizes the causes of paint defects with methods to cure problems during and after refinishing procedures. You will learn to identify the proper surface preparations to apply prior to refinishing. Training includes using paint equipment and determining paint film thickness with proper temperatures for refinishing.

ACT 242 Surface Preparation II
2 credits
Prerequisite: ACT 101, ACT 110, and all other lower level Refinishing courses or Faculty Consent
ACT 242 emphasizes surface preparation for refinishing including cleaning, sanding, feather edging, chemical treatment of bare metals, and priming. The application of primers, including why and where to use them is covered.

ACT 243 Refinishing II
2 credits
Prerequisite: ACT 101, ACT 110, and all other lower level Refinishing courses or Faculty Consent
ACT 243 is an advanced course in which you will learn the necessary skills used to tint and blend panels working with the latest finishes and paints. Special coatings and procedures are covered in this course.

ACT 244 Final Detail
2 credits
Prerequisites: ACT 101, ACT 110, or Faculty Consent
ACT 244 focuses on the detailing procedures in paint refinishing of vehicles. Methods and techniques are specialized to enhance painting skills. Transfers and tapes methods with decals etc. are demonstrated.
### ACT 251 Plastics and Adhesives II
1 credit
Prerequisites: ACT 101, ACT 110, ACT 151, or Faculty Consent
ACT 251 emphasizes advanced plastic and adhesives. The current state-of-the-art repair for both rigid and flexible plastic components using the latest manufacturer’s repair techniques are presented. Sheet Molded Compound procedures and the use of proper adhesives are covered.

### ACT 266 Restraint Systems
1 credit
You will learn to inspect, remove, and replace active restraint systems, passive restraint systems, and supplemental restraint systems. Procedures are demonstrated for disarming and diagnosing restraint systems using electronic equipment and trouble codes. Instruction for passive restraint replacement is also covered.

### ANT – Anthropology
www.rrcc.edu/anthropology/

#### ANT 101 Cultural Anthropology
3 Credits
ANT 101 studies human cultural patterns and learned behavior. It includes linguistics, social and political organization, religion, culture and personality, culture change, and applied anthropology.

#### ANT 107 Introduction to Archaeology
3 Credits
ANT 107 introduces the science of recovering the human prehistoric and historic past through excavation, analysis and interpretation of material remains. The course includes a survey of the archaeology of different areas of the Old and New Worlds and also includes the works of selected archaeologists and discussions of major archaeological theories.

### ANT 111 Physical Anthropology
3 Credits
ANT 111 studies human biology and its effects on behavior. It includes principles of genetics and evolution, vertebrates and primates, human origins, human variation, and ecology.

### ARM – Military Science (U.S. Army)

#### ARM 111 Adventures in Leadership I
2 credits
ARM 111 introduces you to fundamentals of leadership and the United States Army. It includes Army leadership doctrine, team-building concepts, time and stress management, an introduction to cartography and land navigation, marksmanship, briefing techniques, and basic military tactics. The course includes lecture and laboratory.

#### ARM 112 Adventures in Leadership II
2 credits
ARM 112 investigates leadership in small organizations. The course covers basic troop leading procedures, military first aid and casualty evacuation concepts, creating ethical work climates, an introduction to Army organizations and installations, and basic military tactics. The course introduces you to effective military writing styles and includes lecture and laboratory.

#### ARM 211 Methods of Leadership and Management I
3 credits
ARM 211 reviews leadership and management concepts including motivation, attitudes, communication skills, problem solving, human needs and behavior, and leadership self-development. You will refine written and oral communications skills and explore the basic branches of the Army, and officer and NCO duties. You will conduct practical exercises in small unit light infantry tactics and perform as midlevel leaders in the cadet organization. The course includes lecture and laboratory.

#### ARM 212 Methods of Leadership and Management II
3 credits
ARM 212 focuses on leadership and management functions in military and corporate environments. You will study various components of Army leadership doctrine to include the four elements of leadership, leadership principles, risk management, and planning theory, the be-know-do framework, and the Army leadership evaluation program. The course continues to refine communication skills and includes lecture and laboratory.

### ART – Art
www.rccc.edu/arts/

#### ART 110 Art Appreciation
3 credits
ART 110 introduces the cultural significance of the visual arts, including media, processes, techniques, traditions, and terminology.

#### ART 111 Art History Ancient to Medieval
3 credits
ART 111 provides the knowledge base to understand the visual arts, especially as related to Western culture. The course surveys the visual arts from the Ancient through the Medieval periods.

#### ART 112 Art History Renaissance to Modern
3 credits
ART 112 provides the knowledge base to understand the visual arts, especially as related to Western culture. The course surveys the visual arts from the Renaissance through the Modern periods.

### ART 113 History of Photography
3 credits
Prerequisite: basic computer skills ART 113 surveys the history of photography from its beginning to the present. Course emphasis is on individual photographers who have made significant contributions in the field. You will attain an overview of technical, artistic, commercial, and social development of photography as a form of visual communication. You
ART 121 Drawing I  
3 credits  
ART 121 investigates the various approaches and media that you need in order to develop drawing skills and visual perception.

ART 122 Drawing II  
3 credits  
Prerequisite: ART 121 or permission of instructor  
ART 122 explores expressive drawing techniques with an emphasis on formal composition, color media, and content or thematic development.

ART 123 Watercolor I  
3 credits  
Prerequisite: ART 121, ART 131, or permission of instructor  
ART 123 introduces the basic techniques and unique aspects of materials involved in the use of either transparent or opaque water media or both. Color theory is included.

ART 124 Watercolor II  
3 credits  
Prerequisite: ART 123, or permission of instructor  
ART 124 continues the study of watercolor techniques, emphasizing original compositions and experimentation with materials. Color theory is included.

ART 131 2-D Design  
3 credits  
ART 131 examines the basic elements of design, visual perception, and artistic form and composition as they relate to two-dimensional media.

ART 132 3D Design  
3 credits  
ART 132 focuses on learning to apply the elements and principles of design to three-dimensional problems.

ART 138 Film Photography I  
3 credits  
ART 138 introduces you to black and white photography as a fine art medium and develops skills necessary for basic camera and darkroom operations. You will learn to create sharp, properly exposed photographs using black and white film. You will also gain a working knowledge of a camera's controls, use of basic filters, and processing and printing black and white photographs. A 35mm SLR film camera is required for this class.

ART 139 Film Photography II  
3 credits  
Prerequisite: ART138 Photography I or permission of instructor  
ART 139 expands on skills learned in Photography I in the areas of camera and lab operations and emphasizes individual creativity. Photography II includes the development of a comprehensive photographic portfolio. A35mm SLR film camera is required for this class.

ART 140 Color Film Photography I  
3 credits  
Recommended Prerequisites: ART 138 Photography I or permission of instructor  
ART 140 introduces you to the fundamentals of color film photography. Topics such as color theory, light, history of color photography, composition, and film are covered in this course. You will use and develop 35mm color slide film. A 35mm SLR film camera is required for this class.

ART 141 Jewelry and Metal Work I  
3 credits  
ART 141 introduces the construction of jewelry designs in metals and small casting techniques.

ART 142 Jewelry and Metal Work II  
3 credits  
Prerequisite: ART 141, or permission of instructor  
ART 142 emphasizes conceptual design development, using casting and specialized techniques.

ART 143 Digital Photography I: Adobe Photoshop Elements  
3 credits  
Recommended Prerequisite: basic computer skills or MGD 101  
ART 143 analyzes acquisition and manipulation of digital images. You will study traditional photography methods of weaving contrast, sharpness, color, and composition together within the limitations of computer technology. The practical aspects of setting up a shoot, equipment needs, and camera controls are discussed. You will examine color correction, restoration, colorizing, and archiving digital images. A digital SLR camera with manual settings is required for this class. You are required to have a basic knowledge of computers prior to taking this class. You should be able to upload and download files from the Internet, external devices, and flash drives; use the Internet for basic research; be able to send email and attachments; save information to CD/DVD, flash drive, or other external devices. Students without these skills are required to take MGD 101 Introduction to Computer Graphics either concurrently or prior to taking courses in digital photography.

ART 146 Stained Glass I  
3 credits  
ART 146 develops a basic understanding of and approach to stained glass. You will gain an understanding of and appreciation for the properties of glass and the nature of finished stained glass construction.
ART 147 Stained Glass II
3 credits
Prerequisite: ART 146 or permission of instructor
ART 147 is a continuation of Stained Glass I. You will advance to a clearer but still basic understanding and approach to stained glass. You will gain a greater understanding of and appreciation for the properties of glass and the nature of finished stained glass construction.

ART 154 Sculpture I
3 credits
Prerequisite: ART 131, ART 132, or permission of instructor
ART 154 introduces the fundamentals of sculpture such as modeling, casting, carving, and the processes of assemblage.

ART 155 Sculpture II
3 credits
Prerequisite: ART 154 or permission of instructor
ART 155 develops an understanding and focus on manipulation of three-dimensional form, with greater concentration on individual creativity and style.

ART 156 Figure Drawing I
3 credits
ART 156 introduces the basic techniques of drawing the human figure.

ART 157 Figure Painting I
3 credits
ART 157 focuses on painting the human figure and includes a brief survey of figure painting and instruction in the fundamental methods of composition and expressions.

ART 161 Ceramics I
3 credits
ART 161 introduces traditional and contemporary ceramic forms and processes, including handbuilding and throwing on the potter’s wheel.

ART 162 Ceramics II
3 credits
Prerequisite: ART 161
ART 162 is a continuation of ART 161. This course emphasizes skill, technique and form.

ART 175-177 Special Topics
1-6 credits
Prerequisite: Permission of instructor
ART 175-177 cover specific topics in art. These courses are offered as needed for credit appropriate to the topic. Each offering includes a description of the topic(s).

ART 207 Art History – 1900 to Present
3 credits
ART 207 provides you with the knowledge base to understand the visual arts as related to Modern and Contemporary visual art. This course surveys world art of the twentieth century, including Modernism to Post-Modernism.

ART 209 Studio Art
3 credits
Prerequisite: Permission of instructor
ART 209 is designed for advanced students interested in further exploring an art discipline to develop a more comprehensive portfolio.

ART 211 Painting I
3 credits
Prerequisite: ART 121, ART 131, or permission of instructor
ART 211 explores basic techniques, materials, and concepts used in opaque painting processes in oil or acrylic painting to depict form and space on a two-dimensional surface.

ART 212 Painting II
3 credits
Prerequisite: ART 211 or permission of instructor
ART 212 further explores techniques, materials, and concepts used in opaque painting processes in oil or acrylic painting, with emphasis on composition and content development.

ART 213 Painting III
3 credits
Prerequisite: ART 212 or permission of instructor
ART 213 provides continued exploration of techniques, materials, and concepts used in opaque painting processes in oil or acrylic painting, with emphasis on composition and content development.

ART 214 Painting IV
3 credits
Prerequisite: ART 213 or permission of instructor
ART 214 explores advanced techniques, materials, and concepts used in opaque painting processes, with emphasis on the development of themes and a cohesive body of work.

ART 221 Drawing III
3 credits
Prerequisite: ART 122 or permission of instructor
ART 221 offers a continued study of expressive drawing techniques and development of individual style, with an emphasis on composition and technique variation.

ART 222 Drawing IV
3 credits
Prerequisite: ART 221 or permission of instructor
ART 222 explores advanced drawing problems with an emphasis on conceptual development and portfolio and/or exhibition quality presentation.

ART 223 Watercolor III
3 credits
Prerequisite: ART 124 or permission of instructor
ART 223 concentrates on the advanced study of subject development, form, color, and theme in watercolor.

ART 224 Watercolor IV
3 credits
Prerequisite: ART 223 or permission of instructor
ART 224 concentrates on the advanced study of techniques, individual style of expression, and consistency of compositional problem-solving in watercolor.

ART 225 Printmaking I
3 credits
Prerequisites: ART 121 and ART 131, or permission of instructor
ART 225 introduces the basic techniques and skills of printmaking as a fine art medium. Instruction includes an understanding of visual concepts as they relate to prints. The course may include introduction to relief, intaglio, lithography and screen printing techniques.
ART 226 Printmaking II
3 credits
Prerequisite: ART 225 or permission of instructor
ART 226 introduces more advanced techniques and skills of printmaking as a fine art medium. Instruction includes an understanding of visual concepts as they relate to prints. The course may include introduction to relief, intaglio, lithography and screen printing techniques.

ART 231 Advanced 2D Design
3 credits
Prerequisite: ART 131
ART 231 provides continued study of the principles and elements of two-dimensional design with an emphasis on visual communication for further application in fine art, commercial art, and/or applied arts.

ART 232 Advanced 3D Design
3 credits
Prerequisite: ART 132
ART 232 provides continued study of the principles and elements of three-dimensional design with an emphasis on visual communication for further application in fine art, commercial art, and/or applied arts.

ART 240 Color Film Photography II
3 credits
Prerequisite: ART 140 Color Photography I or permission of instructor
ART 240 is designed for students who are developing a personal style and aesthetic in the medium of color film photography and is an extension of Color Photography I. Personal expression is stressed through individual critiques and projects. A 35mm SLR film camera is required for this class.

ART 241 Jewelry and Metal Work III
3 credits
Prerequisite: ART 142 or permission of instructor
ART 241 focuses upon advanced work and emphasizes experimentation with materials and techniques, individual designs, and superior craftsmanship.

ART 242 Jewelry and Metal Work IV
3 credits
Prerequisite: ART 241 or permission of instructor
ART 242 provides continued study of the properties of metal and stone in creating decorative work. You will employ advanced design and techniques to explore original, personal expression. A variety of materials and approaches are used in discovering new and independently creative finished pieces.

ART 243 Digital Photography II
3 credits
Prerequisite: ART 143 Digital Photography I or permission of instructor and basic computer skills
ART 243 is a continuation of the beginning digital photography class. This class looks at digital photography in terms of design and communication factors, including color, visual design, lighting, graphics, and aesthetics. A digital SLR camera with manual settings is required for this class. You are required to have basic computer skills or to have taken MGD 101 Intro to Computer Graphics.

ART 244 Advanced 3D Design
3 credits
Prerequisite: ART 132
ART 244 provides continued study of the principles and elements of three-dimensional design with an emphasis on visual communication for further application in fine art, commercial art, and/or applied arts.

ART 246 Stained Glass III
3 credits
Prerequisite: ART 147
ART 246 provides continued instruction in which you advance to a clearer and more advanced understanding and approach to stained glass. You will gain a greater understanding of and appreciation for the properties of glass and the nature of finished stained glass construction. This course emphasizes original, personal expression.

ART 247 Stained Glass IV
3 credits
Prerequisite: ART 246
ART 247 continues instruction in stained glass with students advancing to a clearer understanding and approach. You will gain greater appreciation for the properties of glass and the nature of finished stained glass construction. This course focuses on original, personal expression. Student independence is emphasized with regard to use of material and tools and a wide variety of glass.

ART 248 Digital Darkroom: Adobe Photoshop
3 credits
Recommended Prerequisites: ART 143 Digital Photography I or permission of instructor and basic computer skills
ART 248 is essentially Photoshop for Photographers. You will learn computer-aided photography and darkroom techniques. The emphasis of this course is image-editing software, which is used to color correct, retouch, and composite photographic images. Other topics include image acquisition, storage, file management, special effects, hard copy, and Web-based image output. A digital SLR camera with manual settings is required for this class. You are required to have basic computer skills or to have taken MGD 101 Intro to Computer Graphics.

ART 251 Portrait Photography
3 credits
Recommended Prerequisites: ART 138 Photography I or ART 143 Digital Photography I
ART 251 teaches the technical and aesthetic aspects of studio and location portrait photography. This course explores the personal style of portraiture, the history of the field, and portraiture as a visual language and creative expression and also includes lighting, composition, posing, and equipment selection. Both film and/or digital SLR cameras with manual settings may be used for this class.

ART 252 Landscape Photography
3 credits
Recommended Prerequisites: ART 138 Photography I or AR T143 Digital Photography I
ART 252 is designed for the advanced photography student interested in perfecting skills in shooting landscape or scenic photographs. Emphasis is placed on careful attention to detail and lighting conditions and use of medium and large format equipment in both color and black-and-white images. Both film and/or digital SLR cameras with manual settings may be used for this class.
ART 254 Sculpting the Figure
3 credits
ART 254 focuses on sculpting the human figure using modeling techniques in clay.

ART 256 Advanced Figure Drawing
3 credits
Prerequisite: ART 156
ART 256 provides continuing study of the various methods of drawing the human figure, with emphasis on the description of form and individual style.

ART 257 Advanced Figure Painting
3 credits
Prerequisite: ART 157
ART 257 offers continued study of painting the human figure with advanced problem-solving in composition and experimentation with materials and techniques.

ART 258 Sculpture III
3 credits
Prerequisite: ART 155 or permission of instructor
ART 258 focuses on advanced individual sculpture projects, emphasizing experimentation with materials, accomplished technique and conceptual significance.

ART 275-277 Special Topics
1-6 credits
Prerequisite: Permission of instructor
ART 275-277 cover specific topics in art. These courses are offered as needed for credit appropriate to the topic. Each offering includes a description of the topic(s).

ART 280 Internship
1-6 credits
Prerequisite: Permission of instructor
ART 280 provides the opportunity for you to gain supervised occupational experience in any of the disciplines involving the visual arts, including, but not limited to, gallery or museum administration and graphic design. Instruction is coordinated by the on-site supervisor and instructor and is totally based on your occupational experience plan.

ASE – Automotive Service Technology

www.rrcc.edu/autotech/

ASE 101 Auto Shop Orientation
2 credits
ASE 101 provides you with safety instruction in the shop and on the automobile. Emphasis is placed on the proper use and care of test equipment, precision measuring and machining equipment, gaskets, adhesives, tubing, wiring, jacks, presses, and cleaning equipment and techniques.

ASE 110 Brakes I
3 credits
ASE 110 covers basic operation of automotive braking systems. The course includes operation, diagnosis, and basic repair of disc brakes, drum brakes, and basic hydraulic systems.

ASE 120 Basic Auto Electricity
2 credits
ASE 120 introduces automotive electricity and includes basic electrical theory, circuit designs, and wiring methods. Focuses on multi-meter usage and wiring diagrams.

ASE 123 Battery Starting and Charging
2 credits
ASE 123 covers the operation, testing, and servicing of automotive battery, starting, and charging systems. Includes voltage and amperage testing of starter and generator, load testing and maintenance of a battery, and starter and generator overhaul.

ASE 130 General Engine Diagnosis
2 credits
ASE 130 focuses on lecture and related laboratory experiences in the diagnosis and necessary corrective actions of automotive engine performance factors.

ASE 132 Ignition System Diagnosis and Repair
2 credits
Prerequisite: ASE 130
ASE 132 focuses on theory and related laboratory experiences in the diagnosis, service, adjustments and repair of various automotive ignition systems.

ASE 134 Automotive Emissions
2 credits
Prerequisite: ASE 132
ASE 134 focuses on theory and laboratory experiences in the diagnosis and repair of automotive emission control systems.

ASE 140 Suspension and Steering I
3 credits
ASE 140 focuses on theory and related experiences in the diagnosis and service of suspensions and steering systems and their components.
For the latest information, visit www.rrcc.edu

**ASE 150 Automotive U-joint and Axle Shaft Service**  
2 credits  
ASE 150 studies the operating principles and repair procedures relating to axle-shafts, drive shafts, and universal joints.

**ASE 151 Automotive Manual Transmission/Transaxles and Clutches**  
2 credits  
ASE 151 focuses on theory and related laboratory experiences in the diagnosis and repair of automotive manual transmissions, transaxles, clutches, and related components.

**ASE 152 Differentials and 4WD/AWD Service**  
2 credits  
ASE 152 focuses on theory and related laboratory experiences in the diagnosis and repair of automotive differentials, transfer cases, four wheel and all wheel drive units.

**ASE 160 Automotive Engine Removal and Installation**  
1 credits  
ASE 160 focuses on theory and laboratory experiences in the removal and installation procedures of the automotive engine as they relate to front-wheel and rear-wheel drive vehicles.

**ASE 161 Engine, Disassembly Diagnosis and Assembly**  
5 credits  
ASE 161 focuses on theory and laboratory experiences in the disassembly, diagnosis, and reassembly of the automotive engine. Topics include the diagnostic and repair procedures for the engine block and head assemblies.

**ASE 201 Automotive Parts Management**  
1 credits  
ASE 201 covers instruction as to the proper methods in completing parts invoices, repair orders, sales receipts, and tickets. Also included are handling and pricing procedures used in parts areas: warehouse distributor, jobber, retail, and wholesale prices.

**ASE 210 Brakes II**  
3 credits  
Prerequisite: ASE 110  
ASE 210 covers the operation and theory of the modern automotive braking systems. This course includes operation, diagnosis, service, and repair of anti-lock braking systems, power assist units, and machining operations on brake systems.

**ASE 221 Automotive Body Electrical**  
4 credits  
Prerequisite: ASE 120  
ASE 221 provides a comprehensive study of the theory, operation, diagnosis, and repair of electrical/electronic vehicle accessories such as lights, wipers, horns.

**ASE 231 Automotive Computers**  
2 credits  
Prerequisites: ASE 120, ASE 134, ASE 220, ASE 231  
ASE 231 focuses on theory and related laboratory experiences in the inspection and testing of typical computerized engine control systems.

**ASE 233 Fuel Injection and Exhaust Systems**  
4 credits  
Prerequisites: ASE 120, ASE 134, ASE 231  
ASE 233 focuses on theory and related laboratory experiences in the diagnosis and repair of electronic fuel injection systems and modern exhaust systems.

**ASE 235 Driveability Diagnosis**  
1 credit  
Prerequisite: ASE 233  
ASE 235 emphasizes theory and related laboratory experience in diagnostic techniques and the use of diagnostic scan tools, oscilloscopes, lab scopes, multi-meters, and gas analyzers. You will diagnose live vehicle driveability problems.

**ASE 240 Suspension and Steering II**  
3 credits  
Prerequisite: ASE 140  
ASE 240 emphasizes theory and related experiences in the diagnosis and service of active suspensions and steering systems and wheel alignment.

**ASE 250 Automatic Transmission/Transaxle Service**  
1 credit  
ASE 250 focuses on practical methods of maintaining, servicing, and performing minor in car adjustments on an automatic transmission and transaxle.

**ASE 251 Automatic Transmission/Transaxle Diagnosis and Assemblies**  
5 credits  
Prerequisite: ASE 250  
ASE 251 covers diagnosis, principles of hydraulics, principles of electronic components, power flow, theory of operation, removal of transmission/transaxle, tear down, replacement of components, measurement and subsequent adjustment of components, and replacement of transmission/transaxle.

**ASE 265 Automotive Heating and Air Conditioning**  
5 credits  
ASE 265 emphasizes theory and related laboratory experiences in the diagnosis and service of automotive heating and air conditioning systems and their components.

**ASE 280 Internship: Electrical and Engine Performance**  
0.5-6 credits  
Prerequisites: ASE 120, ASE 130  
ASE 280 focuses on practical on-the-job, work related experience that corresponds to the area of study.

**ASE 281 Internship: Heavy Duty and Power Train**  
0.5-6 credit  
Prerequisite: ASE 130  
ASE 281 focuses on practical on-the-job, work related experience that corresponds to the area of study.
ASE 282 Internship: General (Summer) 0.5-6 credits
Prerequisite: Permission of instructor
ASE 282 emphasizes practical on-the-job, work related experience that corresponds to the area of study. In this semester, the student takes all related sponsor requirements in (STS) Service Training Standards (General Motors) or ("F.A.S.T.") Fundamental Automotive Systems Training (Chrysler) or others as required by the program track.

ASE 285 Independent Study 0.5-6 credits
Prerequisite: Permission of instructor
ASE 285 meets the individual needs of students. You will engage in intensive study or research under the direction of a qualified instructor.

ASE 287 Cooperative Education 0.5-6 credits
Prerequisite: 24 credit hours of automotive classes.
ASE 287 develops practical objectives assigned by an automotive employer providing an on-the-job learning experience at an approved automotive repair facility.

ASL – American Sign Language
www.rrcc.edu/languages/

ASL 121 American Sign Language I 5 credits
ASL 121 exposes you to American Sign Language. Readiness activities are conducted focusing on visual/receptive skills and basic communication. The course uses the direct experience method. You must complete this course with a B or higher or pass the ASL 121 proficiency test at 80% or better prior to acceptance into the Interpreting and Transliterating Preparation program.

ASL 122 American Sign Language II 5 credits
Prerequisite: Successful completion of ASL 121 or passing the ASL 121 proficiency exam. Corequisite: Permission of instructor. ASL 122 develops a basic syntactic knowledge of American Sign Language (ASL), basic vocabulary, and basic conversational skills. It incorporates vital aspects of deaf culture and community. The direct experience method is used to enhance the learning process. You must complete this course with a B or higher or pass the ASL 121 proficiency test at 80% or better prior to acceptance into the Interpreting and Transliterating Preparation program.

AST – Astronomy

AST 101 Astronomy I with Lab 4 credits
AST 101 focuses on the history of astronomy, the tools of the astronomer, and the contents of the solar system, including the planets, moons, asteroids, comets, and meteoroids.

AST 102 Astronomy II with Lab 4 credits
AST 102 emphasizes the structure and life cycle of the stars, the sun, galaxies, and the universe as a whole, including cosmology and relativity.

BIO – Biology
www.rrcc.edu/biology/

BIO 105 Science of Biology with lab 4 credits
BIO 105 examines the basis of biology in the modern world and surveys the current knowledge and conceptual framework of the discipline. BIO 105 explores biology as a science - a process of gaining new knowledge - and the impact of biological science on society. This course includes laboratory experiences and is designed for non-science majors.

BIO 106 Basic Anatomy and Physiology with Lab 4 credits
BIO 106 focuses on basic knowledge of body structures and function, and provides a foundation for understanding deviations from normal and disease conditions. This course is designed for individuals interested in health care and is directly applicable to the Practical Nursing Program, Paramedic Program, and the Medical Office Technology Program.

BIO 111 General College Biology with Lab 5 credits
BIO 111 examines the fundamental molecular, cellular, and genetic principles characterizing plants and animals. This course includes cell structure and function and the latest information about metabolic processes of respiration, photosynthesis, cell reproduction, and basic concepts of heredity.

BIO 112 General College Biology II with Lab 5 credits
Prerequisite: BIO 111
BIO 112 is a continuation of Biology I. This course includes ecology, evolution, classification, structure, and function in plants and animals.

BIO 201 Human Anatomy and Physiology I with Lab 4 credits
Prerequisite: BIO 111, equivalent, BIO 106 or permission of department chair
BIO 201 focuses on an integrated study of the human body, including the histology, anatomy, and physiology of each system. This course examines molecular, cellular, and tissue levels of organization plus integumentary, skeletal, articulational, muscular, nervous, and endocrine systems.

BIO 202 Human Anatomy and Physiology II with Lab 4 credits
Prerequisite: BIO 201 or equivalent, or permission of department chair
BIO 202 is a continuation of BIO 201. BIO 202 focuses on the integrated study of the human body and the histology, anatomy, and physiology...
of the following systems and topics: cardiovascular, hematology, lymphatic and immune, urinary, fluid and electrolyte control, digestive, nutrition, respiratory, reproductive, and development.

**BIO 208 Microbiology with Lab**
5 credits  
Prerequisite: BIO 111 or equivalent, or permission of department chair  
BIO 208 surveys the biology of microorganisms. Topics include microbial diversity, functional anatomy, biochemistry, genetics, ecology, and disease.

**BIO 211 Cell Biology with Lab**
4 credits  
Prerequisite: BIO 111 or equivalent, or permission of department chair.  
BIO 211 is an intensive study of the cell and its organelles. Emphasis will be on the molecular mechanisms involved in cell communication, metabolism, motility, genetics, growth, and reproduction.

**BIO 212 Molecular Biology with Lab**
4 credits  
Prerequisite: BIO 111 or equivalent, or permission of department chair  
BIO 212 is an intensive survey of molecular biology techniques and principles. Topics will include chemical and enzymatic reactions, cellular processes, DNA, RNA, and protein manipulations, and genetic studies.

**BIO 220 General Zoology with Lab**
5 credits  
Prerequisite: BIO 111 or equivalent, or permission of department chair  
BIO 220 focuses on the study of invertebrate and vertebrate animals and examines structure, evolutionary development, ecology, classification, physiology, reproduction, and zoogeography. A survey of zoological diversity emphasizes the characteristics, zoological contributions, and classification of animal phyla and major classes.

**BIO 221 Botany with Lab**
5 credits  
Prerequisite: BIO 111 or equivalent, or permission of department chair  
BIO 221, designed for a biology major, is a study of nonvascular and vascular plants. It emphasizes photosynthetic pathways, form and function, reproduction, physiology, genetics, diversity, evolution, and ecology.

**BIO 228 Field Biology**
4 credits  
Prerequisite: BIO 111 or equivalent, or permission of department chair  
BIO 228 involves in-depth field study of natural environments within and outside of the United States. This course varies from seven to twenty-one days in length, focuses on the identification of organisms, as well as an examination of ecological concepts and principles. This course requires hands-on laboratory and field experience, including extensive hiking.

**BTE – Business Technology**
www.rrcc.edu/cis/  

**BTE 100 Computer Keyboarding**
1 credit  
BTE 100 is designed for students who have minimal or no keyboarding skills. This course introduces the touch method of keyboarding, as well as the basic operation and functions of the equipment. It emphasizes learning the alphanumeric keyboard, proper technique, and speed control.

**BTE 102 Keyboarding Applications**
2 credits  
Prerequisite: BTE 100 or minimum typing speed of 20 wpm  
BTE 102 is designed for students with minimal keyboarding skills. Letters, tables, memos and manuscripts are introduced. Speed and accuracy are also emphasized.

**BTE 108 Ten-Key by Touch**
1 credit  
BTE 108 introduces touch control of the PC ten-key pad. This class emphasizes the development of speed and accuracy using proper techniques.

**BTE 111 Keyboarding Speedbuilding I**
2 credits  
Prerequisite: BTE 102 or minimum typing speed of 20 wpm  
BTE 111 is designed to increase speed and improve accuracy in keyboarding on the PC through the use of correct techniques and concentrated effort.

**BTE 112 Keyboarding Speedbuilding II**
2 credits  
Prerequisite: BTE 111  
BTE 112 is designed to increase speed and improve accuracy in keyboarding on the PC through the use of correct techniques and concentrated effort.

**BTE 125 Records Management**
3 credits  
Prerequisite: Acceptable keyboarding proficiency  
BTE 125 offers instruction on how records are created, stored, and retrieved. It covers the basic filing rules—classifying, indexing, coding, storing, and retrieving as applied to the basic methods—alphabetic, chronological, subject, numeric, and geographic. The student does “hands-on” records management through the use of simulations, which include manual and/or computer software.

**BTE 166 Business Editing Skills**
3 Credits  
Co-requisite: BTE 102  
BTE 166 provides proofreading techniques and reviews spelling, punctuation, grammar and formatting of various business documents and worksheets.

**BTE 202 Office Simulation I**
3 Credits  
Prerequisite: CIS 118 or permission of instructor  
BTE 202 provides experience in the atmosphere of reality using in-basket exercises typical of those occurring in an office operation. It focuses on procedures and computer skills needed for successful performance in the workplace.
BTE 203 Office Simulation II
3 Credits
Prerequisite: BTE 202 or experience with advanced word processing and electronic spreadsheet applications; minimum keyboarding skill 35 wpm; or permission of instructor
BTE 203 provides the student the opportunity to demonstrate and perfect the computer, organizational, and communication skills required to secure employment and/or advancement in the workplace.

BTE 225 Administrative Office Management
3 Credits
BTE 225 presents new developments, technology, procedures, organization, and contemporary terminology used in effective office management. The course emphasizes decision-making and application of administrative skills.

BTE 280 Internship
3 Credits
Prerequisite: Permission of instructor
BTE 280 provides you with the opportunity to supplement coursework with practical work experience related to their educational program. You will work under the immediate supervision of experienced personnel at the business location and with the direct guidance of the instructor.

BUS – Business

www.rrcc.edu/business/

BUS 115 Introduction to Business
3 credits
BUS 115 focuses on the operation of the American business system. The course covers fundamentals of the economy, careers and opportunities, marketing, management, production, governmental regulations, tools of business, and social responsibilities.

BUS 120 Introduction to E-Commerce
3 credits
BUS 120 provides an introduction to electronic commerce—the business trend of the future. It covers definition of e-commerce, technology and software requirements, security issues, electronic payment and marketing strategies. It focuses on what to expect when creating a dot com as well as the business-to-business use of e-commerce.

BUS 204 Introduction to E-Business
3 credits
BUS 204 introduces the use of technology in all aspects of a business. It explores the use of technology for customer relations’ management, accounting and financial applications, purchasing and production tools, sales and marketing functions, and human resources management. You will examine the use of the Internet, World Wide Web and sophisticated multi-function software tools, while gaining a heightened awareness of emerging technologies and trends in e-business.

BUS 215 Global E-Commerce
3 credits
The World Wide Web levels the business playing field and eliminates geographic barriers. The Internet provides global business potential for even the smallest business. BUS 215 teaches how to approach and maximize this business opportunity. This course includes global e-marketing and promotion, import and export management, legal issues, and language and cultural issues.

BUS 217 Business Communication and Report Writing
3 credits
BUS 217 emphasizes effective business writing, and covers letters, memoranda, reports, application letters, and resumes. The course includes the fundamentals of business communication and an introduction to international communication.

BUS 226 Business Statistics
3 credits
Prerequisite: MAT106 (Survey of Algebra) or equivalent
BUS 226 focuses on statistical study, descriptive statistics, probability, the binomial distribution, index numbers, time series, decision theory, confidence intervals, linear regression, and correlation. It is intended for business majors.

BUS 275 Special Topics
1-3 credits
BUS 275 provides you with a vehicle to pursue special topics of interest in business. The content of this course is designed on an as needed basis to provide current, up-to-date information.

BUS 281 Internship
1-3 credits
Prerequisite: Permission of instructor
BUS 281 provides continued instruction and the opportunity for you to supplement coursework with practical work experience related to their educational program. You will work under the immediate supervision of experienced personnel at the business location and with the direct guidance of the instructor.

BUS 285 Independent Study
1-3 credits
Prerequisite: Permission of instructor
BUS 285 meets the individual needs of students. You will engage in intensive study or research under the direction of a qualified instructor.
## CAD – Computer-Aided Design

www.rrcc.edu/egt/

### CAD 101 Computer Aided Drafting I

4 credits

CAD 101 focuses on basic computer-aided drafting skills using the latest release of CAD software. The course includes file management, Cartesian coordinate system, drawing setups, drawing aids, layer usage, drawing geometric shapes, editing objects, array, text applications, basic dimensioning, and Help access.

### CAD 105 AutoCAD for Interiors

4 credits

CAD 105 provides an opportunity for the Interior Design student to obtain the basic skills necessary to operate Computer Aided Design (CAD) software. AutoCAD software is emphasized. Boolean operations, 3-D editing, 3-D views, rendering, and 3-D to 2-D construction relative to certificate or degree program are included.

### CAD 110 Basic CAD

6 credits

CAD 110 serves all emphasis areas of engineering graphics and includes fundamentals of layout, construction, and dimensioning techniques as applied to two-dimensional drawings; systems and database management; and production of computer-generated drawings to ASME, AIA, and other applicable specifications.

### CAD 202 Computer-Aided Drafting/3D

3 credits

Prerequisite: CAD 110 or equivalent. CAD 202 focuses on construction of three-dimensional objects using the latest release of CAD software. It includes wireframe construction, surface modeling, solid modeling, extrusions, Boolean operations, 3-D editing, 3-D views, rendering, and 3-D to 2-D construction relative to the certificate or degree program.

### CAD 217 3D/VIZ

Prerequisite: CAD 110 or equivalent

3 credits

CAD 217 focuses on introductory level basic features of the software using the latest version of AutoDesk VIZ. The course includes creation and modification of primitive and complex shapes, Boolean constructions, creation and modification of lights, applying materials to objects, creation and modification of backgrounds, creation and adjustment of cameras, rendering, and animation by keyframing are included.

### CAD 218 3D / VIZ / Advanced

3 credits

Prerequisite: CAD 217

CAD 218 builds on the basic 3D Studio VIZ skills learned in CAD 218. It includes importing and editing solid models, external processes (special effects), incorporating scanned images, advanced materials editing, creating materials libraries, rendering, animating, and project management.

### CAD 219 3Ds / Max

Prerequisite: CAD 101, 110, or equivalent

3 credits

CAD 219 introduces 3D rendering and animation using AUTODESK 3D Studio software. The course emphasizes 3D geometry, texture mapping, lighting, camera placement, shading, photo-realistic rendering, animation techniques, and walk-through animations.

### CAD 224 Revit

3 credits

Prerequisite: CAD 214 or equivalent. CAD 224 provides you with the software application training in AutoDesk Revit necessary to produce 3D architectural models and 2D drawings using AIA standards.

### CAD 225 Architectural Desktop/ Autodesk

3 credits

Prerequisite: CAD 110

CAD 225 provides you with the software application training in Architectural desktop necessary to produce 3D Architectural drawings utilizing 2D drafting skills.

### CAD 231 Land Desktop / Autodesk

3 credits

Prerequisite: CAD 110 or equivalent. CAD 231 focuses on the basic command structure and applications of civil mapping concepts using civil software to include data collection files, symbols libraries, setting attributes, COGO, layer control, surface modules, road calc, and site design. All course work is completed on a CAD system.

### CAD 233 Civil 3D (Software)

3 credits

Prerequisite: CAD 231

CAD 233 provides you with the basics of advanced software application necessary to produce 3D Civil models and 2D drawings using the latest release of the Civil 3D software. This course will cover topics including components and program interface, linework, geometry, and 2D to 3D civil CAD applications.

### CAD 241 Inventor Basics

6 credits

Prerequisite: 2-D/3-D CAD applications, permission of instructor

CAD 241 focuses on advanced applications of Inventor software to build parametric models of parts and assemblies.

### CAD 242 Inventor Intermediate

6 credits

Prerequisite: CAD 241 or equivalent. CAD 242 explores the intermediate applications of SolidWorks to create parametric models.

### CAD 243 Inventor Advanced

6 credits

Prerequisite: CAD 242 or equivalent

CAD 243 focuses on advanced applications of Inventor to create parametric models.

### CAD 256 SolidWorks Basics

6 credits

Prerequisite: 2-D/3-D CAD applications, permission of instructor

CAD 256 examines the basics of SolidWorks software to produce parametric models.
CAD 257 SolidWorks Intermediate
6 credits
Prerequisite: CAD 256 CAD 257 teaches you to apply intermediate SolidWorks applications to produce parametric models of parts and assemblies.

CAD 258 SolidWorks Advanced
6 credits
Prerequisite CAD 257 CAD 258 demonstrates the advanced applications of SolidWorks software.

CAD 260 C.A.D. Project
2 credits
Prerequisite: Permission of instructor CAD 260 focuses on a final computer-aided drafting project in your area of special interest.

CAD 280 Internship
1-6 credits
Prerequisite: Permission of instructor CAD 280 provides you with the opportunity to supplement course work with practical work experience related to your educational program. You will work under the immediate supervision of experienced personnel at the business location and with the direct guidance of the instructor.

CAD 285 Independent Study
1-6 credits
Prerequisite: Permission of instructor CAD 285 meets individual needs. You will engage in intensive study or research under the direction of a qualified instructor.

CAD 289 Capstone
1-6 credits
Prerequisite: Permission of instructor CAD 289 is a demonstrated culmination of learning within a given program of study.

CAR – Carpentry

www.rrcc.edu/carpentry/

CAR 123 Roof Framing
1 credit
CAR 123 describes the various kinds of roofs and contains instructions for laying out rafters for gable roofs, hip roofs and valley intersections. Coverage includes both stick-built and truss-built roofs.

CAR 125 Roofing Materials & Methods
1 credit
CAR 125 covers application techniques and estimation of asphalt and wood roofing products and accessories including gutters and flashing.

CAR 133 Construction Framing & Safety
4 credits
CAR 133 uses hands-on techniques to illustrate basic framing methods and materials. Floor/wall and roof framing will be discussed, demonstrated, and taught. There will be extensive utilization of modern and western residential framing methods. The course will also include 10 hours of OSHA approved safety instruction which will qualify you for a 10-hour safety card.

CAR 134 Exterior Finishes and Trim
4 credits
CAR 134 uses hands-on techniques to illustrate exterior moisture, trim, and exterior doors and window installation. Student will explore various residential materials and methods. Estimation of time and material will be discussed as well as general business practices

CAR 136 Remodeling, Renovation, and Additions
4 credits
CAR 136 covers conversions of attic and basement spaces to usable living spaces and additions for renovation to existing residential structures, including kitchens and baths. The course examines materials scheduling, estimation, and construction methods.

CAR 144 Interior Trim & Finish Methods
4 credits
CAR 144 uses hands-on techniques to illustrate basic interior finishing methods. This class guides you through the techniques used in sheetrock, tape and texture, interior doors, and trim, and basic cabinet installation.

CAR 155 Interior Trim-Built-ins
4 credits
CAR 155 covers design and build processes for custom built-in cabinetry. Taken in conjunction with CAR156, this course explores the variety of materials and methods of work to create anything from closet storage shelves to a built-in entertainment center.

CAR 156 Shop Tools: Stationary, Hand, and Portable
4 credits
CAR 156 covers the safe use and care of stationary, hand, and portable tools. This course is designed to help you develop skills through tool utilization to pass competency and safety tests for each tool. You will study standard practices for bench carpentry through the actual construction of a project.

CAR 165 Shop Carpentry
4 credits
Prerequisite: Permission of instructor CAR 165 focuses on the non-site, shop carpenter and includes jig and pattern making, stationary power tool maintenance and adjustment, machining of woods, and techniques unique to shops, cabinetmakers and mill-workers.

CAR 166 Stair Design & Construction
4 credits
Prerequisite: CAR 156 or permission of Instructor CAR 166 focuses on both site and off-site stair lay-out and construction. You will have a chance to explore various techniques for building the stairs and millwork involved in the construction and installation of handrail assemblies.
CAR 253 Advanced Interior Trim - Cabinet/Countertops
4 credits
Prerequisite: CAR 156, or permission of instructor
CAR 253 emphasizes an in-depth/hands-on look at all components of cabinet-making, installation and countertops. It includes construction of traditional (face-frame) and European cabinets. It covers hardware applications and installation, and countertop construction, ranging from laminates to solid surface.

CAR 275 Special Topics
1-6 credits
Prerequisite: CAR 156 or permission of Instructor
CAR 275 provides you with a vehicle to pursue in depth exploration of special topics of interest

CAR 280 Technical Project
4-12 credits
Prerequisite: Permission of the instructor
CAR 280 enables you to participate in individual study on a special project which is related to the plumbing program. This technical project consists of a written and approved proposal and scheduled progress reports.

CAR 282 Internship
0.5-12 credits
Prerequisite: Permission of the instructor
CAR 282 provides students with prior course work an opportunity to apply their course studies.

CAR 285 Independent Study
0.5-12 credits
Prerequisite: Permission of the instructor
CAR 285 provides you the opportunity to work with the instructor on a specific area with specific objectives and a predetermined project completion date.

CHE – Chemistry

www.rrcc.edu/chemistry/

CHE 101 Introduction to Chemistry I with Lab
5 credits
Prerequisite: MAT 106
CHE 101 includes the study of measurements, atomic theory, chemical bonding, nomenclature, stoichiometry, solutions, acid and base, gas laws, and condensed states. This course is designed for non-science majors, students in occupational and health programs, or students with no chemistry background.

CHE 111 General College Chemistry I with Lab
5 credits
Prerequisite: One year of high school chemistry or equivalent. Corequisite: MAT 121
CHE 111 focuses on basic chemistry and measurement, matter, chemical formulas, reactions and equations, stoichiometry and thermochemistry. This course covers the development of atomic theory culminating in the use of quantum numbers to determine electron configurations of atoms, and the relationship of electron configuration to chemical bond theory and molecular orbital theory. It includes gases, liquids, and solids. Problem solving skills are emphasized.

CHE 112 General College Chemistry II with Lab
5 credits
Prerequisite: CHE 111 and CHE 112
CHE 208 introduces some of the major topics in modern organic chemistry and biochemistry, focusing on relating structure and behavior of molecules to their functions. The chemistry of organic molecules based on their functional groups, proteins, carbohydrates and lipids are studied.

CHE 211 Organic Chemistry I with Lab
5 credits
Prerequisite: CHE 112
CHE 211 focuses on compounds associated with the element carbon. This course includes structure and reactions of aliphatic hydrocarbons and selected functional group families. This course covers nomenclature of organic compounds, stereochemistry, and reaction mechanisms such as SN1, SN2, E1 and E2.

CHE 212 Organic Chemistry II with Lab
5 credits
Prerequisite: CHE 211
CHE 212 continues the investigation into the chemistry of carbon-based compounds, their reactions and synthesis. This course includes the structure, physical properties, reactivities, and synthesis of organic functional groups not covered in the first semester. CHE 212 explores functional groups including alcohols, ethers, aromatics, aldehydes, ketones, amines, amides, esters, and carboxylic acids. CHE 212 includes reactions and reaction mechanisms of aromatic compounds. An introduction to biochemical topics may be included if time permits.

CIS – Computer Information Systems

www.rrcc.edu/cis/

CIS 103 Learning Windows
1 credit
CIS 103 provides foundational skills in Windows operating system for personal use. This course is designed for the more mature learner and/or those students who wish to advance at a slower pace. Credit does not apply toward a certificate or degree.
CIS 105 Learning E-mail and Internet
1 credit
CIS 105 provides foundational skills in email and internet applications for personal use. This course is designed for the more mature learner and/or the student who wishes to advance at a slower pace. Credit does not apply toward a certificate or degree.

CIS 106 Learning Word
1 credit
CIS 106 provides foundational skills in Microsoft Word for personal use. This course is designed for the more mature learner and/or the student who wishes to advance at a slower pace. Credit does not apply toward a certificate or degree.

CIS 108 Learning Excel
1 credit
CIS 108 provides foundational skills in Microsoft Excel for employment/personal development. This course is designed for the more mature learner and/or the student who wishes to advance at a slower pace. Credit does not apply toward a certificate or degree.

CIS 111 Intro to Microsoft OneNote
1 credit
CIS 111 provides introduction to using Microsoft OneNote software to take as well as organize notes. You will use OneNote to integrate notes with other applications and collaborate with others.

CIS 118 Introduction to PC Applications: MS Office
3 credits
CIS 118 introduces computer concepts and components as well as coverage of application suite software and the Internet. Included are descriptions of and hands-on experiences with word processors, spreadsheets, databases, operating environments and other common PC applications packages. This course is equivalent to taking CIS 131, CIS 141 and CIS 151.

CIS 128 Windows Complete
3 credits
CIS 128 introduces you to concepts, terminology and hands-on skills in the use of the operating system and Windows. It emphasizes navigation, file manipulation, file creation and troubleshooting.

CIS 130 Introduction to the Internet
1 credit
Prerequisite: A working knowledge of Windows
CIS 130 enhances your knowledge of the Internet and its resources. Individuals learn terminology in dealing with the Internet. It includes privacy and copyright issues with information retrieved from the Internet. You will experience the use of e-commerce, multimedia and e-mail. It explores searching the Internet and credibility of information obtained with searches.

CIS 131 Word Processing I: Word
1 credit
Prerequisite: CIS 128 or a working knowledge of Windows
CIS 131 gives you an introductory working knowledge of word processing. You will create, edit, format, save, and print documents as well as use spell check, grammar check, and thesaurus features. You will format text, paragraphs, and pages, change margins and use the find and replace feature as well as create envelopes and labels.

CIS 132 Word Processing II: Word
1 credit
Prerequisite: CIS 131
CIS 132 increases your working knowledge of word processing. In this module, you will learn to use the merge function, create multiple page reports using headers, footers, footnotes, endnotes, and page numbers as well as create and format documents using columns and tables.

CIS 133 Word Processing III: Word
1 credit
Prerequisite: CIS 132
CIS 133 increases your working knowledge of word processing. In this module, you will learn to use borders, drawing, word art, and graphics. You will create macros, charts, outlines, styles, and fill-in forms.

CIS 135 Complete PC Word Processing: Word
3 credits
Prerequisite: CIS 128 or a working knowledge of Windows
CIS 135 uses state-of-the-art software to explore a complete array of word processing skills. The skills needed to create, edit, format, and print documents are covered. Other topics include character, paragraph, and page formats, the use of spelling checkers and thesaurus, hyphenation, tables, mail merge, document design, and graphics. This course is the equivalent of CIS 131, 132, and 133 taken separately.

CIS 140 Microsoft Outlook
1 credit
CIS 140 introduces the functions used in Microsoft Outlook including email messages, calendaring, contacts, tasks, journals, and notes.

CIS 141 PC Databases I: Access
1 credit
Prerequisite: CIS 128 or a working knowledge of Windows
CIS 141 introduces the functions of a database. It includes skills such as file creation, searches, sorts, simple editing and indexing.

CIS 142 PC Databases II: Access
1 credit
Prerequisite: CIS 141
CIS 142 continues to build on database application skills learned in CIS 141. You will practice through hands on exercise skills such as report writing and the creation of custom forms.

CIS 143 PC Databases III: Access
1 credit
Prerequisite: CIS 142
CIS 143 continues to build on database application skills learned in CIS 142. Course topics include creating a user interface, database, problem solving, and programming using macros to create automated used interfaces. Visual Basic for Applications is not covered.
CIS 145 Complete PC Database: Access
3 credits
Prerequisite: CIS 128 or a working knowledge of Windows
CIS 145 introduces the operations of a PC database management system. Topics may include database design, table operations, searches, forms, queries, and reports. Interfacing with other packages and creating a user interface are covered. Visual Basic for Applications is not covered. This course is the equivalent of CIS 141, 142, and 143 taken separately.

CIS 151 PC Spreadsheets I: Excel
1 credit
Prerequisite: CIS 128 or a working knowledge of Windows
CIS 151 introduces you to concepts and applications of an electronic spreadsheet. Topics include creating a worksheet, developing a professional looking worksheet and creating charts.

CIS 152 PC Spreadsheets II: Excel
1 credit
Prerequisite: CIS 151
CIS 152 continues to build on spreadsheet skills learned in CIS 151. You will practice through hands-on exercises such as design and report writing. Database features of filters, sorts and special calculations are also covered. Other topics include working with lists, integrating with other Windows programs and working with multiple worksheets and workbooks.

CIS 153 Advanced Spreadsheets: Excel
1 credit
Prerequisite: CIS 152
CIS 153 presents the development and execution of macros to automate the spreadsheet, development of menu driven macros, “what if” tables, advanced functions/commands for using a statistical database, and formatting are covered.

CIS 155 PC Spreadsheet Concepts: Excel
3 credits
Prerequisite: CIS 128 or a working knowledge of Windows
CIS 155 exposes you to a wide range of uses of the electronic spreadsheet with special emphasis on using it as a business tool. It includes fundamentals and terms, creating and saving workbooks, entering and using formulas, formatting, printing, multiple-page workbooks, creating charts, entering and using functions, managing lists, and simple macros. This course is the equivalent of CIS 151, 152, and 153 taken separately.

CIS 165 Complete Presentation Graphics: PowerPoint
3 credits
Prerequisite: CIS 128 or a working knowledge of Windows
CIS 165 focuses on the development of presentation graphics material including graphs, charts, illustrations and diagrams. Emphasis is on effective communication. Automated presentation with sound, video, and animation will also be covered.

CIS 167 Desktop Publishing: MS Publisher
3 credits
Prerequisite: CIS 128 or a working knowledge of Windows
CIS 167 is designed to be a hands on course introducing you to the concepts and techniques of desktop publishing. You will then work with more complex documents and publications to use the advanced features and capabilities of today’s page layout software.

CIS 201 Computer Issues
1 credit
Prerequisite: 8 credits of Computer Technology coursework
CIS 201 explores the social, ethical, and legal implications related to the widespread use of computers in our society. Topics include the codes of behavior expected of the computer professional and the broader issues that affect society as a whole. These issues will be explored through readings, class discussions, Internet research, guest lecturers and case studies. College-level writing is expected.

CIS 211 UNIX Shellscripting
3 credits
Prerequisite: CIS 220
CIS 211 continues building upon the skills and commands covered in CIS 220. An emphasis is made on more advanced shell scripting utilizing pipelines, filters, grep, awk, and file processing.

CIS 240 Database Design and Development
3 credits
CIS 240 introduces the basic concepts of relational databases, data storage, and retrieval. It covers database design, data modeling, transaction processing, and introduces the Structured Query Language for databases.

CIS 241 Introduction to Structured Query Language (SQL)
3 credits
Prerequisite: CIS 240
CIS 241 introduces you to creating database structures and storing, retrieving and manipulating data in a relational database. SQL is the set of statements that all users and programs must use to access data in the Oracle database. This course also focuses on SQL*Plus to manipulate SQL statements.

CIS 252 Implement and Maintain SQL Server Database
3 credits
Prerequisite: CIS 251 or equivalent knowledge
CIS 252 provides you with the skills necessary to install and configure SQL Server, implement database mirroring, manage database snapshots, work with XML and flat files, manage replication, back up and restore a database, monitor and troubleshoot, and create and implement database objects.
CIS 253 Programming with a MS SQL Server Database
3 credits
Prerequisite: CIS 252 or equivalent knowledge and experience
CIS 253 provides you with the basics of programming custom database applications with Microsoft SQL Server. It includes integration with the Microsoft .NET Framework, SQL Server Management Studio, SQL Service Broker, Notification Services, Integration Services, Reporting Services, OLAP, and Data Mining.

CIS 268 Systems Analysis and Design I
3 Credits
Spring Only except Online
Prerequisite: This course should be taken during the last semester of your certificate/degree program
CIS 268 introduces you to the materials, techniques, procedures and human interrelations involved in developing computer information systems. Topics include the systems approach, fact gathering techniques, forms design, input/output, file design, file organization, various charting techniques, system audits and controls, project management, implementation and evaluation.

CIS 289 Capstone
3 credits
Spring Only
Prerequisite: Last semester of your certificate/degree program
CIS 289 allows you to complete computerized projects demonstrating their software and programming skills. Projects will be provided by industry and vary widely as to the time and skill required to successfully complete. Each student’s specific outcomes will depend on the skills that they bring to the course, the type of project that they participate in, and the role they play on the project team.

CMD – Communication Disorders
www.rrcc.edu/speech/

CMD 160 Introduction to Human Communication Disorders
3 credits
CMD 160 surveys identifying characteristics, causes, diagnosis and treatment of hearing disorders and speech-language problems, including stuttering, voice disorders, articulation/phonological disorders, child language disorders, and neurogenic disorders.

CMD 260 Introduction to Phonetics
2 credits
CMD 260 introduces characteristics of American English speech sounds and the International Phonetic Alphabet symbols used to represent them. Normal phonological development is also covered.

CMD 265 Physiological and Biological Acoustics
2 credits
Prerequisite: College-level reading and math skills
CMD 265 introduces the physics of sound as it relates to speech and hearing including the acoustic and physiologic information underlying the chain of events between speakers and listeners. This course includes linguistic organization, the physics of sound, speech production, sound measurement, acoustic characteristics of speech, and speech perception.

CMD 266 Normal Language Development
3 credits
CMD 266 discusses the study of normal speech and language development and its relationship to other aspects of child development and childhood disabilities.

CMD 267 Anatomy and Physiology of the Speech and Hearing Mechanism
3 credits
Prerequisite: CMD 160
CMD 267 is designed to introduce you to the systems, anatomical and functional, that enable us to speak and hear. This includes the respiration, phonation, resonance, articulation, and hearing systems. Within each functional system, the nervous, muscular (including ligament and cartilage) and skeletal involvement are discussed.

CNG – Computer Networking
www.rrcc.edu/cis/

CNG 101 Intro to Networking
3 credits
CNG 101 focuses on underlying concepts of data communications, telecommunications and networking. It emphasizes the terminology and technologies in current networking environments and provides a general overview of the field of networking as a basis for continued study in the field.

CNG 121 Computer Technician I: A+
4 credits
Prerequisite: CNG 121
CNG 121 introduces personal computer hardware to gain the skills and knowledge for a successful entry-level computer service technician. This course provides extensive hands-on work with computer systems. It includes PC setup and configuration, floppy and hard drive installation and basic maintenance and troubleshooting. Successful completion prepares you for the core hardware service technician portion of the CompTIA A+ Certification Exam.

CNG 122 Computer Technician II: A+
4 credits
Prerequisite: CNG 121
CNG 122 focuses on operating systems as well as installation of modems, tape backups, CD-ROM drives, and SCSI subsystems. This course covers operating systems, Windows 9x, Windows NT and Windows 2000 installation, configuration and upgrading. It includes laser printers and backup power systems. This course prepares you for the CompTIA A+ OS Technologies Exam.
CNG 124 Networking I: Network+
3 credits
Prerequisite: CNG 122 or comparable knowledge or experience
CNG 124 provides you with the knowledge necessary to understand, identify, and perform necessary tasks involved in supporting a network. This course covers the vendor-independent networking skills and concepts that affect all aspects of networking, such as installing and configuring the TCP/IP. The course also prepares you for the Networking I and II: Network + certification.

CNG 152 Networking II: Network+
3 credits
Prerequisite: CNG 124
CNG 152 continues to provide you with the knowledge necessary to implement and support a network. This course focuses on the vendor-independent networking skills and concepts that affect all aspects of networking. The Networking I and II: Network + courses prepare you for the Network + certification.

CNG 211 Windows Configuration: Vista
3 credits
CNG 211 provides you with the knowledge and skills necessary to address the implementation and desktop support needs of customers who are planning to deploy and support Microsoft Windows Vista client operating system in a variety of network operating system environments.

CNG 212 Manage MS Windows Server Environment
4 credits
CNG 212 provides you with the knowledge and skills that are required to manage accounts and resources, maintain server resources, monitor server performance, and safeguard data in a Microsoft Windows Server environment.

CNG 213 Implementing a MS Windows Network Infrastructure
4 credits
Prerequisite: CNG 212
CNG 213 provides you with the knowledge and skills to implement and manage a Microsoft Windows Server network infrastructure. You will learn to implement routing; implement and manage Dynamic Host Configuration Protocol (DHCP), Domain Name System (DNS), and Windows Internet Name Service (WINS); secure Internet Protocol (IP) traffic with Internet Protocol security (IPSec) and certificates; configure a network access infrastructure, manage and monitor network access.

CNG 214 Plan a MS Windows Server Network Infrastructure
4 credits
Spring Only
Prerequisite: CNG 213
CNG 214 provides you with the knowledge and skills necessary to plan and maintain a Windows Server network infrastructure. You will learn to plan, optimize, and troubleshoot a TCP/IP physical and logical network; routing; Dynamic Host Configuration Protocol (DHCP); Domain Name System (DNS) Windows Internet Naming Service (WINS); and IPSec network access.

CNG 215 Plan MS Windows Server Active Directory Infrastructure
4 credits
Spring Only
Prerequisite: CNG 214
CNG 215 provides you with the knowledge and skills to successfully plan, implement, and troubleshoot a Microsoft Windows Server Active Directory service infrastructure. The course focuses on a Windows Server directory service environment, including forest and domain structure, Domain Name System (DNS), site topology and replication, organizational unit structure and delegation of administration, Group Policy, and user, group, and computer account strategies.

CNG 216 Implement Security in a MS Windows Environment
3 credits
Spring Only
Prerequisite: CNG 213
CNG 216 provides you with the knowledge to implement, manage, maintain, and troubleshoot security in a Microsoft Windows Server network infrastructure and also plan and configure a Windows Server PKI.

CNG 217 Implement Security in a MS Windows Environment
3 credits
Spring Only
Prerequisite: CNG 213
CNG 217 provides you with the knowledge to implement, manage, maintain, and troubleshoot security in a Microsoft Windows Server network infrastructure and also plan and configure a Windows Server PKI.

CNG 218 Implement a Windows Server PKI
4 credits
Spring Only
Prerequisite: CNG 214
CNG 218 provides you with the knowledge and skills to implement, manage, and troubleshoot a Microsoft Windows Server PKI infrastructure and plan and configure a Windows Server PKI.

CNG 219 Implementing a MS Windows Server Network Infrastructure
4 credits
Spring Only
Prerequisite: CNG 213
CNG 219 provides you with the knowledge and skills to implement, manage, maintain, and troubleshoot a Microsoft Windows Server network infrastructure and also plan and configure a Windows Server PKI.

CNG 220 Implement a Windows Server Domain Controller
4 credits
Spring Only
Prerequisite: CNG 213
CNG 220 provides you with the knowledge and skills to implement, manage, maintain, and troubleshoot a Microsoft Windows Server Domain Controller infrastructure and plan and configure a Windows Server Domain Controller.

CNG 221 Design MS Director and Network Infrastructure
3 credits
Spring Only
Prerequisite: CNG 216
CNG 221 provides you with the knowledge and skills to design an Active Directory service and network infrastructure for a Microsoft Windows Server environment. The course is intended for systems engineers who are responsible for designing directory service and/or network infrastructures.

CNG 226 Implementing and Managing Microsoft Exchange
3 credits
Spring Only
Prerequisite: CNG 213
CNG 226 is designed to teach you the knowledge and skills necessary to install, configure, and administer Microsoft Exchange. You will learn to use Exchange in medium to very large computing environments that typically have multiple physical locations, mixed client connection protocols, and internet messaging connectivity.

CNG 227 Administering a Microsoft SQL Server Database
3 credits
Spring Only
Prerequisite: CNG 212
CNG 227 provides you with the knowledge and skills required to install, configure, administer, and troubleshoot the client-server database management system of Microsoft SQL Server.

CNG 260 Cisco Network Associate I
5 credits
CNG 260 (CCNA1: Networking Basics) is the first of the four courses leading to the Cisco Certified Network Associate (CCNA) certification. CCNA 1 introduces Cisco Networking Academy Program students to the networking field. The course focuses on network terminology and protocols, local-area networks (LANs), wide-area networks (WANs), Open System Interconnection (OSI) models, cabling, cabling tools, routers, router programming, Ethernet, Internet Protocol (IP) addressing, and network standards.

For the latest information, visit www.rrcc.edu
CNG 261 Cisco Network Associate II  
5 credits  
Prerequisite: CNG 260  
CNG 261 (CCNA2: Routers and Routing Basics) is the second of four CCNA courses leading to the Cisco Certified Network Associate (CCNA) certification. CCNA 2 focuses on initial router configuration, Cisco IOS software management, routing protocol configuration, TCP/IP, and access control lists (ACLs). You will develop skills on how to configure a router, manage Cisco IOS Software, configure routing protocols, and create access lists controlling access to the router.

CNG 262 Cisco Network Associate III  
5 credits  
Prerequisite: CNG 261  
CNG 262 (CCNA3: Switching Basics and Intermediate Routing) is the third of four courses leading to the Cisco Certified Network Associate (CCNA) certification. The course focuses on advanced IP addressing techniques including Variable Length Subnet Masking (VLSM), Intermediate routing protocols (RIPv2), single-area OSPF, EIGRP, command-line interface configuration of switches, Ethernet switching, Virtual LANs (VLANs), Spanning Tree Protocol (STP), and VLAN Trunking Protocol (VTP).

CNG 263 Cisco Network Associate IV  
5 credits  
Prerequisite: CNG 262  
CNG 263 (CCNA4: WAN Technologies) is the last of four courses leading to the Cisco Certified Network Associate (CCNA) certification. The course focuses on advanced IP addressing techniques (Network Address Translation (NAT), Port Address Translation (PAT), and DHCP), WAN technology and terminology, PPP, ISDN, DIX, Frame Relay, Network Management, and introduction to optical networking. In addition, you will prepare for taking the CCNA exam.

COM – Communication Studies

COM 105 Career Communication  
3 credits  
COM 105 develops skills needed in obtaining and keeping a job. It includes job searching, applications, resumes, interviews, and the dynamics of customer, peer, and managerial relationships. It emphasizes speaking, writing, listening, critical reading skills, and vocabulary development essential to the employment world.

COM 115 Public Speaking  
3 credits  
COM 115 combines the basic theory of speech communication with public speech performance skills. Emphasis is on speech delivery, preparation, organization, support, and audience analysis.

COM 125 Interpersonal Communication  
3 credits  
COM 125 examines the communication involved in interpersonal relationships occurring in family, social and career situations. Relevant concepts include self-concept, perception, listening, nonverbal communication, self-disclosure and conflict.

COM 126 Communication in Healthcare  
3 credits  
COM 126 familiarizes you with interactive concerns in settings related to patient-client care. The course includes discussions of diverse cultures, client interaction and family/caregiver issues. You will also address the concerns of attitude, office politics, teamwork, self-initiative, and conflict management as specifically experienced in the patient and client setting.

COM 205 Voice and Diction  
3 credits  
COM 205 studies the physiological production of the speaking voice and methods for improving the quality of the spoken word in general American speech.

COM 216 Principles of Speech Communication II  
3 credits  
Prerequisite: COM 115  
SPE 216 emphasizes the intensification of ideas and styles with a focus on persuasive speaking. The course includes additional studies in rhetorical analysis and oral delivery methods.

COM 217 Group Communication  
3 credits  
COM 217 enables you to improve your abilities to analyze, evaluate and impact group discussions, group processes, leadership responsibilities, group dynamics, group decision making and other elements of group communication.

COM 220 Intercultural Communication  
3 credits  
Prerequisite: COM 115 or permission of instructor  
COM 220 explores the link between culture and communication and will develop and/or enhance communication skills and the abilities appropriate to a multicultural society. Emphasis will be on understanding diversity within and across cultures. Relevant concepts include perception, worldview context, ethics, language, and nonverbal communication.

COM 225 Organizational Communication  
3 credits  
COM 225 studies human communication systems and patterns in business and organizational settings. Topics include exploration of leadership strategies; effective managerial communication skills with peers, superiors and subordinates; and organizational communication environments, networks and goals.
COM 230 Argumentation and Debate
3 credits
Prerequisite: COM 115 or permission of the instructor
COM 230 acquaints you with the theory of argumentation, including reasoning, evidence, refutation, critical thinking, and extemporaneous speaking. The course includes practice in preparation and oral analysis of selected arguments and styles of debating.

COM 275 Special Topics
0.5-6 credits
COM 275 provides you with a vehicle to pursue in-depth exploration of special topics of interest.

COM 285 Independent Study
0.5-6 credits
COM 285 meets the individual needs of students. You will engage in intensive study or research under the direction of a qualified instructor.

CON – Construction Technology
www.rrcc.edu/construction/

CON 105 Construction Technology
4 credits
CON 105 explores a variety of software applications available for the construction trade. The course introduces computer applications such as Word, Excel, PowerPoint, scheduling, estimating, and accounting programs.

CON 110 Introduction to Construction, Part I
4 credits
CON 110 explores the expanding array of careers within the construction industry. Students will be exposed to the construction industry through job site tours, hands-on experience, and classroom activities. Math and science applications will be established through the academic integration of the job-site experience and the classroom theory.

CON 140 Introduction to Building Codes and Enforcement
3 credits
CON 140 introduces the basic concepts of code enforcement.

CON 142 International Residential Code
4 credits
CON 142 primarily covers the first 11 chapters of the current code book, as well as briefly discussing the information located within the other chapters of the book. This course is designed as an introduction to the IRC for contractors, building officials, architects, and others within the building industry who desire to gain knowledge of the IRC.

CON 143 International Building Code
4 credits
CON 143 primarily covers the first 11 chapters of the current code book, as well as briefly discussing the information located within the other chapters of the book. It will also introduce other documents which relate to the IBC, such as various I-codes, addendums, and specifications. This course is designed as an introduction to the IBC for contractors, building officials, architects, and others within the building industry who desire to gain knowledge of the IBC.

CON 228 Estimating
4 credits
CON 228 covers the estimation process, the role of the estimator, types of estimating, CSI Divisions, bid/contract documents, change order pricing, value engineering, design build projects, and estimate compilation.

CON 230 Blueprint Reading
4 credits
CON 230 introduces students to reading and interpreting blueprints for residential, commercial and industrial construction.

CON 240 Code Compliance II
3 credits
CON 240 prepares students to successfully complete the building inspector exam. This course studies building codes and enforcement practices.

CON 241 Overview of International Codes
4 credits
CON 241 provides a general overview of the 11 codes promulgated by the International Code Council for the purpose of providing regulations for the building industry.

CON 242 Residential and Non-Residential Plan Review
3 credits

CON 245 Project Management
4 credits
CON 245 covers the principles of project planning, scheduling, estimating and management. It emphasizes the basic skills required to supervise personnel, and includes case studies.

CON 261 Leadership and Motivation for Construction Supervisors
2 credits
CON 261 introduces basic management ideas, principles and skills that will enable the student to immediately function more effectively in everyday management of a crew on a construction project. This course includes the role of the construction supervisor, motivational strategies, positive discipline, leadership styles, and team building. (Unit 1 of AGC Supervisory Training Program)
CON 262 Oral and Written Communications for Construction Supervisors
2 credits
CON 262 presents the fundamental principles of communication, with emphasis on sorting, facilitating and managing the flow of information that construction supervisors encounter in their daily work. The course includes nonverbal communication, listening, negotiating, giving effective directions, building consensus, writing and fundamentals of electronic communication. (Unit 2 of AGC Supervisory Training Program)

CON 263 Problem Solving and Decision Making for Construction Supervisors
2 credits
CON 263 will teach you to identify common problems and how they occur in the construction industry. The course includes defining the role of the construction supervisor in problem identification, problem solving, and decision making to prevent problems. (Unit 3 of AGC Supervisory Training Program)

CON 264 Contract Documents and Construction Law for Construction Supervisors
2 credits
CON 264 will help you to develop a basic understanding of contract documents and construction law as they impact the construction supervisor. Learn how to use them to solve problems, resolve issues and remedy conflicts. Understand the rights and responsibilities of the construction supervisor as defined by this information. (Unit 4 of AGC Supervisory Training Program)

CON 265 Planning and Scheduling for the Construction Supervisor
2 credits
CON 265 will teach you to plan the sequence, duration and relationship of activities for a construction process and understand how to communicate the plan to contractual parties and to use the plan as a reference point for examining project changes. The course includes planning for safety, organization, manpower and site layout. (Unit 5 of AGC Supervisory Training Program)

CON 266 Understanding and Managing Project Costs for Construction Supervisors
2 credits
CON 266 will teach you to become familiar with how construction project estimates are compiled, how to compare actual project costs with those estimated, methods to control the costs to meet the estimate, and how to apply lessons learned to future projects. (Unit 6 of AGC Supervisory Training Program)

CON 267 Accident Prevention and Loss Control for Construction Supervisors
2 credits
CON 267 will teach you to understand how basic safety and health principles increase productivity, competitive position and profitability. Learn how the construction supervisor can directly impact the bottom line by understanding and applying basic principles of accident prevention and loss control. This course includes moral and personal obligations toward safety, basics of insurance, cost considerations of safety and methods to create a safe working environment. (Unit 7 of AGC Supervisory Training Program)

CON 268 Managing the Project, the Construction Supervisor’s Role
2 credits
CON 268 will teach you to develop an understanding of the supervisor’s role in the application of business management functions to a construction project. Topics include preplanning, staffing, production, cost and risk control, subcontractor coordination, purchasing and project closeout. (Unit 8 of AGC Supervisory Training Program)

CON 269 Productivity Improvement for Construction Supervisors
2 credits
CON 269 will teach you to organize a construction project with productivity improvement as a goal is the focus of this course. Topics include calculating and measuring work productivity, work improvement analysis, understanding work worker ability and the impact of environmental factors, implementing and monitoring improvement programs. (Unit 9 of AGC Supervisory Training Program)

CON 280 Internship
1-6 credits
Prerequisite: Permission of instructor
CON 280 provides you with the opportunity to supplement coursework with practical work experience related to your educational program. You will work under the immediate supervision of experienced personnel at the business location and with the direct guidance of the instructor.

CON 285 Independent Study
1-6 credits
CON 285 meets the individual needs of students. You will engage in intensive study or research under the direction of a qualified instructor.

COS – Cosmetology

COS 103 Shampoo/Rinses/Conditioners I
1 credit
COS 103 introduces various types of scalp treatments and shampoos. This course enables you to recognize and treat disorders of hair and scalp. It covers product knowledge and proper massage techniques to help control disorders and to cleanse the hair and scalp. The course includes terminology dealing with hair structure, scalp, and hair disorders and provides training in a lab or classroom setting.
COS 110 Introduction to Hair Coloring
2 credits
COS 110 provides theory pertaining to the law of color, theory of color, chemistry of color, product knowledge, and analysis of hair and scalp. The course covers basic techniques and procedures for the application of hair coloring.

COS 111 Intermediate I: Hair Coloring
2 credits
COS 111 focuses on theory and practical application of color products, formulations of color, level and shades of color. The course examines techniques in a specialized class or in a supervised salon setting.

COS 120 Introduction to Hair Cutting
2 credits
COS 120 is an introduction to the theory relevant to patron protection, angles, elevations, and the analysis of hair textures as related to hair cutting. It covers the proper use and care of hair cutting implements, focuses on basic hair cutting techniques using all cutting implements, disinfection, and sanitation procedures as they relate to hair cutting.

COS 121 Intermediate I: Hair Cutting
2 credits
COS 121 focuses on the theory of related facial shapes and head and body forms to determine the client’s appropriate haircut. The course incorporates practical applications of hair cutting techniques in specialized classes or in the supervised salon (clinical setting).

COS 130 Introduction to Hairstyling
2 credits
COS 130 combines theory with the practical application of roller placement, shaping, pincurls, finger waves, airforming iron curling, soft pressing and hard pressing.

COS 131 Intermediate I: Hairstyling
2 credits
COS 131 focuses on the accepted methods of styling hair, air forming roller sets, finger waves, pin curls, braiding, and hair pressing.

COS 140 Intro to Chemical Texture
1 credit
COS 140 introduces a combination of theory and practice focusing on the analysis of hair and scalp, proper equipment and product knowledge. This course includes basic techniques in permanent waving and chemical relaxing. It provides training in a classroom or lab setting on mannequins or live models.

COS 141 Intermediate I: Chemical Texture
1 credit
COS 141 emphasizes theory and practical application of permanent waves and chemical relaxers in specialized classes or a supervised salon setting. This course enables you to practice different wrapping techniques required by trend styles.

COS 150 Laws, Rules and Regulations
1 credit
COS 150 provides instruction concerning the laws, rules, and regulations and how they govern the cosmetology and barber industry. The effects these have on you, licensed individual, salons, and school owners are covered.

COS 160 Intro to Disinfection, Sanitation & Safety
2 credits
COS 160 introduces the various methods of disinfection, sanitation, and safety as used in the cosmetology industry. This course includes classroom study of bacteriology and the terminology dealing with cosmetology.

COS 161 Intermediate I: Disinfection, Sanitation & Safety
1 credit
COS 161 focuses on the theory and daily practice of proper methods of disinfection, sanitation and safety procedures as related to all phases of cosmetology. It covers terminology and training of disinfection, sanitation, and safety procedures. This course also includes customer service training in a supervised salon (clinical) setting or specialized class.

COS 163 Shampoo/Rinse/Conditioners II
1 credit
COS 163 provides theory and practical training in shampoos, rinses and conditioners. This course examines advanced techniques to prepare you for employment. It includes preparation for the State Board Licensing Examination in shampoos, rinses, and conditioners.

COS 211 Advanced Hair Coloring
2 credits
COS 211 provides continued instruction on advanced theory and practical techniques in hair coloring. The course focuses on the recognition of color problems and color correction procedures. It covers advanced techniques and product knowledge to prepare you for employment and prepares you for the State Board Licensing Examination pertaining to hair coloring.

COS 220 Intermediate II: Hair Cutting
2 credits
COS 220 provides continued instruction in the theory related to facial shapes, head and body forms to determine the client’s appropriate haircut. It incorporates practical applications of hair cutting techniques.

COS 221 Advanced Hair Cutting
2 credits
COS 221 focuses on advanced cutting techniques using all the cutting tools. It emphasizes current fashion trends and includes student preparation for the State Licensure examination.

For the latest information, visit www.rrcc.edu
COS 230 Intermediate II: Hair Styling
2 credits
COS 230 provides continued instruction on accepted methods of styling hair, air forming, roll set, finger waves, and hair pressing. It examines techniques in specialized classes or in a supervised salon setting.

COS 231 Advanced Hair Styling
1 credit
COS 231 focuses on theory and advanced techniques in all phases of hairstyling to prepare you for employment. Training involves a combination of supervised salon (clinical) work and specialized classes. It includes student preparation for the State Board Licensing Examination relating to hairstyling.

COS 240 Intermediate II: Chemical Texture
1 credit
COS 240 provides continued instruction in the theory and practical application of permanent waves and chemical relaxers in specialized classes or a supervised salon setting. It enables you to practice different wrapping techniques required by trend styles.

COS 241 Advanced Chemical Texture
1 credit
COS 241 focuses on advanced techniques to prepare you for employment and the changes in current industry standards. Instruction is provided in specialized classes or supervised salon (clinical) setting. It includes student preparation for the State Board Licensing Examination pertaining to permanent waves and chemical relaxers.

COS 250 Mgmt, Ethics, Interpersonal Skills & Sales
1 credit
COS 250 emphasizes the importance of salon management and the knowledge and skills necessary to build a successful business. The course focuses on the importance of interpersonal skills and basic techniques in salesmanship and customer services. It integrates job readiness skills and professional ethics.

COS 260 Intermediate II: Disinfection, Sanitation & Safety
2 credits
COS 260 provides continued study of theory and practice of proper methods of sterilization, disinfection, sanitation and safety procedures as related to all phases of the industry. It covers terminology and training of disinfection, sanitation and safety procedures. The individual responsibility to provide a safe work environment is practiced.

COS 261 Advanced Disinfection, Sanitation & Safety
1 credit
COS 261 provides advanced training on decontamination and safety practices in a supervised salon and/or classroom setting. It examines advanced techniques that prepare you for employment and includes student preparation for the State Board Licensing Examination in decontamination and safety for all aspects of the industry. Study of OSHA requirements for schools and salon are conducted in a theory or practical setting.

COS 262 Advanced II: Disinfection, Sanitation & Safety
3 credits
COS 262 is the extra hours/credits required for the hairstylist program, per State Board of Colorado Barber/Cosmetology Board. The course provides advanced training on decontamination and safety practices in a supervised salon and/or classroom setting. It examines advanced techniques that prepare you for employment and includes student preparation for the State Board Licensing Examination in decontamination and safety for all aspects of the industry. Study of OSHA requirements for schools and salon are conducted in a theory or practical setting.

CRJ – Criminal Justice
www.rrcc.edu/criminal/

CRJ 101 Basic Police Academy I
6 credits
Prerequisite: Permission of academy director
CRJ 101 conforms to POST standards and state certification requirements as well as the basic skills and knowledge necessary to perform the entry level duties of a peace officer. Emphasis will be on simulating actual situations utilizing a lecture and laboratory mode of learning.

CRJ 102 Basic Police Academy II
12 credits
Prerequisite: Permission of academy director
CRJ 102 conforms to POST standards and state certification requirements as well as the basic skills and knowledge to perform the entry level duties of a Peace Officer. Emphasis will be on simulating actual situations utilizing a lecture and laboratory mode of learning.

CRJ 103 Basic Law Enforcement Academy III
2 credits
Prerequisite: Permission of academy director
CRJ 103 enhances the standards established by the P.O.S.T. Board and state certification requirements as well as the basic skills and knowledge necessary to perform the entry level duties of a Police Officer. Emphasis will be on expanding the P.O.S.T. curriculum to create a unique learning experience.

CRJ 104 Basic Law Enforcement Academy IV
1 credit
Prerequisite: Permission of academy director
CRJ 104 enhances the standards established by the P.O.S.T. Board and state certification requirements as well as the basic skills and knowledge necessary to perform the entry level
For the latest information, visit [www.rrcc.edu](http://www.rrcc.edu)

duties of a Police Officer. Emphasis will be on expanding the P.O.S.T. curriculum to create a unique learning experience.

**CRJ 105 Basic Law**  
**8 credits**  
Prerequisite: Permission of academy director.  
CRJ 105 conforms to POST standards and state certification requirements as well as the basic skills and knowledge necessary to perform the entry level duties of a peace officer. Emphasis will be on United States Constitution, arrest, search and seizure, interrogation and confessions, rules of evidence, Colorado Criminal Code, Colorado Traffic Code, Colorado Children's Code, Liquor Code and controlled substances.

**CRJ 106 Arrest Control Techniques**  
**3 credits**  
Prerequisite: Permission of academy director.  
CRJ 106 covers the skills, knowledge and abilities necessary to effectively maintain control of a suspect when making an arrest. The course emphasizes the continuum of force and de-escalation of force.

**CRJ 107 Law Enforcement Driving**  
**3 credits**  
Prerequisite: Permission of academy director.  
CRJ 107 covers the skills, knowledge and abilities required for operation of a law enforcement vehicle, emphasizes defensive driving, and enables you to demonstrate skills by driving a vehicle under simulated conditions.

**CRJ 108 Firearms**  
**3 credits**  
Prerequisite: Permission of academy director.  
CRJ 108 discusses the skills, knowledge and abilities necessary to safely use police firearms. You will demonstrate skills by firing weapons on a firing range. You will demonstrate basic safety techniques and will explain the firearms role within the continuum of force.

**CRJ 110 Introduction to Criminal Justice**  
**3 credits**  
CRJ 110 introduces a study of the agencies and processes involved in the criminal justice system: the legislature, the police, the prosecutor, the public defender, the courts, and corrections. It includes an analysis of the roles and problems of the criminal justice system in a democratic society, with an emphasis upon inter-component relations and checks and balances.

**CRJ 111 Substantive Criminal Law**  
**3 credits**  
Prerequisite: CRJ 110  
CRJ 111 teaches legal definitions of crime, purposes and functions of the law, historical foundations, and the limits of the criminal law.

**CRJ 112 Procedural Criminal Law**  
**3 credits**  
Prerequisite: CRJ 110  
CRJ 112 covers constitutional and procedural considerations affecting arrest, search and seizure, post-conviction treatment, origin, development, philosophy, and constitutional basis of evidence. It focuses on degrees of evidence and rules governing admissibility, judicial decisions interpreting individual rights, and an analysis of case studies from arrest through final appeal.

**CRJ 118 Report Writing**  
**3 credits**  
Prerequisite: CRJ 110  
CRJ 118 identifies the areas of concern in regards to proper documentation of police related activities. It focuses on report writing skills, proper structuring of interviews and chronological documentation of events. The course incorporates proper sentence structuring, the use of correct terminology and accuracy in written reports.

**CRJ 125 Law Enforcement Operations**  
**3 credits**  
Prerequisite: CRJ 110  
CRJ 125 examines the complexity and multidimensional aspects of the law enforcement role and career; law enforcement discretion; law enforcement values and culture in modern America. It covers the role and functions of law enforcement in occupational, social, political and organizational context.

**CRJ 126 Patrol Procedures**  
**3 credits**  
Prerequisite: CRJ 110  
CRJ 126 focuses on an in-depth study of the basic knowledge and skills required of a peace officer to safely and effectively accomplish the patrol procedure.

**CRJ 135 Judicial Function**  
**3 credits**  
Prerequisite: CRJ 110  
CRJ 135 examines the criminal process with an analysis of the major judicial decision makers, i.e., prosecutors, defense attorneys, judges, and the discretionary aspects of adjudication.

**CRJ 145 Correctional Process**  
**3 credits**  
Prerequisite: CRJ 110  
CRJ 145 focuses on the post-conviction corrections process, the development of a correctional philosophy, theory, and practice, a description of institutional operation, programming and management, and community-based corrections, probation, and parole.

**CRJ 150 Victims of Crime and Trauma**  
**3 credits**  
Prerequisite: CRJ 110  
CRJ 150 introduces you to the role the crime victim plays in the criminal justice system. The traditional response that a crime victim receives from the system will be studied and the psychological, emotional and financial impact these responses have on victimization will be analyzed.
CRJ 151 Domestic Violence
3 credits
Prerequisites: CRJ 110 and CRJ 150
CRJ 151 examines theories, issues, legal strategies, and intervention applicable to abuse in intimate relationships.

CRJ 152 Sexual Assault
3 credits
Prerequisites: CRJ 110 and CRJ 150
CRJ 152 examines sexual assault beginning with definitions and describing the degrees of sexual assault and the penalties and realities of punishment. It covers myths, statistics, services, treatment and prevention. Both the rapist and the adolescent offender are profiled. The course emphasizes the pro-active approach with regard to prevention.

CRJ 153 Violence Against Children
3 credits
Prerequisites: CRJ 110 and CRJ 150
CRJ 153 includes an in-depth study of physical, sexual, and emotional abuse and neglect of children. It focuses on identification and treatment of abusive families and victims of abuse and the response of the legal system, the community, and human service agencies.

CRJ 167 Fingerprinting
3 credits
CRJ 167 is an in-depth instruction of the interpretation, classifications, and presentation in court of the Henry System of classification of fingerprint patterns. Instruction includes the discussion of lifting and preserving fingerprints from crime scenes. The processing of a crime scene using basically powders and a magna brush. You will be proficient in the Henry System and use of all kits and allied equipment in high level at the completion of the course.

CRJ 190 Financial Investigation
3 credits
Prerequisite: CRJ 110
CRJ 190 introduces current perspectives dominant in the field of financial investigations. It includes concepts of law and evidence, sources of information, including financial institutions, business financial record keeping, tracing funds using a variety of methods, and interviewing as applied to detecting and resolving financial crimes. The course emphasizes theoretical principles and applications of financial investigative techniques.

CRJ 200 Constitutional Law
3 credits
Prerequisite: CRJ 110
CRJ 200 focuses on the powers of government as they are allocated and defined by the United States Constitution. It includes intensive analysis of United States Supreme Court decisions.

CRJ 210 Drug Investigative Strategies
3 credits
Prerequisite: CRJ 110
CRJ 210 focuses on laws dealing with gambling, prostitution, sex crimes, and narcotics. It emphasizes special techniques employed in the detection, suppression, and apprehension of violators. It includes effects of drugs and narcotics, identification of narcotics, and terminology.

CRJ 220 Human Relations and Social Conflict
3 credits
Prerequisite: CRJ 110
CRJ 220 highlights the environmental, organizational and socio-psychological dimensions of social control. It includes the study of individual attitudes, beliefs and behavior involved in role conflicts, community relations and conflict management in the social structure.

CRJ 225 Crisis Intervention
3 credits
Prerequisites: CRJ 110 and CRJ 150
CRJ 225 provides information and application of crisis theories in working with diverse populations. It examines the interventionist role.

CRJ 230 Criminology
3 credits
Prerequisite: CRJ 110
CRJ 230 examines the question of crime causation from legal, social, political, psychological and theoretical perspectives. It covers the history and development of criminology.

CRJ 231 Introduction to Forensic Science and Criminalistics
3 credits
Prerequisite: CRJ 110
CRJ 231 focuses on the fundamentals of forensic science that are essential for gathering evidence at the crime scene and analyzing it in the crime laboratory.

CRJ 239 Managing Emergency Worker Stress
3 credits
Prerequisites: CRJ 110 and CRJ 150
CRJ 239 provides an understanding of trauma reaction and stress management for first line responders, i.e., police officers, victim advocates, paramedics and firemen. It focuses on practical application of coping skills and stress management for first line responders.

CRJ 240 Criminal Investigations
3 credits
Prerequisite: CRJ 110
CRJ 240 introduces investigation methods and procedures from preliminary through the follow-up stages.

CRJ 245 Interview and Interrogation
3 credits
Prerequisite: CRJ 110
CRJ 245 focuses on the study of technical and legal approaches used in gathering desired information from victims, witnesses, and suspects. It examines the fundamental characteristics of questioning and the use of psychological influences.

CRJ 246 Traffic Investigation
3 credits
Prerequisite: CRJ 110
CRJ 246 provides an overview of the skills and concepts necessary to complete an accurate investigation of a traffic collision. The course emphasizes traffic management concepts, selective traffic enforcement, and safety issues.
CRJ 269 Adult Survivors of Molestation
3 credits
Prerequisites: CRJ 110, CRJ 150
CRJ 269 provides the potential victim advocate with the latest treatment modalities for victims who are adult survivors of childhood molestation. The course will also focus on the possible long term destruction mannerisms (Post Traumatic Stress Disorder) as well as the immediate trauma. Discussion will focus on how this type of crime can impact its victims’ physical, mental, and emotional attitudes, thereby affecting their personal and professional lives.

CRJ 275 Special Topics
1-6 credits
Prerequisite: Some topics may be restricted to criminal justice practitioners.
CRJ 275 provides you with a vehicle to pursue in-depth exploration of special topics of interest.

CRJ 280 Internship
1-6 credits
Prerequisite: Permission of internship and CRJ coordinators.
CRJ 280 provides placement in the criminal justice field to integrate theory with practice.

CRJ 285 Independent Study
1-6 credits
Prerequisite: Permission of instructor.
CRJ 285 meets the individual needs of students. You will engage in intensive study or research under the direction of a qualified instructor.

CRJ 289 Capstone
1 credit
CRJ 289 provides a demonstrated culmination of learning within a given program of study.

CSC – Computer Science

www.rrcc.edu/cis/

CSC 119 Introduction to Programming
3 credits
CSC 119 is a general introduction to computer programming. The course emphasizes the design and implementation of structured and logically correct programs with good documentation. The course focuses on basic programming concepts, including numbering systems, control structures, modularization, and data processing. A structured programming language will be used to implement program designs.

CSC 126 Game Design and Development
3 credits
CSC 126 combines problem-solving techniques with computer game design and implementation to introduce you to basic gaming and computer science concepts. You will design, implement, and test computer games using software that allows for basic game creation through a wide variety of game creation tools; no prior programming experience is required.

CSC 154 Introduction to MS Visual Basic .NET (OOP)
3 credits
Prerequisite: CSC 119, equivalent experience or permission of instructor
CSC 154 provides you with the knowledge and skills needed to develop applications in Microsoft Visual Basic .NET for the Microsoft .NET Platform. The course focuses on user interfaces, program structure, language syntax, and implementation details. This is the first course in the Visual Basic .NET curriculum and will serve as the entry point for other .NET courses.

CSC 160 Computer Science I
4 credits
Prerequisite: MAT106 Survey of Algebra, equivalent experience, or permission of instructor
CSC 160 introduces you to the discipline of computer science. Topics covered will include algorithm development, data representation, arithmetic and logical expressions, subprograms and input/output operations using a structured programming language. Intensive computer laboratory activities are required. Object-oriented techniques will also be emphasized.

CSC 161 Computer Science II
4 credits
Prerequisite: CSC 160 or equivalent experience or permission of instructor
CSC 161 continues the structured algorithm development and problem-solving techniques begun in Computer Science I. You will gain experience in the use of data structures and design of larger software projects. Intensive computer laboratory experience is required. Object-oriented techniques will also be emphasized.

CSC 165 Discrete Structures
3 credits
Prerequisite: CSC 160 or equivalent experience or permission of instructor
CSC 165 prepares you for a fundamental understanding of computing and computer science. Topics covered will include set theory, Boolean algebra, relations, functions, graph theory, and techniques for formal reasoning.

CSC 200 Game Programming I
3 credits
Prerequisite: CSC 126, CSC 119 and CSC 154 or CSC 160, equivalent experience, or permission of instructor
CSC 200 introduces the C++ student to game programming techniques and using a game library. Skills developed include programming input devices, 2D game theory and design, bit map handling, sprite programming, and threads.
CSC 227 3D Game Programming
3 credits
Prerequisite: CSC 126 and CSC 200 or equivalent experience, or permission of instructor.
CSC 227 is a continuation of CSC 200. You will be involved with creating Terrains, Structures, and Environments. You will also learn about Game Missions, Clients, and the basics of testing.

CSC 228 3D Game Scripting
3 credits
Prerequisites: CSC 126 and CSC 127 and CSC 227 or equivalent experience or permission of instructor.
CSC 228 allows you to engage in advanced game engine scripting. Topics include problem-solving, objects, string, Artificial Intelligence (AI), and group behaviors.

CSC 240 Java Programming
3 credits
Prerequisite: CSC 160, equivalent experience, or permission of instructor.
CSC 240 is an introduction to the Java programming language and will cover basic graphics, threads, events/procedures, user interface, and libraries. You will write and execute a variety of Java programs. Java Applets will be incorporated into HTML pages, allowing for the use of real-time sound, graphics, animation, and user interaction.

CSC 248 Java Internet Programming
3 credits
Prerequisite: CSC 240, equivalent experience, or permission of instructor.
CSC 248 covers Java programming in the Internet environment. It focuses on server-side programming and covers network programming, database connectivity, server programming, multimedia, and Java beans.

CSC 250 Programming with Microsoft ADO .NET
3 credits
Prerequisite: CSC 154, CSC 251, CSC 261, or equivalent experience or permission of instructor.
CSC 250 teaches you to build data-centric applications and Web services with Microsoft ADO.NET, Microsoft SQL Server, and the Microsoft .NET Framework. This course includes designing and building data-centric, distributed applications.

CSC 251 Programming in Visual Basic .NET
3 credits
Prerequisite: CSC 154, equivalent experience, or permission of instructor.
CSC 251 provides you with the knowledge and skills needed to develop Microsoft .NET-based applications by using Visual Basic .NET. It focuses on Visual Basic .NET (a significant upgrade to Visual Basic) and incorporates new features and framework goals of the .NET architecture. This course enables you to create enterprise applications for the .NET Platform and to create more traditional Visual Basic applications that take advantage of the enhancements to the language.

CSC 253 MS ASP.NET Web Application Development
3 credits
Prerequisite: CSC 251 or CSC 261
CSC 253 will teach programmers and beginning Web developers the fundamentals of Web application site implementation by using Microsoft ASP.NET and Microsoft Visual Basic .NET. This course focuses on using the Microsoft Visual Studio .NET environment and the Microsoft .NET Platform to create an ASP.NET Web application that delivers dynamic content to a Web site.

CSC 261 Programming in C# .NET
3 credits
Prerequisite: CSC 160, equivalent experience, or permission of instructor.
CSC 261 provides you with the knowledge and skills needed to develop C# applications for the Microsoft .NET Platform. This course focuses on C# program structure, language syntax, and implementation details.

CSC 262 VS.NET Application Development: VB & C#
3 credits
Prerequisites: CSC 251, CSC 261, or equivalent experience.
CSC 262 provides C# programmers with the skills required to create Windows Forms applications by using the .NET Framework. The course will cover the major topics for Windows client application programming on the .NET Framework. These topics include Windows Forms, GDI+, simple data access, interoperating with unmanaged code, threading and asynchronous programming issues, simple remoting, Web access, Web Services consumption, debugging, security, and deployment issues for desktop applications.

CSC 263 MS ASP.NET XML Web Service Development
3 credits
Prerequisites: CSC 251, CSC 261, or equivalent experience.
CSC 263 provides you with the knowledge and skills that are required to develop XML Web services-based solutions to solve common problems in the distributed application domain. The course focuses on using Microsoft Visual Studio .NET, Microsoft ASP.NET, and Universal Description, Discovery, and Integration (UDDI) to enable you to build, deploy, locate, and consume Extensible Markup Language (XML) Web services.

CSC 264 Building COM+ Applications using MS .NET Enterprise Services
3 credits
Prerequisites: CSC 251, CSC 261, or equivalent experience.
CSC 264 provides you with the knowledge and skills to effectively build scalable, distributed applications that use Microsoft .NET Enterprise Services and the Microsoft .NET Framework.

CUA – Culinary Arts

www.rrcc.edu/culinary/

CUA 101 Food Safety and Sanitation
2 credits
CUA 101 covers the basic rules of sanitation, food-borne illnesses, safe food temperatures, safe food handling techniques, the HACCP Program, pest control procedures, and local/state health rules and regulations for food service operations. At the completion of the course, you will take a nationally.
recognized test from the Education Foundation of the National Restaurant Association. If passed with a score of 75% or more, you will receive a Certificate of Completion from the Education Foundation.

**CUA 105 Food Service Concepts and Management Skills**
*3 credits*
CUA 105 demonstrates the use of management skills training in the food service industry by use of student interaction research, and also demonstrates the various styles of menu development. The course includes basic responsibility for food service personnel in all kitchen positions with emphasis on advertising vs. publicity, job analysis, description specifications, and duty list as related to recruiting and hiring process. It covers application, interview techniques, training, and hiring processes and incorporates preparation of menus for different styles of food service establishments.

**CUA 121 Introduction to Food Production Principles and Practices**
*1 credit*
CUA 121 provides you with the fundamental principles of commercial kitchen operations including safety and sanitation applications, use and care of equipment, tools, utensils and knives, recipe use and conversion, organization of work, and basic cooking methods.

**CUA 122 Introduction to Stocks, Soups, and Sauces**
*1 credit*
CUA 122 focuses on the fundamental principles of stocks, soups, sauces, gravies, and thickening agents. It enables you to produce a variety of these products in the commercial kitchen, incorporating practice in the use of tools, utensils, equipment, and application of safety and sanitation practices. You will apply pre-preparation skills and efficient organization of work techniques.

**CUA 123 Introduction to Garde Manger**
*1 credit*
CUA 123 provides fundamental principles of cold food and non-alcoholic beverage preparation and production in a commercial kitchen. The course enables you to produce a variety of cold food and non-alcoholic beverage products incorporating practice in the use of tools, utensils, equipment, and application of safety and sanitation methods. It introduces basic cold food decorative work, such as fruit and vegetable garnishes and carvings, terrines, and hors d’oeuvres. This course also focuses on pre-preparation procedures and efficient organization of work techniques.

**CUA 124 Vegetable Preparation and Breakfast Cookery**
*1 credit*
CUA 124 introduces you to vegetable preparation and breakfast cookery in a commercial kitchen. The course focuses on the significance of variety of breakfast items and the preparation of vegetable items using a variety of cooking methods. It emphasizes the effects of seasonings and cooking methods on vegetable products. You will prepare, plate, and garnish breakfast orders similar to those ordered in restaurants with egg cookery and dairy products emphasized.

**CUA 127 Soups, Sauces, and Consommés**
*3 credits*
CUA 127 covers the preparation of the five mother sauces and small-derived sauces. The course enables you to prepare stocks, consommés, emulsified sauces, clear soups, pureed soups, chowders, national, and cream soups in a commercial kitchen. It introduces gravies and sauce garnishing.

**CUA 131 Starches, Pastas, Casseroles, and Grain Products**
*1 credit*
CUA 131 provides the basics of preparing and/or cooking potatoes, starches, legumes, and pastas. The course enables you to prepare and cook a variety of casseroles and grain products using a commercial kitchen for the preparation area. It allows you to apply pre-preparation skills and efficient organization of work techniques.

**CUA 132 Center of the Plate: Meat**
*1 credit*
CUA 132 provides you with the basics of meat handling, including principles used for selecting meat products, their basic cuts, and cooking methods. It focuses on a variety of meat products in a commercial kitchen.

**CUA 133 Center of the Plate: Poultry, Fish, and Seafood**
*1 credit*
CUA 133 provides you with the basic information required for proper selection, handling, and cooking of beef and veal products. The course focuses on a variety of beef and veal products commonly used in the professional kitchen.

**CUA 135 Center of the Plate: Beef and Veal**
*1 credit*
CUA 135 provides the basics of handling poultry, fish, and seafood, including principles used for selection and the basic forms these products have, as well as the methods of cooking them. It focuses on preparation of poultry, fish, and seafood products in a commercial kitchen and incorporates practical experience in the use of these principles and methods. The course covers pre-preparation skills and efficient organization of work techniques.

**CUA 139 Center of the Plate: Pork, Lamb, and Game**
*1 credit*
CUA 139 provides you with the basic information required for the proper selection, handling, and cooking of pork, lamb, and game. The course focuses on a variety of pork, lamb, and game products commonly used in the professional kitchen.

For the latest information, visit [www.rrcc.edu](http://www.rrcc.edu)
CUA 141 Baking: Principles and Ingredients
1 credit
CUA 141 provides you with the fundamentals of baking terminology, principles of baking, and the characteristics and functions of the main ingredients used in bakery production. It orients you to commercial equipment, tools, and utensils used in baking.

CUA 142 Basic Yeast-Raised Products and Quick Breads
1 credit
CUA 142 provides you with the fundamentals of basic yeast-raised production and quick breads. The course enables you to produce white bread, rolls, variety grain breads, specialty breads, sweet yeast-raised products, and quickbreads in a commercial kitchen.

CUA 143 Baking: Cakes, Pies, Pastries, and Cookies
1 credit
CUA 143 provides you with the fundamentals of basic cake, pie, pastry, and cookie production. The course enables you to produce a variety of cakes, pies, pastries, cookies, and assorted dessert items in a commercial kitchen.

CUA 144 Baking Applications
1 credit
CUA 144 serves as the practical vehicle for you to apply basic baking principles and practices to the production of yeast breads, quick breads, cakes, icings, pastries, pies, and cookies. It focuses on the preparation of a variety of baked goods in a commercial kitchen according to a baking production schedule. The course enables you to demonstrate comprehensive knowledge of products as well as speed and efficiency in the production of quality baked goods.

CUA 150 Baking: Decorating and Presentation
3 credits
CUA 150 examines the preparation and production of cakes, pastries, different styles of decorating, commercial equipment, and types of products used for decoration. It covers plate painting, national products, and designing show pieces.

CUA 151 Baking: Intermediate Bread Preparation
3 credits
CUA 151 focuses on preparation of types of bread products including French, rye, wheat, brioche, and croissants. The course enables you to demonstrate different styles of presentation including rolling, braiding, cloverleaf, parker-house, single knot, butter-flake, comb, and wreath shape. It examines production steps, ingredients, and commercial equipment that apply to course training.

CUA 152 Individual Fancy Dessert Production
3 credits
CUA 152 focuses on the preparation and decoration of individual dessert items in a commercial kitchen. It covers the preparation of cream horns, napoleons, éclairs, cream puffs, marzipan fruits, marzipan sculptures, tarts, flambéd desserts, international desserts, pastry shells, pulled sugar, spun sugar, and individual chocolate decorations. You will research and locate dessert menus/recipes to be used in lab production.

CUA 156 Nutrition for the Hospitality Professional
3 credits
CUA 156 provides you with the fundamentals of human nutrition. It focuses on the nutritional needs of humans throughout their life cycle as well as those with special dietary needs. You will may take a nationally recognized test from the Educational Foundation of the National Restaurant Association.

CUA 157 Menu Planning
3 credits
CUA 157 introduces you to planning menus and integrating them into foodservice operations. It equips you with a working knowledge of the function, mechanics, and results achieved by the menu, providing an overview of the existing and growing food service industry as seen through the menu.

CUA 158 Culinary Arts Internship 1
5 credits
CUA 158 provides you with the opportunity to supplement coursework with practical work experience related to your educational program. You will work under the immediate supervision of experienced personnel at the business location and with the direct guidance of the instructor.

CUA 162 Culinary Arts Internship 2
5 credits
CUA 162 provides you with the opportunity to supplement coursework with practical work experience related to your educational program. You will work under the immediate supervision of experienced personnel at the business location and with the direct guidance of the instructor.

CUA 210 Advanced Cuisine and Garde Manger
4 credits
CUA 210 focuses on the preparation of food display items for buffets and banquets, such as fancy garnishes, fruit and vegetable carvings, canapés, and party trays. It includes patés, galantines, terrines, and choud froid items. It also incorporates the creation of food artistry show pieces, meeting competition guidelines developed by the American Culinary Federation, and covers the preparation of a regional, ethnic or cultural culinary presentation based upon personal research.

CUA 242 Intermediate Garde Manger
1 credit
CUA 242 focuses on producing a variety of garde manger items in the kitchen. It incorporates practice in the use of tools, utensils, and equipment and the application of safety and
sanitation practices. This course emphasizes preparation skills and efficient organization of work skills.

**CUA 255 Supervision in the Hospitality Industry**
**3 credits**
CUA 255 provides the current/future foodservice operator, manager, or supervisor with a solid foundation for developing communication skills, planning and decision-making skills, and skills for creating a goal-oriented environment using management principles in the selection, training, evaluating, delegating, motivating, rewarding, and disciplining of employees. It stresses skills for success through people development.

**CUA 281 Culinary Arts Internship**
**5 credits**
CUA 281 places you in an actual work situation where you will participate in the operation of a foodservice establishment. Hours of work are arranged by the site supervisor and you, the intern. The number of hours required is determined by the number of credits the course carries.

**CWB – Computer Web**

www.rrcc.edu/cis/

**CWB 110 Complete Web Authoring: HTML**
**3 credits**
Prerequisites: CIS 130 and CIS 128 or a working knowledge of Windows
CWB 110 explores a complete set of Web authoring skills using HTML (Hypertext Markup Language). Topics include links, backgrounds, controlling text and graphic placement, tables, image maps, frames, forms, and CSS (Cascading Style Sheets).

**CWB 115 Web Design Fundamentals**
**3 credits**
Prerequisites: CIS 130 and CWB 110 or working knowledge of HTML
CWB 115 is an introduction to the development of Web pages using structured design to lay out pages. Topics may include text manipulation, cross platform calibration, graphics formats, data tables, and file downloading requirements.

**CWB 130 Complete Web Editing Tools: Dreamweaver**
**3 credits**
Prerequisites: CWB 110 and CIS 128 or a working knowledge of Windows
CWB 130 explores the complete set of Web editing tools provided by the software specified. Topics include links, backgrounds, controlling text and graphic placement, tables, image maps, frames, and forms.

**CWB 162 Intro to Image Editing: Photoshop**
**3 credits**
Prerequisite: CIS 128 or a working knowledge of Windows
CWB 162 provides an introduction to digital graphics. The course emphasizes image processing and special effects. Chemical-free darkroom and illustration techniques are studied along with graphics/text integration.

**CWB 164 XML**
**3 credits**
Prerequisite: CWB 110 or a working knowledge of HTML, including CSS
CWB 164 is designed to teach you how to create a well formed XML document, understand how DTDs impose structure, and how Style Sheets transform an XML document. Among the many topics that will be discussed are processing XML with application code, working with the DOM, recognizing common industry parsers, and the integration of XML into an infrastructure.

**CWB 205 Complete Web Scripting: JavaScript**
**3 credits**
Prerequisites: CWB 110 and one programming language or permission of instructor
CWB 205 explores the complete set of Web scripting skills needed to develop Web Applications. Topics include variables, data types, arithmetic operations, logical operations, looping, creating and reading cookies, creating an array, displacing data based on a cookie value, setting flags, working with frames, creating objects in a hidden frame, using the History Object, writing HTML to another window, determining browser, and directing keystrokes.

**CWB 208 Web Application Development: PHP**
**3 credits**
Prerequisite: CSC160 and CWB 110, or permission of instructor
CWB 208 teaches you how to work in the server-side scripting environment. You will learn the basics of application development and general principles that apply to most development environments. You will develop applications using two different server-side application development tools: PHP Hypertext Preprocessor (PHP) and Cold Fusion. You also will learn key application standards, such as source and revision control, coding standards, code optimization, and data integrity.

**CWB 245 Complete Web Animation: Flash**
**3 credits**
Prerequisites: CSC 119 or CSC 160; CWB 245 and CWB 162 are recommended, or permission of instructor
CWB 245 explores the complete set of Web animation tools. Topics include creating an .swf file; publishing the file with interactivity and animation; creating .swf files encompassing navigation, animation, event sound, streaming sound, behavior actions; getting a movie clip, tell targets, preliminary Generator discussion, and preloaded sequences; integration of 3D objects; and producing a high-end project.

**CWB 246 Advanced Web Animation: Flash**
**3 credits**
Prerequisite: CWB 245 or permission of instructor
CWB 246 is an advanced topics study of the Flash r/6 authoring tool, Flash’s scripting language Action Script, and the complex functions of the Macromedia Flash .swf file format. The main objective of the course is the exposure to advanced interactivity, design, and coding principles.
CWB 262 Image Editing II: Photoshop
3 credits
Prerequisite: CWB 162
CWB 262 covers advanced features of Adobe Photoshop, including advanced image editing and image preparation for the Web. Topics include color management, color correction, photographic retouching, effects, file formats, optimization, ImageReady, animated gifs, image maps, and slicing.

CWB 289 Capstone
3 credits
CWB 289 requires a demonstrated culmination of learning within a given program of study.

DAN – Dance
www.rrcc.edu/dance/

DAN 105 – Hip Hop I
1 credit
DAN 105 consists of basic traditional jazz and ballet movements. Warm-up exercises will include body toning and stretching. You will learn diagonal step combinations leading to hip-hop dance routines.

DAN 106 – Hip Hop II
1 credit
DAN 106 includes traditional jazz, ballet, and street dancing techniques as well as warm-up exercises, such as body toning and stretching. You will learn diagonal and center step combinations leading to hip-hop dance routines.

DAN 111 – Modern Dance I
1 credit
DAN 111 introduces basic concepts and skills of modern dance and focuses on technique work to increase strength, flexibility, endurance, coordination, rhythm, and spatial awareness. The course also explores dance as a tool for communication and dance as an art form. DAN 111 may be repeated for no more than three credits.

DAN 112 – Modern Dance II
1 credit
DAN 112 includes a more in-depth study of modern dance concepts as well as more specific techniques of modern dance choreography. It focuses on more advanced technique work with more emphasis on improvisation. DAN 112 may be repeated for a total of three credits.

DAN 121 Jazz I
1 credit
DAN 121 introduces the basic techniques and vocabulary of jazz dance and the basic elements of dance. The course focuses on movement-oriented dance, comprised of warm-up exercises, center combinations, traveling combinations, and cool down. The course may be repeated for a maximum of three credits.

DAN 122 – Jazz II
1 credit
DAN 122 continues Jazz I with an increased knowledge of jazz dance. The course enables you to work at an intermediate level with a basic understanding of body alignment, balance, and musicality.

DAN 131 – Ballet I
1 credit
DAN 131 introduces the basic techniques of ballet, which are built upon knowledge of ballet terminology, fundamental exercises, and the basic elements of dance. It focuses on movement-oriented dance, comprised of stretching, barre warm-up exercises, simple terre à terre and jumping steps, and basic extended positions. The course may be repeated for a maximum of three credits.

DAN 132 – Ballet II
1 credit
DAN 132 continues Ballet I and emphasizes ballet terminology, fundamental exercises, and the basic elements of dance. It focuses on an intermediate level within the basic structure of the ballet class. The course may be repeated for a maximum of three credits.

DAN 143 Tap I
1 credit
DAN 143 introduces basic tap dance movements and techniques. The shuffle, ball change, brush, flap heel drop, stomp, and stamp step are covered.

DAN 151 Belly Dance I
1 credit
DAN 151 presents belly dance - the oldest dance form known to humankind as a celebration of life. The course emphasizes developing balance and enables you to perform a belly dance and learn the history of belly dance and costuming techniques.

DAN 152 Belly Dance II
1 credit
DAN 152 continues DAN 151, with emphasis on coordination and balance and additional techniques. It includes costume design.

DAN 154 Dance and Stage Movement
3 credits
DAN 154 introduces you to the basic elements of modern dance and to the potential of dance and stage movement as a means of communication.

DAN 224 Dance for Musical Theatre
3 credits
Prerequisites: DAN 154 or permission of instructor.
DAN 224 introduces you to dance within the context of musical theatre. The course enables you to practice non-verbal communication and expressive movement techniques.

DAN 275 Special Topics
1-6 credits
DAN 275 provides you with a vehicle for in-depth exploration of special topics of interest.
You must be accepted into the DMS program to take any DMS courses. Individuals who are already certified by the ARDMS may enroll in any of the DMS courses without applying to the program. Contact the program director for more information: 303.914.6034

DMS 204 Venous Sonography 2 credits
DMS 204 provides you with an in-depth study of the evaluation of peripheral venous disease using duplex ultrasound and plethysmographic techniques. You will learn to evaluate for venous thrombosis and insufficiency. Superficial venous mapping will be demonstrated. You will review techniques for evaluating the presence of venous disease. You will learn pathological mechanism and risk factors for venous disease. Surgical and non-surgical corrective procedures will be discussed. Correlation with other vascular procedures will be demonstrated.

DMS 205 Small Parts Ultrasound 2 credits
DMS 205 is designed to teach specific knowledge of anatomy of the breast, thyroid, scrotum, prostate, and the surrounding structures. The ability to identify pathology or to locate abnormalities is also an integral part of the class.

DMS 206 Vascular Ultrasound 2 credits
DMS 206 will cover basic positioning and scanning protocol of the vascular system. Review of the anatomy, hemodynamics and terminology unique to the vascular system with emphasis on the external carotid system, the upper and lower venous and arterial systems and the abdominal vasculature will be included.

DMS 221 OB/GYN Ultrasound I 2 credits
DMS 221 provides a systematic study of embryology to include development of the major organ systems with correlation to sonographic imaging at all stages of embryologic, fetal development and the surrounding environment. You will master the foundations of obstetric and gynecologic sonography.

DMS 222 OB/GYN Ultrasound II 2 credits
DMS 222 covers a detailed study of the high-risk pregnancy and the use of ultrasound in detection of fetal abnormalities in organ systems to include: neural, musculoskeletal, gastrointestinal, heart, multiple pregnancy. Maternal factors such as infertility, disease, and teratogens are also covered.

DMS 231 Abdominal Ultrasound I 2 credits
DMS 231 provides a systematic study of the abdomen to include the function and development of the major organ systems with correlation to sonographic imaging and the surrounding environment. You will master the foundations of cross-sectional anatomy and abdominal sonography.

DMS 232 Abdominal Ultrasound II 2 credits
DMS 232 provides a systematic study of the gastrointestinal tract, pediatric abdomen, neonatal brain and transplanted organs. You will review the necessary sterile technique preceding invasive and intraoperative procedures and learn the applications of contrast agents in ultrasound. Other imaging techniques will be discussed as well as the principles guiding the field of sonography. A mock registry examination will prepare you for writing the national registry examination.

DMS 241 Ultrasound Physics I 2 credits
DMS 241 provides theoretical and practical approaches to understanding ultrasound physics fundamentals. You will learn the ergonomics of proper scanning, cart, chair, and room setup to aid in the prevention of musculoskeletal injury seen in many sonographers with improper technique.
course descriptions

DMS 242 Ultrasound Physics II
2 credits
DMS 242 covers a detailed study of ultrasound physics and the application within the clinical setting. Manipulation of technique controls, basic mathematical concepts, various Doppler modalities, equipment artifacts, QC/QA procedures, 3D fundamentals, and bioeffects are covered.

DMS 251 Vascular Anatomy and Physiology
2 credits
DMS 251 equips you with an understanding of the anatomy and physiology of the circulatory system. You will learn the anatomy of the veins and arteries of the human body from the great vessels to the microscopic structures at the capillary level. You will study the physiology of the circulatory system, including the effects of disease processes.

DMS 252 Abdominal Vascular Sonography
2 credits
DMS 252 teaches you how to perform duplex exams of the renal, mesenteric, aorta and iliac arteries as well as the inferior vena cava, iliac, hepatic and portal veins. You will identify risk factors and describe pathogenic mechanisms of these vessels. Surgical and interventional techniques will be discussed. Post interventional ultrasonic evaluation of these procedures will also be discussed and demonstrated. Correlation with other diagnostic procedures will be demonstrated.

DMS 261 Introduction to Vascular Testing
2 credits
DMS 261 introduces you to the field of vascular technology. You will receive an introduction to vascular terminology, patient assessment, and the role of imaging and non-imaging procedures in the diagnosis of vascular disease.

DMS 262 Arterial Sonography
2 credits
DMS 262 provides an in-depth study of peripheral arterial disease and non-invasive evaluation of it. You will learn how to perform B-mode and Doppler evaluation of the upper and lower extremities. You will also learn how to perform pulsed volume recording, segmental blood pressures and plethysmography. Pathological and pathophysiologic states will be described. The course will review pertinent techniques for patient assessment, obtaining patient histories, evaluating and correlating patient symptoms with diagnostic findings. You will be introduced to correlating information with other diagnostic procedures. Surgical and non-surgical corrective techniques will be discussed. Techniques for evaluating post interventions or surgical techniques will also be explained.

DMS 263 Ultrasound Internship I
10 credits
DMS 263 provides clinical experience for the ultrasound student. Application of the topics covered in advanced didactic lectures will include an introduction to invasive procedures using ultrasound guidance. Sterile technique and standard precautions will be reviewed. You will spend 30 hours per week at the clinical site under the direct supervision of a registered sonographer.

ECE – Early Childhood Education

www.rrcc.edu/ece/

ECE 101 Introduction to Early Childhood Education
3 credits
ECE 101 provides an introduction to early childhood education. It includes the eight key areas of professional knowledge: child growth and development; health, nutrition, and safety; developmentally appropriate practices; guidance; family and community relationships; diversity; professionalism; and administration and supervision. This course focuses on birth through age eight.

ECE 102 Introduction to Early Childhood Lab Techniques
3 credits
Co-requisite: ECE 188 Field Experience
ECE 102 includes a classroom component and required placement in a child care setting (ECE 188). The supervised placement provides you with the opportunity to observe children, to practice appropriate interactions, and to develop effective guidance and management techniques. This class addresses ages birth through eight.

ECE 103 Guidance Strategies for Children
3 credits
ECE 103 explores guidance theories, applications, goals, techniques, and factors that influence expectations, classroom management issues, and prosocial skills from birth through age eight.
ECE 111 Infant and Toddler Theory and Practice 3 credits
Co-requisite: ECE 112 or permission of instructor
ECE 111 presents an overview of theories, applications (including observations), and issues pertinent to infant and toddler development in group and/or family settings. It also includes the state mandated infant and toddler requirements for licensing, health, safety, and nutrition issues.

ECE 112 Introduction to Infant/Toddler Lab Techniques 3 credits
Co-requisite: ECE 111 or permission of instructor
ECE 112 includes a classroom seminar and placement in an infant and/or toddler setting. The supervised placement provides you with the opportunity to observe, to practice appropriate interactions, and to develop effective guidance and nurturing techniques with infants and/or toddlers. The class includes topics from prenatal development through age two.

ECE 125 Science/Math and the Young Child 3 credits
ECE 125 examines theories of cognitive development as a framework for conceptualizing the way young children acquire scientific and mathematical skills, concepts, and abilities. It enables you to research and develop appropriate individual and group scientific and mathematical activities for young children.

ECE 126 Art and the Young Child 2 credits
ECE 126 prepares you to plan and implement a comprehensive and developmentally appropriate art program for young children. Additionally, you will investigate the development of self-taught art techniques in young children.

ECE 127 Music/Movement for the Young Child 1 credit
ECE 127 focuses on the purposes of incorporating music and movement into the early childhood curriculum. Through active participation with hands-on experiences, you will work with the concepts of age and developmental appropriateness when designing fun activities in both subjects.

ECE 188 Practicum: Early Childhood Education 1 credit
Co-requisite: ECE 102 Introduction to Early Childhood Lab Techniques
ECE 188 provides you with field experience in early childhood programs.

ECE 191 School Age Theory and Practice 3 credits
ECE 191 emphasizes processes for planning and implementing developmentally appropriate environments and experiences and selection of appropriate materials in school age programs working with children ages 6 to 12 years of age. It also includes expression and problem-solving skills in school age children.

ECE 192 School Age Lab Techniques 3 credits
ECE 192 incorporates lab experience in before/after school, summer camp, or elementary school programs. The class focuses on planning and implementing developmentally appropriate curriculum for school age children and includes assisting the supervising teacher in all activities.

ECE 205 Nutrition, Health and Safety 3 credits
ECE 205 focuses on nutrition, health, and safety as key factors for optimal growth and development of young children. It includes nutrient knowledge, menu planning, food program participation, health practices, management and safety, appropriate activities, and communication with families around these issues. This course addresses information from before birth through age eight.

ECE 220 Curriculum Development: Methods and Techniques 3 credits
Prerequisite: ECE or PSY 238 or permission of instructor
ECE 220 provides an overview of early childhood curriculum development. It includes processes for planning and implementing developmentally appropriate environments and experiences, selection of appropriate materials, and quality in early childhood programs.

ECE 225 Language and Cognition for the Young Child 3 credits
Prerequisite: ECE or PSY 238 or permission of instructor
ECE 225 examines theories of cognitive and language development as a framework for conceptualizing the way children acquire thinking skills. It addresses observation, planning, facilitation, creative representation, and evaluation strategies within the context of play with a focus on language, science, math, problem solving, and logical thinking. Ages addressed are birth through age eight.

ECE 226 Creativity and the Young Child 3 credits
ECE 226 provides an emphasis on encouraging and supporting creative self expression and problem solving skills in young children. It explores creative learning theories and research and focuses on developmentally appropriate curriculum strategies in all developmental domains. Ages addressed are birth through eight.

ECE 228 Language and Literacy 3 credits
ECE 228 presents strategies for optimum language development, literacy, and the social/emotional development which supports acquisition of these skills. It addresses children’s language and literacy in home, classroom, and community settings and provides appropriate teacher/child verbal interactions, classroom environments, and activities. Ages addressed are birth through eight.

For the latest information, visit www.rrcc.edu
ECE 237 Theories and Techniques of Social and Emotional Growth
3 credits
Prerequisite: ECE or PSY 238 and ECE 220
ECE 237 incorporates student specific techniques and strategies for guiding and enhancing the social and emotional growth of children 0-8 years. The class introduces and compares the theories and theorists underlying quality interactions and patterns of social and emotional progression.

ECE 238 Child Growth and Development
4 credits
ECE 238 covers the growth and development of the child from conception through the elementary school years. It examines the physical, cognitive, language, social and emotional domains and the concept of the whole child. It also addresses how adults can provide a supportive environment for optimum growth and development.

ECE 240 Administration of Early Childhood Care and Education Programs
3 credits
Prerequisite: ECE 101 or permission of Instructor. It is recommended that you have completed all director certification courses before taking this course.
ECE 240 examines Colorado's minimal licensing requirements, as well as optimal standards pertaining to the operation of programs for young children ages birth to eight. The focus is on the director’s administrative skills and role as a community advocate for young children.

ECE 241 Admin: Human Relations for Early Childhood Professions
3 credits
ECE 241 focuses on the human relations component of an early childhood professional’s responsibilities. Topics include director-staff relationships, staff development, leadership strategies, parent-professional partnerships, and community interaction.

ECE 242 Admin: Family Child Care Business and ECE Programs
3 credits
ECE 242 examines Colorado's minimal licensing requirements, as well as optimal standards pertaining to the operation of programs for young children. This course focuses on the business skills necessary for family child care providers, and acquaints you with skills necessary for administering a child care center.

ECE 256 Working with Parents, Families, and Community Systems
3 credits
ECE 256 examines attitudes and family values systems and how they affect parent-professional partnerships. It addresses communication, problem-solving, and conflict resolution strategies. You will learn how to plan effective activities and programs for parent involvement in facilities serving children birth to age eight.

ECE 260 Exceptional Child
3 credits
Prerequisite: ECE or PSY 238 or permission of instructor
ECE 260 presents an overview of typical and atypical developmental progression. It includes planning techniques, learning strategies, legal requirements, and accommodations and adaptations that are necessary in order to create an integrated classroom environment for a child with a wide range of exceptionalities. This course focuses on birth through age twelve.

ECE 275 Special Topics
1-6 credits
ECE 275 explores current topics, issues, and activities related to one or more aspects of the early childhood care and education profession.

ECO – Economics
www.rrcc.edu/economics/

ECO 101 Economics of Social Issues
3 credits
ECO 101 examines the major socio-economic issues of the past century. It covers poverty and growth, education, health care, pollution and discrimination.

ECO 201 Principles of Macroeconomics
3 credits
Prerequisite: MAT 121 suggested
ECO 201 focuses on the study of the American economy, stressing the interrelationships among household, business, and government sectors. The class explores saving and investment decisions, unemployment, inflation, national income accounting, taxing and spending policies, the limits of the market and government, public choice theory, the Federal Reserve System, money and banking, and international trade.

ECO 202 Principles of Microeconomics
3 credits
Prerequisite: MAT 121 suggested
ECO 202 studies the firm, the nature of cost, and how these relate to the economy as a whole. The class analyzes economic models of the consumer, perfect competition, monopoly, oligopoly and monopolistic competition. It explores economic issues including market power, population growth, positive and negative externalities, income distribution, poverty and welfare, discrimination, and international economic interdependence.
EDU – Education

www.rrcc.edu/education/

EDU 101 CRLA Tutor Certification
- Regular
  1 credit
EDU 101 introduces tutors to effective tutoring strategies. Topics include guidelines for tutoring; how to plan, conduct, and evaluate a productive tutoring session; how to recognize needs of students; and how to develop effective learning strategies with students.

EDU 102 CRLA Tutor Certification
- Advanced
  1 credit
EDU 102 presents an extension of EDU 101 and continues the study of effective tutoring skills. Topics include working with a diverse student population, studying communication skills, and developing effective learning strategies with students.

EDU 103 CRLA Tutor Certification
- Master
  1 credit
EDU 103 presents an extension of EDU 102 and continues the study of effective tutoring skills. Topics include learning strategies for specific subject areas, intercultural communication, and group facilitation.

EDU 110 Overview of Special Populations for Paras
  3 credits
EDU 110 provides you with knowledge in the areas of laws and history of special education; roles and responsibilities of paraeducators; planning for students with disabilities; typical and non-typical developmental stages of children and youth; basic learning concepts; cognitive, communicative, physical, and affective needs of students with disabilities; understanding people with disabilities; transition; job coaching; and how to teach students self-advocacy skills.

EDU 130 Test Prep for Paraeducator WorkKeys
  1 credit
EDU 130 reviews the format and content for the ACT Paraeducator Work Keys assessment. You will become familiar with the knowledge needed for the applied math, reading for information, and writing assessments.

EDU 131 Introduction to Adult Education
  3 credits
EDU 131 introduces you to the basic concepts in the instruction of adults. Emphasis will be placed on understanding the adult learner and how individual backgrounds and experiences can affect the learning process. Additionally, the course will cover applicable federal and state legislation which affects adult learning programs and will provide information on the resources and associations in the field of adult education.

EDU 132 Planning, Organizing, and Delivering Adult Education Instruction
  3 credits
EDU 132 will cover the basics of planning an adult education program, organizing instruction within the various content areas and delivering the material in a variety of ways, both in groups and individualized instruction. A wide variety of learning principles and theories will be addressed, showing their applicability to the adult learner and his/her education.

EDU 133 Adult Basic Education (ABE) and Adult Secondary Education (ASE/GED)
  3 credits
EDU 133 specifically addresses the different levels within an adult education program. Each level will be addressed in terms of appropriate assessment tools and instructional techniques. Emphasis will be placed on teaching ways that the adult education instructor can encourage the development of cognitive skills at each level, as a springboard to the next higher level.

EDU 134 Teaching English as a Second Language (ESL) to Adult Learners
  3 credits
EDU 134 introduces the development and implementation of a program to teach English to adults whose first language is not English. Topics will range widely from assessment and placement to the theories behind language acquisition. You will also cover a wide variety of methodologies, both group and individualized, that are aimed at teaching the non-English speaker the written and verbal skills necessary to successfully function in the U.S.

EDU 135 Family Literacy in Adult Education
  3 credits
EDU 135 introduces the philosophy and theory behind family literacy, as well as giving practical advice on the development and implementation of a family literacy program. The four-component model—adult education, early childhood education, parent and child together time (PACT), and parenting—will be covered, both in theory and practical application.

EDU 151 Literacy Intervention for Paraeducators
  4 credits
EDU 151 is an introduction to the five components of scientifically based reading research: phonemic awareness, alphabetic principle, fluency, vocabulary development, and comprehension. This course will provide an overview of research-based practices and concepts in multi-sensory instruction for reading and provide the participants with a systematic and sequential scope and sequence of the reading process and a lesson plan format.

EDU 152 Math Interventions for Paraeducators
  3 credits
EDU 152 focuses on the best practices of teaching mathematics, particularly in intervention situations. This includes knowledge of national, state, and district mathematics content standards, process standards, approaches to teaching mathematics, literature connections, and proper use of manipulatives and assessment. Content focuses on numbers and operations.

For the latest information, visit www.rrcc.edu
EDU 153 ESL and Cultural Issues for Paraprofessionals
3 credits
EDU 153 provides an introduction to multicultural education and the issues facing students whose primary language is not English. The topics will be covered with the perspective of paraprofessionals in mind. The class will examine culture as a framework through which identities are shaped and will explore the socio-political aspects of cultural identity and how they influence attitudes, approaches, and educational systems. Topics include second language acquisition, stages of English proficiency, strategies for the classroom, institutional racism, discrimination, and deficit views of particular racial and ethnic groups and of English language learners.

EDU 221 Introduction to Teacher Education
3 credits
EDU 221 will study the historical, social, political, philosophical, cultural, legal, and economic forces that shape the United States public school system as students explore teaching as a career choice. Topics will include current issues of educational reform, technology as it relates to education, and considerations related to becoming a teacher in the state of Colorado. A field-experience component will be required.

EDU 234 Multicultural Education
3 credits
EDU 234 focuses on the need to recognize and understand the similarities and differences among people and to develop a respect for all individuals and groups. The course assists teachers who need to recognize the special learning needs of children from different racial, ethnic, cultural, and socio-economic groups and to encourage teachers to integrate multicultural/diversity teaching into the school curriculum. This class can also count toward teacher recertification.

EDU 240 Teaching the Exceptional Learner
3 credits
EDU 240 focuses on the individual differences and modifications that are necessary in the educational practices of the exceptional learner.

EDU 261 Teaching, Learning, and Technology
3 credits
EDU 261 prepares you to integrate technology into your teaching curriculum. It enables you to design educational and training materials by incorporating instructional technology. The course explores a variety of technologies, including the computer, Internet, multimedia, graphics, audio, and text with an emphasis on increasing learning through their use. It examines combining technology with a variety of instructional methodologies. This class can also count toward teacher recertification.

EDU 288 Practicum II
1 credit
EDU 288 provides you with the opportunity to supplement coursework with practical work experience related to your educational program. You will work under the immediate supervision of experienced personnel at the education facility and with the direct guidance of the instructor.

EGT – Engineering Graphics Technology

www.rrcc.edu/egt/
(See CAD for more listings)

EGT 220 Introduction to Civil Graphics Technology
3 credits
Prerequisite: Basic 3D knowledge or permission of instructor
EGT 220 introduces the fundamental concepts and drafting principles required of a civil engineering technician. The course covers roles, required skills and responsibilities of a civil engineering technician, terminology, types of civil drafting and employment opportunities, classes of maps and map projections, typical drawing formats, current drafting and CAD practices, and mapping resources.

EGT 221 Land Surveying Concepts and Earthwork
3 credits
Prerequisite: EGT 220 or permission of instructor
EGT 221 enables you to apply map symbols, to calculate and measure map scales, to describe land parcels, to write and lay out legal descriptions, and to describe land using the Public Land Survey System. You have the opportunity to learn to interpret and reduce field notes; to lay out horizontal and vertical angles, bearings, azimuths, coordinates, and traverses; to mathematically close a boundary survey; to interpret G.P.S. data; and to create a computer database. The course includes lecture, computer drawing, and small project work.

EGT 222 Topographic Map Concepts
3 credits
Prerequisite: EGT 220 or permission of instructor
EGT 222 shows you how to identify and interpret topographic symbols, interpret different types of survey data, construct topographic map models, interpolate contours, set up grading plans, perform grade calculations, research resources for topographic maps, and identify map scales.

EGT 230 Drafting and Design I
6 credits
Prerequisite: CAD 110 or equivalent
EGT 230 develops a fundamental understanding of concept design using 2D drawings. Project management for a complete set of Construction Drawings is emphasized, as well as pertinent design data relative to the AAS degree emphasis. Use of Model Space / Paper Space, floating viewports manipulation, external references, and interface tools is emphasized. Material is relative to the certificate or degree program.

EGT 231 Drafting and Design II
6 credits
Prerequisite: CAD 110 or equivalent
EGT 231 examines ideas, sketches, and layouts to create working drawings of a customized design relative to
the certificate of degree program. Projects require full documentation details and presentation of graphics and documentation. 3D applications are used, from basic understanding to the most complex design.

**EIC – Electricity Industrial/Commercial/Residential**

[www.rrcc.edu/electrical/](http://www.rrcc.edu/electrical/)

**EIC 100 Electrical Constructions and Planning**  
*4 credits*  
EIC 100 introduces the planning of electrical system installations from blueprints to the completed job and preparation of material lists, job sheets, and time schedules for various phases of construction. The course emphasizes the National Electrical Code.

**EIC 104 Basics of Indust. Electricity**  
*1.5 credits*  
EIC 104 focuses on resistance, current, voltage, and power in AC and DC circuits; measurements; computations of series and parallel circuits; circuit analysis; and troubleshooting with basic test equipment.

**EIC 110 Electrical Installations I**  
*4 credits*  
EIC 110 covers residential building wiring in conformance with the current National Electrical Code and local codes using non-metallic cable. The course emphasizes proper use of tools and safety.

**EIC 120 Electrical Installation II**  
*4 credits*  
Prerequisite: EIC 110 or permission of instructor  
EIC 120 explores commercial and industrial building wiring in conformance with the current National Electrical Code and local codes using electric metallic tubing and other raceways. The emphasis is on proper use of tools and safety.

**EIC 124 Electrical Safety Requirements**  
*1 credit*  
EIC 124 focuses on training that is 100% practical and deals with every important aspect of OSHA’s electrical safety-related work practices and how they apply. The course teaches the safe installation and maintenance of electrical equipment and covers the use of personal protective equipment.

**EIC 130 National Electrical Code I**  
*4 credits*  
EIC 130 focuses on the National Electrical Code and local code requirements for electrical installation. It covers chapters one through four of the National Electrical Code.

**EIC 134 Life Safety Code (NFPA 101)**  
*1.5 credits*  
EIC 134 addresses new and existing buildings with specific requirements that directly influence the safety of people and protection of property and equipment. The course is designed for inspectors, managers, engineers, architects, building owners and insurers, manufacturers (including fire suppression and alarm systems) and others in the building-related field.

**EIC 135 National Electrical Code II**  
*4 credits*  
EIC 135 builds on course EIC 130 and covers chapters five through nine of the National Electrical Code, including hazardous locations, special occupancies, conditions, and equipment.

**EIC 144 Grounding and Bonding**  
*1.5 credits*  
EIC 144 prepares you for the latest technology and techniques available for code and standards-compliant grounding and bonding systems. This course focuses on grounding and bonding requirements as they relate to Article 250 and other articles of the NEC. The course covers installation, testing and inspection procedures for eleven power systems. This course includes rules to minimize the risk of electricity as a source of electric shock and as an ignition source for fires.

**EIC 150 DC Circuit Fundamentals**  
*4 credits*  
Prerequisite: EIC 150 or permission of instructor  
EIC 150 covers the principles of DC electricity and magnetism with emphasis on Ohm’s, Kirchoff’s and Watt’s laws to analyze circuits voltage current and power. It addresses common measuring instruments and safety.

**EIC 155 AC Circuit Fundamentals**  
*4 credits*  
Prerequisites: EIC 150 or permission of instructor  
EIC 155 emphasizes resistance, current, voltage, and power in AC, measurements, computations of series and parallel circuits, circuit analysis, and troubleshooting with basic test equipment. It covers the principles of AC electricity, magnetism, inductive and capacitive circuits; use of phasors to represent AC quantities; the concept of reactive volt-amperes and power factor; and use of instruments, including VOM’s and oscilloscopes. The course explores the principles of polyphase alternating current systems, Wye and Delta circuit configurations; safety procedures will be explored.

**EIC 160 Electrical Instruments and Measurements**  
*4 credits*  
Prerequisite: EIC 150 or permission of instructor  
EIC 160 covers the proper techniques for using electrical instruments, including volt/ohm, amp, phase-rotation, oscilloscopes, and recording meters. The course focuses on instrument transformers for journeymen and in-plant electricians.

**EIC 165 Solid State Devices and Circuits**  
*4 credits*  
Prerequisites: EIC150, EIC155, or permission of instructor  
EIC 165 explores the basic properties of diodes, transistors, triacs, SCRs, and other solid state devices. It covers applications of solid state devices in control and power conversion and the circuits in equipment likely to be encountered in power installations.
EIC 166 Tuning Ddc/ Process Cont. Loops
1.5 credits
EIC 166 investigates process characteristics and process control loops to learn quick and proper controller adjustment for good response. It includes defining proportional band, integral and derivative, formal open and closed loop tuning methods, and advances control methods. The course enables you to use computer simulation software to learn the concepts of proportional band, integral and derivative, and to practice different tuning methods.

EIC 167 Electrical Maintenance
4 credits
EIC 167 introduces you to common electrical repairs, electrical systems, tools, and test equipment. It includes replacing or repairing devices such as receptacles, light fixtures and ballasts, circuit breakers, fuses, and switches. The course addresses electrical safety and code applications.

EIC 168 Maintenance Management
1 credit
EIC 168 covers the critically important but often overlooked component of maintenance management. It focuses on the implementation of a maintenance program or improvement of an existing program. The course covers how to reduce unscheduled overtime, excessive material costs, and the number of breakdown repairs.

EIC 169 Electrical Code Calculations
4 credits
EIC 169 discusses calculations used in the application of the National Electrical Code. It emphasizes sizing of branch circuit and feeder conductors and calculating ratings of protective devices.

EIC 205 Advanced Electrical Planning
4 credits
EIC 205 explores the planning and layout of large commercial and industrial electrical installations.

EIC 206 Advanced National Electrical Code
4 credits
Prerequisite: EIC 130, EIC 135, or permission of instructor
EIC 206 is an Advanced National Electrical Code course for the in-plant technician. The course emphasizes how to interpret NEC rules that apply to industrial/commercial installations. Maintenance electricians and residential wiremen desiring to upgrade their knowledge of these rules can benefit from this class.

EIC 215 Advanced Code Calculations
4 credits
Prerequisite: EIC 169 or permission of instructor
EIC 215 is an extension of EIC 190. The course emphasizes calculations for sizing transformers, conduits, fittings, protective devices, relays related to branch circuits, and feeders for motor loads. Other loads as they apply to industrial/commercial situations are also explored. Sizing of transformers and power factor correction calculations is discussed as well.

EIC 217 Electrical Estimating/Costing
4 credits
EIC 217 focuses on the fundamentals of electrical estimating, material takeoffs from prints, required labor hours, material loss allowances, and scheduling to ensure orderly work progress.

EIC 220 Industrial Electrical Controls I
4 credits
Prerequisite: EIC 150 or permission of instructor
EIC 220 studies the application of electrical and electromechanical sensing/ control devices; heating, ventilating, and air conditioning applications; motor control; conveyor drives; and other industrial applications. You will design control systems to meet assigned conditions, use principles of relay logic to prepare correct ladder diagrams and wire up, and test and trouble-shoot systems in the laboratory. The course stresses accuracy, safety, and National Electric Code requirements.

EIC 221 Trouble-Shooting Control Circuits
1.5 credits
EIC 221 bridges the gap between the theoretical knowledge and the critical thinking skills needed on the job. It incorporates working at a troubleshooting station with circuits that are identical to motor control circuits in a plant. The course concentrates exclusively on teaching hands-on troubleshooting.

EIC 222 Intro. Instr. and Process Control
1.5 credits
EIC 222 investigates the theory of industrial instrumentation measurement through process control. The course includes theory and measurement and methods for temperature, pressure, level, and flow. It incorporates hands-on training equipment to measure temperature and pressure and perform calibration of a pressure differential transmitter. The course enables you to construct a closed loop and tune the loop. Test equipment is used to simulate a two-wire transmitter and source a current signal for calibration of an I/P transducer.

EIC 224 Understanding PLC’s
1.5 credits
EIC 224 improves your ability to read, interpret, and analyze electrical ladder drawings. The course acquaints you with the basic electromechanical components commonly used in electrical control circuits, as well as solid-state relays, and the role of programmable controllers.

EIC 225: Programmable Controllers
4 credits
Prerequisites: EIC 150 and 220 or permission of instructor
EIC 225 studies the use of solid-state control equipment, primarily programmable controller and associated solid-state sensors to control equipment, machinery, or complete processes. The course includes concepts of solid-state logic, characteristics of solid-state sensors, conversions of relay logic control systems to programmable control systems, and microprocessor-
based systems and remote control of processes. It enables you to design, implement, and test control systems in the laboratory to meet specifically-assigned control problems and also emphasizes accuracy, safety and National Electrical Code requirements.

**EIC 226 PLC Controllers Advanced** 1.5 credits
Prerequisite: EIC 224 or permission of instructor
EIC 226 studies the advanced uses and applications of programmable logic controllers toward automated equipment, machines, and processes. The course includes understanding the functions of PLC hardware components, converting relay logic to ladder logic, comprehending ladder logic instruction functionality, and identifying the PLC’s data structure. It enables you to create, implement, and troubleshoot ladder logic programs that simulate automated machine control and processes.

**EIC 227 Mechanical Drives** 1.5 credits
EIC 227 covers the basics of mechanical drives including chain drives, belt drives, bushings, couplings, gear drives, bearings, and lubrication. It includes study of power transmission physics, shafts, keyways and keyseats, prime movers, gearing, chain drives, belt drives, bushing couplings, bearings, lubrication, clutches, brakes and torque limiters, and mechanical variable speed drives.

**EIC 229 AC and DC Variable-Speed Drive** 1.5 credits
EIC 229 teaches variable speed drive technology that offers a cost-effective method to match driver speed to load demands and represents a state-of-the-art opportunity to reduce operating costs and improve overall productivity. It focuses on variable speed drive technology, including operation, set-up, troubleshooting, maintenance, proper selection and application for drives, and basic drive overview and comparison.

**EIC 230 IND Instrumentation & Controls I** 4 credits
EIC 230 introduces the basic concepts, principles, equipment, and components of instrumentation and control systems found in the process and energy supply industries. The fundamental process variables of pressure, temperature, level, flow and physical properties will be presented. Control loop structure and function will be introduced. The function and operation of a proportional-integral-derivative (PID) controller will be introduced. You will assemble and operate basic control loops in a laboratory setting.

**EIC 231 Electro-Pneumatic Training** 1.5 credits
EIC 231 introduces the real world of pneumatic and electro-pneumatic control and power transmission through a powerful interactive training program. The course focuses on the full scope of compressed air production, preparation, and distribution. Through hands-on learning, you will learn to apply simple gas laws, reading of symbols, and understanding of component technologies.

**EIC 234 High Voltage Elect. Safety** 1.5 credits
EIC 234 incorporates the latest technological equipment to include demonstrations with participant interaction as well as hands-on lab exercises. This course addresses basic operational theory and the actual operation of various types of AC and DC motors. This is an entry-level course, so prior electrical experience is desired but not required.

**EIC 240 Fire Alarm Fundamentals** 4 credits
EIC 240 covers terminology, symbols, diagrams, devices, circuits, and wiring. The course focuses on basic layouts and principles involved in fire alarm system design and construction.

**EIC 241 Advanced Fire Alarm Systems** 4 credits
Prerequisite: EIC 240
EIC 241 covers design, installation, documentation, testing, and codes. The course focuses on advanced layout and principles involved in fire alarm system design and construction, allowing you to test for NICET II certification.

**EIC 242 National Fire Alarm Code** 4 credits
EIC 242 covers Fire Alarm Code (NFPA72) and local codes terminology, symbols, diagrams, devices, circuits, and the wiring of fire alarm systems. The basic code layouts and principles involved in fire alarm design and construction also will be addressed. Students testing for NICET certifications can benefit from this class.

**EIC 245 Fiber Optics Training** 1.5 credits
EIC 245 introduces the theory of fiber optics, including standards, installation, connectorization, mechanical/fusion splicing, and testing through advanced procedures in troubleshooting, repair, and certification. The course serves as the non-vendor dependent certification course for levels 1, 2, and 3, and focuses on building real world fiber networks with extensive hands on certification and written exams that prepare students for the versatility of actual work environments.

**EIC 247 Fiber Optics Advanced** 1.5 credits
EIC 247 combines the Fiber Optics Certification and Structured Cabling Certification classes into a comprehensive study of cabling systems.
EIC 253 Fiber Optics Certification
1 credit
EIC 253 introduces the theory of fiber optics, including standards, installation, connectorization, mechanical/fusion splicing, and testing through advanced procedures in troubleshooting, repair, and certification. The course serves as a non-vendor dependent certification course for levels 1, 2 and 3. It focuses on building real world fiber networks with extensive hands-on certification and written exams that prepare you for the versatility of actual work environments.

EIC 254 Telephony
1.5 credits
EIC 254 prepares individuals new to the telecommunications industry or new to positions requiring a basic knowledge of voice and data communications systems, networks, and terminology. The course focuses on understanding current networking alternatives and the impact on business decisions and opportunities.

EIC 255 Electrical Issues for Telecommunications
0.5 credits
EIC 255 examines Telecom/Datacom system installation with electrical systems, including pathways, distribution and supply, grounding and bonding, UPS, and lighting. It explores improvements and new technologies and enables the telecom/datacom professional to assess and secure an overview of the communications industry is convergence with the electrical field.

EIC 256 Structured Cabling Systems Distribution Certification
1.5 credits
EIC 256 offers hands-on and theoretical training in fiber optic cable layout for residential and commercial, single occupant, multi-occupant/apartment and campus-structured cabling systems.

EIC 257 Certification for Residential Voice/Data System Network
1.5 credits
EIC 257 trains the contractor/installer in design, estimation, installation, troubleshooting, and certification of complex residential structured cabling systems. The course emphasizes home automation, complex office electrical systems, and A/V contractors, and it includes the use of network simulators.

EIC 258 Voice Data Cat Distribution
1 credit
EIC 258 focuses on voice/data coaxial distribution certification for residential, multi-occupant, commercial, and campus-structured cabling systems.

EIC 259 LAN Certification/ Repair/ Troubleshooting
1 credit
EIC 259 explores the testing, repair, certifying, and troubleshooting of LAN-using network distribution simulators to diagnose twisted repairs, coax, and fiber.

EIC 261 Project Management
1 credit
EIC 261 covers the critically important but often overlooked component of construction-project management. The course includes project scope of work, estimator/project manager alliance, specification analysis, analysis of contractual documents, management documentation, successful meetings, critical path management, prospective on-project milestones, creation and evaluation of cost coding, employee/company quality control, supervisor/foreman relations, project documentation, change orders, project evaluation, billing final inspection, and project close-out.

EIC 262 Specification Analysis for Cabling Systems
0.5 credits
EIC 262 focuses on avoidance of problems and unanticipated expenses on cabling projects for estimators, contractors, and suppliers through an organized analysis of the project specifications.

EIC 263 Specification Writing for Structured Cabling Systems
1 credit
EIC 263 teaches the writing of specifications for structured cabling systems. It examines the job layout, products used, and execution of the project, and it focuses on establishing good working relationships with customer, installation contractor, and product supplier.

EIC 264 Cabling System Grounding and Bonding
1 credit
EIC 264 prepares you for the latest technology and techniques available for code and standards compliant grounding and bonding systems. It enables you to learn correct procedures in order to comply with applicable codes and standards.

EIC 268 Fiber Optic Networks
2 credits
EIC 268 introduces the theory of fiber optics, including standards, installation, connectorization, mechanical/fusion splicing, and testing through advanced procedures in troubleshooting, repair, and certification. The course serves as a non-vendor dependent certification course for levels 1, 2 and 3, and it focuses on building real world fiber networks with extensive hands-on certification and written exams that prepare you for the versatility of actual work environments.

EIC 275 Special Topics
0.5-12 credits
Prerequisite: Permission of instructor
EIC 275 provides you with a vehicle to pursue in-depth exploration of special topics of interest.

EIC 282 Internship
0.5-12 credits
Prerequisite: Permission of instructor
EIC 282 provides you with the opportunity to supplement course work with practical work experience related to your educational program. You will work under the immediate supervision of experienced personnel at the business location and with the direct guidance of the instructor.

EIC 285 Independent Study
0.5-12 credits
Prerequisite: Permission of instructor
EIC 285 meets the individual needs of students. You will engage in intensive study or research under the direction of a qualified instructor.
EIC 289 RCDD Exam Prep Course
2 credits
EIC 289 focuses on a detailed study of the BICSI TDM manual using the laboratory equipment to facilitate understanding as well as exam success. The TDM manual and study guide must be purchased separately. This RCDD exam preparation course should be taken prior to taking the BICSI RCDD exam.

EMP 101 Principles of Emergency Management
3 credits
EMP 101 presents a broad overview of an emergency management system and the importance of an integrated approach to managing emergencies.

EMP 105 Emergency Planning
3 credits
EMP 105 introduces a specialized type of community planning that identifies local government strategies, resources and responsibilities for protecting citizens from the effects of disasters and other major emergency events.

EMP 106 Exercise Design and Evaluation
3 credits
EMP 106 provides knowledge and the development of skills that enable you to train a staff and to conduct an exercise that tests a community’s plan and its operational response capability.

EMP 107 Emergency Operations Center and Communications
3 credits
EMP 107 provides the knowledge and skills to manage and operate an EOC during crisis situations.

EMP 109 Incident Command System
3 credits
EMP 109 explores the dynamics of managing major emergency incidents and examines the National Incident Management System.

EMP 240 Leadership and Influence
3 credits
EMP 240 examines the dynamics of leadership techniques as they apply to emergency and disaster situations.

EMP 241 Decision Making and Problem Solving
3 credits
EMP 241 enables you to clearly identify a problem and its causes in order to determine the appropriate type of decision making style.

EMP 242 Effective Communication
3 credits
EMP 242 sharpens presentation and media skills of emergency management officials when giving and receiving information in emergency management contexts.

EMP 244 Developing Volunteer Resources
3 credits
EMP 244 improves skills in recognizing volunteer resources in the community, and enhances the ability to manage the involvement of volunteers in all phases of emergency management.

EMP 247 Decision Making in a Crisis
3 credits
EMP 247 focuses on individual and group decisions based on a model problem-solving process.

EMP 280 – Business Emergency Management
3 credits
EMP 280 develops contingency planning and emergency response skills required by private sector companies.

EMS – Emergency Medical Services

www.rrcc.edu/ems/

EMS 115 First Responder
3 credits
EMS 115 provides you with core knowledge and skills to function in the capacity of a first responder arriving at the scene of an emergency, providing supportive care until advanced EMS help arrives.

EMS 125 Emergency Medical Technician – Basic
9 credits
Prerequisite: Permission of instructor Corequisite: EMS 170 EMS 125 enables you, after successful completion of this course, to take the National Registry EMT-Basic certification examinations as required by the Colorado Department of Health and Environment. Student must be at least 18 years of age.

EMS 126 Emergency Medical Technician – Basic Refresher
3 credits
Prerequisites: Current or less than 6 months expired EMT Basic certification; permission of instructor EMS 125 provides required didactic and skills review for renewing EMT students.

EMS 130 Emergency Medical Technician Intravenous Therapy
2 credits
Prerequisite: Current Colorado State EMT Basic certification; permission of instructor. EMS 130 focuses on cognitive and skill practice as required by Colorado Prehospital Care Program for EMT Basic level IV approval. It examines criteria, procedures and techniques for IV therapy, discusses fluid and electrolyte balance and principles and treatment for shock.

EMS 170 EMT-Basic Clinical
1 credit
Prerequisite: Permission of instructor Co requisite: EMS 125 or 126 EMS 170 provides the EMT student with the clinical experience required.
EMS 180 EMT-Clinical Internship
2 credits
Prerequisite: Current Colorado State EMT Basic certification; permission of instructor.
EMS 180 provides the Emergency Medical Technician (EMT) with supervised clinical learning experience that goes beyond the initial EMT requirements for the State of Colorado Department of Health. The course enables you to work with an assigned preceptor for 90 hours of clinical experience to develop an understanding of the role and responsibilities of the EMT-Basic.

EMS 214 Basic Trauma Life Support
1 credit
Prerequisite: EMT-Basic or higher certification
EMS 214 provides you with information and skill practice to treat trauma patients in the prehospital environment.

The following courses are offered in conjunction with hospital-based paramedic programs.
Only students accepted into those programs may register for them. Prerequisites for those programs normally include successful completion of an EMT Basic course, IV approval, Basic EKG interpretation, Anatomy and Physiology, and approximately one year of experience as an EMT-Basic. Contact an EMS faculty advisor for more information.

EMS 225 Fundamentals of Paramedic Practice
3 credits
EMS 225 serves as the first course of the National Standard Paramedic Curriculum as approved by the Colorado State Department of Health and Environment.

EMS 226 Fundamentals of Paramedic Practice Lab
2 credits
EMS 226 serves as the lab experience to coincide with EMS 225 topics.

EMS 227 Paramedic Special Considerations
3 credits
EMS 227 focuses on a comprehensive study of Advanced Life Support Practice.

EMS 228 Paramedic Special Considerations Lab
2 credits
EMS 228 serves as the lab experience for those students enrolled in EMS 227.

EMS 229 Paramedic Pharmacology
3 credits
EMS 229 focuses on a comprehensive study of emergency pharmacology.

EMS 230 Paramedic Pharmacology Lab
2 credits
EMS 230 serves as the required lab course in the paramedic education program.

EMS 231 Paramedic Cardiology
5 credits
EMS 231 addresses cardiology topics as presented in the National Standard Curriculum for paramedics.

EMS 232 Paramedic Cardiology Lab
1 credit
EMS 232 incorporates a hands-on application of principles of cardiac care in the pre-hospital environment.

EMS 233 Paramedic Medical Emergencies
4 credits
EMS 233 focuses on a comprehensive study of adult and pediatric medical emergencies.

EMS 234 Paramedic Medical Emergencies Lab
1 credit
EMS 234 focuses on a clinical study of adult and pediatric medical emergencies.

EMS 235 Paramedic Trauma Emergencies
4 credits
EMS 235 focuses on a comprehensive study of adult and pediatric trauma emergencies.

EMS 236 Paramedic Trauma Emergencies Lab
1 credit
EMS 236 serves as a lab presenting various acute trauma scenarios.

EMS 237 Paramedic Internship Preparatory
2 credits
EMS 237 reviews concepts and techniques used in the prehospital setting.

EMS 280 Paramedic Internship I
6 credits
EMS 280 serves as the preceptor/internship program for paramedic students.

EMS 281 Paramedic Internship II
6 credits
EMS 281 serves as the continuation of EMS 280, preceptor program for paramedic students.

ENG – English

www.rrcc.edu/english/

ENG 030 Basic Writing Skills
2 credits
ENG 030 focuses on sentence and basic paragraph structure and development. The course enables you to review and improve grammar, usage, and punctuation skills while employing critical thinking strategies and the writing process to respond to a wide variety of writing situations.

ENG 060 Writing Fundamentals
3 credits
Prerequisite: ENG 030 or appropriate ACCUPLACER score
ENG 060 focuses on paragraph structure and development and introduces the formal essay. The course enables you to review and improve grammar, usage, and punctuation skills while employing critical thinking strategies and the writing process to respond to a wide variety of writing situations.
ENG 090 Basic Composition
3 credits
Prerequisite: ENG 060 or appropriate ACCUPLACER score
ENG 090 emphasizes critical thinking as you explore writing for specific purposes and audiences. The course enables you to develop skills required for college-level writing while reviewing paragraph structure and focusing on essay development.

ENG 116 Designing Print Documentation
3 credits
ENG 116 focuses on developing technical documents, such as product manuals and troubleshooting guides that are delivered to users in print form. The course emphasizes content, organization, presentation, and style of print documentation. This course introduces concepts of document preparation and printing, as well as project cycle management, working as part of a documentation team, and collaboration with technical experts.

ENG 118 Designing Online Documentation
3 credits
ENG 118 focuses on developing technical documents that are delivered to users online, such as online manuals and online help information. The course emphasizes content, organization, presentation, and style of online documentation. This course introduces hypertext and Web publishing concepts, as well as project cycle management, working as part of a documentation team, and collaboration with technical experts.

ENG 119 Resumés and Cover Letters
1 credit
ENG 119 provides an introduction to writing resumés and cover letters. You will learn a variety of techniques for writing, presenting, formatting, and organizing traditional resumés, electronic resumés and cover letters.

ENG 121 English Composition I
3 credits
Prerequisite: A grade of C or higher in ENG 090, ESL 053, or appropriate SAT, ACT or ACCUPLACER score.
ENG 121 emphasizes the planning, writing, and revising of compositions, including the development of critical and logical thinking skills. You will write a minimum of five compositions that stress analytical, evaluative, and persuasive/argumentative writing.

ENG 122 English Composition II
3 credits
Prerequisite: A grade of C or higher in ENG 121
ENG 122 expands and refines the objectives of English Composition I.

ENG 131 Technical Writing
3 credits
Prerequisites: Appropriate assessment score in reading and writing or C or better in ENG 090 or equivalent
ENG 131 develops skills one can apply to writing a variety of technical documents. The course focuses on principles for organizing, drafting writing, and revising clear, readable documents for industry, business, and government.

ENG 132 Technical Writing II
3 credits
Prerequisites: Grade of ‘C’ or better in ENG 131 (or its equivalent) or permission of instructor
ENG 132 expands and refines the objectives of ENG 131, emphasizing formal presentations, both written and oral.

ENG 205 Technical Editing
3 credits
ENG 205 focuses on editing technical documents of varying lengths and types, from memos to product manuals. The course emphasizes consistency, readability, and conformity to an organization’s style manual. This course introduces conventions governing content, organization, presentation, and style of technical documents. The course covers how to develop a style manual. The course introduces concepts of project cycle management, working as part of a documentation team, and collaboration with technical experts.

ENG 221 Creative Writing I
3 credits
ENG 221 teaches techniques for creative writing. The course explores imaginative uses of language through creative genres (fiction, poetry, literary nonfiction) with emphasis on your own unique style, subject matter and needs.

ENG 226 Fiction Writing
3 credits
Prerequisite: ENG 221 or permission of instructor
ENG 226 teaches techniques for creating fiction, including the study and appreciation of the language and forms of the short story.

ENG 227 Poetry Writing
3 credits
Prerequisite: ENG 221 or permission of instructor
ENG 227 teaches techniques for creating poems, including study of figurative language, forms, and sound patterns of poetry.

ENG 230 Creative Nonfiction
3 credits
ENG 230 teaches you to incorporate literary techniques into factual writing. The course enables you to survey a wide range of readings and analyze form and content. The course includes critical review, biographical profiles, travel writing, and memoirs. This course provides the opportunity for you to write and review their own nonfiction in a supportive, constructive setting.
ENG 231 Literary Magazine
3 credits
ENG 231 teaches you the editorial process involved in preparing a literary magazine for publication. The course covers the process of selection of material (fiction, nonfiction, poetry, and visual art) to be published, as well as design, layout, and production to prepare a manuscript for publication. The course enables you to produce a literary magazine.

ENT – Engineering Technology

ENT 106 - Print Reading for Manufacturing
3 Credits
Prerequisites: None
ENT 106 focuses on blueprint reading techniques related to manufacturing operations. The course will cover basic drafting standards, sketching, machine shop math, symbol interpretation, tolerance, and dimensioning standards.

ENT 146 Construction Materials and Methods
3 credits
ENT 146 focuses on basic knowledge of construction materials, how they are manufactured, and their application in light commercial and industrial structures.

ENV – Environmental Science

ENV 101 Introduction to Environmental Science with Lab
4 credits
ENV 101 introduces you to the basic concepts of ecology and the relationship between environmental problems and biological systems. This course includes discussions on biology, chemistry, geology, energy, natural resources, pollution and environmental protection.

ENY – Energy Technology

ENY 101 Introduction to Energy Technologies
3 credits
ENY 101 introduces the energy technologies in use today and those that are in the research stage as possible alternatives. The course presents technologies including active solar heating, passive solar heating, wind energy systems, biomass, photovoltaic, co-generation, low and high head hydro, hydrogen, geothermal, power towers and energy storage systems.

ENY 235 Energy Systems Design
3 credits
Integration of energy system functions in a typical building including: codes and standards; energy economics; electrical system organization; waste heat recovery; utility system optimization; HVAC building system optimization.

ESL – English as a Second Language

www.rrcc.edu/international/index.html

ESL 012 Intermediate Pronunciation
3 credits
Prerequisite: appropriate placement score
ESL 012 provides listening, speaking and reading activities that help you recognize and produce a variety of stress and intonation patterns in English. It helps you to produce problematic English sounds.

ESL 033 Advanced Conversation
3 credits
Prerequisite: appropriate placement score
ESL 032 provides you with opportunities to increase the listening and speaking skills required in academic and work situations. It emphasizes vocabulary building, listening and note-taking strategies, as well as questioning, discussion, and presentation skills.

ESL 043 Advanced Reading
3 credits
Prerequisites: completion of Intensive English Program or appropriate placement score.
ESL 043 prepares you for academic reading assignments. It assists you to read more accurately and critically thought the development of vocabulary knowledge and reading skills. It introduces research skills.

ESL 053 Advanced Composition
3 credits
Prerequisites: completion of Intensive English Program or appropriate ACCUPLACER score.
ESL 053 reviews paragraph organization and develops the skill of writing essays using selected rhetorical modes. It emphasizes accurate use of advanced grammatical structures. It includes summarizing, paraphrasing, and research writing.

ESL 091 Basic Intensive English
8 credits
Prerequisite: appropriate assessment score
ESL 091 develops and strengthens oral and written communication in English for non-native speakers at the basic level by focusing on the four skills: grammar, reading, writing, and listening/speaking. It provides the first of six levels of intensive English as a second language.

ESL 092 High Basic Intensive English
8 credits
Prerequisite: ESL 091 or appropriate assessment score
ESL 092 develops and strengthens oral and written communication in English for non-native speakers at the high basic level by focusing on the four skills: grammar, reading, writing, and listening/speaking. It provides the second of six levels of intensive English as a second language.
ESL 093 Low Intermediate Intensive English 8 credits
Prerequisite: ESL 092 or appropriate assessment score
ESL 093 develops and strengthens oral and written communication in English for non-native speakers at the low intermediate level by focusing on the four skills: grammar, reading, writing, and listening/speaking. It provides the third of six levels of intensive English as a second language.

ESL 094 Intermediate Intensive English 8 credits
Prerequisite: ESL 093 or appropriate assessment score
ESL 094 develops and strengthens oral and written communication in English for non-native speakers at the intermediate level by focusing on the four skills: grammar, reading, writing, and listening/speaking. It provides the fourth of six levels of intensive English as a second language.

ESL 095 High Intermediate Intensive English 8 credits
Prerequisite: ESL 094 or appropriate assessment score
ESL 095 develops and strengthens oral and written communication in English for non-native speakers at the high intermediate level by focusing on the four skills: grammar, reading, writing, and listening/speaking. It provides the fifth of six levels of intensive English as a second language.

ESL 096 Low Advanced Intensive English 8 credits
Prerequisite: ESL 095 or appropriate assessment score
ESL 096 develops and strengthens oral and written communication in English for non-native speakers at the low advanced level by focusing on the four skills: grammar, reading, writing, and listening/speaking. It provides the sixth of six levels of intensive English as a second language.

ESL 275 Special Topics: Semi-Intensive ESL 6 credits
Prerequisites: appropriate assessment score
ESL 275 develops and strengthens oral and written communication in English for non-native speakers at the intermediate level by focusing on the four skills: grammar, reading, writing, and listening/speaking.

ESL 276 Special Topics: iBT TOEFL Preparation 4 credits
Prerequisite: successful completion of Intensive English Program or appropriate assessment score
ESL 276 provides non-native speakers of English with training for the iBT TOEFL exam. TOEFL is required for non-native speakers who wish to continue their education in four-year college and university settings. The integrated speaking, listening, reading, and writing skills required for the new iBT TOEFL are emphasized in this course.

EST – Esthetician

EST 110 Introduction to Facials and Skin Care 3 credits
EST 110 provides a basic understanding of massage manipulations when providing facials, the study of skin in both theory and practical applications, and the benefits derived from proper facial and skin care routines. Training is conducted in a classroom or lab setting using mannequins or models.

EST 111 Intermediate Facials & Skin Care 2 credits
EST 111 covers theory and practical application pertaining to anatomy, skin disorders, skin types and facial shapes. You will help patrons to select the proper skin care treatment. Practical and theory application can be done in specialized classes or supervised salon (clinical) setting using models or customer service.

EST 210 Advanced Massage & Skin Care 2 credits
EST 210 provides you with advanced techniques in massage, skin care, and lash/brow tinting. Theory and practical procedures ready you for employment. Instruction is provided in specialized classes or in a supervised salon (clinical) setting. Student preparation for State Board Licensing Examination is covered.

EST 211 Facial Makeup 1 credit
EST 211 provides instruction on cosmetics and their functions. The importance of color theory, facial types, and skin tones as they relate to facial makeup is covered. Instruction from the basic makeup application to the corrective makeup procedure is taught. Disinfection and sanitation is taught as it pertains to all aspects of makeup.

EST 212 Hair Removal 3 credits
EST 212 provides in-depth study and practice of hair removal and the practice of patron protection and safety. Training for general waxing and body waxing procedures are provided. Demonstration of disinfection and sanitation as it pertains to Colorado rules and regulations will be practiced.

FiW – Fine Woodworking

www.rrcc.edu/finewood/

FIW 100 Fundamentals of Woodworking 4 credits
FIW 100 introduces you to the manipulation of materials, drawings, hand and power tools, sharpening, joinery, assembly, and preparation for and finishing to accomplish woodworking.

FIW 101 Introduction to Woodworking 8 Credits
FIW 101 is an introduction to woodworking based on an old-world approach to the instruction of basic woodworking.
woodworking skills. This is a thorough and intense class and is intended for the serious student only. An example of the intensity of this class is best illustrated by the first project, a Krenov style wood plane. The final project consists of a student-designed tool box. The course includes in-depth instruction of all hand, power, and stationary tools and thorough instruction on the elements of design, shop drawings, and wood science. The business side of woodworking is also discussed including the creation of a portfolio, customer relations, and wood shop set-up.

FIW 102 Classical Guitar Construction 5 credits
FIW 102 teaches you how to build a guitar from scratch. Beginning with raw materials, you are expected to build a classical based guitar. As the guitars are built, you will learn many of the skills which distinguish the art of Lutherie.

FIW 103 Steel String Guitar Construction 5 credits
FIW 103 takes you through the actual process of creating a steel string guitar from scratch. Beginning with raw materials, you are expected to build a steel string guitar, either OM (Orchestra Model) or dreadnaught style.

FIW 104 Elements of Design 2 credits
FIW 104 is designed to assist you in developing an approach to furniture design that will assist them with either a current project or projects in the future. The class covers sketches, shop drawings, and model making.

FIW 106 Plane Making 4 credits
Prerequisite: FIW 100, FIW 101, FIW 109 or permission of instructor
FIW 106 explores the tradition of craftsmen making their own tools and offers an explanation of the ideal within the creation of hand planes. The course enables you to determine the type of construction techniques to use in building this project through researching old methods and examining current practices. The final outcome is demonstrated by using the new plane.

FIW 108 Toolmaking and Jigs 4 credits
Prerequisite: FIW 100, FIW 101, FIW 109 or permission of instructor
FIW 108 expands the capabilities, speed and accuracy of the woodworker through the use of jigs and specialty tools. The course focuses on constructing several projects (box joint jig, a router table, a mock dovetail jig or spring pole lathe) of progressing difficulty.

FIW 109 Introduction to Cabinetmaking 4 credits
FIW 109 will introduce you to the various components of cabinetmaking. The course will teach you basic shop drawing, material properties, joinery, and power and stationary tools as relating to basic cabinet construction. Safe and efficient use of machinery and materials are the essential goals of this course.

FIW 115 Strip Canoe Building 4 credits
FIW 115 focuses on constructing a strip canoe utilizing forms, thin wood strips, and epoxy/fiberglass techniques resulting in a beautiful and strong yet lightweight craft. It explores construction of seats, thwarts, and paddles.

FIW 116 Cabriole Leg and Queen Anne Furniture 4 credits
Prerequisite: FIW 100, FIW 101, FIW 109 or permission of instructor
FIW 116 focuses on the Queen Anne style in order to guide the furniture maker to depart from rectilinear form and create curves and bends in wood. The course examines patternmaking and building from drawings to create a chair, table, cabinet or similar piece.

FIW 118 Lathe Turning 4 credits
FIW 118 explores the capacities of a lathe through spindle and faceplate turnings. The use of lead, cove, taper, cylindrical, v-cut, proportion and curved line relationships are examined. Lathe components, tools and sharpening are explored.

FIW 119 Intermediate Turning I 4 credits
Prerequisite: FIW 118 or permission of instructor
FIW 119 guides you through the art and craft of turning natural edge bowls, end grain hollowing, box making, platters, other open forms, and closed forms/internal hollowing techniques.

FIW 121 Intermediate Turning II 4 credits
Prerequisite: FIW 119 or permission of instructor
FIW 121 teaches you how to create unique turning through the use of finish applications, burning, inlays, and texturing.

FIW 122 Wood Carving 4 credits
FIW 122 allows you to experiment with knife and gouge to discover the many possibilities of wood decoration through carving and the qualities of numerous materials. Ultimately you are expected to produce samples of chip and relief carvings to demonstrate what's been learned.

FIW 125 Finishing Wood 4 credits
FIW 125 allows you to research the wide variety of finishes available from the oldest formulations to the bewildering array of modern films and stains. You will experiment with a representative sampling of colorations and surface finishes on a variety of species of wood using a selection of application techniques.

FIW 128 Doormaking 4 credits
Prerequisites: FIW 100, FIW 101, FIW 109 or permission of instructor
FIW 128 involves the planning, design, selection and purchase of materials, construction, finishing and hanging of a door you have made. Assorted styles of door construction, joinery, glues and fabrication techniques are examined.
FIW 200 Veneering and Marquetry
4 credits
Prerequisites: FIW 100, FIW 101, FIW 109 or permission of instructor
FIW 200 covers the surface decoration of wood; both edge and face treatments through the use of thin, often expensive, exotic or figured woods. Manmade and solid substrates for veneering are examined as well as available patterns, styles, Marquetry techniques and creating multiple layer banding for a project are covered.

FIW 201 Joinery
4 credits
Prerequisite: FIW 100, FIW 101, FIW 109 or permission of instructor
FIW 201 explores different types of wood connections, using both hand and power tool techniques in frame and carcass joinery. You are expected to cut, fit and assemble projects to demonstrate their knowledge.

FIW 205 Tablemaking
4 credits
Prerequisite: FIW 201
FIW 205 involves the study and construction of flat surface using some of the wide variety of potential styles, sizes, materials and techniques available. Solid and sheet goods are examined as well as alternative construction methods and their various qualities. Fastenings, edging and movement concerns are explored.

FIW 206 Chairmaking
4 credits
Prerequisite: FIW 201
FIW 206 uses chair construction to examine some of the alternatives of machine and hand-tool construction as illustrated by seat shaping through router surfacing vs. inshave use, for example. Spindle turnings, spokeshave use and compound angles may be encountered in constructing a chair. Chair style often dictates resolving construction dilemmas such as jointing compound curves and jig making for tapered legs with fluting or reeding.

FIW 208 Furniture Repair
4 credits
Prerequisites: FIW 100 (or equivalent) and FIW 125
FIW 208 recognizes the need to repair and restore furniture and allows you to explore jigs, veneer repair, replacing broken pieces and reassembling reconditioned furniture. You are expected to provide furniture of sufficient complexity to challenge their abilities. Joinery, carving, stripping, and refinishing are topics covered in this course.

FIW 209 Cabinetmaking
4 credits
Prerequisites: FIW 109, FIW 100, FIW 101 or permission of instructor
FIW 209 will take the skills learned in the introductory course, and expand them. The course extensively covers techniques to use for the construction of more elaborate cabinets and large quantities of cabinets. This course also covers the estimation of materials and time for kitchen or similar cabinet installations.

FIW 210 Bending and Laminations
4 credits
Prerequisites: FIW 100, FIW 101, FIW 109 or permission of instructor
FIW 210 involves the process of curving natural and manmade panels through a variety of methods including spaced kerfs, cold lamination and steam bending. Form construction, various qualities of different wood species and adhesive selection are studied.

FIW 211 Shop Carpentry
4 credits
Prerequisite: Permission of instructor
FIW 211 is for the non-site, shop carpenter and includes jig and patternmaking; stationary power tool maintenance and adjustment; machining of woods; and techniques unique to shops, cabinetmakers and mill workers.

FIW 213 Furniture Making
4 credits
Prerequisite: FIW 201
FIW 213 teaches furniture design, construction techniques and material selection.

FIW 215 Advanced Joinery
4 credits
Prerequisites: FIW 201 and FIW 206
FIW 215 examines all types of joinery from decorative to the most complex of hand and machine cutting techniques. You will study and learn their respective qualities in regards to strength, material and adhesive selection, wood movement and the properties of different joints. A project incorporating many of these joints will be expected.

FIW 219 Furniture Repair
4 credits
Prerequisite: FIW 209
FIW 219 provides the opportunity for the experienced woodworker to create a piece to expand their woodworking skills through the design and construction of a carefully selected woodworking project. In collaboration with the instructor you will create drawings, choose materials, resolve joinery techniques, estimate and construct the proposal. Emulation of a profitable woodworking business is part of this class experience and the ability to anticipate, plan, complete, and work individually will be expected.

FIW 220 Advanced Furniture and Cabinet Construction
4 credits
Prerequisite: FIW 213 or FIW 209
FIW 220 is designed to assist you in organizing their woodworking abilities. By the time you take this course, you should have a stable base of skills and abilities. Your completion of this project should demonstrate
your understanding of advanced woodworking techniques, the ability to create and use shop drawings, and finishing techniques.

**FIW 250 Period Furniture Reproduction**  
4 credits  
Prerequisite: FIW 201  
FIW 250 involves researching and selecting a period and style of furnituremaking from the biblical era to contemporary times and building a reproduction piece. You will examine then and now techniques and materials while selecting the construction process for their individual piece. Period reproduction becomes musical instruments, boats or other items as you become involved in their research.

**FIW 275 Special Topics**  
0 – 6 credits  
FIW 275 provides you with a vehicle to pursue in depth exploration of special topics of interest.

**FIW 280 Technical Project**  
4 credits  
Prerequisite: Permission of the instructor  
FIW 280 enables you to participate in individual study on a special project which is related to the plumbing program. This technical project consists of a written and approved proposal and scheduled progress reports.

**FIW 285 Internship**  
4 credits  
Prerequisite: Permission of the instructor  
FIW 285 provides you with the opportunity to apply your skills in a real woodworking environment.

**FRE – French**

www.rrcc.edu/languages/

**FRE 101 Conversational French I**  
3 credits  
Prerequisite: FRE 101 or instructor permission.

**FRE 102 Conversational French II**  
3 credits  
Prerequisite: FRE 101 or instructor permission.

**FRE 111 French Language I**  
5 credits  
FRE 111 begins a sequence dealing with the development of functional proficiency in listening, speaking, reading and writing the French language. Note: The order of the topics and methodology will vary according to individual texts and instructors.

**FRE 112 French Language II**  
5 credits  
Prerequisite: FRE 111 or instructor permission.

**FRE 113 French Language III**  
3 credits  
Prerequisite: FRE 112 or instructor permission.

**FRE 211 French Language III**  
3 credits  
Prerequisite: FRE 112 or instructor permission.

**FRE 212 French Language IV**  
3 credits  
Prerequisite: FRE 211 or instructor permission.

**FST – Fire Science Technology**

www.rrcc.edu/fire/

**FST 100 Firefighter I**  
9 credits  
Prerequisite or Corequisite: FST 102  
Strongly recommended before taking Fire Academy: EMS 125/170 (EMT-Basic) and FST 160 (CPAT Test Prep)  
FST 100 addresses the requirements necessary to perform at the first level of progression as identified in National Fire Protection Association (NFPA) 1001, Firefighter Professional Qualifications. This course is a classroom section in which the IFSTA 200 Essentials of Firefighting Manual is taught.

**FST 102 Introduction to Fire Science and Suppression**  
3 credits  
FST 102 introduces the fire service organization and operation from past to present operations. It includes operation and organization of federal, state, local and private protection forces. The course emphasizes extinguishing methods and equipment, special extinguishing agents, and special hazard considerations. It serves as a prerequisite for students with no previous fire suppression training or experience.

**FST 103 Firefighter Occupational Health and Safety**  
3 credits  
FST 103 focuses on on-scene and on-the-job firefighter health, safety and fitness, the safety officer, mental well-being, stress management, and standards related to health, safety, and fitness. This course parallels NFPA 1500 Standards.
FST 104 Fire Protection Systems  
3 credits  
Prerequisites: FST 100 and 105, or permission of instructor  
FST 104 addresses principles and functions involved in the installation and use of sprinkler systems, special suppression systems, and fire detection and alarm systems. It covers portable fire extinguishing equipment requirements, sprinkler systems, installation, inspection and maintenance, special protection systems, and residential sprinklers.

FST 105 Building Plans and Construction  
3 credits  
FST 105 covers various methods of building construction, the materials used in building construction, and their relationship to methods of fire attack and extinguishments. The course includes types of building construction, principles of fire resistance, flame spread, smoke and fire containment, basic knowledge of plan review, and blueprint specifications.

FST 106 Fire Inspection Practices  
3 credits  
FST 106 introduces the organization of the fire prevention agency; inspections, surveying, mapping and company inspections; recognition of fire hazards; engineering a solution to the hazard; enforcement of the solution; and public relations as affected by fire prevention. Fire Inspector I State Certificate is available.

FST 107 Hazardous Materials Awareness Operations  
3 credits  
FST 107 covers hazardous materials incidents, recognizing and identifying hazardous materials, planning response, implementing response procedures, decision making, and continued evaluation at the awareness and operation level.

FST 110 Job Placement and Assessment  
3 credits  
FST 110 addresses all aspects of the fire service entrance examination process and emphasizes various components of the exam, including the written, physical abilities, and oral interview. The objective of this class is to help increase the entrance firefighter candidate’s chance of obtaining a career in the fire service.

FST 121 Technical Rope Rescue  
4 credits  
FST 121 provides you with the knowledge and skills to handle low and high angle rescues using rescue rope and associated hardware. The course takes you from the introductory level up to advanced skills in three separate sessions. Belay, rappel, and raising systems are taught in a real-life setting in both high- and low-angle rescue environments. You are also taught care and maintenance of equipment.

FST 1212 Structural Collapse Rescue  
2 credits  
FST 132 covers the various types of construction, causes for structural collapse, types of structural collapse, and identification of structural component failures. You will study mitigation of a structural collapse response and other associated hazards through use of ICS, proper size-up, building failure analysis, monitoring techniques, shoring systems and associated equipment, proper search and recovery techniques, and personal protective equipment requirements.

FST 133 Trench Rescue  
2 credits  
FST 133 covers trench types; trench versus excavation rescues; soil types encountered at trench rescue sites; collapse dynamics; ICS/IMS; equipment, materials and tools used for rescue operations; personal protection issues; trench shoring; and victim extrication.

FST 134 Confined Space Rescue  
2 credits  
FST 134 covers the definition of confined space; OSHA considerations and permit requirements; monitoring instruments; ICS/IMS; victim contact; breathing apparatus such as SABA/SCBA; communications and equipment, e.g., radio/hardwired; patient packaging, rescue versus recovery; and patient extrication.

FST 135 Ice Water Rescue  
2 credits  
FST 135 covers types of ice encountered in ice water rescue, ICS/IMS; ice strength, patient evaluation and contact, rescue equipment, ice water rescue techniques, rescue suit safety, delay line and shore support, hypothermia, Zodiac boat techniques, and victim rescue.

FST 136 Swift Water Rescue  
2 credits  
FST 136 covers fast water hazards and risk analysis relating to swift water rescue, low head dam, ICS/IMS; victims in vehicles, rescue equipment and techniques, rope systems and throw bags, reach/throw/go, rescuer safety and shore support, and personal protective equipment.

FST 137 Vehicle Extrication  
2 credits  
FST 137 covers transportation emergency assessment skills as they relate to vehicle extrication; establishing safety zones; “reading” the wreck; ICS/IMS; utilities, traffic and fuel; vehicle construction; air bags; vehicle stabilization; victim access and stabilization; dismantling the vehicle; and patient packaging.

FST 151 Driver-Operator  
3 credits  
FST 151 provides you with the basic knowledge and skills to safely operate fire apparatus according to the NFPA professional standard. The course enables you to display and demonstrate knowledge of fire apparatus, operation of apparatus, pumps and pumping, hydraulics calculations, maintenance, and testing.

FST 152 Wildland Firefighting  
3 credits  
FST 152 introduces a basic understanding of wildland fire and the strategies and tactics involved during suppression operations. The course includes fire line safety, emphasizing the wildland fire orders and watch out situations. You will receive training qualifying them as Certified Wildland Firefighters under the Incident Command System, recognized by the National Wildfire Coordinating Group.

For the latest information, visit www.rrcc.edu
This course covers fire behavior, fire weather, fuel types, safety equipment and guidelines, incident size up, determining resource needs, aircraft identification and capabilities, direct versus indirect attack, burn-out, backfiring, and map reading.

**FST 175 Special Topic**  
**1-6 credits**  
Prerequisite: Permission of instructor  
FST 175 provides foundational (100 level) and advanced (200 level) classes that are offered in the fire service field that do not fall under the standard curriculum. These may be seminar classes or may be prior-learning credit portfolio classes that apply to fire electives, including National Fire Academy courses, NFPA courses, and local seminars and other professional courses and certifications.

**FST 180 Internship**  
**1-6 credits**  
Prerequisite: Permission of program advisor.  
FST 175 allows you to gain experience and knowledge from on-the-job training. Positions are non-paid. This course must be arranged through the office of Job Placement/Cooperative Education and with approval of your advisor.

**FST 201 Instructional Methodology**  
**(Fire Instructor I )  
3 credits**  
Prerequisites: FST 100 and 102, or permission of instructor  
FST 201 covers the role and responsibility of the fire service instructor. It includes oral communication skills, concepts of learning, developing lesson plans, instructional materials and delivery methods, testing and evaluations, records, reports, and demonstration of instructional abilities. Fire Instructor I State Certificate is available.

**FST 202 Firefighting Strategy and Tactics**  
**3 credits**  
Prerequisites: FST 102, 104, and 107, or permission of instructor  
FST 202 covers firefighting strategy and tactics, methods of fire attack, fire behavior, building construction, and pre-fire planning.

**FST 203 Fire Science Hydraulics**  
**3 credits**  
Prerequisites: FST 105 and MAT 106  
FST 203 covers hydraulic calculations that are necessary in water delivery and supply for fire suppression, hydraulic laws and formulas as applied to fire protection requirements, and fire apparatus UL requirements.

**FST 204 Fire Codes and Ordinances**  
**3 credits**  
Prerequisites: FST 102, 104, 105, 106 or permission of instructor  
FST 204 covers familiarization and interpretation of national, state, and local codes, ordinances, and laws which influence the field of fire prevention. Fire code and life safety code are reviewed and referred to throughout the course.

**FST 205 Fire Cause Determination**  
**3 credits**  
FST 205 covers the proper method(s) of conducting basic fire investigation, determining area and point of origin, cause and methods of fire spread, and recognition and preservation of evidence. The course includes arson law, Constitutional law, interviewing, court procedures, and testimony.

**FST 206 Fire Company Supervision and Leadership**  
**3 credits**  
Prerequisites: ENG 121; FST 102, 202, or permission of instructor  
FST 206 covers fire department organization, management philosophies, leadership traits, time management, group dynamics, communications, motivation counseling, conflict resolution, and employee discipline. The course meets the components of Fire Officer I State Certificate.

**FST 207 Firefighting Strategy and Tactics II**  
**3 credits**  
Prerequisite: FST 202  
FST 207 focuses on tactics and strategies associated with transportation emergencies and fires, high-rise fires, below-ground incidents, confined space emergencies, and special rescue situations.

**FST 208 Fire Science and the Law**  
**3 credits**  
FST 208 provides the professional fire officer with detailed information on federal, state, and local laws, ordinances, and civil and criminal liabilities that impact the fire service. It includes the OSHA and NFPA standards in-depth, as well as pensions, Workman’s Compensation, drug testing, union bargaining agreements, and other topics.

**FST 209 Fire Arson Investigation**  
**3 credits**  
Prerequisites: FST 100, 102, and 205, or permission of instructor  
FST 209 studies cause and origin as related to arson fires, evidence preservation and chain of evidence, interviewing, giving testimony, and laws associated with fire and arson investigation, records, and reports.

**FST 210 Fire Ground Organization and Command**  
**3 credits**  
Prerequisite: FST 202  
FST 210 focuses on fire ground management, resource availability, management and deployment, National Incident Management System and all related components, communications, problem solving, and table top exercises.

**FST 211 Hazardous Materials Technician**  
**3 credits**  
Prerequisite: FST 107  
FST 211 focuses on techniques associated with hazardous materials mitigation, the use of monitoring devices, components of a mitigation team, and command and control of hazardous materials incidents.

**FST 212 Fire Service Management**  
**3 credits**  
Prerequisites: FST 202 and FST 206, or permission of instructor  
FST 212 serves as the basic management course for present and potential members of the fire service and for students and members of other fire science-related professions. It introduces you to current management practices and philosophies and real-world applications from the supervisor’s point of view. The course
covers decision-making/problem-solving, communication skills, conflict resolution, creativity and innovation, as well as the role of the manager in supervising personnel and programs, e.g., motivation, leadership, counseling, ethics, and handling discipline and grievances.

FST 256 Fire Service EMS Administration
3 credits
FST 256 addresses budgeting, staffing, training, and equipment issues; transportation, standard of care, and protocols; operations, communications, incident and disaster management; and legal issues associated with EMS operations.

FST 257 Fire Department Administration
3 credits
Prerequisite: FST 206
FST 257 focuses on the operations of volunteer and combination fire departments; compliance with standards and ordinances; funding and budgeting; recruiting, hiring, and retaining employees; organizational planning; and public relations.

FST 258 Wildland Fire Incident Management and Organization
3 credits
Prerequisite: FST 152 or previous certified red card training
FST 258 introduces and develops supervisory and decision-making skills for fireline management individuals.

FST 259 Professional Firefighter II
3 credits
Prerequisite: FST 206
FST 259 prepares the firefighter to be a Squad Boss/Firefighter Type 1 and to perform the tasks common to all helicopter operations.

FST 260 Intermediate Fire Behavior S290
2 credits
Prerequisites: Firefighter II in the National Wildfire Coordinating Group and ability to perform chainsaw operations
FST 260 analyzes the effects of fuels, weather, topography, and fire behavior on the wildland fire environment and acquaints prospective fire line supervisors in wildland fire behavior for effective and safe fire management operations.

FST 261 Fire Operations in the Urban Interface
2 credits
Prerequisites: Firefighter II in the National Wildfire Coordinating Group and ability to perform wildland firefighting tasks
FST 261 examines fireline personnel skills to anticipate and predict wildland fire behavior, weather, and rates of spread. This course was developed under the Interagency Curriculum established and coordinated by the National Wildfire Coordinating Group. The course covers fire environment, fuels classification, topography and fire behavior, temperature-moisture relationship, fuel moisture, local and general winds, atmospheric stability and instability, keeping current with the weather, extreme fire behavior, fire behavior affecting fireline tactics, and fire behavior predictions.

FST 262 Wildland Fire Behavior S230
3 credits
FST 262 Wildland Fire Behavior S230
3 credits
Prerequisites: Firefighter II in the NWCG system and ability to perform wildland firefighting tasks in the field
FST 262 gives fireline personnel skills to anticipate and predict wildland fire behavior, weather, and rates of spread. This course was developed under the Interagency Curriculum established and coordinated by the National Wildfire Coordinating Group. The course covers fire environment, fuels classification, topography and fire behavior, temperature-moisture relationship, fuel moisture, local and general winds, atmospheric stability and instability, keeping current with the weather, extreme fire behavior, fire behavior affecting fireline tactics, and fire behavior predictions.

FST 263 Powersaws S212
2 credits
Prerequisites: Firefighter Type II in National Wildfire Coordinating Group and ability to perform chainsaw operations
FST 263 teaches the wildland firefighter the skills necessary to use, repair, and maintain a chainsaw in the field and focuses on techniques to fell trees and buck material in a fireline operation.

FST 264 Helicopter Crew S-217
2 credits
FST 264 provides training for fire and nonfire personnel involved in project assignments with helicopters. It enables you to develop skills and to work with a helicopter in performing tasks common to all helicopter operations.

FST 265 Ignition Operations S234
2 credits
Prerequisite: FST 152 or equivalent, Intermediate Fire Behavior; qualification as a Squad Boss/Firefighter Type 1
FST 265 teaches the wildland firefighter techniques in conducting firing operations. It focuses on the duties and responsibilities in applying fire to the ground, the devices used, techniques and sequences, fire behavior descriptions, evaluations of the operation, and related safety concerns.

FST 266 Crew Boss S230
2 credits
Prerequisite: FST 260 or completion of S290 Intermediate Fire Behavior, squad boss qualification
FST 266 meets the training needs of a crew boss on an incident. It includes preparation, mobilization, tactics and safety, off-line duties, demobilization, and postincident responsibilities.

FST 270 Basic Air Ops S270
1 credit
Prerequisites: FST 202 and FST 206 or permission of instructor
FST 270 serves as the basic management course for present and potential members of the fire service and for students and members of other fire science-related professions. The course introduces...
you to current management practices and philosophies and real-world applications from the supervisor’s point of view. It covers decision-making/problem-solving, communication skills, conflict resolution, and creativity and innovation, as well as the role of the manager in supervising personnel and programs, e.g., motivation, leadership, counseling, ethics, and handling discipline and grievances.

FST 275 Special Topics
1-4 credits
Prerequisite: Permission of instructor.
FST 275 provides you with a vehicle to pursue in-depth exploration of special topics of interest not previously offered. The course includes National Fire Academy courses, VFIS courses, NFPA certification courses, or other special subject classes that do not fall under the standard FST curriculum.

FST 285 Independent Study
1-6 credits
Prerequisite: Permission of instructor.
FST 285 meets the individual needs of students. You will engage in intensive study or research under the direction of a qualified instructor.

GEO 106 – Human Geography
3 credits
GEO 106 introduces geographic perspectives and methods with applications to the study of human activities. The course emphasizes the distribution of humans, adjustments to the natural environment, and land use practices.

GED – General Education
www.rccc.edu/ged/

GED 011 GED Preparation
1 credit
GED 011, an open-entry, self-paced course, is designed for students who need to prepare to pass the five GED tests: Science, Social Studies, Reading, Writing, and Mathematics. Diagnostic tests determine skill level. Students work at their own pace. Help is available in the five subject areas. A free GED pre-test is available.

GED 011 Preparación para el GED en Español
2 crédito
GED 011 es una clase de salon es diseñada para los estudiantes que necesitan perpararse para aprobar los cinco exámenes del GED: ciencias, estudios sociales, lectura, escritura y matemáticas. Pruebas diagnósticas determinan el nivel de las destrezas. Se ofrece ayuda en las cinco materias. Un examen Pre-GED gratis está disponible.

GER 102 Conversational German II
3 credits
Prerequisite: GER 101 or permission of instructor.
GER 102 continues the sequence for students who wish to understand and speak German. It covers basic patterns, expressions, and grammar.

GER 111 German Language I
5 credits
GER 111 begins a sequence dealing with the development of functional proficiency in listening, speaking, reading, and writing the German language. Note: The order of the topics and methodology will vary according to individual texts and instructors.

GER 112 German Language II
5 credits
Prerequisite: GER 111 or instructor permission.
GER 112 continues German Language I in the development of functional proficiency in listening, speaking, reading, and writing the German language. Note: The order of the topics and the methodology will vary according to individual texts and instructors.

GER 211 German Language III
3 credits
Prerequisite: GER 211 or instructor permission.
GER 211 continues German Language I and II in the development of increased functional proficiency in listening, speaking, reading, and writing the German language. Note: The order of the topics and the methodology will vary according to individual texts and instructors.

GER 212 German Language IV
3 credits
Prerequisite: GER 211 or instructor permission.
GER 212 continues German Language I, II, and III in the development of increased functional proficiency in listening, speaking, reading and writing the German language. Note: The order of the topics and methodology will vary according to individual texts and instructors.
GEY – Geology

www.rrcc.edu/geology/

GEY 111 Physical Geology with Lab
4 credits
GEY 111 studies the materials of the earth, its structure, surface features, and the geologic processes involved in its development.

GEY 118 Rock and Mineral Identification
1 credit
GEY 118 introduces basic information on the definition, formation, identification, and uses of rocks and minerals.

GEY 119 The Great Ice Age
1 credit
GEY 119 analyzes the effect of the last ice age on the development of North America and also explores theories of climatic change.

GEY 121 Historical Geology with Lab
4 credits
GEY 121 studies the physical and biological development of the earth through the vast span of geologic time. The course emphasizes the investigation and interpretation of sedimentary rocks, the record of ancient environments, fossil life-forms, and physical events, all within the framework of shifting crustal plates.

GEY 125 Continental Drift
1 credit
GEY 125 presents the theory of plate tectonics and its relationship to continental movement, earthquakes, volcanoes, and the history of life.

GEY 135 Environmental Geology
3 credits
GEY 135 introduces geology and its relationship to man’s environment. The course covers geologic hazards such as floods, landslides, avalanches, earthquakes, and volcanoes. It focuses on surface and groundwater resources in terms of exploitation and man’s responsibility to protect these resources from contamination. The geologic aspects of land use practices, as well as mineral and energy resource exploitation, are reviewed and related to legislation regarding environmental law.

GEY 140 Introduction to Global Positioning Systems
1 credit
GEY 140 provides instruction on the use and application of hand-held global positioning systems (GPS). The course includes navigation, using a GPS with a topographic map, mapping geologic and man-made features using a GPS, and exchanging information with computerized digital maps.

GEY 143 The Geology and Evolution of Caves
2 credits
GEY 143 introduces the science of caves. The course includes cave formation and evolution, cave decorations (speleothems), and the adaptations of living organisms to life below ground. It incorporates a one-day field trip to a nearby cave system.

GEY 205 The Geology of Colorado
3 credits
Prerequisites: Permission of Instructor
GEY 205 covers the geologic history of Colorado with emphasis on formation of mountain ranges; igneous, sedimentary, and metamorphic rock types; ore deposits; and landforms. It incorporates field experience and/or classroom lectures.

GEY 208 Geology Field Trip
1-5 credits
Prerequisites: Permission of Instructor
GEY 208 involves in-depth field studies into the geology of specific regions both within and outside Colorado. Trips lasting from one to several days to study the area constitute the major activity of the course. The specific area of investigation is indicated in the schedule of classes each time the course is offered.

GIS – Geographic Information Systems

www.rrcc.edu/geography/

GIS 101 Introduction To Geographic Information Systems
3 credits
GIS 101 surveys the development and operation of automated geographic information systems. The course focuses on the fundamentals of using computers to draw maps and incorporates the study of cartographic fundamentals such as map projections, map scales, selective display of data on maps, and various computer software applications in GIS.

GIS 110 Introduction To Cartography
3 credits
GIS 110 examines a broad range of map types, emphasizing maps as a communication system with both symbology and specific organizational hierarchies. Discussion and demonstration focuses on essential cartographic principles and practices used for designing maps, with emphasis on cartographic protocol resulting in the effective communication of both qualitative and quantitative information.

HHP – Holistic Health Professional

www.rrcc.edu/health/

HHP 100 Complementary Healing Methods
1 credit
HHP 100 explores some of the more widely used alternative/complementary healing methods. It expands your health horizons and enables you to converse in a knowledgeable manner with patients and practitioners.
HHP 103 Introduction to Circle of Healing
1 credit
HHP 103 enables you to synthesize different energy methods in order to work as part of a healing group using intuition and group consensus of imagery as the vehicle to create the healing environment.

HHP 104 The Healing Mind
0.5 credits
HHP 104 explores the scientific research surrounding mind-healing as well as enhancing mind-body communication skills.

HHP 105 Phytotherapy and Disease Prevention
1 credit
HHP 105 offers herbal pharmacognosy with disease prevention. Plant chemicals are an important source not only for medicines but for compounds that prevent disease. You will develop a basic understanding of phytochemical classification and explore plant compounds chemically and how they act on the body.

HHP 106 Neurolinguistic Programming
0.5 credits
HHP 106 familiarizes students with the core presuppositions of NLP, explores conscious and unconscious communications on a structural level, and experimentally teaches how non-verbal and verbal communications can allow one to effectively establish (and maintain) rapport with others. Students will discover how people get “stuck” and how to get themselves and others “unstuck,” culminating with an elegant change pattern; proven to be as useful with intrusive memories as it is with accessing new choices.

HHP 107 Herbology I
1 credit
HHP 107 explores the pharmacokinetics and composition of herbs and their effect on the body systems. The use of herbs in health maintenance and the healing of disease predates written history. Herbs have been found by archeologists in Paleolithic burials and throughout literature of the ancient Chinese and Egyptians verified by modern scientific research. The course focuses on the habitat, harvesting, storage, and usage of a select group of herbs.

HHP 125 Feldenkrais Awareness through Movement
0.5 credits
HHP 125 incorporates a series of lessons in how the body functions and how to use it more intelligently. Through gentle and exploratory movements, you will learn to retrain the central nervous system and free yourself from habitual patterns of moving, thinking, and feeling that contribute to stress and dis-ease. Through increased bodily awareness, you will examine ways to move more easily during activities from vigorous sports to breathing, standing, and walking.

HHP 130 Reiki Level One
1 credit
HHP 130 explores the traditional Usui use of Reiki. The course covers the history and development of Reiki work, beginning in Japan, to Hawaii, to the U.S., and later Europe, and focuses on the fundamental beliefs and the dynamics of the Reiki process. It enables each student to receive Reiki attunements to prepare for the Reiki energy work. Each class member gives and receives a Reiki hands-on treatment session.

HHP 135 Assessing Inner Resources I
1 credit
HHP 135 focuses on imagery, journaling, relaxation, and meditation to find inner strength and peace.

HHP 140 Assessing Inner Resources II
1 credit
Prerequisite HHP 135
HHP 140 builds on knowledge obtained in HHP 135; you will explore how personal boundaries and other inner resources are necessary before you can safely release and heal trauma.

HHP 142 Introduction to Traditional Chinese Medicine
3 credits
HHP 142 introduces the theories and practice of Traditional Chinese Medicine (TCM), an ancient medical art. Basic theories are discussed, differentiation skills are practiced and treatment modalities are demonstrated.

HHP 145 Digestive Wellness
1 credit
HHP 145 provides you with information on nutritional and herbal self-care treatments. Digestive disorders will be discussed such as acid reflux, Crohns, heartburn, hernia, gas, and bloating.

HHP 160 Learn to Meditate
0.5 credits
HHP 160 focuses on techniques to meditate and explores the life-enhancing benefits of meditation.

HHP 164 Introduction to Hand Reflexology
1 credit
HHP 164 teaches hand anatomy, basic stroke techniques, and hand reflex points. Reflexology is a gentle art that holistically facilitates opening the channels for healing energy to circulate to all parts of the body. The benefits of reflexology include stress reduction and deep relaxation, improved circulation, cleansing of body toxins and impurities, energy revitalization, and preventative health care.

HHP 166 Introduction To Reflexology
1 credit
HHP 166 provides you with knowledge and skill in foot anatomy, basic hand stroke, and foot reflex points. Reflexology is a gentle art that holistically facilitates opening the channels for healing energy to circulate to all parts of the body. Benefits include stress reduction and deep relaxation, improved circulation, cleansing of body toxins and impurities, revitalization of energy and preventative health care.

HHP 167 Soft Hands
1 credit
HHP 167 focuses on improving communication through hands while assisting the healing process through touch. The course explores enhancing awareness and interpretation of feelings.
**HHP 168 Turaya Meditation**  
1 credit  
HHP 168 introduces you to the fundamentals of turaya meditation which uses higher consciousness energy symbols to accelerate your movement.

**HHP 169 Introduction to Healing Hands and Feet**  
1 credit  
Pre-requisite HHP 164 or 166  
HHP 169 studies combining the gentle healing hand energy work and gentle foot massage of reflexology in order to bring harmony to the body, mind, spirit, and emotions. You will be provided with the knowledge of how to combine these healing modalities into practice. Seven major energy chakras, how they affect one’s own self-healing, and the four energy fields that surround people will be explored.

**HHP 190 Crystal and Mineral Usage in Health Care**  
0.5 credits  
HHP 190 introduces you to crystal and mineral types, their properties and how to clear, clean, and use for personal use or with clients. The course incorporates hands-on experience to feel the different energies of crystals and minerals.

**HHP 202 Aromatherapy**  
0.5 credits  
HHP 202 informs you of the use of essential oils in health maintenance and the healing of disease. (Tantalizing data from the ancient Egyptians exists and has been verified by modern scientific research.) The course explores the pharmacokinetcs and neurophysiology of essential oils, looking into their origins, extraction, storage, and use. This course enables you to observe a large number of essential oil remedies and their applications.

**HHP 203 Women’s Holistic Health**  
0.5 credits  
HHP 203 explores women’s health issues including contraception, hormone therapy, dysfunctional uterine bleeding, diagnostic testing, and other topics.

**HHP 211 Herbology II**  
2 credits  
Prerequisite: HHP 111  
HHP 211 builds upon the information and skills obtained in HHP 111 and further explores the pharmacokinetics and composition of herbs and their effect on the body systems.

**HHP 212 Neurolinguistic Programming II**  
0.5 credits  
HHP 212 enhances and expands your ability to build verbal and non-verbal rapport rapidly with others. It includes the process called anchoring, a gentle and respectful method of change. NLP II offers further integration of the rapport skills taught in NLP I and moves on toward setting "well-formed" outcomes for any and all contexts. Students will discover why many goals do not manifest and differences that can make the difference. Students will explore how the mind (literally) codes experience and how it can be recoded. Additionally, a powerful pattern change is taught, which allows a person to stop unwanted habits or create desired behaviors.

**HHP 213 Spiritual Care**  
0.5 credits  
HHP 213 explores individual development through the life span. The course presents the healing aspects of various religions with correlation to the energy system with Florence Nightingale’s thoughts. Spiritual assessment and interventions for client care are covered.

**HHP 214 Exploring Your Dreams**  
1 credit  
HHP 214 is a participatory course of dream interpretation leading to an awareness of the benefits of dreams as a valuable tool for facilitating health and personal growth. Participants learn simple tools for dream recall, recording dreams and uncovering the many levels of meaning that are found in every dream. You will evaluate your lifestyle and develop an individual concept of wellness and optimal health by tapping into your dreams as a source for reducing stress and increasing spirituality and inner growth.

**HHP 215 The Role of Art in Healing**  
1 credit  
HHP 215 provides an overview of the role of visual art in healing and includes both didactic information and experiential learning. This course enables you to learn how the role of art in healing has evolved over the years and how to explore different models, approaches, and focuses of healing through visual art. A secondary goal of the course is to help you discover, through art, things about yourself which can enhance your professional work.

**HHP 216 High Level Wellness**  
1 credit  
HHP 216 explores the positive dimensions of healthy lifestyles and covers the techniques required to meet the basic needs of illness, prevention, and burnout.

**HHP 217 Jin Shin Level I**  
2 credits  
HHP 217 provides basic understanding of the human energy system from an Asian perspective. Jin Shin is non-invasive, performed with light touch on various acupoints on the body. This course enables you to learn to identify, access, open, and balance the energy of yourself and others within the Jin Shin system. Four Jin Shin sessions are given and received.

**HHP 218 Introduction to Massage Therapy**  
1 credit  
Co-requisite HHP 225  
HHP 218 provides hands-on techniques to complete a full body massage along with integration of healing touch. Swedish massage techniques and basic foot reflexology combined with a complete energy balance are performed and experienced by each student.

**HHP 219 Expanded Concepts of Massage**  
1 credit  
HHP 225 builds on techniques you learned during HHP 218 Introduction to Massage. It includes application of massage techniques with special populations and it also examines related basic therapeutic approaches.
such as hydrotherapy and acupressure. Considerations for developing professional practice are also addressed.

**HHP 227 Communication Skills**  
0.5 credits  
HHP 227 assists you in acquiring essential skills in communication, conflict resolution, negotiation, and team building.

**HHP 228 Solution Focused Personal Coaching**  
0.5 credits  
HHP 228 explores the practice of the effective, quick, Emotional Freedom Technique (EFT), allowing you and others to become more focused.

**HHP 229 Wellness Counseling**  
1 credit  
HHP 229 provides the tools to facilitate yourself and others in the movement towards wellness. It enables you to learn assessment and basic counseling skills to establish contacts and goals for change.

**HHP 230 Jin Shin Level Two**  
2 credits  
HHP 230 allows the student who has completed HHP 223 to gain advanced experience with this hands-on non-invasive Chinese technique. An expansion of Jin Shin Level One material includes how to read combination pulses and to do flows that balance the body at deeper levels. At the end of Jin Shin Level Two, you will be able to take pulses and administer a full session of Jin Shin to yourself and others. A certificate will be issued to passing students that will place them at Jin Shin Practitioner status within the High Touch Jin Shin Network.

**HHP 231 Spiritual Renewal**  
0.5 credits  
HHP 231 enables you to develop practical approaches for caregivers’ spiritual alienation and spiritual re-connection.

**HHP 235 Mind, Body Healing and Health**  
3 credits  
HHP 235 focuses on the survey of the rapidly developing awareness of the inner-connectedness of mind and body and spirit. The course explores the dialog between eastern and western health care and the many choices which could enhance health and well-being.

**HHP 236 Dance Therapy and Healing**  
0.5 credits  
HHP 236 introduces the theories of Marian Chace/Group Development, Balanche Evan/Creative Movement, and Mary Whitehouse/Authentic Movement. Dance therapy principles can be applied to all caregiver interactions in which professionals want to increase empathy and communication. Participants should come dressed in loose, comfortable clothing. No prior movement experience is necessary.

**HHP 239 Issues in Holistic Nutrition**  
0.5 credits  
HHP 239 examines the nutritional alternatives to traditional medical therapies. The discussions will focus on a more optimum level of health using various nutritional techniques.

**HHP 241 Healing with Imagery**  
0.5 credits  
HHP 241 explores the ancient mysteries of shaman healers and the clinical research now validating this power. Learn effective techniques which accelerate healing and develop insight.

**HHP 242 Healing Touch Level I**  
1 credit  
Healing Touch is energy-based therapeutic approach to healing. The course enables you to develop and use touch as a means of assessing a client’s/patient’s state of wellness through the intentional use of touch. Participants are given specific instructions in developing touch sensitivity and practice the assessment and healing methods. Healing Touch is a multi-level program that moves from beginning to advanced practice. After completion of Level 3, you are eligible to apply for certification as a healing touch practitioner.

**HHP 243 Healing Touch Level II**  
1 credit  
Prerequisite: HHP 242  
HHP 243 builds upon the knowledge and skills obtained in HHP 242. You will gain the specific skills necessary to become an advanced practitioner. The course emphasizes experiential learning and focuses on developing healing sequences for specific client needs. Back techniques are introduced, and the therapeutic interactions for specific emotional and physiological problems are discussed and practiced.

**HHP 244 Holistic Health Level I**  
1 credit  
HHP 244 introduces holistic philosophy, theory and practice and how it integrates with nursing in the art and science of caring and healing. The course focuses on conscious application of self-responsibility, caring, human development, stress reduction, communication, problem-solving, teaching, learning, leadership, and change.

**HHP 245 Healing Touch Level III**  
1 credit  
HHP 245 includes further development of Higher Sense Perception (HSP), sequencing of healing techniques, working with guidance, self-healing, self-development, learning about other healers, and advanced healing methods. Level III Healing Touch is for students who have completed Level I and Level II and desire more in-depth experience. (30 Continuing Education Contact Hours)

**HHP 246 Reiki Level II**  
1 credit  
Prerequisite: HHP 130  
HHP 246 builds upon the knowledge and skills obtained in HHP 130. You will learn the meaning of the three traditional Usui symbols. It incorporates in-depth discussion about application of the three symbols. You will learn about the necessary preparation of a Reiki therapist in offering treatments. One attunement is given to each student.
Each member gives and receives a Reiki treatment using the three Reiki symbols. Long Distance and Mental Reiki processes are learned. Reiki Therapist Certification is available at completion.

**HHP 249 Journaling the Healing Journey**  
1 credit  
HHP 249 incorporates using a journal as an effective tool for looking at personal growth process, as well as for helping clients in their healing process. The course teaches journaling skills and how to focus specifically on healing through various techniques.

**HHP 254 Holistic Health Level II**  
2 credits  
Prerequisite: HHP 244  
HHP 254 provides a more comprehensive study of modalities to strengthen the whole person in the process of facilitating and maintaining optimal health using the basic theory of Holistic Nursing Level I.

**HHP 256 Holistic Health Level III**  
2 credits  
Prerequisites: HHP 244 and HHP 254  
HHP 256 builds on the basic theory introduced in Holistic Nursing Level II and provides a more comprehensive study of modalities to strengthen the whole person in the process of facilitating and maintaining optimal health.

**HHP 258 Journaling the Spiritual Journey**  
1 credit  
HHP 258 incorporates the spiritual journal as an evolution in who people think they are and of what they believe about their purpose. Spiritual writing expands the consciousness, and the universe responds by using writing as a channel – a way to interact with the direction of people’s lives. The course focuses on connecting with the spiritual part of people and provides tools for personal growth, as well as techniques to assist others on the journey to spiritual wholeness.

**HHP 260 Advanced Reflexology**  
1 credit  
Prerequisite: HHP 164 or 166  
HHP 260 incorporates a hands-on approach with an emphasis on developing techniques. It continues the basic reflexology class and allows you to work on hand positions while addressing specific techniques for specific issues.

**HHP 262 Psychoneuroimmunology**  
0.5 credits  
HHP 262 studies the inter-relationship of the body-mind connection and explores the physiological and psychological interaction between the brain, the immune system, and the endocrine system.

**HHP 263 Creating a Holistic Practice**  
0.5 credits  
HHP 263 focuses on the necessary skills to start an independent practice. It includes self-assessment of professional skills, the business plan for marketing, finances, and the actual design of the practice.

**HHP 265 Gift of Self-Esteem**  
1 credit  
HHP 265 explores self-talk, self-appreciation, self-responsibility, belief, expectations and provides tools for increasing personal power.

**HHP 267 Living without Limits**  
0.5 credits  
HHP 267 focuses on the steps that can be taken to clarify goals, obtain support for challenges, and act effectively to accomplish life dreams.

**HHP 269 Healing Presence**  
1 credit  
HHP 269 provides the opportunity to explore the meaning of presence through the process of increased self-awareness and self-discovery, as well as development of essential skills for connecting on a higher level with yourself and others.

**HHP 276 Your Heart’s Intention**  
1 credit  
HHP 276 looks at our heart’s intention and what this means in our healing practice, work practice and everyday living. We will observe and discuss intuition, knowing, seeing, different techniques for manifesting, the laws of attraction, and journaling growth as a healer or as you continue your chosen path. Discussion about self, self worth and how to accept success. The student will be exposed to different types of medications, journaling, and working on manifesting their personal goals.

---

**HIS – History**

www.rrcc.edu/history/

**HIS 101 Western Civilization I**  
3 credits  
HIS 101 explores a number of events, people, groups, ideas, institutions, and trends that have shaped Western Civilization from the prehistoric era to 1650. The course reflects the multiple perspectives of gender, class, religion, and ethnic groups. It focuses on developing, practicing, and strengthening the skills historians use while constructing knowledge in this discipline.

**HIS 102 Western Civilization II**  
3 credits  
HIS 102 explores a number of events, people, groups, ideas, institutions, and trends that have shaped Western Civilization from 1650 to the present. The course reflects the multiple perspectives of gender, class, religion, and ethnic groups. It focuses on developing, practicing, and strengthening the skills historians use while constructing knowledge in this discipline.

**HIS 111 World Civilization I**  
3 credits  
HIS 111 enables you to view history up to 1500 CE in a broad global sense. This course focuses on the common denominators among all people. This approach goes beyond political borders to provide a better appreciation for different cultures.
HIS 112 World Civilization II
3 credits
HIS 112 enables you to view history post-1500 CE in a broad global sense. This course focuses on the common denominators among all people. This approach goes beyond political borders to provide a better appreciation for different cultures.

HIS 201 United States History I
3 credits
HIS 201 explores events, trends, people, groups, cultures, ideas, and institutions in North America and United States history, including the multiple perspectives of gender, class, and ethnicity between the period when Native American Indians were the sole inhabitants of North America and the American Civil War. It focuses on developing, practicing, and strengthening the skills historians use while constructing knowledge in the discipline.

HIS 202 United States History II
3 credits
HIS 202 explores events, trends, people, groups, cultures, ideas, and institutions in United States history, including perspectives of gender, class, and ethnicity between the period when Native American Indians were the sole inhabitants of North America and the American Civil War. It focuses on developing, practicing, and strengthening the skills historians use while constructing knowledge in the discipline.

HIS 208 The Native American Experience
3 credits
HIS 208 analyzes historical and socio-cultural change for Native Americans (Indians) from pre-colonial America to the present, emphasizing those processes and relations with non-Native Americans which have contributed to the current conditions.

HIS 215 Women in U.S. History
3 credits
HIS 215 examines women’s changing roles in American history from the pre-colonial native population to the present. The course emphasizes the nature of women’s work and the participation of women in the family, political, religious, and cultural activities and in social reform movements.

HIS 225 Colorado History
3 credits
HIS 225 presents the story of the people, society, and cultures of Colorado from its earliest Native Americans through the Spanish influx, the explorers, the fur traders and mountain men, the gold rush, railroad builders, the cattlemen and farmers, the silver boom, the tourists, and the modern state.

HIS 235 History of the American West
3 credits
HIS 235 traces the history of the American West from the Native American cultures and the frontier experiences of America’s earliest, eastern settlers through the Trans-Mississippi West, across the great exploratory and wagon trails, and up to the present West, be it urban, ranching, reservation, resource management, or industrial. The course emphasis is the northern and central parts of the West.

HIS 236 Contemporary United States History
3 credits
HIS 236 focuses on the major political, economic, social, and cultural developments that have shaped modern America.

HIS 247 Contemporary World History
3 credits
HIS 247 investigates the major political, social, and economic developments; international relationships; scientific breakthroughs; and cultural trends that have shaped the various global regions and nation-states from 1900 to the present. The course emphasizes the interactions of global regions and nation-states.

HIS 275 Special Topics
3 credits
HIS 275 focuses on the exploration of current topics, issues, and activities related to one or more aspects of history.
HPR 112 Phlebotomy  
4 credits  
HPR 112 teaches the duties associated with the practice of venipuncture, capillary puncture, and special collection procedures. You will have experience with quality control, infection control and safety procedures as well as laboratory computer systems. Those students who successfully complete this course may apply for a National Phlebotomy Registry Examination.

HPR 120 Advanced Cardiac Life Support (ACLS)  
1 Credit  
Prerequisite: Current basic life-support health care provider C card  
HPR 120 presents the required material for ACLS completion. It will cover arrhythmias, medications, therapeutic modalities for life-threatening arrhythmias, airway management, and other treatment modalities used in cardiac and respiratory arrest.

HPR 121 Advanced Cardiac Life Support Renewal  
0.5 credits  
Prerequisite: ACLS completion with current card  
HPR 121 presents the required material for ACLS renewal. The course will cover rhythm recognition, cardiac drugs, cardiac monitors, and case-based scenarios.

HPR 125 Outdoor Emergency Care  
4 credits  
HPR 125 prepares you without previous first aid training to handle the emergency care problems seen at alpine and nordic ski areas. The knowledge and skills are oriented toward the wilderness setting with special emphasis on ski and snowboard injuries, altitude and cold weather illnesses, wilderness extrications, and the special equipment ski patrollers need for emergency care and transportation in the outdoor environment. This is a National Ski Patrol course.

HPR 126 Outdoor Emergency Care Refresher  
0.5 credits  
HPR 126 provides maintenance of a uniform skill level and acts as a means of national recertification for Outdoor Emergency Care.

HPR 130 Pediatric Advanced Life Support (PALS)  
1 credit  
HPR 130 provides the needed information and skills required by health care agencies for pediatric emergencies.

HPR 131 Pediatric Advanced Life Support Renewal  
0.5 credits  
Prerequisite: Current PALS card  
HPR 131 provides updates and skill practice to complete renewal requirements for the PALS completion card.

HPR 137 Human Diseases  
4 credits  
HPR 137 covers basic knowledge of the deviations that occur in the human body with disease and injury and is an integrated study of signs/symptoms, diagnostic tests, and treatment.

HPR 166 Introspective Ethics  
1 credit  
HPR 166 provides a philosophical approach to the practice of ethics in the health care setting.

HPR 178 Medical Terminology  
2 credits  
HPR 178 introduces the structure of medical terms with emphasis on combining and using the most common prefixes, roots, and suffixes. It includes terms related to clinical laboratory, diagnostic imaging, nuclear medicine, and oncology as well as major body systems. Classroom structure provides accepted pronunciation of terms and relative use in the health care setting.

HPR 180 Phlebotomy Internship  
3 credits  
Prerequisite: HPR 112  
HPR 180 provides you with the opportunity to supplement coursework with practical work experience related to their educational program.

You will work under the immediate supervision of experienced personnel at the business location and with the direct guidance of the instructor. Documentation of immunizations and permission of instructor are required.

HPR 190 Basic EKG Interpretation  
2 credits  
HPR 190 provides instruction for interpretation of EKG strips, and anatomy and physiology of the heart using three-lead monitoring as a guide. Twelve-lead EKG may be discussed.

HPR 200 12 Lead EKG Interpretations  
2 credits  
Prerequisite: HPR 190  
HPR 200 focuses on each wave and interval of the complex, the axis, and the 12-lead presentation of some rhythm disturbances.

HPR 210 Physical Assessment  
2 credits  
Prerequisite: Current RN license  
HPR 210 explores how to obtain a complete health history, which is integrated with a physical exam. The assessment skills of inspection, palpation, percussion and auscultation are practiced in class. Proper use of equipment such as the otoscope, tuning fork, ophthalmoscope, and reflex hammer are included.

HPR 215 Phlebotomy Refresher  
1 credit,  
Prerequisite: HPR 112  
HPR 215 covers OSHA regulations, collection procedures, and requirements for various laboratory tests, phlebotomy technique, problem-solving, legal implications, and rights of the phlebotomist and patient. Permission of the instructor needed.

HPR 218 Supervision and Delegation  
0.5 credits  
HPR 218 covers the rules for delegation of nursing tasks, including documentation and supervision issues.
HPR 230 Trauma Assessment and Intervention
1 credit
HPR 230 presents the steps for a systematic head-to-toe assessment and intervention in traumatic emergencies.

HPR 242 Nursing Career Alternatives
0.5 credits
HPR 242 explores numerous areas in which nurses work and how to pursue jobs in those areas.

HPR 260 Bereavement Counseling
0.5 credits
HPR 260 presents current principles for bereavement counseling. The stages of the grieving process, coping mechanisms, and feelings regarding death will be explored.

HPR 263 Child Self-Esteem
1 credit
HPR 263 focuses on skill building in communication, self-expression, and conflict resolution for those dealing with children.

HPR 269 Stress Management
0.5 credits
HPR 269 provides you with the specific skills that provide control over stressful situations or people. The class is designed for all who are interested in a higher quality of life and want to reach their full potential.

HUM – Humanities
www.rrcc.edu/human/

HUM 118 Religion in American Culture
3 credits
HUM 118 investigates the various ways in which religion and American culture interact. The course begins with the religion of Native Americans, which existed in a pre-modern society where religion went unchallenged as the pre-eminent organizing principle, to the post-modern era, where religion competes with a multiplicity of other belief systems in a complex societal matrix. This course pays close attention to the sundry ways in which religion and American culture interface.

HUM 121 Humanities: Early Civilizations
3 credits
HUM 121 introduces you to the history of ideas that have defined cultures through a study of the visual arts, literature, drama, music, and philosophy. It emphasizes connections among the arts, values, and diverse cultures, including European and non-European, from the ancient world to 1000 C.E.

HUM 122 Humanities: From Medieval to Modern
3 credits
HUM 122 examines written texts, visual arts, and musical compositions to analyze and reflect the evolution and confluence of cultures in Europe, Asia, and the Americas from 800 C.E. to 1750. Any two of the three Survey of Humanities courses equal a sequence.

HUM 123 Humanities: The Modern World
3 credits
HUM 123 examines the cultures of the 17th through the 20th centuries by focusing on the inter-relationships of the arts, ideas, and history. The course considers the influences of industrialism, scientific development, and non-European people.

HVA – Heating Ventilation and Air Conditioning
www.rrcc.edu/construction/

HVA 102 Basic Refrigeration
4 credits
Pre-requisite: HVA 100 or OSH 127 or 10 Hour OSHA card.
HVA 102 introduces the basic theory of refrigeration systems, components, charging, recycling, and evacuation of refrigeration units.

HVA 103 Basic Heating
4 credits
Pre-requisite: HVA 100 or OSH 127 or 10 Hour OSHA card.
HVA 103 introduces the basic theory of heating systems, components, charging, recycling, and evacuation of heating units.

HVA 105 Electricity for HVAC/R
4 credits
Pre-requisite: HVA 100 or OSH 127 or 10 Hour OSHA card.
HVA 105 teaches resistance, current, voltage and power in AC and DC circuits; measurements; computations of series and parallel circuits; circuit analysis and troubleshooting with basic test equipment.

HVA 110 Fundamentals of Gas Heating
4 credits
Co-requisite: OSH 127, HVA 105 or permission of the instructor
HVA 110 introduces you to the fundamentals of gas heating. You will work in a classroom and shop environment. Topics include the basics of gas heating systems, operation of gas valves and burners, gas pipe system design, gas piping system code requirements and basic code requirements for heating systems.

HVA 111 Piping Skills
4 credits
Co-requisite: OSH 127
HVA 111 studies the installation of common piping materials in plumbing and HVAC/R systems. Pipe math, terminology, common piping materials and application, figuring offsets and common pipe joints are also covered. Shop projects including pipe support and hanging, center to center measurements and a variety of pipe joining methods are explored.

HVA 112 R-410a
1 credit
HVA 112 enlightens you on conditions required for proper operation with R-410a.

HVA 113 Refrigerant Recovery Training
1 credit
Prerequisite: OSH 127, VA 102 or permission of the instructor
HVA 113 explains the laws regarding refrigerant recovery. The course includes hands-on use of recovery equipment. Upon successful completion of this course you will be prepared to take the EPA certification test. Test is offered following the class. Test fee is not included in course fee.
HVA 114 Centrifugal Pumps
1.5 credits
HVA 114 presents information on why and how pumps are designed. It will cover how pumps work and what causes pumps to fail. Topics covered include pump basics, pump theory, pump systems, pump design and selection, horizontal pump installation, and pump maintenance and troubleshooting.

HVA 122 Commercial Refrigeration
4 credits
HVA 122 covers commercial ice makers, walk-in coolers, walk-in freezers, and self-contained refrigeration units.

HVA 131 Refrigeration and Air Conditioning Basics
1.5 credits
HVA 131 covers the basics of refrigeration and air conditioning and provides a blend of theory with hands on training. The course covers the practical application of refrigeration and air conditioning in domestic, commercial, and heat pump applications. It also provides a basis of information allowing you an understanding of servicing and troubleshooting techniques. EPA certification testing, plus HVAC Excellence Technician’s Certificate testing are offered.

HVA 132 Air Conditioning and Refrigeration Controls
4 credits
Prerequisites: HVA 102 and 105, or permission of instructor
HVA 132 applies the knowledge of basic electricity to controls related to air conditioning and refrigeration equipment. The course also works on reading and drawing schematic and ladder diagrams.

HVA 134 Air Conditioning Systems
4 credits
HVA 134 studies the basics of air conditioning system design, operation and installation. You will learn how cooling systems can be designed with human comfort and efficient operation in mind. Time is spent in the shop installing components related to these systems.

HVA 140 Basic Sheet Meta
4 credits
HVA 140 teaches the basic skills required to install duct systems for those entering the HVAC trade. Information covered includes: tools, safety, common materials, installation standards and practices. The course will cover fabrication of transitions and common fittings.

HVA 141 Sheet Metal Fabrication
2 credits
Learn the basics of shop based sheet metal tools and hand tools and how they can be used to create fittings for residential ducting systems. Safety and operation of tools will be stressed. You will learn to layout and fabricate a furnace plenum, a transition, square and radius elbows, and other fittings as time permits.

HVA 146 HVA Installation Code
2 credits
HVA 146 covers mechanical code requirements for combustion air systems, venting systems, fuel piping systems in residential applications.

HVA 162 Heating Controls
4 credits
Prerequisites: HVA 110 and 105, or permission of the instructor.
HVA 162 applies the knowledge of Basic Electricity to Controls related to heating equipment. This includes boilers and furnaces with emphasis on ignition and controls related to high efficiency heating equipment. Course work includes reading and drawing ladder and schematic wiring diagrams.

HVA 192 Refrigerant Retrofit Training
1.5 credits
HVA 192 allows you to understand and gain knowledge to perform refrigerant retrofit. This course will provide you with a working knowledge of alternative refrigerants plus an understanding of retrofit procedures. A quick history of CFC ozone depletion will give you an understanding of EPA mandates. You have an opportunity to become EPA certified.

HVA 193 Hydraulics Training
1.5 credits
HVA 193 increases knowledge of basic hydraulics to become a better troubleshooter and lower maintenance costs. Training stations are utilized in each training session. Cutaways of all major components are used in the sessions to visually demonstrate the component’s construction and operation. Developing an understanding of how it works leads to an understanding of how and why it fails.

HVA 194 Fundamentals of Pneumatic Controls
1.5 credits
HVA 194 introduces the subject of pneumatic comfort controls. It is device oriented and provides a thorough treatment of those devices commonly utilized in comfort control systems including theory and basic operation of pneumatic thermostats, receiver-controllers, relays, dampers, valves and pneumatic actuators. Calibration, operation and preventive maintenance aspects of these components are highlighted.

HVA 200 International Residential Code – Mechanical & Fuel Gas
2 credits
HVA 200 covers the mechanical and fuel gas requirements of the IRC. You will be given the opportunity to learn and apply the general requirements of this code. The course will review and apply the sizing requirements of parts V & VI of this code.

HVA 206 Mechanical Codes
4 credits
HVA 206 reviews in detail the International Mechanical Code. The course is intended to give those entering the HVAC/R trade as well as experienced trades people taking certification examinations a solid knowledge of this code.
HVA 226 Boiler Operator
1.5 credits
Prerequisite: Documental boiler experience or permission of the instructor
HVA 226 gives you the opportunity to learn all facets of boiler operation, maintenance and repair. The course will review mathematical formulas used in boiler plant operation.

HVA 231 Pneumatic Controls
4 credits
Prerequisites: HVA 102, 105, 132 or permission of the instructor
HVA 231 covers pneumatic controls and systems used in controlling commercial and industrial HVAC equipment. The course includes lab experimentation with pneumatic controls, rebuilding of valves and actuators and calibration of various types of controls. You will work with controls from most of the major manufacturers.

HVA 232 Advanced Air Conditioning and Refrigeration Controls
4 credits
Prerequisites: HVA 102, HVA 105, HVA 113, HVA 132
HVA 232 covers the advanced study of air conditioning and refrigeration controls.

HVA 233 Advanced Refrigeration
4 credits
Prerequisites: HVA 100 or OSH 127, HVA 102, 105, 113, 132
HVA 233 builds on the skills acquired in refrigeration fundamentals. You will have an opportunity to study and to work on rooftop units, ice machines, and commercial reach-in and walk-in coolers.

HVA 240 Servicing Forced Air Systems
4 credits
Prerequisites: HVA 100 or OSH 127, HVA 110, 105, 162 or permission of the instructor.
HVA 240 covers the operation, repair and maintenance of forced air heating systems. The course studies the different types of furnaces, code requirements, common controls and mechanical problems. This course also explores the A.G.A. approved method of testing furnace heat exchangers. Customer relations and workplace behavior are discussed.

HVA 247 Hot Water Heating Systems
4 credits
Prerequisites: HVA 105, HVA 110, HVA 111 or PLU 101, HVA 162 or permission of the instructor.
HVA 247 covers the theory of operation behind these systems, as well as installation, maintenance and repair. The course also examines air elimination, circulator pump and pipe sizing, Boiler and heat convector sizing are also discussed.

HVA 251 Building Automation I, Installer
4 credits
Prerequisite: Basic understanding of PCs and Windows operating system, wiring skills and HVAC experience.
HVA 251 provides you with an overview of building automation systems. This course helps you to understand the installation of building automation devices with regard to HVAC equipment.

HVA 252 Building Automation II, Service
4 credits
Prerequisite: HVA 251.
HVA 252 covers operating and modifying an installed building automation system. This is a highly interactive course where you will learn and exercise common applications of a building management system.

HVA 253 Building Automation III, Advanced Operations
4 credits
Prerequisite: HVA 252
HVA 253 covers complete set up and programming of a building automation system. The class includes extensive hands-on workshops.

HVA 257 Low-Pressure Steam Heating
4 credits
Prerequisites: HVA 105, 110, 162, 206, 247 or permission of the instructor.
HVA 257 examines low pressure steam systems including boilers, piping, heat convectors. Repair and maintenance of these systems is covered as well as theory behind their operation. Boiler feed water and condensate systems are also discussed.

HVA 261 A/C Systems Service and Repair
4 credits
Prerequisites: HVA 100 or OSH 127, HAV 102, 105, or permission from instructor.
HVA 261 emphasizes the service of HVAC systems. You will develop a preventative maintenance program for various types of equipment; both commercial and residential. Troubleshooting techniques and equipment repair and rebuilding are discussed. Additional time is spent on equipment change outs, upgrading and retrofitting different refrigerants.

HVA 263 Chillers
4 credits
Prerequisites: HVA 100 or OSH 127, HVA 102, 105, 113, 132
HVA 263 introduces you to chillers and their operating parameters.

HVA 264 Evaporative Cooling Systems Water Treatment
4 credits
Prerequisites: HVA 100 or OSH 127, HVA 102, 103, 105, 113, 132, or permission from the instructor.
HVA 264 covers aspects of commercial and residential evaporative cooling systems. Areas examined include maintenance to these systems, water treatment, sizing, pumps and piping.

HVA 267 Radiant Heating Systems
4 credits
Prerequisites: HVA 111 or PLU 101, HVA 110, 105, 162, 247 or permission of the instructor.
HVA 267 covers the theory of operation, installation and maintenance of warm water radiant heating systems in a combination of lecture and lab. Different methods of zoning, controls, piping methods, piping types and system components are discussed. Upon successful completion, you will be able to design, install, document, maintain and trouble-shoot all conventional residential warm water, radiant panel heating systems.
HVA 268 Advanced Hydronic Controls
4 credits
Prerequisites: HVA 110, 111 or PLU 101, HVA 162, 247, 267 or permission of the instructor
HVA 268 takes the operation of hydronic heating systems and allows you to apply the knowledge of advanced hydronic controls to them. You must have a solid field background or education in hydronic heating, electricity and heating controls prior to enrollment.

HVA 269 Indoor Air Qualities and Ventilation
4 credits
HVA 269 informs experienced HVAC contractors and service technicians of problems associated with indoor air quality and methods for improvement of the indoor environment. The Mechanical Code and other national standards are covered as well.

HVA 275 Special Topics
0.5-6 credits
HVA 275 provides you with a vehicle to pursue in depth exploration of special topics of interest.

HVA 280 Internship
0.5-6 credits
Prerequisite: Permission of the instructor
HVA 280 gives you an opportunity to apply your course studies in a specific area.

HVA 285 Independent Study
0.5-6 credits
Prerequisite: Permission of instructor
HVA 285 students will work with the instructor on a specific area with specific objectives and a predetermined project completion date.

HWE – Health and Wellness
www.rrcc.edu/health/

HWE 100 Human Nutrition
3 credits
HWE 100 introduces basic principles of nutrition with emphasis on personal nutrition. It satisfies the nutrition requirement of students entering health care professions.

HWE 101 Cardio-Pulmonary Resuscitation (CPR)
1 credit
HWE 101 teaches emergency procedures for respiratory, obstructed airway, and cardiac arrest victims of all ages. It meets certification requirements of the American Red Cross and the American Heart Association.

HWE 120 Wilderness First Aid
1 credit
HWE 120 provides limited medical information to cope with basic wilderness emergencies.

HWE 129 Wilderness First Responder
4 credits
HWE 129 provides you with those skills and emergency medical care techniques used by guides, trip leaders, and others providing primary care in backcountry setting. You will be able to respond correctly to those medical and trauma situations commonly encountered when entry into the EMS system is delayed or unlikely.

IMA – Industrial Maintenance Technology
www.rrcc.edu/isod/

IMA 100 Introduction to Industrial Maintenance
3 credits
IMA 100 provides you with an overall perspective and foundation for the industrial maintenance field. You will be taught the fundamentals of machine operations commonly used in the manufacturing industry. Topics such as general maintenance procedures, consumable supplies, fasteners, and machine operating specifications will be covered. In addition, high emphasis will be placed upon the understanding of machine blueprints which detail all the systems which are part of a functioning machine. You will also be exposed to parts and specification manuals utilized in the repair of industrial machinery. Finally, you will begin to learn the logical process utilized in the diagnosis of broken, worn, and defective.

IMA 150 Industrial Problem Solving Methods
2 credits
Prerequisite:
IMA 150 introduces you to individual and team problem solving techniques and methodologies. Techniques for handling complex, multi-faceted system failures are presented. You must demonstrate use of the techniques at both the individual and team level.

IMA 210 Vibration Principles I
3 credits
Prerequisite: permission of instructor
IMA 210 will introduce the principles and basic techniques of industrial machinery vibration analysis. Successful students will be able to calculate vibration frequency from time domain data; convert vibration units of measure and signal detection; read and interpret basic FFT spectra; recognize various vibration sensors, mounting methods and instrumentation; and compare overall or single value...
vibration measurements against pre-established alert settings and perform basic FFT signature analysis.

**IMA 211 Vibration Principles II**  
*3 credits*  
Prerequisite: IMA 210 or permission of instructor  
IMA 211 is a continuation of IMA 210 and successful students will be able to select the appropriate machinery vibration measurement technique; maintain a database of results and trends; establish and implement general overall level alarms; set up instruments for the basic resolution of amplitude, frequency and time; perform basic vibration analysis of machinery and components, such as shafts, bearings, gears, fans, pumps and motors, using spectrum analysis. In addition you will be able to classify, interpret and evaluate the test results in accordance with applicable specifications and standards; understand basic single plane balancing concepts; be aware of some causes and effects of bad measurement data; perform basic bump tests to determine natural frequencies and recommend minor corrective actions.

**ITA – Italian**

[www.rrcc.edu/languages/](http://www.rrcc.edu/languages/)

**ITA 101 Conversational Italian I**  
*3 credits*  
ITA 101 provides the first course in a sequence for beginning students who wish to understand and speak Italian. The material includes basic vocabulary, grammar, and expressions that are used in daily situations and in travel.

**ITA 102 Conversational Italian II**  
*3 credits*  
Prerequisite: ITA 101 or permission of instructor  
ITA 102 provides the second course in a sequence for students who wish to understand and speak Italian. The material continues to cover basic conversational patterns, expressions, and grammar.

**JOU – Journalism**

[www.rrcc.edu/multimedia/](http://www.rrcc.edu/multimedia/)

**JOU 105 Introduction to Mass Media**  
*3 credits*  
JOU 105 places the mass media in an historical and cultural perspective, considering the validity, integrity, and influence of the media in a democracy.

**JOU 106 Fundamentals of Reporting**  
*3 credits*  
JOU 106 introduces news writing, reporting, and interviewing with an emphasis on clarity, accuracy, completeness, timeliness, and fairness.

**JOU 111 Principles of Advertising**  
*3 credits*  
JOU 111 employs design concepts and the principles and practices for advertising management for the mass media.

**JOU 114 TV Production**  
*3 credits*  
Recommended Prerequisites: MGD 104 and basic computer skills  
JOU 114 covers principles and techniques of television production, as well as the role of the director/producer. You are required to have a basic knowledge of computers prior to taking this class. You should be able to upload and download files from the Internet, external devices, and flash drives; use the Internet for basic research; be able to send email and attachments; and save information to CD/DVD, flash drive, or other external devices. Students without these skills are required to take MGD 101 Introduction to Computer Graphics either concurrently or prior to taking this course.

**JOU 121 Photojournalism**  
*3 credits*  
Recommended Prerequisite: ART 138 or ART 142  
JOU 121 instructs you in photography for newspapers and magazines. Traditional news photography, documentary photography, picture essay, and picture story formats are covered. Responsibility of the press, working conditions, and editorial photography are explored. Students are required to have either a film and/or digital SLR camera with manual settings for this class.

**JOU 206 Intermediate News Writing and Editing**  
*3 credits*  
JOU 206 presents how to gather information as an investigative reporter through research of local, state, and federal government publications; how to cover police beat and city hall; how the courts and regulatory agencies function; and how to cover other challenges such as the environment, religion, science, medicine, public safety, and business.

**JOU 215 Publications Production and Design**  
*3 credits*  
JOU 215 allows your participation in the planning, writing, design, and production processes of a non-newspaper publication.

**JOU 221 Newspaper Design I**  
*3 credits*  
JOU 221 provides you with experience in newswriting, editing, design, layout, and advertising for newspaper production. You may be required to work on a college newspaper or other news-oriented publications.

**JOU 222 Newspaper Design II**  
*3 credits*  
JOU 222 allows you to build your newspaper production experience through work on a college newspaper or other approved news-oriented publications.

**JOU 231 Introduction to Public Relations**  
*3 credits*  
JOU 231 focuses on public relations and its role for the individual, the non-profit organization, and business and government and includes research methodology, principles and practices necessary to becoming a public relations practitioner; and media channels best suited to a persuasive appeal or crisis.
JPN – Japanese

www.rrcc.edu/languages/

JPN 101 Conversational Japanese I
3 credits
JPN 101 introduces beginning students to conversational Japanese and focuses on understanding and speaking Japanese. It covers basic vocabulary, grammar, and expressions that are used in daily situations and in travel.

JPN 102 Conversational Japanese II
3 credits
Prerequisite: JPN 101 or instructor permission.
JPN 102 continues the sequence for beginning students who wish to understand and speak Japanese. It covers basic conversational patterns, expressions, and grammar.

LIT – Literature

www.rrcc.edu/english/

LIT 115 Introduction to Literature I
3 credits
LIT 115 introduces you to fiction, poetry, and drama. The course emphasizes active and responsive reading.

LIT 127 Study of the Novel
3 credits
LIT 127 focuses on careful reading and interpretation of selected novels representing types and periods of literature. You will examine formal as well as thematic elements of longer fiction. Critical thinking, discussion, and writing about novels will enhance perceptive reading skills and heighten awareness of the human condition.

LIT 145 Women in Literature and Society
3 credits
LIT 145 reviews significant world literature from the standpoint of depiction of women in literature as a reflection of women’s roles in society.

LIT 201 Masterpieces of Literature I
3 credits
LIT 201 examines significant writings in world literature from the ancients through the Renaissance. The course emphasizes careful readings and understanding of the works and their cultural backgrounds.

LIT 202 Masterpieces of Literature II
3 credits
LIT 202 examines significant writings in world literature from the seventeenth century to the present. The course emphasizes careful reading and understanding of the works and their cultural backgrounds.

LIT 205 Ethnic Literature
3 credits
LIT 205 focuses on significant texts by ethnic Americans, including African-American, Native American, Latino/a, and Asian Americans. The course emphasizes careful reading and understanding of the cultural and literary elements of the works.

LIT 207 Survey of American Literature I
3 credits
LIT 207 provides an overview of American literature from the Native American through the nineteenth century Romantics and explores ideas, historical and social contexts, themes, and literary characteristics of works in various genres by major writers.

LIT 208 Survey of American Literature II
3 credits
LIT 208 provides an overview of American literature from the mid-nineteenth century to the present and explores ideas, historical and social contexts, themes, and literary characteristics of works in various genres by major writers.

LIT 209 Survey of British Literature I
3 credits
LIT 209 provides an overview of British literature from the Anglo-Saxon period through the seventeenth century. The course explores ideas, historical and social contexts, themes, and literary characteristics of works in various genres by major writers.

LIT 210 Survey of British Literature II
3 credits
LIT 210 provides an overview of British literature from the eighteenth century to the present. The course explores ideas, historical and social contexts, themes, and literary characteristics of works in various genres by major writers.

LIT 211 Survey of American Literature I
3 credits
LIT 211 provides an overview of American literature from the Native American through the nineteenth century Romantics and explores ideas, historical and social contexts, themes, and literary characteristics of works in various genres by major writers.

LIT 212 Survey of American Literature II
3 credits
LIT 212 provides an overview of American literature from the mid-nineteenth century to the present and explores ideas, historical and social contexts, themes, and literary characteristics of works in various genres by major writers.

LIT 214 Women in Literature and Society
3 credits
LIT 214 reviews significant world literature from the standpoint of depiction of women in literature as a reflection of women’s roles in society.

LIT 215 Survey of British Literature I
3 credits
LIT 215 provides an overview of British literature from the Anglo-Saxon period through the seventeenth century. The course explores ideas, historical and social contexts, themes, and literary characteristics of works in various genres by major writers.

LIT 216 Survey of British Literature II
3 credits
LIT 216 provides an overview of British literature from the eighteenth century to the present. The course explores ideas, historical and social contexts, themes, and literary characteristics of works in various genres by major writers.

LIT 217 Survey of British Literature III
3 credits
LIT 217 provides an overview of British literature from the eighteenth century to the present. The course explores ideas, historical and social contexts, themes, and literary characteristics of works in various genres by major writers.

LIT 218 Survey of British Literature IV
3 credits
LIT 218 provides an overview of British literature from the eighteenth century to the present. The course explores ideas, historical and social contexts, themes, and literary characteristics of works in various genres by major writers.

LIT 221 Survey of British Literature I
3 credits
LIT 221 provides an overview of British literature from the Anglo-Saxon period through the seventeenth century. The course explores ideas, historical and social contexts, themes, and literary characteristics of works in various genres by major writers.

LIT 222 Survey of British Literature II
3 credits
LIT 222 provides an overview of British literature from the eighteenth century to the present. The course explores ideas, historical and social contexts, themes, and literary characteristics of works in various genres by major writers.

LIT 225 Introduction to Shakespeare
3 credits
LIT 225 explores a selection of works by William Shakespeare. The course focuses on careful reading and interpretation of the plays and poems, includes pertinent information about Elizabethan England, and examines formal as well as thematic elements of the selected works.

LIT 232 Gothic Literature
3 credits
LIT 232 provides an overview of Gothic literature from the 1750’s to the present. The course work emphasizes careful reading, analysis, interpretation, and understanding of the work, and their cultural and historical backgrounds. Critical thinking, discussion, and writing about significant works of Gothic literature will be used as tools to develop discriminating reading skills for lifetime enjoyment.

LIT 235 Science Fiction
3 credits
LIT 235 examines the techniques and issues of science fiction through a close reading of a variety of writers in the genre.

LIT 255 Children’s Literature
3 credits
LIT 255 evaluates the criteria for selecting appropriate literature for children through exploration of genres, age levels, and values taught through literature and the literary and artistic quality of various texts.

LIT 257 Literature and Film
3 credits
LIT 257 examines the relationship between literature and motion pictures, emphasizing the technique and interpretive function of filmmakers.
LIT 285 Independent Study
3 credits
LIT 285 explores particular authors, topics, or themes in depth, such as Ibsen, Faulkner, Twain, or great fiction of the nineteenth century.

MAC – Machining

MAC 101 Introduction to Machine Shop
3 credits
MAC 101 covers safety procedures, use of bench tools, layout tools, power saws, drill presses, precision measurement tools, and various hand tools related to the machine shop. Also included are sharpening drill bits and general purpose turning tools for the lathe and determining speeds and feeds for both the lathe and the milling machine.

MAC 102 Blueprint Reading
3 credits
MAC 102 teaches you to read blueprints and interpret symbols, notes, dimensions, and tolerances.

MAC 105 Introduction to Machining Technology
4 Credits
MAC 105 introduces the student to the changing era of machining technology, emphasizing terminology, referencing and applications related to manufacturing environments. The fundamental use of bench tools, layout procedures, materials, precision measuring tools, machining processes, drilling and cut-off machines and other machining/manufacturing processes will be stressed. Skill competencies and standards will be identified. Use of the Machinery Handbook will be strictly required and particular competencies may require performance evaluations.

MAC 110 Introduction to Engine Lathe
3 credits
MAC 110 introduces basic lathe applications which consist of identifying lathe components and controls, understanding turning safety, calculating speeds and feeds, using various tools and tool holders, identifying basic tool geometry, and the use of common lathe spindle tooling. You will perform basic lathe operations, which will consist of facing, center-drilling, chuck turning, turning between centers, boring, grooving, tapers, knurling, and single point threading. You will also be required to produce specified parts to a tolerance of +/- .004 in. and perform competencies set by manufacturing standards.

MAC 111 Intermediate Engine Lathe
3 credits
MAC 111 teaches you to prepare single point external and internal unified screw threads to a Class 3 fit, generate angles with the compound rest within one degree, ream holes concentric within .001 inches, determine cutting speeds, and perform facing and turning operations.

MAC 112 Advanced Engine Lathe
3 credits
MAC 112 prepares you to form radius, single-point isometric threads, turn spherical radius, use a radius gauge, and work within .0005 inches tolerance externally.

MAC 120 Introduction to Milling Machine
3 credits
MAC 120 teaches you to identify the major parts of the vertical mill; align a vise; use an indicator, edge finder, and boring head; determine speeds and feeds; perform simple indexing; mill flat, square surfaces and slots; drill, bore, and tap holes; and work within a plus or minus .002 inch tolerance.

MAC 121 Intermediate Milling Machine
3 credits
MAC 121 prepares you to determine hole locations by coordinates and degrees, use a rotary table, use a jig bore to drill holes by the coordinate method, and work within plus or minus .001 inch tolerance.

MAC 122 Advanced Milling Machine Operations
3 credits
MAC 122 prepares you to indicate the head of a vertical mill, bore holes, drill holes at an angle, and work with tolerances of .0008 inches location and diameter.

MAC 123 Horizontal Mill Set Up & Operations Description
3 credits
MAC 123 prepares you to identify the major parts and accessories for the horizontal mill, select cutters, mill slots, slab mill, square a workpiece, and work within a tolerance of plus or minus .002 inches.

MAC 130 Conventional Lathe Operations
4 credits
MAC 130 includes calculation of speeds and feeds on various materials, identification and application of various work-holding techniques, tool forming, advanced machining practices and applications, and spindle tooling. You will learn how to calculate and turn tapers using the compound slide or taper attachment, offset work on a four-jaw chuck, turning between centers, boring, grooving, finishing, single point threading, knurling, tool grinding, drilling operations, and reaming.

MAC 141 Advanced Machining Operations
4 credits
MAC 141 teaches you the use of various conventional machine tools used in a machine shop environment. You will learn the use of engine lathes, horizontal and vertical milling machines, surface grinders, drill presses, pedestal grinders, power cut-off saws, and other machine tools commonly used to produce quality machined parts in today’s manufacturing environments. Machining competencies will be stressed. You will be required to produce parts manufactured by local manufacturing companies with the consideration of ISO quality standards.

MAC 201 Introduction to CNC Turning Operations
3 credits
MAC 201 covers computer numerical control (CNC) lathe operations, control functions, the letter address system, the program format, and machine setup. G & M codes, control functions, the letter address system, and math issues related to CNC are included. This class is NOT offered on an open-entry, open-exit basis.
MAC 202 CNC Turning Operations II
3 credits
MAC 202 prepares you to write basic computer numerical control (CNC) lathe part programs. G and M codes, math- related to CNC, setups, speeds and feeds, straight turning, spherical turning, threading, chamfering, tapering, drilling, tapping, boring, and grooving will be covered. Cutter compensations, sub-programming techniques, repetitive cycles, and both absolute and incremental will be incorporated into programs. You will proof and edit the programs to make them valid. This class is NOT offered on an open-entry, open-exit basis.

MAC 205 Introduction to CNC Milling Operations
3 credits
MAC 205 provides transitional information between conventional machining applications and the typical applications found in computer numerical control machining. Topics may consist of numerical control systems, the Cartesian coordinate system, high efficiency tooling applications, objectives of numerical control, calculating speed and feed rates, defining and calculating tool motion, fixturing requirements, basic program structure, programming codes, and basic conversational programming. Operation of NC machines will be required.

MAC 206 CNC Milling Operations II
3 credits
MAC 206 covers the principle operations of both vertical and horizontal CNC milling machines via lecture instruction methods, multimedia instruction methods, and manufacturing hands-on methods. You will be exposed to the basic CNC machining center, principle operations, manual controls, programming methods, tool-offsets, G54-G59 work offsets, cutter radius compensation, and tool selection methods. General operator skills and basic setup skills will be stressed.

MAC 221 Surface Grinder Setups and Operations
3 credits
MAC 221 teaches you how to identify major parts and accessories of the surface grinder and grind flat, vertical, and angular surfaces to a tolerance of .0002 position and size.

MAC 223 Tool & Cutter Grinder 3 credits
MAC 223 prepares you to identify the major parts and accessories of the tool and cutter to grind, sharpen two flute end mills, four flute end mills, slab mills and form cutters, and work with a plus or minus .001 tolerance.

MAC 240 CAD/CAM 2D
3 credits
MAC 240 provides you with the essential concepts and techniques that are required to successfully create part geometry, generate tool path, verify tool path models, and post process the NC codes. You will be exposed to a 2-axis machining, 3-axis machining wire frame and surface modeling, lathe programming, and DNC systems. Programming projects and models will be demonstrated in the CNC manufacturing lab.

MAC 245 CAD/CAM 3D
3 credits
MAC 245 covers both the production and surfacing of three-dimensional geometry in a self-paced setting. Topics will be covered related to the production of wire frames, solids, surfaces, the joining of surfaces, joining of solids, managing construction planes, sweeping, rotating, and controlling parameter settings. A familiarity with Mastercam, CNC programming techniques, and CNC operations is recommended.

MAN – Management

MAN 116 Principles of Supervision
3 credits
MAN 116 introduces the principles and techniques of supervising and motivating personnel. The course is designed for students who are interested in supervising others or for those currently in supervision. Course content focuses on the human interaction in supervision.

MAN 117 Time Management
1 credit
MAN 117 provides you with the conceptual knowledge and tools to make better use of your time in the management function. (Fall semester only)
MAN 200 Human Resource Management I
3 credits
MAN 200 provides a broad overview of the contemporary issues, theories, and principles used to effectively manage human resources. Topics include recruiting, hiring, compensation and benefits, training and development, employee relations, and legal issues.

MAN 212 Negotiation and Conflict Resolution
3 credits
MAN 212 presents proper techniques in negotiation and conflict resolution. Key practices that determine successful negotiation are explored. The course covers principles of conflict resolution, including business policies, accepted business practices, contracts, purchases, labor union contracts, pay raises, and starting salaries.

MAN 215 Organizational Behavior
3 credits
MAN 215 examines the behaviors of groups and individual members of organizations and how behavior can be influenced. Emphasis is placed on the tools managers use to achieve organizational effectiveness.

MAN 224 Leadership
3 credits
MAN 224 focuses on the leadership skills necessary to bring about change in an organization. You will learn to develop and communicate a shared vision, to empower employees, to manage conflict, to negotiate, and to develop organizations so that all are working toward common goals.

MAN 225 Managerial Finance
3 credits
MAN 225 examines the concepts and techniques used to analyze financial accounting information for managerial planning, decision-making, and control. The focus of the course is on decision making relating to the areas of budgets, forecasts, cost volume production, ROI, and financial statements.

MAN 226 Principles of Management
3 credits
MAN 226 surveys the principles of management. Emphasis is placed on the primary functions of planning, organizing, leading, and controlling with a balance between the behavioral and operational approaches.

MAN 275 Special Topics
1-3 credits
MAN 275 provides a vehicle to pursue special topics of interest in business. The content of this course is designed on an as-needed basis to provide current, up-to-date information.

MAN 285 Independent Study
1-3 credits
Prerequisite: Permission of instructor
MAN 285 meets the individual needs of students who will engage in intensive study or research under the direction of a qualified instructor.

MAR – Marketing
www.rrcc.edu/business/

MAR 111 Principles of Sales
3 credits
Prerequisite: BUS 115
MAR 111 enables you to understand and develop ethical sales techniques and covers the role of selling in the marketing process. Areas of emphasis include behavioral considerations in the buying and selling process and sales techniques.

MAR 216 Principles of Marketing
3 credits
MAR 216 presents the analysis of theoretical marketing processes and the strategies of product development, pricing, promotion and distribution, and their applications to businesses and the individual consumer.

MAR 217 E-Commerce Marketing
3 credits
MAR 217 explores new marketing strategies that have emerged as areas of information technology and the Internet have evolved. You will examine traditional marketing concepts of buying behavior, promotion, production, and others, then redefine them as they apply to marketing on the World Wide Web. Web fundamentals, e-marketing trends, strategies, models, and research will be examined.

MAR 275 Special Topics
1-3 credits
MAR 275 provides you with a vehicle to pursue special topics of interest in business. The content of this course is designed on an as-needed basis to provide current information.

MAR 280 Internship
1-3 credits
Prerequisite: Permission of instructor
MAR 280 provides you with the opportunity to supplement course work with practical work experience related to your educational program and occupational objectives. You will work under the immediate supervision of experienced personnel at the business location and with the direct guidance of the instructor.

MAR 285 Independent Study
1-3 credits
Prerequisite: Permission of instructor
MAR 285 meets the individual needs of students. You will engage in intensive study or research under the direction of a qualified instructor.
MAT 060 Pre-Algebra  
3 credits  
Prerequisite: MAT 060 (grade C or better) or appropriate math assessment score  
MAT 060 furthers the study of fractions and mixed numbers. Also included are vocabulary, operations, and applications of ratio, proportion, percent, area, perimeter, US and metric measures, integers, an introduction to algebraic expressions, and the solution of basic first-degree equations.

MAT 090 Introductory Algebra  
4 credits  
Prerequisite: MAT 060 (grade C or better) or appropriate math assessment score  
MAT 090 includes first-degree equations, inequalities, formulas, polynomials, algebraic fractions, factoring polynomials, solving quadratic equations by factoring, and applications. Coordinate geometry, graphing linear equations and inequalities, and systems of linear equations may be included.

MAT 106 Survey of Algebra  
4 credits  
Prerequisite: MAT 090 (grade C or better) or appropriate math assessment score  
MAT 106 emphasizes problem-solving with further study of equations, slope, inequalities, systems of equations, polynomials, quadratic equations, rational expressions, rational exponents, radical expressions, graphing, and applications. A graphing calculator or equivalent software may be used.

MAT 107 Career Math  
3 credits  
Prerequisite: MAT 060 (grade C or better) or appropriate math assessment score  
MAT 107 covers material designed for career technical students or general studies students who need to study particular mathematical topics that may include arithmetic review, calculator usage, algebra, geometry, trigonometry, graphs, and finance. These are presented on an introductory level, and the emphasis is on applications.

MAT 120 Mathematics for the Liberal Arts  
4 credits  
Prerequisite: MAT 106 (grade C or better) or appropriate math assessment score  
MAT 120 develops mathematical and problem-solving skills. Appropriate technological skills are included. Content is selected to highlight connections between mathematics and the society in which we live. Topics include set theory and logic, mathematical modeling, probability and statistical methods, and consumer mathematics. Additional content will include one topic in geometry, numeration systems, decision theory, or management science.

MAT 121 College Algebra  
4 credits  
Prerequisite: MAT 106 (grade C or better) or appropriate math assessment score  
MAT 121 covers topics including trigonometric functions, exponential and logarithmic functions, and series, permutations and combinations, the binomial theorem, and theory of equations. A graphing calculator is required for this course. This course is primarily intended for liberal arts, business, life science, or social science majors. A graphing calculator is required for this course.

MAT 122 College Trigonometry  
3 credits  
Prerequisite: MAT 121 (grade C or better)  
MAT 122 covers topics including trigonometric functions (with graphs and inverse functions), identities and equations, solutions of triangles, complex numbers, and other topics as time permits. This is a traditional prerequisite course to the calculus sequence. A graphing calculator is required for this course. You cannot receive credit for both MAT 166 & MAT 122. Contact the math department chair with questions about this.

MAT 123 Finite Mathematics  
4 credits  
Prerequisite: MAT 106 (grade C or better) or appropriate math assessment score  
MAT 123 covers topics including functions, matrix algebra, linear programming, and an introduction to probability and counting techniques. Emphasis is on applications. This course may include other topics such as statistics when time permits. This course is primarily intended for business, life science, or social science majors. A graphing calculator is required for this course.

MAT 125 Survey of Calculus  
4 credits  
Prerequisite: MAT 121 or MAT 123 (grade C or better)  
MAT 125 includes derivatives, integrals, and their applications, with attention restricted to algebraic, exponential, and logarithmic functions for business, life science and/or social science majors. A graphing calculator is required for this course.

MAT 135 Introduction to Statistics  
3 credits  
Prerequisite: MAT 106 (grade C or better) or appropriate math assessment score  
MAT 135 includes data presentation and summarization, introduction to probability concepts and distributions, statistical inference, estimation, hypothesis testing, and comparison of populations, correlation and regression. A graphing calculator is required for this course. You cannot receive credit for both MAT 135 and BUS 226.
MAT 155 Integrated Math I  
3 credits  
Prerequisite: MAT 106 (grade C or better) or appropriate math assessment score  
MAT 155 covers topics including natural numbers, integers, rational numbers, relations, functions, and equations. This course is the first of a two course sequence particularly pertinent to prospective arithmetic teachers, presenting arithmetic and algebra from a modern approach.

MAT 156 Integrated Math II  
3 credits  
Prerequisite: MAT 155 (grade C or better)  
MAT 156 continues MAT 155. The course includes the study of the fundamentals of probability, statistics, and informal Euclidean geometry suitable for K-8 curriculum, employing laboratory techniques where applicable.

MAT 166 Pre-Calculus  
5 credits  
Prerequisite: Permission of Math Department Chair  
MAT 166 is a fast paced review of college algebra and college trigonometry intended for those planning to take calculus. Topics include algebraic manipulations, properties of algebraic and trigonometric functions and their graphs, trig identities and equations, conic sections, polar coordinates and parametric equations. A graphing calculator is required for this course. You cannot receive credit for both MAT 166 and MAT 121/122. Contact the math department chair with questions about this.

MAT 175 Special Topics  
1-4 credits  
Prerequisite: Permission of instructor.  
MAT 175 provides you with a vehicle to pursue in depth exploration of special topics of interest.

MAT 185 Independent Study  
1-4 credits  
Prerequisite: Permission of instructor.  
MAT 185 provides an opportunity for the highly motivated student to engage in intensive study and research on a specified topic under direction of a faculty member.

MAT 201 Calculus I  
5 credits  
Prerequisites: MAT 121 and MAT 122 (grade C or better) or MAT 166 (grade C or better)  
MAT 201 introduces single variable calculus and analytic geometry. Topics for this course include limits, continuity, derivatives, and applications of derivatives as well as indefinite and definite integrals and some applications. A graphing calculator is required for this course.

MET 150 General Meteorology  
4 credits  
MET 150 provides an introduction to general meteorology and atmospheric sciences. It includes the composition and structure of the atmosphere and characteristics that affect the atmosphere, such as temperature, pressure and moisture. Additionally, the development of weather systems, such as storm systems, hurricanes, weather fronts and cloud development will also be examined. Finally, concepts of climatology will be stresses.

MGD – Multimedia Graphic Design  
www.rrcc.edu/multimedia/  
Prerequisites: basic computer skills  
Basic computer skills are defined as basic keyboarding; uploading and downloading files from the Internet and external devices; using the Web for basic research; sending e-mail and attachments; basic file management; the ability to save information to a CD/DVD, flash drive, or external device; burning a CD/DVD; the ability to use the dock or start menu to open applications; create a new folder on the desktop or other location; and open files in an application. Students without these skills are required to take MGD 101 Introduction to Computer Graphics either concurrently or prior to taking other courses in the MGD/PHO department. If MGD 101 Introduction to Computer Graphics is not a requirement for your degree plan, it can be used as an elective.
MGD 101 Introduction to Computer Graphics
3 credits
MGD 101 introduces you to computer systems developed for graphics. You will learn hardware and software components used in multimedia production and explore basic computer operations, file management, scanning techniques, archiving capabilities, and utilization of the multimedia department server and Internet connection.

MGD 102 Introduction to Multimedia
3 credits
Recommended Prerequisite: MGD 101 and basic computer skills
MGD 102 introduces the equipment and software used in multimedia production and the multimedia professions focus on current technology and equipment, such as scanners, printers, digital cameras, and computers. You will gain hands-on skills using today’s technology for input and output in multimedia and design projects. Overview of software for multimedia will be explored.

MGD 103 Production Design
3 credits
Recommended Prerequisites: MGD 101 or MGD 102 and basic computer skills
MGD 103 explores the use of tools, computer graphic techniques, and design principles to produce professional quality designs. Topics include printing basics, typography, and digital color systems. You will use creative thinking to solve communication and design problems for the output process.

MGD 104 Videography
3 credits
Recommended Prerequisites: MGD 101 or MGD 102 and basic computer skills
MGD 104 introduces you to the principles and techniques of videotape production, including camera operation, basic script writing, lighting, basic sound, and basic digital editing. Examination of pre-production, production, and post-production processes, as well as aesthetics, are included.

MGD 110 Adobe Photoshop I
3 credits
Recommended Prerequisite: MGD 101 or MGD 102 and basic computer skills
MGD 111 concentrates on the high-end capabilities of Adobe’s industry standard photo-editing software as an illustration, design, and photo retouching tool. You will explore a wide range of selection and manipulation techniques applied to photos, graphics, and videos. Design concepts also are explored in this class.

MGD 111 Adobe Illustrator I
3 credits
Recommended Prerequisites: MGD 101 or MGD 102 and basic computer skills
MGD 112 acquaints you with the industry standard vector drawing tool. You will explore a wide range of visual approaches. Design concepts also are explored in this class.

MGD 112 Adobe InDesign
3 credits
Recommended Prerequisites: MGD 111 or MGD 112 and basic computer skills
MGD 113 introduces you to QuarkXPress, a digital page layout tool. You will learn to assemble, organize, manipulate, and manage text and graphics to produce a high quality publication. Class discussions and independent projects supplement hands-on classroom work.

MGD 113 QuarkXPress
3 credits
Recommended Prerequisites: MGD 111 and MGD 112 and basic computer skills
MGD 114 introduces you to Adobe InDesign, an industry standard page layout program which integrates seamlessly with other Adobe Creative Suite programs. InDesign delivers creative freedom and productivity to page layout and production. Class discussions and independent projects supplement hands-on classroom work.

MGD 114 Adobe InDesign
3 credits
Recommended Prerequisites: MGD 111 and MGD 112 and basic computer skills
MGD 115 introduces you to Maya, a high-end 3D modeling and character animation tool. Emphasis is on constructing 3D models of various types. You will learn scene development and animation for render in movie format.

MGD 115 Autodesk Maya I
3 credits
Recommended Prerequisites: MGD 152 and MGD 153 and basic computer skills
MGD 116 introduces you to Autodesk Maya, a high-end 3D modeling and character animation tool. Emphasis is on constructing 3D models of various types. You will learn scene development and animation for render in movie format.

MGD 116 Autodesk Maya II
3 credits
Recommended Prerequisites: MGD 152 and MGD 153 and basic computer skills
MGD 117 introduces you to realistic character animation. Emphasis is on constructing 3D models of various types. You will learn scene development and animation for render in movie format.

MGD 117 Autodesk Maya III
3 credits
Recommended Prerequisites: MGD 152 and MGD 153 and basic computer skills
MGD 118 Digital Color Theory
3 credits
Recommended Prerequisites: MGD 111 and MGD 112 and basic computer skills
MGD 118 covers color theory as it relates to multimedia. The psychology of color is taught as well as effective design using color. You will learn to correct color photographs and create color separations. Color scanning technology is also covered.

MGD 119 Autodesk Maya II
3 credits
Recommended Prerequisites: MGD 152 and MGD 153 and basic computer skills
MGD 119 introduces you to Autodesk Maya, a high-end 3D modeling and character animation tool. Emphasis is on constructing 3D models of various types. You will learn scene development and animation for render in movie format.

MGD 120 Autodesk Maya III
3 credits
Recommended Prerequisites: MGD 152 and MGD 153 and basic computer skills
MGD 120 introduces you to the digital illustration and paint software application Corel Painter. Color and relationships, repeat patterns, and fine art digitization are among the topics covered in the course as you explore the creation of visual fine art using computers. Assigned projects cover a wide range of visual approaches. Painter provides an extra competitive edge for you.

MGD 121 Corel Painter for Digital Media
3 credits
Recommended Prerequisites: MGD 101 or MGD 111 and basic computer skills
MGD 121 Introduction to the digital illustration and paint software application Corel Painter. Color and relationships, repeat patterns, and fine art digitization are among the topics covered in the course as you explore the creation of visual fine art using computers. Assigned projects cover a wide range of visual approaches. Painter provides an extra competitive edge for you.

MGD 122 Sculpting for Digital Media
3 credits
Recommended Prerequisites: MGD 152 and MGD 119 and Basic computer skills
MGD 122 introduces you to conceptualization of surface coloration, painting and manipulation of 3D digitizer and environments. You will construct sculptures using organic, inorganic, abstract, and realistic subject matter. You will learn to operating a 3D scanner, digitize a sculpture, and bring the electronic file into a computer animation application for manipulation.

For the latest information, visit www.rrcc.edu
MGD 141 Web Design I: Adobe Dreamweaver 3 credits
Recommended Prerequisites: MGD 111 and/or MGD 112 and Basic computer skills
MGD 141 introduces the fundamentals of using a Web editor to create a professional Web page. Web-safe colors and the use of graphic editors will be explored. You will study Web aesthetics and intuitive interface design. This course emphasizes file organization and layout, including tables and frames. You will learn to create graphics for Web sites using Photoshop and Illustrator, as well as to develop the site in Adobe Dreamweaver. Design concepts specifically for the Web are explored in this class.

MGD 143 Motion Graphic Design I: Adobe Flash 3 credits
Recommended Prerequisites: MGD 111 and MGD 112 and Basic computer skills
MGD 143 uses the industry standard software for the creation of 2D animation and dynamic interactive media for Web and multimedia applications. You will create objects and symbols and assemble motion and animation tweens.

MGD 152 Digital Animatics 3 credits
Recommended Prerequisites: ART 121 and basic computer skills
MGD 152 introduces the workflow used by professional animators and game designers to produce media in a digital environment. You will learn the foundation skills of planning, organizing, storyboarding, and pre-visualization techniques necessary to create animated stories. You also will study the history of animation and game design.

MGD 153 3D Animation I: Maxon Cinema 4D 3 credits
Recommended Pre/Co-requisites: MGD 152 and basic computer skills
MGD 153 encompasses all major aspects of creating 3D characters using animation software. Using developed characters, you will learn to animate for personality.

MGD 154 3D Animation II: Maya 3 credits
Recommended Prerequisites: MGD 152 and basic computer skills
MGD 154 covers the fundamentals of 3D animation. You will explore character design, modeling, and animation using the industry standard software for Maya. You will also learn the basics of 3D software for the creation of 2D animation for video and trade shows. You will have the opportunity to work with professional animators, designers, and game designers to create digital motion graphics, 2D animation, and special effects.

MGD 155 Animation II 3 credits
Recommended Prerequisites: MGD 153 and basic computer skills
MGD 155 introduces the fundamentals of 3D animation. You will explore character design, modeling, and animation using the industry standard software for Maya. You will also learn the basics of 3D software for the creation of 2D animation for video and trade shows. You will have the opportunity to work with professional animators, designers, and game designers to create digital motion graphics, 2D animation, and special effects.

MGD 161 Adobe Director I 3 credits
Recommended Prerequisites: MGD 111 and MGD 143 or MGD 161 and basic computer skills
MGD 161 examines the leading authoring tool for interactive multimedia from the art director’s perspective. You will learn the basics of 2D animation for computer presentations, multimedia, gaming, and the Web. Interface design and scene development are emphasized. Hands-on projects include lingo scripting, behaviors, and the addition of sound and digital video to your projects.

MGD 162 Adobe Flash II 3 credits
Recommended Prerequisites: MGD 143 or MGD 161 and basic computer skills
MGD 162 introduces you to game design beginning with conceptual development and functionality through production of a virtual world prototype. You will examine character registration, in betweening, inking, and clean up used for creating real-time game environments. Storytelling and visual metaphor development are emphasized.

MGD 163 Sound Design I: Apple Logic Pro 3 credits
Recommended Prerequisites: MGD 101 and basic computer skills
MGD 163 explores the use of sound in multimedia production and audio storytelling. You will examine principles of recording and how sound enhances interactive productions and improves computer presentations. You also will learn to use the computer as a full audio editing studio. This software is available only for the Mac Platform.

MGD 164 Digital Video Editing I: Apple Final Cut Studio Pro 3 credits
Recommended Prerequisites: MGD 101 and/or MGD 104 and basic computer skills
MGD 164 introduces you to digital, non-linear video editing. You will capture, compress, edit, and manipulate video images using a personal computer. Assembly techniques including media management, editing tools, titles, and motion control, transitions and filters, and special effects are explored. This software is available only for the Mac Platform.

MGD 165 Adobe After Effects I 3 credits
Recommended Prerequisites: MGD 111 and/or MGD 104 and basic computer skills
MGD 165 provides fundamental techniques for creating digital motion graphics, 2D animation, animated logos, video graphics, etc. This class covers relevant tools and techniques as well as industry standards, delivery methods, and output formats.

MGD 166 Game Design I 3 credits
Recommended Prerequisites: MGD 143 or MGD 161 and basic computer skills
MGD 166 introduces you to game design beginning with conceptual development and functionality through production of a virtual world prototype. You will examine character registration, in betweening, inking, and clean up used for creating real-time game environments. Storytelling and visual metaphor development are emphasized.

MGD 202 Point of Purchase and Packaging Design 3 credits
Recommended Prerequisites MGD 111 and MGD 112 and basic computer skills
MGD 202 introduces the theories and principles that apply to various dimensional design graphics for packaging and display; various dimensional marketing solutions to create dynamic visual effects concepts also will be developed. Work layout stages and mock-ups will use various methods of cutting, folding, and assembly to explore the design concepts and their visual effects.

MGD 211 Adobe Photoshop II 3 credits
Recommended Prerequisite: MGD 111 or permission of instructor
MGD 211 develops and reinforces image composition techniques learned in Adobe Photoshop I. Fundamentals are continuously reinforced as new design techniques are introduced.

MGD 212 Adobe Illustrator II 3 credits
Recommended Prerequisite: MGD 112 or permission of instructor
MGD 212 enables you to continue development of digital drawing and design skills through practice and use of state-of-the-art illustration software acquired in MGD 112 Adobe Illustrator I.
MGD 213 Electronic Prepress 3 credits
Recommended Prerequisites: MGD 111, MGD 112, MGD 114, and/or MGD 113 or permission of instructor
MGD 213 introduces you to best practice in preparing digital files for trapping, output considerations, and proofing techniques used in commercial offset printing and for digital press. Creating effective electronic designs and efficient use of relevant software programs used in prepress production also are covered.

MGD 219 Autodesk Maya II 3 credits
Recommended Prerequisite: MGD 119 or permission of instructor
MGD 219 explores Maya’s animation techniques in depth. You are exposed to rigging characters for animation.

MGD 241 Web Design II: Adobe Dreamweaver 3 credits
Recommended Prerequisites: MGD 111, MGD 112, and MGD 141 or permission of instructor
MGD 241 expands on previously learned fundamentals of Web design; including an introduction to cascading style sheets, advanced Web page design, and color usage. Interface design principles are emphasized in this course. You will examine Web sites employing more complex structures, optimal site architecture, and navigation necessary for complex sites.

MGD 243 Motion Graphic Design II: Adobe Flash 3 credits
Recommended Prerequisites: MGD 111, MGD 112, and MGD 143 or permission of instructor
MGD 243 stresses the complex creation of 2D animated motion graphics concentrating on prior skills learned in MGD 143 and the use of Action Scripting and behaviors. You will create motion graphics and apply motion graphics to Web sites and other multimedia projects.

MGD 253 3D Animation II: Maxon Cinema 4D 3 credits
Recommended Prerequisites: MGD 152 and MGD 153 or permission of instructor
MGD 253 addresses advanced aspects of creating computerized 3D characters. You will examine facial animation, lip synchronization, scene design, and lighting set-ups.

MGD 259 Management and Production 3 credits
Prerequisite: MGD 250 is a Capstone class that should be taken in the final semester prior to graduation.
MGD 259 examines development of multimedia from a production standpoint. The process of transforming conceptual designs into actual projects is explored. You will study the management function of those tasks associated with the business end of development. Teamwork is emphasized throughout the course.

MGD 261 Adobe Director II 3 credits
Recommended Prerequisite: MGD 161 or permission of instructor
MGD 261 explores the interactive process within all areas of program design, courseware authoring, delivery techniques, and instruction strategies. You will be introduced to advanced Lingo scripting to provide more interactive capabilities.

MGD 263 Sound Design II: Apple Logic Pro 3 credits
Recommended Prerequisite: MGD 163 or permission of instructor
MGD 263 focuses on the application of sound with various multimedia software applications. Principles and techniques include MIDI orchestration and sequencing, digital multitrack recording and production, working with musicians and other talent, sound effects layering, integrated audio system production, and advanced audio mixing/sweetening. You will explore synchronization techniques of audio with moving pictures, graphics, and animation. This software is available only for the Mac platform.

MGD 264 Digital Video Editing II: Apple Final Cut Studio Pro 3 credits
Recommended Prerequisite: MGD 164 or permission of instructor
MGD 264 introduces complex and advanced techniques in digital video editing. Editing techniques such as masking, filtering, blue/green screening, track mattes, and image mattes are examined. You will produce a movie project in this class and discuss practical ways to distribute projects to various audiences.

MGD 265 Adobe After Effects II 3 credits
Recommended Prerequisite: MGD 165 or permission of instructor
MGD 265 focuses on advanced skills and techniques in creating digital motion graphics. Relevant tools and techniques, industry standards, specialized techniques, and additional tools and resources are covered in this class.

MGD 266 DVD Authoring: Apple DVD Studio Pro 3 credits
Recommended Prerequisites: MGD 104, MGD 164, or MGD 264 or permission of instructor
MGD 266 introduces you to all aspects of DVD authoring, source acquisition, DVD production, interface design, organization, management, and appropriate DVD output solutions.

MGD 267 Game Design II 3 credits
Recommended Prerequisite: MGD 167 or permission of instructor
MGD 267 explores advanced features of game design. You will examine play-testing and quality assurance, design advanced character animation, game and backdrop lighting, texturing, and design real time 3D terrain rendering.

For the latest information, visit www.rrcc.edu
MGD 280 Internships
1-3 credits
Prerequisite: Permission of MGD/PHO Department Advisor
MGD 280 provides an opportunity for you to experience on-the-job shadowing and interacting with experts in a field of interest. You will intern at local professional businesses to prepare for the transition from student to professional.

MGD 285 Independent Study
1-3 credits
Prerequisite: permission of instructor
MGD 285 provides you with the opportunity to independently learn new technology skills not offered in the classroom. Qualified instructors provide one-on-one outcome objectives and review and oversee student progress.

MIL – Milwright

MIL 106 Millwright Lubrication
1.5 Credits
Prerequisites
MIL 106 will introduce the foundational principles and important considerations involved in properly lubricating industrial machines, including key components such as: maintenance strategies; principles of surface protection; lubricant construction; lubricant selection for a variety of components, including: rolling element bearings, plain bearings, gear drives, reciprocating engines, hydraulic systems, air compression systems, chains, cables and wire ropes; lubricant condition control; lubricant storage and handling.

MIL 107 Installing Belts Chain Drives and Bearings
4 Credits
Prerequisites: None
MIL 107 covers the sizes, uses, and installation procedures of six types of drive belts and two types of chain drives. Methods to remove and troubleshoot, and install bearings will be explained.

MOT – Medical Office Technology

www.rrcc.edu/health/medass.html

MOT 110 Medical Office Administration
4 credits
Corequisite: MOT 120
MOT 110 introduces the administrative duties specifically used in medical offices.

MOT 120 Medical Office Financial Management
3 credits
Corequisite: MOT 110
MOT 120 covers the practical uses of accounts and records with emphasis on accounting principles and analysis for use in a medical office.

MOT 130 Insurance Billing and Coding
3 credits
MOT 130 introduces outpatient coding with an ultimate goal to present a clear picture of medical procedures and services performed (CPT codes), correlating the diagnosis, symptom, complaint or condition (ICD-9 codes), thus establishing the medical necessity required for third party reimbursement.

MOT 136 Introduction to Clinical Skills
2 credits
Prerequisites: HPR 178, BIO 106
MOT 136 provides hands on experience with the basic clinical skills required for assisting with patient care. The course delivers the theory behind each skill presented as well as proper technique for performing each skill. It includes knowledge and/or performance of blood borne pathogens/OSHA regulations, medical asepsis, procedural gloving, patient gowning, positioning and measurement of vital signs.

MOT 138 Medical Assisting Laboratory Skills
4 credits
Prerequisites: BIO 106, HPR 178
Corequisite: MOT 136
MOT 138 introduces students to basic routine laboratory skills and techniques for collection, handling, and examination of laboratory specimens often encountered in the ambulatory care setting. The course emphasizes hands-on experience.

MOT 140 Medical Assisting Clinical Skills
4 credits
Prerequisites: BIO 106, HPR 178, MAT 060 or higher, MOT 136
Corequisite: MOT 138
MOT 140 provides hands on experience with the clinical skills required for assisting with patient care. The course delivers the theory behind each skill presented as well as proper technique for performing each skill.

MOT 150 Pharmacology for Medical Assistants
3 credits
Prerequisites: BIO 106, HPR 178, MAT 060 or higher
MOT 150 provides an overview of pharmacology language, abbreviations, systems of measurement and conversions. The Controlled Substances Act, prescriptions, forms of medications, patient care applications, drug classifications/interactions, and safety in drug therapy and patient care are presented. Information regarding the measurement of medications, dosage calculations, routes of administration, and commonly prescribed drugs in the medical office is provided.

MOT 181 Administrative Internship
2 credits
Prerequisite: Successful completion of M.O. program requirements with a C or better in all core classes. Student must have completed the background check and permission of program coordinator to begin internship.
MOT 181 provides supervised placement in contracted facility for guided experience in application of knowledge and skill acquired in the classroom. Positions are non-paid due to CAAHEP requirement.
MOT 182 Clinical Internship
3 credits
Prerequisite: Successful completion of M.A. program requirements with a grade of C or better in all core classes. Students must have a completed background check, all immunizations, a CPR card and permission of program coordinator to begin internship. Registration fee for national certification exam (AAMA) included with internship. MOT 182 provides supervised placement in contracted facility for guided experience in applications of knowledge and skills acquired in the classroom. Positions are non-paid due to CAAHEP requirement.

MOT 183 Medical Assistant Internship
5 credits
Prerequisite: Successful completion of M.A. program requirements with a grade of C or better in all core classes. Students must have a completed background check, all immunizations, a CPR card and permission of program coordinator to begin internship. Registration fee for national certification exam (AAMA) included with internship. Same as MOT 181 and MOT 182. MOT 183 provides supervised placement in a contracted facility for guided experience in application of knowledge and skills acquired in the classroom. The student assists with a variety of business and clinical procedures. Positions are non-paid due to CAAHEP requirement.

MOT 184 Review for Medical Assistant National Examination
1 credit
MOT 184 prepares the candidate sitting for the National Registration/Certification Examination for Medical Assistant through review and practice. These examinations are given with the intent of evaluating the competency of entry-level practitioners in Medical Assisting, therefore supporting quality care in the office or clinic.

MUS – Music

www.rrcc.edu/music/

MUS 100 Fundamentals of Music Theory
3 credits
MUS 100 is designed to help the beginning music student, or the student with a limited background in music theory, to study the basic elements of music, including notation, rhythm, scales, key signatures, intervals and chords.

MUS 101 Introduction to Music Theory
3 credits
Prerequisite: MUS 100 or permission of the instructor. MUS 101 presents music fundamentals, diatonic four-part harmony, analysis and keyboard harmony for non-music majors.

MUS 105 Introduction to Electronic/Computer Music
3 credits
MUS 105 explores the elements of electronic music and demonstrates some of the most popular music software for the Macintosh and IBM computers, including music notation and music sequencing programs. Achieving a fundamental working knowledge of setup and recording procedures on a personal computer is stressed. Equipment is provided and beginner’s knowledge on either the Macintosh or IBM computer is helpful, but not essential.

MUS 106 Songwriting
3 credits
MUS 106 examines the various processes and styles of songwriting and offers techniques and ideas for creating songs ranging from functional to original. Students will explore the common factors in all styles of songwriting, and use them to bring out creative song ideas whether the student has written songs before or has just always wanted to see if one could. A basic knowledge of music reading for any instrument and elementary music theory is recommended, but not required.

MUS 120 Music Appreciation
3 credits
MUS 120 covers the basic materials of music, musical forms, media, genres and musical periods. This course emphasizes the development of tools for intelligent listening and appreciation.

MUS 121 Music History I
3 credits
MUS 121 studies the various periods of music history with regard to the composers, aesthetics, forms, and genres of each period. Music History I considers music from the Middle Ages through the Classical period.

MUS 122 Music History II
3 credits
MUS 122 studies the various periods of music history with regard to the composers, aesthetics, forms, and genres of each period. Music History II considers music from the early Romantic period to the present.

MUS 123 Survey of World Music
3 credits
MUS 123 provides an overview of non-Western music from around the world. This course provides basic listening skills and the historical/cultural context for a variety of world music styles to enable an understanding and appreciation of non-Western musical expression.

MUS 124 American Music Survey
3 credits
MUS 124 surveys American music as a panorama of distinct yet parallel streams of popular, folk, sacred, and classical music that reflect the uniquely diverse character of the United States. It emphasizes the development of tools for intelligent listening and appreciation. Major topics will include comparing and contrasting American musical styles across regions and time, and examining the characteristics of music that has arisen from the history and musical traditions of the many immigrants to America’s shores.

For the latest information, visit www.rrcc.edu
MUS 125 History of Jazz Music
3 credits
MUS 125 provides an overview of the history of jazz in America, and
provides basic listening skills for the understanding and appreciation of jazz
music.

MUS 126 History of American Popular Music
3 credits
MUS 126 provides a survey of the history and literature of American popular music from 1600 to the present. Through the study of the many ethnic influences that contribute to the diverse musical landscape of American popular music, the student acquires an appreciation of this rich musical heritage. These musical styles have evolved out of the diversity of America and are performed and enjoyed throughout the world.

MUS 141 Private Instruction I
2 credits
Prerequisite: Permission (not audition) of the department. An additional fee is required.
MUS 141 offers private instruction consisting of a half-hour lesson and a one-hour performance seminar each week. Participation in a student performance is required at least once each term. First year, first term.

MUS 142 Private Instruction II
2 credits
Prerequisite: MUS 141 in same instrument. An additional fee is required.
MUS 142 offers private instruction consisting of a half-hour lesson and a one-hour performance seminar each week. Participation in a student performance is required at least once each term. First year, second term.

MUS 143 Private Instruction III
2 credits
Prerequisite: MUS 142 in same instrument. An additional fee is required.
MUS 143 offers private instruction consisting of a half-hour lesson and a one-hour performance seminar each week. Participation in a student performance is required at least once each term. First year, third term.

MUS 151 Ensemble I
1 credit
Prerequisite: Permission of instructor. MUS 151 rehearses and performs various types of musical literature. First year, first term.

MUS 152 Ensemble II
1 credit
Prerequisite: Permission of instructor MUS 152 rehearses and performs various types of musical literature. First year, second term.

MUS 153 Ensemble III
1 credit
MUS 153 rehearses and performs various types of musical literature. First year, third term.

MUS 151 Special Topics
1-6 credits
Prerequisite: Permission of instructor. MUS 151 covers specific topics in music. This course is offered as needed for credit appropriate to the topic. Each offering includes a description of the topic(s).

MUS 184 Internship
1-3 credits
Prerequisite: Permission of instructor. MUS 184 provides you with the opportunity to supplement course work with practical work experience related to your educational program. You will work under the immediate supervision of experienced personnel at the business location and with the direct guidance of the instructor.

MUS 241 Private Instruction I
2 credits
Prerequisite: MUS 142 or MUS 143 in same instrument. An additional fee is required.
MUS 241 offers private instruction consisting of a half-hour lesson and a one-hour performance seminar each week. Participation in a student performance is required at least once each term. Second year, first term.

MUS 242 Private Instruction II
2 credits
Prerequisite: MUS 241 in same instrument. An additional fee is required.
MUS 242 offers private instruction consisting of a half-hour lesson and a one-hour performance seminar each week. Participation in a student performance is required at least once each term. Second year, second term.

MUS 243 Private Instruction III
2 credits
Prerequisite: MUS 242 in same instrument. An additional fee is required.
MUS 243 offers private instruction consisting of a half-hour lesson and a one-hour performance seminar each week. Participation in a student performance is required at least once each term. Second year, third term.

MUS 251 Ensemble I
1 credit
Prerequisite: Permission of instructor. MUS 251 rehearses and performs various types of musical literature. Second year, first term.

MUS 252 Ensemble II
1 credit
Prerequisite: Permission of instructor. MUS 252 rehearses and performs various types of musical literature. Second year, second term.

MUS 253 Ensemble III
1 credit
MUS 253 rehearses and performs various types of musical literature. Second year, third term.

MUS 275 Special Topics
1-3 credits
Prerequisite: Permission of instructor. MUS 275 covers specific topics in music. This course is offered as needed for credit appropriate to the topic and each offering includes a description of the topic(s).

MUS 284 Internship
1-3 credits
Prerequisite: Permission of instructor. MUS 284 provides you with the opportunity to supplement course work with practical work experience related
to your educational program. You will work under the immediate supervision of experienced personnel at the business location and with the direct guidance of the instructor.

**NAT – Nail Technician**

www.rrcc.edu/warrentech/

**NAT 110 Introduction to Manicures and Pedicures**  
3 credits  
NAT 110 provides a basic introduction to the proper use of implements used in manicures and pedicures. Theory and practical application of proper set-up, safety, sanitation, nail shapes, anatomy, product knowledge, and terminology dealing with manicures and pedicures is covered. Training is done in a classroom or lab setting using models or other techniques.

**NAT 111 Intermediate Manicures and Pedicures**  
2 credits  
NAT 111 presents theory and practical application dealing with different types of manicures, pedicures, nail art, and massage techniques. Theory and practical application of procedures, products, nail shapes, and maintenance of natural nails are covered. You will learn to recognize different nail disorders and their proper treatment. Training is done in a specialized class or in supervised salon (clinical) setting using models or customers. Proper sanitation and sterilization as it pertains to all aspects of manicures, pedicures, and nail art are taught.

**NAT 210 Advanced Manicures and Pedicures**  
2 credits  
NAT 210 presents theory and practical application dealing with different types of manicures, pedicures, massage techniques, and nail art. Theory and practical application of procedures, products, nail shapes, and maintenance of the natural nails are covered. You will learn to recognize different nail disorders and their proper treatment. Training is done in a specialized class or in supervised salon (clinical) setting using models or customers.

**NAT 211 Application of Artificial Nails**  
5 credits  
NAT 211 provides advanced theory and practical application of nail wraps, tip overlays, acrylics, and product knowledge to ready you for employment. Theory and practical application of removal techniques for artificial nails are covered. Instruction is provided in specialized classes or in a supervised salon (clinical) setting using models or customers. Student preparation for state board licensing examination pertaining to artificial nails is covered.

**NUA – Nursing Assistant**

www.rrcc.edu/health/

**NUA 101 Certified Nurse Aide Health Care Skills**  
4 credits  
Prerequisite: HPR 102  
Corequisite: NUA 170 Nurse Aide Clinical 1 credit  
NUA 101 prepares the student to perform the fundamental skills of the nurse aide. Basic nursing skills, communication skills, restorative services, personal care skills, safety and emergency care issues are covered. Includes knowledge and/or principles of asepsis, OSHA and HIPAA regulations. Ethical behaviors, cultural sensitivity and principles of mental health will be addressed, as well as patient/resident rights.

**NUA 170 Nurse Assistant Clinical Experience**  
1 credit  
Prerequisite: HPR 102  
Corequisite: NUA 101 Certified Nurse Aide Health Care Skills  
NUA 170 applies the knowledge gained from NUA 101 to patient care.

**NUR – Nursing**

www.rrcc.edu/health/

**NUR 201 IV Therapy for LPN**  
5 credits  
NUR 201 provides LPNs with an opportunity to expand their nursing roles by learning appropriate procedures for intravenous therapy and venous blood withdrawal. The course includes lecture, laboratory practice and clinical experience. The course prepares the LPN for IV certification under the Colorado State Board of Nursing Guidelines.

**NUR 290 Registered Nurse Refresher**  
10 credits  
Prerequisite: HPR 102  
Corequisite: NUR 291  
NUR 290 presents material that is designed for all RNs, regardless of time absent from nursing practice, to explore avenues of employment. Clinical experience is held in the hospital to refresh and update basic nursing skills. Other opportunities for clinical experience may include home health, long-term, rehabilitation, and hospice.

**NUR 291 Registered Nurse Clinical Experience**  
2 credits  
Prerequisite: HPR 102  
Corequisite: NUR 290  
NUR 291 applies the knowledge gained from NUR 290 in a clinical setting. Students will demonstrate skill attainment gained in NUR 290.
OSH – Occupational Safety Technician

OSH 127 10-HR Construction Industry Standards
1 credit
OSH 127 provides a 10-Hour OSHA certification course for the construction industry and participants will review the current OSHA standards contained in 29 CFR 1926. Participants who complete the course will receive a certificate of completion from the United States Department of Labor, Occupational Safety and Health Administration. The course is taught by instructors authorized by the Occupational Safety and Health Administration.

PAP – Physician Assistant Program

www.rrcc.edu/pa/

PAP 200 Biochemistry and Cell Biology
3 credits
PAP 200 introduces some of the major topics in modern biochemistry, cell biology, and human genetics through the study of the chemistry of proteins, carbohydrates, lipids, and nucleic acids, and covers how these components function and are involved in basic metabolic processes, such as cellular respiration, lipid metabolism, protein synthesis, and DNA replication. The basic conceptual background is provided to allow the PA student to understand disease mechanisms, clinical lab tests, and drug effects.

PAP 203 Role of the PA and Health Care Issues
1 credit
PAP 203 reviews the history of the physician assistant profession and describes the physician assistant’s responsibilities and functions within a variety of health care delivery systems and environments. The relationships between the physician assistant, the physician, and other health care providers are explored. The legal, ethical, social, and quality assurance issues involved in PA practice are discussed through case studies.

PAP 205 Human Anatomy and Development
3 credits
PAP 205 presents functional and applied anatomy as it relates to common clinical findings. This course provides the PA student with a solid understanding of the structure of the human body with emphasis on normal versus abnormal findings involving the musculoskeletal, nervous, cardiovascular, urinary, respiratory, digestive, and reproductive systems.

PAP 207 Health Promotion and Diagnostic Studies
1 credit
PAP 207 provides clinical preventive services as part of primary care focusing on counseling interventions, screening tests, and immunizations emphasizing counseling patients about risk factors. The curriculum examines risk and lifestyle factors for various age groups that influence health, such as nutrition, exercise, stress, and substance abuse and addresses conventional and alternative prevention strategies. The discussion of patient counseling focuses on factors influencing behavioral and social determinates of health. In addition, the later portion of PAP 207 focuses on the PA students’ gaining expertise in interpreting electrocardiographs (ECGs) and radiographs, including x-rays, computerized tomography (CT scans), magnetic resonance imaging (MRIs), and sonography in preparation of the students entering their second-year of clinical rotations.

PAP 210 Human Physiology
3 credits
PAP 210 provides an improved understanding of human physiology as it relates to clinical medicine. Through lectures and examinations, students study the functional organization of the human body, membrane physiology, nerve and muscle tissue function, the cardiovascular system, the immune system, respiration, digestion, renal function, metabolism, temperature regulation, endocrinology, and human reproduction.

PAP 212 Introduction to Emergency Medicine
1 credit
PAP 212 introduces the etiology, evaluation, and initial treatment of common emergencies focusing on an understanding of PA utilization in an emergency department and defining the roles of other treatment team members. The course emphasizes recognition of life and limb-threatening conditions and differentiation from non-emergent conditions that includes toxic exposures, poisonings, and the evaluation of the multi-system trauma patient with penetrating and blunt force injuries.

PAP 217 Introduction to Laboratory Medicine
1 credit
PAP 217 teaches students basic diagnostic testing common to practice as a physician assistant emphasizing clinical correlations, indications for testing, normal values, and the sensitivity and specificity of diagnostic testing. Microscopic techniques and identification are covered using normal and abnormal specimens.

PAP 218 Evaluation of the Medical Literature
1 credit
PAP 218 provides students with an approach to reading, critically analyzing, and understanding the medical literature while addressing the fundamental principles of epidemiology to enable PA students to develop the necessary skills to evaluate study design and execution. Methods in which data are analyzed and interpreted are described and evaluated.
PAP 219 History and Physical Examination I
2 credits
PAP 219 teaches the oral techniques required to obtain a complete medical history, and enables the PA student to develop and/or enhance their communication skills and learn to use those skills to interact effectively in professional relationships with patients and medical colleagues. This course also explores the links between culture and communication and addresses the communication techniques appropriate to a multicultural society. Techniques required to perform the complete physical examination of patients of all ages are taught utilizing numerous practice sessions and mock patients to develop the practical skills necessary to perform the history taking and physical examination tasks in everyday clinical practice.

PAP 220 History and Physical Examination II
2 credits
PAP 220 is a continuation of PAP 219, and teaches the oral techniques required to obtain a complete medical history, and enables the PA student to develop and/or enhance their communication skills and learn to use those skills to interact effectively in professional relationships with patients and medical colleagues. This course also explores the links between culture and communication and addresses communication techniques appropriate to a multicultural society. Techniques required to perform the complete physical examination of patients of all ages are taught utilizing numerous practice sessions and mock patients are used to develop the practical skills necessary to perform the history taking and physical examination tasks in everyday clinical practice.

PAP 221 Clinical Medicine I
3 credits
PAP 221 provides a beginning understanding of how clinicians approach the diagnosis and treatment of specific disease states. In conjunction with the Human Pathology curriculum, students learn to identify the signs and symptoms of common disorders, to further evaluate those disorders through appropriate testing, and to prepare a treatment plan to preserve health or mitigate suffering. Disease entities studied include the head, ear, nose, throat, cardiopulmonary, pulmonary, genitourinary, endocrine, hematology, oncology, immunologic, and infectious disease.

PAP 222 Clinical Medicine II
3 credits
PAP 222 continues PAP 221 with additional presentations and small group experiences that examine common patient conditions in neurology, ophthalmology, otolaryngology, dermatology, orthopedics, and geriatrics focusing on developing patient and assessment treatment plans. You will learn to identify the signs and symptoms of common disorders, to further evaluate those disorders through appropriate testing, and to prepare a treatment plan to preserve health or mitigate suffering.

PAP 223 Pediatrics
2 credits
PAP 223 emphasizes primary care of the child from birth through adolescence. The PA student is exposed to techniques of history taking and physical examination specific to the pediatric population initially taught in PAP 220. Preventive care topics covered include parental education on anticipatory care and guidance, appropriate milestone recognition, injury and accident prevention, preventive care, home and automobile safety, nutritional fundamentals, and counseling through the age spectrum. Pediatric congenital anomalies and diseases are addressed in a body systems fashion. Also, knowledge of problems unique to the adolescent will enable the PA student to develop skills in evaluation and education of the adolescent on drug abuse, identity issues, human sexuality, peer pressure, and resources for referral.

PAP 224 Introduction to Surgery
1 credit
PAP 224 provides the PA student with an introduction to the etiology, evaluation, and initial treatment of common surgical conditions and emergencies and an understanding of PA utilization and the roles of other health care team members in surgical practice. Pre-operative, post-operative, surgical complications and care of the surgical patient are discussed with special emphasis on the pre-operative evaluation and preparation of patients for surgery, and their assistance during the intraoperative period and post-operative care.

PAP 225 Women’s Health Care
1 credit
PAP 225 provides an exposure to problems and issues associated with women’s health care primarily in the ambulatory setting. Emphasis is placed on birth control, recognition and treatment of sexually transmitted disease, cancer detection, prenatal care, and the evaluation and management of common gynecologic problems.

PAP 226 Clinical Procedures
1 credit
PAP 226 is a course designed to teach PA students basic diagnostic and therapeutic clinical skills and procedures. Preparation of the patient, anatomical considerations, patient consent, potential complications, and clarification of therapeutic and diagnostic value of clinical procedures will be discussed emphasizing wound management, anesthesia, suturing techniques, injections and IV access, nasogastric intubation, and immobilization via casting and splinting.

PAP 228 Problem Based Learning
2 credits
PAP 228 helps PA students learn to identify the signs and symptoms of common disorders, to further evaluate those disorders through appropriate testing, and to prepare a treatment plan to preserve health or mitigate suffering through the use of evidenced-based health care as it relates to clinical outcomes. Emphasis is placed on the problem-based learning format through the presentation of case studies in small groups facilitated by PA course faculty.

For the latest information, visit www.rrcc.edu
PAP 230 Pharmacology I
1 credit
PAP 230 begins the study of therapeutic pharmacology with emphasis on pharmokinetics and pharmodynamics and the review of the physiology that underlies drug contraindications, interactions, and adverse effects.

PAP 231 Pharmacology II
3 credits
PAP 231 is a continuation of PAP 230, Pharmacology I. You will learn to apply the principles of pharmacology to the prevention and treatment of specific human disorders. Special emphasis is placed on dosage and the safe and appropriate use of medications.

PAP 235 Human Pathology
4 credits
PAP 235 allows learners to focus on the clinical pathophysiology of human illness. Individual modules are devoted to an examination of the cellular and organ-based aspects of disease with attention on how the disease process begins and proceeds. Where appropriate, presentations in Clinical Medicine I (PAP 221) will parallel the presentations in this course allowing PA students to correlate the pathophysiology of specific diseases with the medical and surgical management of those conditions.

PAP 240 Behavioral Science for the PA
3 credits
PAP 240 allows PA students explore the relationship between physical illness and psychosocial issues in the medical setting. Interviewing and communication styles unique to behavioral medicine, and how they relate in the presentation and recognition of major psychiatric disorders, mood and anxiety disorders, and substance abuse are discussed. The appropriate role of psychotherapeutic agents, including anxiolytics, antidepressants, mood stabilizers and neuroleptics, is also discussed.

PAP 261-9 Clinical Rotation I – IX
4 credits each
PAP 261 thru 269 is a year-long series of highly structured off-campus clinical experiences which pairs the PA students with practicing clinicians who supervise them in the evaluation and treatment of patients. Rotations are conducted in a variety of inpatient, outpatient, and long-term care settings. Students provide supervised care to patients of all ages, including those seen by specialists in primary care, internal medicine, pediatrics, emergency medicine, surgery, orthopedics, geriatrics, behavioral medicine and women’s health.

PED 104 Racquetball
1 credit
PED 104 is designed to introduce and improve the skill level in racquetball. The primary emphasis is on teaching you the elements of racquetball, including rules, stroke technique, scoring, serving, the various shots, and offensive and defensive strategies.

PED 106 Tennis
1 credit
PED 106 is designed to introduce and improve the skill level in tennis. The primary emphasis is teaching you the elements of tennis: rules of the game, ground strokes, serving, the various shots, and singles and doubles play and strategies.

PED 110 Fitness Center Activity I
1 credit
PED 110 is designed for individuals interested in improving total fitness via an aerobic circuit training program. The course will include an individual fitness evaluation, computerized analysis of results, and a prescribed exercise program. All the basic components of fitness, including flexibility, muscular strength, muscular endurance, cardiovascular fitness, and body composition, will be addressed. Weight machines, stationary bicycles, and computerized cardiovascular equipment will be used to elicit improvements in fitness.

PED 111 Fitness Center Activity II
1 credit
Prerequisite: PED 110
PED 111 is an advanced course designed for individuals interested in reaching a higher level of total fitness via an aerobic circuit training program. The course will include an individual fitness evaluation, computerized analysis of results, and a prescribed exercise program. All the basic components of fitness, including flexibility, muscular strength, muscular endurance, cardiovascular fitness, and body composition, will be addressed. Weight machines, stationary bicycles, and computerized cardiovascular equipment will be used to elicit improvements in fitness.

PED 116 Weight Training
1 credit
PED 116 is designed for individuals interested in improving some aspect of fitness. Emphasis is placed upon weight lifting techniques, and basic program design for men and women.
PED 117 Cross Training
1 credit
PED 117 introduces basic cross-training techniques designed to improve the physical work capacity of an individual. This course enables you to gain an understanding of the basic principles of cross training, the effects cross training has upon the body’s energy systems and muscles, program design, and terminology.

PED 123 Bicycle Touring
1 credit
PED 123 introduces bicycle touring over a variety of terrains and distances. Selection and maintenance of equipment, pre-tour conditioning, safety, and dietary factors will be covered.

PED 124 Mountain Biking
1 credit
PED 124 is designed to introduce basic mountain biking skills and techniques. The primary emphasis is to gain an understanding of the basic principles of mountain biking. You will develop skills and techniques for all riding situations and review bicycle anatomy and basic maintenance and repairs.

PED 125 Bowling
1 credit
PED 125 is designed to introduce and improve your skill level in bowling. The primary emphasis is on teaching you the elements of bowling rules and regulations, footwork, courtesies, delivery, selection of ball, scoring, and team and individual competition.

PED 127 Introduction to Flyfishing
1 credit
In PED 127 you will gain the knowledge and skill of the fine art of flyfishing, including the selection and use of appropriate equipment, fly-casting techniques, flyfishing entomology, and guiding techniques. This course includes several field trips to local flyfishing areas.

PED 128 Basic Sailing
1 credit
PED 128 is designed for the beginning sailor taught by American Sailing Association certified instructors and meets the safety requirements of the U.S. Coast Guard. The class is divided into two parts: theory classes and sailing sessions. Classes will cover terminology, safety regulations, knots, sailing theory, and navigation. Sailing sessions will cover rigging, getting underway, safety rules, tacking, gabling, bearing away, boat handling in different weather conditions, overboard rescue, returning to the dock, and anchoring. Course costs include all boating equipment, textbooks, handouts, class materials, and the use of a 21’ day sailor.

PED 129 Scuba Diving
1 credit
PED 129 provides basic instruction in scuba diving. This course provides the knowledge and skills related to swimming and snorkeling, diving equipment, communications, the environment, safety, dive tables, and other pertinent information you need for safe scuba diving. This course prepares you for open-water (PADI) certification.

PED 131 Nordic Skiing
1 credit
PED 131 provides you with the fundamental skills of Nordic skiing. The emphasis is on skiing technique, conditioning, safety, and equipment. The course has classroom and activity sessions. Conditioning in the fitness center and trips to local ski areas are part of this course.

PED 132 Snowshoeing
1 credit
PED 132 emphasizes the basic skills, equipment, clothing and techniques of snowshoeing. The course includes the objective dangers involved with winter recreation.

PED 136 Advanced Weight Training
1 credit
PED 136 offers guided instruction and independent practice in weight training for men and women. You will practice various weight-training techniques in accordance with your abilities. Emphasis is placed upon physiological considerations, equipment orientation, correct lifting techniques, program design, and nutrition.

PED 138 Introduction to Winter Sports
1 credit
PED 138 provides an overview of at least two of the following winter sports: alpine skiing, snowboarding, ice skating, telemark skiing, Nordic skiing, snowshoeing, or skate skiing. The primary emphasis is on gaining the knowledge and techniques necessary for winter sports on beginner to intermediate groomed or backcountry terrain. Multiple field trips to ski areas or other outdoor venues are required.

PED 143 Tai Chi I
1 credit
PED 143 is designed to introduce Tai Chi as an expression of understanding of self-control, exercise, and self-defense. The primary emphasis is to gain an understanding of the history (origins and changes) of Tai Chi, the movements and their names, application of movements, and terminology.

PED 144 Tai Chi II
1 credit
PED 144 will emphasize the instruction of Tai-Chi from a practical and scientific approach with illustrations of applications for each of the movements in daily life. Cardiovascular training, strength and flexibility training, and balance and coordination will be integral parts of the Tai-Chi training. In addition, psychosocial skills such as meditation, relaxation, and self-efficacy will be addressed.

PED 145 Pilates Matwork I
1 credit
PED 145 focuses on Pilates matwork to increase core strength, overall muscle tone, and flexibility with focused and precise floor work techniques. This is a physical education class built upon the philosophies and exercises of Josef Pilates.

PED 146 Martial Arts
1 credit
PED 146 is designed to introduce basic martial arts techniques and forms designed to improve the physical and mental capacity of an individual. The primary emphasis is to gain an understanding of the basic philosophies.
and concepts around the martial arts and the approach to ethics and provides a clear-cut guide for developing a powerful sense of character and will.

PED 147 Yoga I
1 credit
PED 147 offers guided instruction in yoga. You will practice yoga according to your individual fitness levels and abilities. Emphasis is placed on enhancing general health and well-being through the performance of yoga strength, flexibility, balance, and relaxation techniques and exercises.

PED 148 Yoga II
Prerequisite: PED 147 or permission of instructor
PED 148 increases awareness of yoga and its physical and mental benefits. The concepts of basic yoga are carried into additional areas.

PED 150 Rock Climbing I
2 credits
PED 150 is designed to introduce basic rock climbing and to improve dexterity, problem-solving skills, and the physical work capacity of an individual. The primary emphasis will be to gain an understanding of the general principles of climbing, how equipment works and how it is used, basic climbing skills and techniques, and safety and climbing etiquette and terminology.

PED 151 Rock Climbing II
Prerequisite: PED 150 or permission of instructor
PED 151 is designed to introduce lead climbing skills and techniques, problem-solving skills, and physical fitness. Emphasis is placed on the general principles of lead climbing, proper usage of climbing equipment, development of lead climbing skills and techniques, climbing ethics and safety, and terminology.

PED 152 Map and Compass for the Outdoors Person
3 credits
PED 162 covers the reading of highway, forest service, and topographical maps which include symbols, legends, border information, and contour lines. The course includes the use of magnetic compasses in an outdoor environment and functions that plot a course on maps. Supplemental navigation skills are included.

PED 163 Orienteering and Route Finding
2 credits
PED 163 combines the topics of using different topographical maps and compasses in order to safely plan a route in the wilderness with orienteering (organized competitive cross-country land navigation). Orienteering rules, symbols, clues, and clubs will also be addressed. Field trips may include student participation in a scheduled Orienteering meet.

PED 165 Wilderness Survival Skills
3 credits
PED 165 emphasizes the physiological, psychological, and practical principles of survival. Survival equipment, wilderness improvising techniques, and wilderness dangers are included.

PED 166 Winter Wilderness Survival Skills
1 credit
PED 166 will emphasize winter survival techniques in the nivean environment at or near timberline. Winter ecology, basic snow science, and avalanche safety and rescue will also be presented in a backcountry setting. This course includes field days and an overnight in a snow cave.

PED 167 Basic Search and Rescue
3 credits
PED 167 covers the fundamentals required for search and rescue in a wilderness environment. The course includes tracking techniques and field trips.

PED 153 Hiking
1 credit
PED 153 provides skills related to hiking and wilderness travel. This course emphasizes hiking skills, proper conditioning, route finding, equipment, and hiking hazards and ethics. The course involves conditioning in the fitness center and during weekend hikes.

PED 154 Backpacking
2 credits
PED 154 provides skills related to wilderness travel and outdoor adventure. This course will emphasize knowledge of backpacking skills, survival techniques, proper physical conditioning, route finding, equipment selection, and will encourage an understanding and respect for the environment. The course will involve lecture and discussion sessions followed by a weekend trip in the mountains.

PED 155 Outdoor Expedition
3 credits
PED 155 is a group expedition covering seven to ten days combining hiking, backpacking, climbing, or paddling in remote North American regions. The course includes the rationale for organizing and conducting wilderness trips.

PED 156 Basic Mountaineering
3 credits
PED 157 Basic Mountaineering provides you with a combination of skills and practical experience in the fundamentals of mountaineering. Emphasis is placed on basic climbing skills and techniques, equipment usage, safety systems, mountain travel and awareness, problem-solving and decision-making, high altitude climate and weather, wilderness ethics, and physical fitness.

PED 157 Colorado Fourteener
2 credits
PED 159 presents an historical look into the naming and climbing of Colorado’s 14,000-foot peaks. The course includes information on the current routes to ascend the peaks.
PED 202 Fencing
1 credit
PED 202 is a beginning course in the art and skill of fencing. Topical discussions and practical uses of appropriate equipment, rules, safety, footwork, and defensive/attack strategies will be covered.

PED 203 Fencing II
1 credit
PED 203 continues the course in the art and skill of fencing. Topical discussions and practical uses of appropriate equipment, rules, safety, footwork, and defensive/attack strategies will be covered. The focus of this course will be on the tactical wheel and bouting.

PED 207 Intermediate Canoeing
1 credit
PED 207 emphasizes intermediate paddling technique and river reading skills for both tandem and solo boating. You will learn safety procedures and equipment hazard evaluation and how to minimize your impact on river and lake environments.

PED 210 Fitness Center Activity III
1 credit
Prerequisite: PED 110 and PED 111
PED 210 is an advanced exercise course designed for individuals interested in attaining a high level of total fitness. The course will include an individual fitness evaluation, computerized analysis of results, and a prescribed exercise program. All the basic components of fitness, including flexibility, muscular strength, muscular endurance, cardiovascular fitness, and body composition, will be addressed. Aerobic Circuit Training will be supplemented with additional work on the specialized weight machines, dumbbells, treadmills, rowers, stair climbers, cross trainers, Nordic track, versa climbers, and running track found in the Fitness Center.

PED 211 Fitness Center Activity IV
1 credit
Prerequisite: PED 110, PED 111, and PED 210
PED 211 is an advanced course for individuals interested in attaining a high level of total fitness. The course includes an individual fitness evaluation, computerized analysis of results, and a prescribed exercise program. All the basic components of fitness, including flexibility, muscular strength, muscular endurance, cardiovascular fitness, and body composition, will be addressed. Aerobic Circuit Training will be supplemented with additional work on the specialized weight machines, dumbbells, treadmills, rowers, stair climbers, cross trainers, Nordic track, versa climbers, and running track found in the Fitness Center.

PED 237 Paddle Sports
2 credits
PED 237 focuses on the methods and skills of conducting and leading safe lake and river trips in various types of watercraft, such as canoes, kayaks, or rafts. You will learn modern river paddling techniques, trip planning and organization, basic river rescue and safety skills, federal and local permit systems, and minimal impact camping and boating techniques for a river corridor. The course includes a multi-day river expedition.

PED 280 Internship
1-6 credits
PED 280 gives you a realistic work experience in the field. Work will be supervised by professionals currently employed in the outdoor education industry. These preceptors will ensure that you participate in relevant field work and that you perform to the standards expected of employees of the organizations in which the internship occurs.

PED 285 Independent Study
1 credit
PED 285 meets the individual needs of students. You will engage in intensive study or research under the direction of a qualified instructor.
PER 152 Avalanche Safety  
1 credit  
PER 152 emphasizes the latest information available about the study of avalanches, snow science, rescue equipment, and rescue techniques. The course provides you with the knowledge and skills necessary to help instill good judgment and sound decision-making in day-to-day travel in the winter environment. This course fulfills the National Ski Patrol’s Basic (Level 1) Avalanche course requirements.

PER 153 Whitewater Rafting Guide  
2 credits  
PER 153 meets the requirements of Colorado Statute 33-32-105.5 which provides for the minimum qualifications of professional whitewater rafting guides. The classroom portion includes a review of the logistics, equipment, clothing, safety considerations, risk management, outdoor ethics, river reading fundamentals, and leadership skills. The remainder of the course will be spent with a licensed outfitter.

PER 160 Wilderness Ethics  
3 credits  
PER 160 emphasizes the motivation, aesthetics, and ethics of wilderness. Viewpoints to be examined include Native American, Western, historic, and those of modern environmental writers.

PER 161 Backcountry Cooking  
1 credit  
PER 161 covers menu planning, nutritional requirements for wilderness camping, and meal preparations. This course includes cooking a backcountry meal.

PER 168 Outdoor Equipment and Facilities  
2 credits  
PER 168 acquaints you with wilderness equipment, programs and facilities. The course includes field trips to local outdoor industry facilities.

PER 175 Special Topics  
1-6 credits  
PER 175 provides you with a vehicle to pursue in-depth exploration of special topics of interest.

PER 252 Principles of Outdoor Recreation  
3 credits  
PER 252 includes lectures and practical outdoor experiences relating to problems and trends in outdoor recreation.

PER 253 Outdoor Leadership  
2 credits  
PER 253 is an introduction to the development, acquisition, and application of outdoor leadership skills and knowledge. You are exposed to the latest information philosophy, and techniques necessary to safely conduct outdoor programs and expeditions as an outdoor leader. Skills are applied under actual field conditions. Emphasis is on minimal impact camping, wilderness ecology, judgment and decision-making, group dynamics and trip logistics. These skills will enhance your effectiveness as an outdoor leader.

PER 256 Mountaineering Teaching Concepts  
3 credits  
PER 256 covers planning and methods required to teach mountaineering skills. You will give lectures and conduct field trips.

PER 265 Officiating High School Football  
1 credit  
PER 265 provides you with an opportunity to develop the skills and awareness of the duties of field officials during high school football contests including official playing rules, game management, general philosophy of conducting a high school football contest, and safety management of the players, coaches, and spectators during the contest. The course includes required on-field participation during selected high school football games.

PER 275 Special Topics  
1-12 credits  
PER 275 provides you with a vehicle to pursue in-depth exploration of special topics of interest.

PHI 111 Introduction to Philosophy  
3 Credits  
PHI 111 introduces significant human questions and emphasizes understanding the meaning and methods of philosophy. It includes human condition, knowledge, freedom, history, ethics, the future, and religion.

PHI 112 Ethics  
3 Credits  
PHI 112 examines human life, experience, and thought in order to discover and develop the principles and values for pursuing a more fulfilled existence. Theories designed to justify ethical judgments are applied to a selection of contemporary personal and social issues.

PHI 113 Logic  
3 Credits  
PHI 113 studies effective thinking using language-oriented logic. The course provides tools and develops skills for creative and critical thinking and emphasizes the development of decision-making and problem-solving.

PHI 114 Comparative Religions  
3 Credits  
PHI 114 introduces you to the similarities and differences among concepts predominant in the major world religions, comparing sociological, philosophical, and phenomenological similarities between major world faiths. It is designed to transfer to any four-year college philosophy, religious studies or humanities department.

PHI 115 World Religions—West  
3 credits  
PHI 115 introduces you to the common and different concepts predominant in the major world religions. It includes sociological, political, psychological, and philosophical aspects of a variety of belief systems. It focuses on the concept of religion as a cultural system, and a way that people make sense of a complex world. Particular emphasis is placed on how myths, legends, and folk tales reveal religious concerns.
PHI 116 World Religions—East
3 credits
PHI 116 emphasizes the diversity and richness of Eastern Religions within a cross-cultural context. Concepts such as fate, reincarnation, enlightenment and morality are analyzed.

PHI 117 Psychology of Religion
3 Credits
PHI 117 emphasizes the application of psychological principles and theories to religious phenomena, including religious practices, beliefs, and rituals. As an introduction to the field, this course begins with an historical appreciation of psychologists’ attempts to understand religion, continues with an exploration of select theories, and concludes with an analysis of modern problems and future directions.

PHI 120 Applied Ethics
3 Credits
PHI 120 is an umbrella course which covers different applications of ethics in contemporary society and disciplines, including Business Ethics, Biomedical ethics, Genetic ethics, issues of dental ethics, and other valid applications.

PHI 123 Native American Religion
3 Credits
PHI 123 is designed to introduce you to the primary beliefs and practices found in the Native North American tribes, and to trace the development of these religious systems from their oral beginnings through to modern religious revivals.

PHI 124 Introduction to Islam
3 Credits
PHI 124 introduces the Islamic religious tradition and considers its significance in the modern world. The course investigates the history of Islam, Islamic beliefs and practices, Islamic sects, Sufism, and contemporary issues of Islamic extremism, women in Islam, and Islam in the West.

PHI 140 Religion in American Culture
3 Credits
PHI 140 will investigate the various ways in which religion and American culture interact. Beginning with the religion of Native Americans, which existed in a pre-modern society where religion went unchallenged as the pre-eminent organizing principles of our post-modern era, where religion competes with a multiplicity of other belief systems in a complex societal matrix. This course will focus on the sundry ways in which religion and American culture interface.

PHI 141 Old Testament
3 Credits
PHI 141 surveys the literature produced by ancient Israel from its inception in the 10th century BCE to its absorption into the Roman Empire. The Hebrew Scriptures along with selected Apocryphal writings will be examined. The course will focus on the interpretation of these texts in light of the historical and cultural milieu from which they arose. Particular attention will be paid to the comparison of the literature of ancient Israel to that of its neighbors.

PHI 142 New Testament
3 Credits
PHI 142 surveys the literature of the early Christian era, from its inception to approximately 150 C.E. The New Testament as well as selected non-canonical writings from the period are examined. The course focuses on the interpretation of these texts in light of the cultural milieu from which they arose. Particular attention is paid to the influence of ancient literary conventions upon the Christian writers of this time.

PHI 143 Philosophy of Religion
3 Credits
PHI 143 introduces you to the history, philosophy and practices of Hindu tradition. This course in no way intends to be comprehensive but rather surveys the many manifestations of Buddhism through an exploration of foundational aspects, the evolution and spread of Buddhist philosophical and spiritual ideals, and aspects of Buddhism as it exists in the modern world.

PHI 201 Social and Political Philosophy
3 Credits
PHI 201 addresses a single topic among those relevant to social and political philosophy such as political rights, political freedom, social obligations, or democracy.

PHI 202 Religion and Film
3 Credits
PHI 202 introduces basic concepts to the academic study of religion and illustrates those concepts by examining the ways in which a number of contemporary films embody religious themes. Particular attention will be paid to the challenges modernity and post-modernity poses to traditional religion.

PHI 203 Introduction to Buddhism
3 Credits
PHI 203 introduces you to the history, philosophy and practices of Buddhist tradition. This course in no way intends to be comprehensive but rather surveys the many manifestations of Buddhism through an exploration of foundational aspects, the evolution and spread of Buddhist philosophical and spiritual ideals, and aspects of Buddhism as it exists in the modern world.

PHI 204 Introduction to Hinduism
3 Credits
PHI 204 provides you with a broad overview of the history, philosophy, and practices of Hindu tradition. Because of the vast complexity of the subject matter the course in no way intends to be comprehensive but rather to provide an introduction to the foundations of Indian cultural tradition, the evolution of Hindu philosophical and spiritual ideals, as well as, a cursory understanding of Hindu nationalism and modern Hindu religious practice.

PHI 214 Philosophy of Religion
3 Credits
PHI 214 focuses on the critical examination of the fundamental concepts, ideas, and implications of religion. Specific topics will include: the nature of God, the varieties of religious experience, argument concerning God’s existence, the Problem of Evil, faith and reason, religion and human destiny, and the connection between religion and ethics.

PHI 275 Special Topics in Philosophy
3 Credits
PHI 275 provides you with a vehicle to pursue in depth exploration of special topics of interest.

For the latest information, visit www.rrcc.edu
PHO – Photography

Photography classes reside under both the ART and PHO prefixes, and classes are held in the Multimedia Graphic Design Department.

www.rrcc.edu/multimedia/

PHO 143 Perception & Photography I
3 credits
PHO 143 presents the fundamentals of visual perception and design and seeing in the photographic medium. Topics include the psychology of seeing, value exercises, conceptual and perceptual exercises, depth representation, figure/ground, organization, gestalt principles, quality of light, and the development of ideas.

PHO 159 Digital Asset Management
3 credits
PHO 159 instructs you in the use of specialized programs to manage the large collection of digital captures you are likely to encounter as a professional. The large number of files created by a digital photographer requires a systematic method of cataloging and offers various means of presentation. This course will teach a workflow for the cataloging and various methods of presenting the images to the public and clients using Microsoft Expressions Media and other supplemental programs.

PHO 204 Commercial Studio Lighting
3 credits
Recommended Prerequisite: ART 138 or ART 143
PHO 204 explores the creative uses of studio lighting from the perspective of fine art and commercial photography with an emphasis on three-dimensional object photography, including, lighting techniques, backgrounds, working with shadows and highlights, and photographing flat art.

PHO 221 Digital Color Photography I
3 credits
PHO 221 introduces you to the production of color photographic images, including the technical reproduction of images and the effective use of color. The reproduction of color images will be done exclusively using digital print technology while an overview of color reproduction systems; CMY (Film and Print), RGB, and CYMK will be covered. The use of color films, both color negative and color transparency, and the use of digital capture also will be topics for this class. Completion of exercises in the effective use of color and color reproduction techniques will be required.

PHO 222 Digital Color Photography II
3 credits
PHO 222 continues the development of technical and visual skills in the employment of color photography. Color transparency film is the primary medium for capturing images, and digital technology is used for print production. More sophisticated, aesthetic use of color, as well as more refined printing, is expected. The implementation of color management to create more predictable color print matching with the computer monitor is also covered in this class. Digital camera capture is used in some assignments as an alternative to film.

PHO 260 Event & Wedding Photography
3 credits
Prerequisite: ART 138 or ART 143
PHO 260 is designed for the intermediate/advanced photo student interested in learning professional techniques associated with venue photography. Topics covered include weddings, Barmitzvah/Basmitzvah, music concerts, sporting events, graduations, and similar occasions. You will gain hands-on knowledge and learn practical shooting skills. The course includes the business and planning aspects of ceremonial and event photography. Both film and/or digital SLR cameras with manual settings may be used for this class.

PHO 268 Portfolio & Career Exploration (pending approval)
4 credits
In this class, you will create both a computer-based (Web and CD portfolio) and a printed presentation portfolio. Different techniques necessary for the production of the portfolios and styles of portfolios are covered. Resumes, cover letters, promotional pieces, presentation techniques, and skills related to the pursuit of careers and furthering education are covered in this class.

PHO XXX Special Topic: Finish and Display/Framing
1 credit
PHO XXX presents the proper execution and presentation of fine art images through the use of dry mounting, matting, and framing. Topics include measuring, matting, mounting, costing, supplies, professional techniques, simple framing, and basic archival processes.

PHO XXX Special Topic: Mastering Black-and-White Outdoor Photography
3 credits
Prerequisites: ART 138 and ART 139 or ART 143 and ART 243 or permission of instructor
PHO XXX explores advanced techniques used by Master Photographers in exposing and printing professional B&W outdoor photos. Types of film, cameras, exposure methods, film processing, and printing techniques are covered. Exposure methods include the Zone System, use of filters, and advanced techniques to achieve the best possible negative to maximize print quality. You must use a 35mm SLR film camera with manual settings for this class.

PHO XXX Special Topic: Darkroom Alternative Processes
3 credits
Prerequisite: ART 138
PHO XXX is designed for intermediate-to advanced-level students. You will explore specialized photo techniques, such as infrared photography, solarization, multiple exposures, time exposures, direct positive black and white, multiple and montage printing
techniques, abstracts, and high contrast, as well as film reticulation. Topics include special filters, motion techniques, and “breaking all the rules.” The primary emphasis is on personal creativity and the aesthetic value in using special effects in visual communication. A 35mm SLR film camera with manual settings is required for this class.

**PHO XXX Special Topic: Outdoor Portrait Workshop**
1 credit
Recommended Prerequisite: ART 138 or ART 143
PHO XXX is designed to provide the serious photography student with hands-on tools and techniques to explore the art of outdoor portraits. You will learn to control natural lighting, use backdrops to enhance the subject, and use format and lens selection to best fit the desired outcome. Both film and/or digital SLR cameras with manual settings may be used for this class.

**PHO XXX Special Topic: The Business of Photography**
3 credits
PHO XXX examines the business of photography from the standpoint of the photographer who wishes to earn a part-time or full-time living making and selling photographic images. For a photographer to survive in today’s business environment, he/she must apply sound business principles and be pro-active in planning for the future. This course aids you in developing a sound business plan and a useful strategy, along with marketing, copyrights, cost analysis, releases, and the Web. You will learn how to remain profitable in the business of photography.

**PHO XXX Special Topic: Professional Digital Workflow (Adobe Lightroom)**
3 credits
Recommended Prerequisite: ART 143
PHO XXX is intended for the student pursuing a photographic career in which digital photography plays a major role. This course addresses the facets of determining what the workflow should be for a variety of applications, how to choose the right equipment, and how to determine the best method of working with that equipment. You will learn to select the most valuable enhancement tools and how to archive, edit, present, and finish a product. Emphasis is on the practical and producing a finished, salable product with maximum speed and accuracy.

**PHO XXX Special Topic: Infrared Photography**
1 credit
Recommended Prerequisite: ART 138 or ART 143
PHO XXX is designed for the mid-level to advanced photography student. This course explores the use of black-and-white infrared film for dramatic special effects photography. You must use a 35mm SLR film camera with manual settings for this class.

**PHY – Physics**

www.rrcc.edu/physics/

**PHY 105 Conceptual Physics with Lab**
4 credits
PHY 105 explores the physics of how things work, utilizing many activities and demonstrations. This course studies mechanics, heat, properties of matter, electricity and magnetism, light and modern physics. This course includes laboratory experience.

**PHY 111 Physics: Algebra-Based I with Lab**
5 credits
Prerequisite: MAT 121
PHY 111 topics include: kinematics, force, circular motion, energy, momentum, torque, rotational dynamics, simple harmonic motion, temperature, heat and thermodynamics. This is a general physics course that is recommended for all of the health sciences and all other interested students. Those entering engineering or one of the advanced sciences should register for PHY 211.

**PHY 112 Physics: Algebra-Based II with Lab**
5 credits
Prerequisite: PHY 111
PHY 112 is the continuation of the PHY 111 course. Topics covered in this class include: sound waves, electric fields, electric circuits, magnetic fields, optics, and modern physics.

**PHY 211 Physics: Calculus-Based I with Lab**
5 credits
Prerequisite: MAT 201
PHY 211 topics include: kinematics, force, gravity, energy, momentum, torque, rotational dynamics, fluids and waves. This first semester calculus-based physics course is recommended for students entering engineering or one of the advance sciences.

**PHY 212 Physics: Calculus-Based II with Lab**
5 credits
Prerequisite: PHY 211
PHY 212 is the continuation of the PHY 211 course. Some of the topics covered in this class include: thermodynamics, electric fields, electric circuits, magnetic fields, light and optics, and modern physics.
PLU – Plumbing

www.rrcc.edu/plumbing/

PLU 100 Introduction to Plumbing
4 credits
Co-requisite: OSH 127
PLU 100 introduces the student to the plumbing trade, providing them with the opportunity to learn basic skills needed to work in the plumbing industry. The course includes work in the classroom and shop. Students will work with plastic, copper, steel and cast iron pipe. Students will be able to identify and apply common DWV, copper and threaded fittings. Job safety and introduction to isometric drawing are also included in this course.

PLU 101 Piping Skills
4 credits
Co-requisite: OSH 127
PLU 101 teaches the installation of common piping materials in plumbing and HVAC/R systems. Pipe math, terminology, common piping materials and application, figuring offsets and common pipe joints are also covered. Shop projects including pipe support and hanging, center to center measurements and a variety of pipe joining methods are explored.

PLU 104 Plumbing Service
4 credits
PLU 104 allows you to learn how to diagnose and repair common problems associated with plumbing components and systems. Topics will include faucet repair, water heater replacement and repair, drain cleaning, water closet repair, piping repairs, finding the source of leaks and evaluating problems for repair or replacement. Students will learn customer relations and communication skills.

PLU 105 Basic Electricity
4 credits
Co-requisite: OSH 127
PLU 105 is a combination lab/lecture course covers fundamentals of electricity, measuring instruments and electrical safety practices. Students will learn Ohm’s Law and its practical application. Students will work with electric motors, basic electrical components and learn their application to the trade.

PLU 108 Soldering and Brazing Skills
0.5 credits
PLU 108 allows you to learn proper soldering and brazing skills when joining copper tube and fittings. Topics include safety, proper soldering and brazing skills, how to assess joint quality and basic center-to-center measurement.

PLU 120 Residential Plumbing
4 credits
Prerequisites: PLU 100, PLU 101, OSH 127 or permission of the instructor.
PLU 120 students will learn how to design and install residential plumbing systems. (Course does not cover DWV systems: see PLU 130.) Students will work in the shop installing systems and in the classroom designing systems. Topics include the application of code requirements, fuel piping systems, water piping systems, rough-in measurements and installation practices. Students will also learn to install components, such as water heaters, tub/shower valves, a variety of shower enclosures and other fixtures.

PLU 130 Basic Drain, Waste and Vent
4 credits
Prerequisites: PLU 100, PLU 101, OSH 127 or permission of the instructor.
PLU 130 gives the students the opportunity to learn how to design drain, waste and vent systems. Chapters 7 and 9 of the plumbing code will be discussed in the classroom and applied in the shop. Other topics include DWV materials, sizing systems, terminology, and practical application of code tables, traps and interceptors. Students will design DWV systems in the classroom and build the system in the shop, thereby developing their isometric drawing skills.

PLU 150 Code and Piping Calculations
2 credits
PLU 150 reviews and applies code and piping calculation. Topics include calculations for the following: pipe and cylindrical area and volume, pipe circumference, rectangular area and volume, offsets, water volume and weight grade, fall, and run. The knowledge gained by students completing this course can be applied to all plumbing systems, fuel gas appliance piping and critical calculations for other mechanical and piping systems.

PLU 202 International Residential Code – Plumbing
2 credits
PLU 202 covers the plumbing requirements of the IRC. Students will be given the opportunity to learn and apply the general requirements of this code. The course will review and apply the sizing requirements of part VII of this code.

PLU 205 Backflow Prevention Certification Training
3 credits
PLU 205 prepares students with information and procedures for the development, implementation, maintenance and enforcement of backflow prevention practices pursuant to federal and state regulation pertaining to cross connection control. The information in this course also prepares students to take the back-flow, ASSE cross-connection test.

PLU 206 Uniform Plumbing Code
4 credits
PLU 206 will assist students in passing the plumbing licensing examinations for the State of Colorado. This course reviews and interprets the Uniform Plumbing Code and the Colorado State Plumbing code. The course also reviews the need for enforcement of the Uniform Plumbing Code.
PLU 207 International Plumbing Code  
4 credits  
PLU 207 helps plumbers working in jurisdictions where the International Plumbing Code has been adopted. This course will review the IPC and help the plumber apply the requirements of this code to the installation of plumbing systems. This Code has been adopted by the State Of Colorado effective July 1, 2005.

PLU 208 International Fuel Gas Code  
4 credits  
PLU 208 reviews the general requirements of applicable chapters of the IFGC. Students are given the opportunity to learn system sizing which includes: fuel gas piping, gas appliance venting, and combustion air.

PLU 215 Backflow Prevention Recertification  
1 credit  
Prerequisite: Students must have a current Colorado Cross Connection Control Technician Certification. PLU 215 is designed for those technicians who have a current Colorado Cross Connection Control Certification and need to renew the certification. The course will review current state and federal regulations applicable to technician re-certification and prepare for the current ASSE certification.

PLU 216 Colorado Plumbing Code Up-Date  
2 credits  
Prerequisites: PLU 207 or valid Colorado plumbing license. PLU 216 is for those students that need to be updated on the Colorado Plumbing Code. The instructor will meet with you and schedule the necessary attendance.

PLU 227 Medical Gas Certification  
2 credits  
Prerequisites: PLU 101, 207, or Colorado Journeyman Plumber License or permission of the instructor. PLU 227 pursues medical gas certification and brazing testing. Specialty training includes anesthesia, respiratory and inhalation therapies. Medical gas system components, medical gas compressors and NFPA standards are examined. This course includes the training time required to meet the Colorado Examining Board of Plumbers requirements.

PLU 240 Commercial Plumbing Systems  
4 credits  
Prerequisites: OSH 127, PLU 100, 101, 120, 130. PLU 240 reviews code requirements of plumbing systems typically found in commercial structures. Students will design and install systems meet these requirements.

PLU 244 Commercial Plumbing Service  
4 credits  
Prerequisites: PLU 100, 105, 104, 120, OSH 127. PLU 244 covers the aspects of maintenance and repair of typical plumbing equipment, fixtures and associated systems found in commercial structures.

PLU 247 Hot Water Heating Systems  
4 credits  
Prerequisites: OSH 127, PLU 101, PLU 105, HVA 110, HVA 162 or permission of the instructor. PLU 247 covers the theory of operation behind these systems, as well as installation, maintenance and repair. The course also examines air elimination, circulator pump and pipe sizing. Boiler and heat convector sizing are also discussed.

PLU 250 Plumbing Estimating and Costing  
4 credits  
Prerequisites: PLU 207, CON 105 and CON 230, Journeyman Plumber’s License or permission of the instructor. PLU 250 will review and apply the information required to estimate and cost the installation of plumbing and fixtures. Topics include labor, material take-off, overhead costs and running a profitable plumbing business.

PLU 267 Radiant Heating Systems  
4 credits  
Prerequisites: OSH 127, PLU 101 or HVA 110, HVA 105 or PLU 105, HVA 247, or permission of the instructor. PLU 267 is a combination lab/lecture course and covers the theory of operation, installation and maintenance of warm water radiant heating systems. Different methods of zoning, controls, piping methods, piping types and system components are discussed. Students are able to design, install, document, maintain and trouble-shoot all conventional residential warm water, radiant panel heating systems.

PLU 275 Special Topics  
1-6 credits  
PLU 275 provides students with a vehicle to pursue in depth exploration of special topics of interest.

PLU 280 Technical Project  
1-12 credits  
Prerequisite: Permission of instructor. PLU 280 enables students to participate in individual study on a special project which is related to the plumbing program. This technical project consists of a written and approved proposal and scheduled progress reports.

PLU 282 Internship  
0.5-12 credits  
Prerequisite: Permission of instructor. PLU 282 will give students with prior course work in a specific area are eligible for internship. The internship will give you an opportunity to apply your course studies.

PLU 285 Independent Study  
0.5-12 credits  
Prerequisite: Permission of instructor. In PLU 285 students will work with the instructor on a specific area with specific objectives and a predetermined project completion date.
POS 105 Introduction to Political Science
3 credits
POS 105 surveys the discipline of political science, including political philosophy and ideology, democratic and non-democratic processes, and international relations.

POS 111 American Government
3 credits
POS 111 includes the background of the U.S. Constitution; the philosophy of American government; general principles of the U.S. Constitution; federalism; civil liberties; public opinion and citizen participation; political parties; interest groups and the electoral process; and the structure and functions of the national government.

POS 125 American State and Local Government
3 credits
POS 125 is a study of the structure and functions of state, county, and municipal governments including their relations with each other and with national government. Colorado government and politics are emphasized.

POS 205 International Relations
3 credits
POS 205 examines the relationships among modern nation states. Topics include diplomacy, nationalism, ideologies, power and influence, conflict and cooperation, the role of non-state actors, the international economy, and theoretical attempts to understand international behavior.

POS 215 Current Political Issues
1-3 credits
POS 215 is an in-depth analysis of critical issues in political science. Topics will be determined each term.

POS 225 Comparative Government
3 credits
POS 225 is a comparison of the basic features of selected developed and developing countries. Topics include ideologies, political parties, interest groups, and government institutions.

POS 280 Internship
1-6 credits
POS 280 provides you with the opportunity to supplement course work with practical work experience related to your educational program. You will work under the immediate supervision of experienced personnel at the business location and with the direct guidance of the instructor.

PRA 102 Introduction to Park Ranger Technology
3 credits
PRA 102 is an introductory course covering the development of public lands in the U.S., the various agencies controlling these lands, multi-use doctrine, wilderness, public services provided in parks, and the various roles of the park ranger in different settings. Career planning and park ranger responsibilities will be discussed, such as law enforcement, natural resource management, protection, and interpretation, such as geologic, biologic, and historic or cultural resources. Visitor services, emergency response, management, and training are also covered.

PRA 175 Special Topics
1-6 credits
PRA 175 provides you with a vehicle to pursue in depth exploration of special topics of interest.

PRA 203 Natural Resource Management
3 credits
PRA 203 is an introductory course covering the various scientific disciplines and complex issues associated with natural resource management. Ecosystem management, wildlife management, plant ecology, agricultural management, career planning, public land acquisition, visitor use, natural resource law enforcement, and public policy are introduced and discussed in detail.

PRA 205 Natural Resource Interpretation
3 credits
PRA 205 is a basic course in natural and cultural resource interpretation. The philosophy, techniques, and skills necessary to produce exciting and relevant resource interpretation projects are discussed and practiced. Interpretive plans are discussed in detail as well as various techniques used in the field of resource interpretation and public education. The history and development of environmental education and natural/cultural resource interpretation are discussed. Multi-use conflict resolution of public education and resource interpretation are emphasized.

PRA 210 Park Ranger Skills Seminar
2 credits
PRA 218 is a skills seminar that presents necessary information regarding specialized training related to the park ranger field. Handling of livestock, fence design, building and repair, vehicle driving, park maintenance, budgeting and planning, and trail design, construction, and maintenance are some of the topics that can be covered. This is a hands-on course for development and application of skills.

PRA 218 Outdoor Leadership
3 credits
PRA 218 is an introduction to the development, acquisition, and application of outdoor leadership skills and knowledge. You will be exposed to the latest information, philosophy, and techniques necessary to safely conduct outdoor programs and expeditions as an outdoor leader. Skills will be applied under actual field conditions. Emphasis will be on minimum impact camping, wilderness ecology, judgment, decision-making, group dynamics, and trip logistics. These skills will enhance your effectiveness as a professional outdoor leader.
PRA 230 Park Ranger Law Enforcement Training
3 credits
Prerequisite: PRA 102 or recent seasonal park employment/permission of the instructor.
PRA 230 is an intensive academy for non-armed park rangers who work in local government parks and open space districts. The focus is on ranger safety, regulation enforcement, incident command, limitations of authority, visitor contact, communications, and situational control techniques. Topics will vary depending upon the class needs.

PRA 255 Advanced Resource Interpretation
3 credits
Prerequisite: PRA 205
PRA 255 is an advanced course in natural and cultural/historic resource interpretation. The course provides you with the skills to plan, prepare, and present exciting and relevant interpretation programs for special visitors and situations using a variety of personal and non-personal techniques. Examples of the types of skills offered are writing and design of site produced publications and exhibit labels; producing basic audio-visual programs; and preparing and presenting special activities, such as demonstrations, living history, storytelling, costumed interpretation, and dramatic/creative arts. Techniques for resource interpretation for the physically or mentally challenged, sensory impaired, the elderly, and international visitors will be discussed. The sensitive handling of controversial/sensitive educational issues will also be discussed.

PRA 280 Park Ranger Internship
1-6 credits
Prerequisite: PRA 102
PRA 280 gives you a realistic work experience in the field. All work will be supervised by park rangers currently employed by land management agencies at various levels of government. These preceptors will ensure that you participate in relevant field work and perform to the standards expected of employees of the agencies in which the internship occurs.

PRO – Process Technology
www.rrcc.edu/isod/

PRO 100 Introduction to Process Technology
3 credits
PRO 100 provides an overview or introduction into the field of Process Operations within the process industry. The course will introduce the roles and responsibilities of process technicians, the environment in which they work, and the equipment and systems in which they operate.

PRO 110 Safety, Health and Environment
3 credits
PRO 110 provides an introduction to the field of safety, health, & environmental concerns within the process industry. Within this course, you will be introduced to various types of plant hazards, safety and environmental systems and equipment, and the regulations under which processing plants are governed.

PRO 120 Process Technology I: Equipment
4 credits
Prerequisite: PRO 100 and PRO 110 or permission of instructor
PRO 120 provides an overview or introduction into the field of equipment within the process industry. This course will introduce many process industry-related equipment concepts including purpose, components, operation, and the Process Technician’s role for operating and troubleshooting the equipment.

PRO 130 Instrumentation
3 credits
Prerequisite: PRO 100 and PRO 110 or permission of instructor
PRO 130 provides an introduction to the field of Instrumentation and covers process variables and the various instruments used to sense, measure, transmit and control these variables. This course also introduces control loops and the elements that are found in different types of loops, such as controllers, regulators and final control elements. The course concludes with a study of instrumentation drawings and diagrams and a unit on troubleshooting instrumentation.

PRO 175 Special Topics
0.5 – 6 credits
Prerequisite: Permission of instructor
PRO 175 provides students with a vehicle to pursue in depth exploration of special topics of interest.

PRO 185 Independent Study
0.5 – 6 credits
Prerequisite: Permission of instructor
PRO 185 meets the individual needs of students. Students engage in intensive study or research under the direction of a qualified instructor.

PRO 210 Process Technology II: Systems
4 credits
Prerequisite: PRO 120 and PRO 130 or permission of instructor
PRO 210 studies the interrelationship of process equipment and process systems: arranging process equipment into basic systems; describing the purpose and function of specific process systems; explaining how factors affecting process systems are controlled under normal conditions; and recognizing abnormal process conditions. In addition, it introduces the concept of system and plant economics.

PRO 220 Process Technology III: Operations
4 credits
Prerequisite: PRO 120 and PRO 130 or permission of instructor
PRO 220 provides an introduction to the field of operations within the process industry. Students will use existing knowledge of equipment, systems, and instrumentation to understand the operation of an entire unit. Students study concepts related to commissioning, normal startup, normal operations, normal shutdown, turnarounds, and abnormal situations, as well as the Process Technician’s role in performing the tasks associated with these concepts within an operating unit.

For the latest information, visit www.rrcc.edu
PRO 230 Quality in Process Technology
3 credits
Prerequisite: PRO 100 and PRO 110 or permission of instructor
PRO 230 provides an introduction to the field of Quality within the Process Industry. This course will introduce many process industry-related quality concepts including operating consistency, continuous improvement, plant economics, team skills and statistical process control (SPC).

PRO 240 Process Troubleshooting
4 credits
Prerequisite: PRO 220 or permission of instructor
PRO 240 provides instruction in the different types of troubleshooting techniques, procedures, and methods used to solve process problems. Topics include application of data collection and analysis, cause-effect relationships, and reasoning.

PRO 275 Special Topics
0.5 – 6 credits
Prerequisite: Permission of instructor
PRO 275 provides students with a vehicle to pursue in depth exploration of special topics of interest.

PRO 280 Internship
4 credits
Prerequisite: Permission of instructor
PRO 280 provides students with the opportunity to supplement coursework with practical work experience related to their educational program. Students work under the immediate supervision of experienced personnel at the business location and with the direct guidance of the instructor.

PRO 285 Independent Study
0.5 – 6 credits
Prerequisite: Permission of instructor
PRO 285 meets the individual needs of students. Students engage in intensive study or research under the direction of a qualified instructor.

PSY – Psychology

www.rrcc.edu/psychology/

PSY 101 General Psychology I
3 credits
PSY 101 is the scientific study of behavior including motivation, emotion, physiological psychology, stress and coping, research methods, consciousness, sensation, perception, learning and memory.

PSY 102 General Psychology II
3 credits
PSY 102 focuses on the scientific study of behavior including cognition, language, intelligence, psychological assessment, personality, abnormal psychology, therapy, life span development, and social psychology.

PSY 110 Career Development
3 credits
PSY 110 assists you in recognizing your career potential, and provides tools for making realistic decisions concerning educational and occupational objectives.

PSY 116 Stress Management
3 credits
PSY 116 identifies the physiological, emotional and behavioral aspects of stress. Techniques of stress reduction and management are explored and applied, including nutrition, exercise, assertiveness, time management, and financial management. This course is not designed to transfer.

PSY 117 Parenting
1 credit
PSY 117 focuses on effective techniques for parenting children, with emphasis on setting expectations, consideration of individual differences, satisfactory communication, and effective parent-child relationships.

PSY 175 Special Topics
1-3 credits
PSY 175 provides you with a vehicle to pursue in-depth exploration of special topics of interest.
PSY 227 Psychology of Death and Dying
3 credits
PSY 227 examines the philosophies of life and death, emphasizing dying, death, mourning, and the consideration of one’s own death.

PSY 235 Human Growth and Development
3 credits
PSY 235 is an overview of human development from conception, childhood, adolescence, adulthood, through the end of life. Material emphasizes physical, cognitive, emotional, and psychosocial factors.

PSY 238 Child Growth and Development
3 credits
PSY 238 covers growth and development of the individual from conception through childhood, emphasizing physical, cognitive, emotional, and psychosocial factors.

PSY 249 Abnormal Psychology
3 credits
PSY 249 examines abnormal behavior and its classification, causes, treatment, and prevention.

PSY 257 Psychological Aspects of Abuse in Relationships
2 credits
PSY 257 focuses on psychosocial factors contributing to both abusive and victimization behaviors in a variety of relationships.

PSY 265 Psychology of Personality
3 credits
PSY 265 examines the structure, function, and development of personality. It also investigates the major contemporary theories of personality and covers psychodynamic, behavioral, cognitive-social learning, humanistic, trait, and, optionally, neurobiological, existential, and/or Eastern perspectives. The underlying assumptions and research support for these theories are appraised. The course enables you to gain an appreciation of the value of alternative theoretical approaches to this study of psychology.

REA – Reading

REA 030 Basic Reading Skills
2 credits
Prerequisite: Appropriate ACCUPLACER score.
REA 030 focuses on strategies for word attack, vocabulary development, stages of reading and basic reading comprehension.

REA 060 Foundations of Reading
3 credits
Prerequisite: REA 030 or appropriate ACCUPLACER score.
REA 060 focuses on strategies for vocabulary development, improved reading comprehension and enrichment.

REA 090 College Preparatory Reading
3 credits
Prerequisite: REA 060 or appropriate ACCUPLACER score.
REA 090 applies strategies for improving comprehension, developing vocabulary, and increasing rate for reading college textbooks.

REE – Real Estate

REE 201 Real Estate Brokers I
6 credits
Corequisite: REE 202
Prerequisite: A grade of C or higher in Reading 090 or appropriate SAT, ACT or Accuplacer score that indicates college reading ability, or permission of instructor.
REE 201 enables you, in conjunction with REE 202 - Real Estate Brokers II, to meet the educational requirements of the Colorado Real Estate Commission for a Colorado Real Estate Broker’s license. This course includes Colorado Contracts and Regulations, Closings, and Recordkeeping and Trust Accounts.

REE 202 Real Estate Brokers II
6 credits
Corequisite: REE 201
Prerequisite: A grade of C or higher in Reading 090 or appropriate SAT, ACT or Accuplacer score that indicates college reading ability, or permission of instructor.
REE 202 enables you, in conjunction with REE 201 - Real Estate Brokers I, to meet the educational requirements of the Colorado Real Estate Commission for a Colorado Real Estate Broker’s license. This course includes Colorado Contracts and Regulations, Closings, and Recordkeeping and Trust Accounts.

REE 275 Special Topics
1-3 credits
REE 275 provides you with a vehicle to explore special topics of interest in depth.

REE 280 Internship
1-3 credits
Prerequisite: Permission of instructor
REE 280 provides you with the opportunity to supplement course work with practical work experience related to your educational program and occupational objectives. You will be placed at approved workstations related to your program of study. They work under the immediate supervision of experienced personnel at the business location and with the direct guidance of the instructor/coordinator.

REE 285 Independent Study
1-3 credits
Prerequisite: Permission of instructor
REE 285 meets your individual needs through intensive study or research under the direction of a qualified instructor.

For the latest information, visit www.rrcc.edu
RTE – Radiologic Technology

www.rrcc.edu/medicalimaging/

You must be accepted into the Radiology Program to take any RTE course other than RTE 101.

RTE 101 Introduction to Radiography
2 credits
RTE 101 provides an introduction to radiology including equipment, exposure, positioning and the knowledge necessary for the radiography student to provide safe patient care including communication skills, body mechanics, patient transfer, and radiography as a profession.

RTE 111 Radiographic Patient Care
2 credits
RTE 111 expands the information presented in RTE 101, and includes diversity, universal precautions, legal considerations and ethics. This course consists of lecture and laboratory experience in the patient care areas of asepsis, vital signs, venipuncture, medical emergencies, assistance with drug administration, patients with special needs, and death and dying.

RTE 121 Radiologic Procedures I
3 credits
RTE 121 introduces fundamentals of radiographic positioning including use of radiographic equipment and safety, positioning, terminology, anatomy, pathology, and skills necessary to perform radiographic procedures of the chest, abdomen, upper extremity, gastrointestinal and urinary systems.

RTE 122 Radiologic Procedures II
3 credits
RTE 122 introduces additional material covered in RTE 121 including the knowledge of anatomy, pathology, and skills necessary to perform radiographic procedures of the lower extremity, pelvis, spine, and bony thorax.

RTE 131 Radiographic Pathology & Image Evaluation I
1.5 credits
RTE 131 provides a detailed discussion of pathological conditions of the skeletal, respiratory, digestive, urinary, and reproductive systems. Related medical terminology will be discussed, along with assessment of exposure adjustment for pathologic conditions and evaluation of radiographs for appropriate anatomy, positioning exposure and pathology.

RTE 132 Radiographic Pathology & Image Evaluation II
1.5 credits
RTE 132 expands on the information in RTE 131 with a focus on pathology of the skull, vascular system, central nervous system, endocrine system. Related medical terminology will be discussed along with the continued assessment of image quality.

RTE 141 Radiographic Equipment/Imaging I
3 credits
RTE 141 introduces the fundamental aspects of radiographic equipment including a basic review of Physics fundamentals pertaining to x-ray production, the x-ray machine, image receptors, and control of scatter radiation.

RTE 142 Radiographic Equipment/Imaging II
3 credits
RTE 142 expands information covered in RTE 141 and provides in-depth knowledge of radiographic exposure and the factors that effect radiographic film quality and assurance.

RTE 181 Radiographic Internship I
5 credits
RTE 181 introduces the clinical education experience at the clinical education center. You will apply knowledge learned in the classroom to the actual practice of radiography.

RTE 182 Radiographic Internship II
5 credits
RTE 182 introduces additional concepts and more complex radiographic procedures than those learned in Radiographic Internship I.

RTE 183 Radiographic Internship III
7 credits
RTE 183 reinforces the basic concepts of Radiographic Internship I and II.

RTE 221 Advanced Medical Imaging
3 credits
RTE 221 introduces advanced imaging techniques including radiography of the cranium, facial bones and special radiographic procedures. These concepts are combined with the basic oral communication techniques necessary for the professional radiographer.

RTE 231 Radiation Biology/Protection
2 credits
RTE 231 provides the basic knowledge and understanding of the biologic effects of ionizing radiation and radiation protection and safety.

RTE 255 Multiplanar Sectional Imaging
2 credits
RTE 255 offers a course designed to increase knowledge in multi-planar/multi-modality sectional anatomy for imaging professionals, radiologic technology students, and other interested health care professionals. Correlative studies of line drawings, cadaverous photographs, MRI, and CT images are thoroughly studied.

RTE 281 Radiographic Internship IV
8 credits
RTE 281 introduces you to the radiographic specialty areas of Pediatrics, Geriatrics, the out-patient clinic, as well as increasing proficiency in general radiography.
RTE 282 Radiographic Internship V
8 credits
RTE 282 introduces you to the radiographic specialty areas of portable and trauma radiography as well as increasing proficiency in general radiography.

RTE 289 Capstone Course
3 credits
RTE 289 prepares the radiology technology student to effectively search for a job in radiography and sit for the American Registry of Radiologic Technologists examination.

RUS – Russian
www.rrcc.edu/languages/

RUS 101 Conversational Russian I
3 Credits
RUS 101 introduces you to beginning conversational Russian and focuses on understanding and speaking Russian. This course covers basic vocabulary, grammar, and expressions that are used in daily situations and in travel.

RUS 102 Conversational Russian II
3 Credits
Prerequisite: RUS 101 or permission of instructor.
RUS 102 continues the sequence for students who wish to understand and speak Russian. This course covers basic conversational patterns, expressions, and grammar.

RUS 111 Russian Language I
5 credits
RUS 111 begins a sequence dealing with the development of functional proficiency in listening, speaking, reading and writing the Russian language. Note: The order of the topics and methodology will vary according to individual texts and instructors.

RUS 112 Russian Language II
5 credits
RUS 112 continues Russian I in the development of functional proficiency in listening, speaking, reading and writing the Russian language. Note: The order of the topics and the methodology will vary according to individual texts and instructors.

RUS 275 Special Topics
0.5-6 Credits
RUS 275 provides you with a vehicle to pursue in depth exploration of special topics of interest.

SBM – Small Business Management
www.rrcc.edu/business/

SBM 101 Starting a Small Business
1 credit
SBM 101 provides a brief overview of various topics related to starting a small business. Some topics are types of businesses, location, image, insurance, permits, and licenses.

SBM 103 Legal Aspects of a Small Business
1 credit
SBM 103 provides a brief overview of the legal issues involved in starting and managing a small business. The course focuses on business organization, contracts and agreements, and protecting the business.

SBM 106 Recordkeeping for a Small Business
1 credit
SBM 106 provides an overview of recordkeeping for a small business. You will learn basic bookkeeping skills and recordkeeping requirements.

SBM 108 Marketing for a Small Business
1 credit
SBM 108 provides a brief overview of the marketing functions applied to a small business. Topics include planning a marketing strategy, promoting a business, competitive analysis, and customers and prospects.

SBM 110 Managing a Small Business
1 credit
SBM 110 provides a brief overview of the management process as it applies to the small business. Concepts covered in the course include setting goals, conducting evaluations, and analyzing financial records.

SBM 112 Financing a Small Business
1 credit
SBM 112 provides a brief overview of the basics of financing a small business. Topics include sources of capital, types of business loans, and maintenance of cash flow.

SBM 113 Writing a Business Plan
1 credit
Prerequisites: SBM 101, 103, 106, 108, 110 and 112 or instructor permission
SBM 113 is the final course in the small business certificate program. You will write a business plan from the material they have developed in the other courses.

SBM 175 Special Topics
1-3 credits
SBM 175 provides you with a vehicle to pursue in depth exploration of special topics of interest.

SBM 185 Independent Study
1 credit
Prerequisite: Permission of instructor
SBM 185 meets the individual needs of students. You will engage in intensive study or research under the direction of a qualified instructor.

SCI – Science
www.rrcc.edu/science/

SCI 155 Integrated Science I with Lab
4 credits
SCI 155 examines the nature of energy and matter, their interactions and changes, and the application of fundamental concepts to the study of our natural world.
SCI 156 Integrated Science II with Lab
4 credits
SCI 156 examines earth and biological systems, living and non-living environments, through the application and refinement of fundamental energy and matter concepts.

SOC 105 Socio-History US Race/ Ethnicity
3 credits
SOC 105 explores the Socio-Historical context by which the US developed its diverse racial and ethnic makeup. Theories of Integration and Serration will be explored across the eras. Changing US immigration, naturalization, prejudice and discrimination across the centuries will be addressed.

SOC 158 Men’s Roles in Families and Society: An Introduction to Fatherhood
3 credits
SOC 158 examines men as fathers as well as their role in the wider culture. It seeks to enhance the personal, historical, professional and behavioral awareness of fathers and the professionals who serve them.

SOC 215 Contemporary Social Problems
3 credits
SOC 215 critically explores current social issues that result in societal problems. This course adopts a social constructionist perspective to focus on such issues as civil liberties, gender discrimination, substance abuse, crime, poverty and social change.

SOC 102 Introduction to Sociology II
3 credits
SOC 102 is a continuation of introduction to Sociology 101. This course is devoted to examining “social institutions” and their representative organizations from a macro-micro perspective. It critically explores issues of social change, demography, social movements, and conflicts and trends within political, economic, educational, religious, and familial structures.

SOC 205 Sociology of Family Dynamics
3 credits
SOC 205 develops an understanding of marriage, family and kinship. The course examines the family as an institution and how social, cultural and personal factors influence family relations. The stability and diversity of the family will be explored, along with current trends and some alternative lifestyles.

SCI 156 Integrated Science II with Lab
4 credits
SCI 156 examines earth and biological systems, living and non-living environments, through the application and refinement of fundamental energy and matter concepts.

www.rrcc.edu/sociology/

SOC 101 Introduction to Sociology I
3 credits
SOC 101 examines the basic concepts, theories and principles of sociology, as well as human culture, social groups, the role of society in the development of self, deviance, and the social issues of age, gender, class, race and ethnicity in contemporary society.

SOC 102 Introduction to Sociology II
3 credits
SOC 102 is a continuation of introduction to Sociology 101. This course is devoted to examining “social institutions” and their representative organizations from a macro-micro perspective. It critically explores issues of social change, demography, social movements, and conflicts and trends within political, economic, educational, religious, and familial structures.

SOC 218 Sociology of Diversity
3 credits
SOC 218 explores the variety of intergroup relations regarding race, nationality, ethnicity, gender, sexual orientation, and other diversity issues. Patterns of prejudice, discrimination and possible solutions to these issues will be addressed.

SOC 201 Introduction to Gerontology
3 credits
SOC 201 acquaints you with the major issues and concepts pertinent to the field of gerontology. The course introduces various theoretical perspectives on aging, the changing trends in life expectancy and other demographic considerations, and the interrelationship between elders and key social institutions. It provides an overview of physical, cognitive, and socioemotional factors associated with aging.

SOC 101 Introduction to Sociology I
3 credits
SOC 101 examines the basic concepts, theories and principles of sociology, as well as human culture, social groups, the role of society in the development of self, deviance, and the social issues of age, gender, class, race and ethnicity in contemporary society.

SOC 203 Urban-Socio Anthropology
3 credits
SOC 203 examines how cities and city life are shaped by cultural, social, political, and economic forces operating at many different levels. Additionally, SOC 203 examines the history and theoretical roots of urban anthropology and sociology, ethnographic fieldwork in urban environment, and urban social organization in cross-cultural perspectives.

SOC 201 Introduction to Gerontology
3 credits
SOC 201 acquaints you with the major issues and concepts pertinent to the field of gerontology. The course introduces various theoretical perspectives on aging, the changing trends in life expectancy and other demographic considerations, and the interrelationship between elders and key social institutions. It provides an overview of physical, cognitive, and socioemotional factors associated with aging.

SOC 205 Sociology of Family Dynamics
3 credits
SOC 205 develops an understanding of marriage, family and kinship. The course examines the family as an institution and how social, cultural and personal factors influence family relations. The stability and diversity of the family will be explored, along with current trends and some alternative lifestyles.

SOC 212 Research in Social Sciences
3 credits
SOC 212 introduces social research methods with an emphasis on the scientific method and the role of empirical inquiry into sociology. This course will include the study of methodologies of data collection and analysis, the logic of research, the role of theory, measurement, sampling and research designs. Field research and the professional norms and ethics of social research will also be covered.

SOC 201 Introduction to Gerontology
3 credits
SOC 201 acquaints you with the major issues and concepts pertinent to the field of gerontology. The course introduces various theoretical perspectives on aging, the changing trends in life expectancy and other demographic considerations, and the interrelationship between elders and key social institutions. It provides an overview of physical, cognitive, and socioemotional factors associated with aging.

SOC 203 Urban-Socio Anthropology
3 credits
SOC 203 examines how cities and city life are shaped by cultural, social, political, and economic forces operating at many different levels. Additionally, SOC 203 examines the history and theoretical roots of urban anthropology and sociology, ethnographic fieldwork in urban environment, and urban social organization in cross-cultural perspectives.

SOC 205 Sociology of Family Dynamics
3 credits
SOC 205 develops an understanding of marriage, family and kinship. The course examines the family as an institution and how social, cultural and personal factors influence family relations. The stability and diversity of the family will be explored, along with current trends and some alternative lifestyles.

SOC 212 Research in Social Sciences
3 credits
SOC 212 introduces social research methods with an emphasis on the scientific method and the role of empirical inquiry into sociology. This course will include the study of methodologies of data collection and analysis, the logic of research, the role of theory, measurement, sampling and research designs. Field research and the professional norms and ethics of social research will also be covered.

SOC 215 Contemporary Social Problems
3 credits
SOC 215 critically explores current social issues that result in societal problems. This course adopts a social constructionist perspective to focus on such issues as civil liberties, gender discrimination, substance abuse, crime, poverty and social change.

SOC 216 Sociology of Gender
3 credits
SOC 216 gives you the theoretical and factual background necessary to understand the phenomenon of gender stratification in American and other cultures. You will be exposed to a history of gender stratification in human societies, theoretical explanations for this and insights into the consequences of gender differentiation in our world today.

SOC 218 Sociology of Diversity
3 credits
SOC 218 explores the variety of intergroup relations regarding race, nationality, ethnicity, gender, sexual orientation, and other diversity issues. Patterns of prejudice, discrimination and possible solutions to these issues will be addressed.

SOC 222 Ageing in a Diverse Society
3 credits
SOC 222 Ageing in a Diverse Society examines the present and future roles of the aged in the family, the community, and the workplace. Economic, political, health, and retirement systems will be studied.

SOC 223 Chicanos in A Changing Society
3 credits
SOC 223 Chicanos in A Changing Society explores the lives and roles of Chicanos and Chicanas (Americans of Mexican descent). It introduces students to the Chicano community, its historical, political and social development. It
explores the ways in which Chicano communities interrelate with Anglo and multicultural societies as well as its future prospects.

**SOC 231 Sociology of Deviant Behavior**
**3 credits**
SOC 231 examines the nature, identification, and explanation of deviant categories. Theories, and philosophies as well as methods of treatment related to deviancy will also be considered. The course will study society’s attempts to control, change, and institutionalize those acts, individuals or groups that a population may deem unacceptable.

**SOC 237 Death and Dying**
**3 credits**
SOC 237 provides an opportunity to familiarize you and professionals with the needs and issues surrounding dying and death. This course will provide sociological, psychological, religious, historical and anthropological perspectives for interpreting contemporary American customs dealing with dying, death and bereavement. We will examine the professions associated with death and dying, such as hospice, funeral and crematory institutions, and medical care.

**SOC 265 Violence and Culture**
**3 credits**
SOC 265 examines the concepts, relationships, organizations, and research as they relate to violence in multiple cultural settings. This course assists in developing an understanding of societal and institutional causes of violence; explores resources for intervention and treatment; and provides service learning applications in violence assessment, treatment, and victim assistance.

**SOC 275 Special Topics in Sociology**
**3 Credits**
SOC 275 provides you with a vehicle to pursue in depth exploration of special topics of interest.

**SOC 280 Internship**
**1-3 credits**
Provides students with the opportunity to supplement coursework with practical work experience related to their educational program. Students work under the immediate supervision of experienced personnel at the business location and with the direct guidance of the instructor.

**SOC 285 Independent Study**
**3 credits**
SOC 285 meets the individual needs of students. You will engage in intensive study or research under the direction of a qualified instructor.

**SOC 289 Capstone**
**3 credits**
SOC 289 studies and applies the theories and techniques of leadership and group processes. In addition, SOC 289 introduces leadership skills and experiences with applications in group and community settings.

**SOC 292 Service Learning**
**1-3 credits**
Allows the student to provide a service to the community utilizing knowledge and skills acquired from a course in which the student is currently enrolled or has previously taken at the student’s respective college.

**SPA – Spanish**

[www.rrcc.edu/languages/](http://www.rrcc.edu/languages/)

**SPA 101 Conversational Spanish I**
**3 credits**
SPA 101 provides beginning students with the skills necessary to understand and speak Spanish. The material includes basic vocabulary, grammar, and expressions that are used in daily situations and in travel.

**SPA 102 Conversational Spanish II**
**3 credits**
Prerequisite: SPA 101 or permission of instructor.
SPA 102 provides you with the skills necessary to understand and speak Spanish. The material continues to cover basic conversation patterns, expressions, and grammar.

**SPA 109 Spanish for Travelers**
**2 credits**
SPA 109 introduces the basic vocabulary and expressions useful to travelers in the Spanish speaking countries. The course will concentrate on the customs, traditions and cultural attitudes to be discovered by visitors to the destination country. Cultural diversity and global awareness are integral to this course of study. This course does not fulfill Humanities area requirements and is not intended for transfer.

**SPA 111 Spanish Language I**
**5 credits**
SPA 111 deals with the development of functional proficiency in listening, speaking, reading and writing the Spanish language. Note: The order of the topics and methodology will vary according to individual texts and instructors.

**SPA 112 Spanish Language II**
**5 credits**
Prerequisite: SPA 111 or instructor permission.
SPA 112 continues Spanish Language I in the development of functional proficiency in listening, speaking, reading and writing the Spanish language. Note: The order of the topics and the methodology will vary according to individual texts and instructors.

**SPA 115 Spanish for the Professional I**
**3 credits**
SPA 115 is designed as an introduction to working knowledge of the target language, cultural behaviors and values useful in various professional fields such as health care, law enforcement, bilingual education, business, and others.

**SPA 211 Spanish Language III**
**3 credits**
Prerequisite: SPA 112 or instructor permission.
SPA 211 continues Spanish Language I and II in the development of increased functional proficiency in listening, speaking, reading and writing the Spanish language. Note: The order of
the topics and the methodology will vary according to individual texts and instructors.

SPA 212 Spanish Language IV
3 credits
Prerequisite: SPA 211 or instructor permission.
SPA 212 continues Spanish Language I, II and III in the development of increased functional proficiency in listening, speaking, reading and writing the Spanish language. Note: The order of the topics and the methodology will vary according to individual texts and instructors.

SPA 215 Spanish for the Professional II
3 credits
SPA 215 continues Spanish 115 in the development of a working knowledge of the target language, cultural behaviors and values useful in various professional fields such as health care, law enforcement, bilingual education, business, and others.

SPA 275 Special Topics
1- 6 credits
SPA 275 provides you with a vehicle to pursue in depth exploration of special topics of interest.

SPA 285 Independent Study
1-6 credits
Prerequisite: Permission of the Instructor.
SPA 285 meets the individual needs of students. You will engage in intensive study or research under the direction of a qualified instructor.

TEC – Technical

TEC 205 Geometric Dimensioning and Tolerancing
3 credits
TEC 205 enables you to interpret geometric dimensioning and tolerancing (GDT) in machining or drafting. The course covers math formulas, tolerancing systems, modifiers, symbols, datums, and tolerances of form, profile, orientation, runout, and location. You will learn that the generation of a working drawing is a team effort among design, drafting, manufacturing, and quality control.

THE – Theatre Arts

www.rccc.edu/theatre/

THE 100 Technical Theatre Lab
1-3 credits
THE 100 provides you with safety training for working with equipment used for technical theatre, as well as hands-on experience in one or all of the following areas: stage lighting, set construction, stage properties, costuming, and makeup.

THE 104 Basic Costume and Apparel Construction
3 credits
THE 104 provides you with training in cutting and sewing techniques, as well as knowledge of fabric types, qualities, uses, and cleaning.

THE 105 Introduction to Theatre Arts
3 credits
THE 105 includes discussions, workshops, and lectures designed to discover, analyze, and evaluate all aspects of the theatre experience: scripts, acting, directing, staging, history, criticism, and theory.

THE 109 Basics of Pattern Drafting
3 credits
Prerequisite: THE 104 or permission of instructor.
THE 109 provides you with basic techniques in pattern drafting. Techniques will include exploring computer design as well as traditional drafting methods.

THE 111 Acting I
3 credits
THE 111 covers basic acting techniques and approaches including scene study, improvisation, and script analysis. The course includes practical application through classroom performance.

THE 112 Acting II
3 credits
Prerequisite: THE 111 or permission of instructor.
THE 112 continues to explore basic acting techniques and approaches including scene study, improvisation, and intermediate script analysis. The course includes practical application through classroom performance.

THE 115 – Stage Movement for Actors
3 credits
THE 115 introduces the vocabulary of human movement, techniques of physical training, and anatomy and kinesiology for the actor. The course includes forms of basic dance and the coordination of movement with vocal delivery.

THE 116 Technical Theatre
3 credits
THE 116 introduces hands-on methods of constructing and painting scenery and properties and operating stage lighting. You will also learn the proper procedures of using shop equipment and serving on stage crews.

THE 118 Acting Skills Trades/ Business
3 credits
THE 118 incorporates acting skills that are useful for everyday interactions and public presentations. You can improve your personality habits through acting exercises to become more effective in your daily relationships and communication skills and also in presenting yourself in public. This class is especially for those who don’t want to be actors but who would like to learn how to be more comfortable on the “stage” of life.

THE 120 Drafting for the Performing Arts
3 credits
Prerequisite: THE 116 or permission of instructor.
THE 120 teaches you to apply basic drafting techniques to various performing arts applications and venues such as ground and lighting plots for stage, film, dance, and music. Other projects will include design layouts, working, and detailed isometric
drawings. Attention will be given to drawing symbols, notations, dimensions, and blueprint reading.

THE 125 Individual Singing Lessons for Musical Theater 0.5 credits
THE 125 focuses on basic vocal technique including breath support, belt technique, diction, body alignment, expressive communication, stage presence, and microphone techniques. Various repertoire and styles are explored. The course includes a final performance before an invited audience.

THE 126 Auditioning for Musical Theater 3 credits
THE 126 builds a confident, talented, and exciting audition. The course includes a mock video taped audition, and covers résumés, head shots, repertoire choices, stage fright, 16-bar audition, and dressing for success. This course is presented in conjunction with producers from regional theaters, providing valuable feedback for the participants.

THE 131 Theatre Production I 3 credits
Prerequisite: THE 111, THE 112, or permission of instructor
THE 131 allows you to put into practice theories of theatre production. Participation in set construction, scenic artistry, costuming, lighting, sound, acting, stage managing, and administration is available.

THE 132 Theatre Production II 3 credits
Prerequisites: ENG 060, REA 090, THE 111, THE 112, or permission of instructor
THE 132 allows you to put into practice theories of theatre production. Participation in set construction, scenic artistry, costuming, lighting, sound, acting, stage managing, and administration is available.

THE 135 Stage Makeup I 2 credits
THE 135 covers makeup design and application techniques. Techniques include basic corrective, character, old age, and fantasy application.

THE 136 Stage Makeup II 2 credits
Prerequisite: THE 135
THE 136 continues to explore theatrical makeup design and application techniques. In addition, prosthetics, hair design, and other more advanced applications will be explored.

THE 140 Stage Dialects 1 credit
THE 140 teaches you to develop skills in nine dialects and accents.

THE 141 Improvisation I 1 credit
Prerequisite: THE 131, THE 111, or permission of instructor
THE 141 helps you learn improvisation skills for performance and character development. Emphasis is placed on the “Second City” style of improvisation.

THE 142 Improvisation II 1 credit
Prerequisite: THE 141, THE 111, or permission of instructor
THE 142 helps you continue developing improvisation skills learned in THE 141. Exercises are more advanced and difficult. Level of instruction is appropriate for experienced and/or advanced actors.

THE 143 Basic Acting Technique 1 credit
Prerequisite: THE 141, THE 111, or permission of instructor
THE 143 offers scene work and acting exercises for people with little or no training or experience in the theatre. The Stanislavski System of character analysis and development is stressed.

THE 144 Scene Study 1 credit
Prerequisite: THE 143, THE 111, or permission of instructor
THE 144 emphasizes the Stanislavski approach. You will explore acting skills through advanced material, including avant garde and classical.

THE 151 Stagecraft I 3 credits
Prerequisite: THE 116 or permission of the instructor.
THE 151 focuses upon fundamental theories and construction of flats, platforms, stair units, soft scenery, and other aspects of stagecraft.

THE 152 Production Stage Management I 3 credits
Prerequisite: THE 116 or permission of the instructor.
THE 152 focuses on the basics of stage management, including making a stage manager’s book, organizational methods and protocols of production, calling cues in production, and personnel relationships and responsibilities.

THE 165 The Costume and Fashion Industry 3 credits
Prerequisite: THE 143 or THE 144, or THE 111 or permission of instructor
THE 165 focuses on the selection and preparation of audition materials, including prepared monologues, cold readings, and improvisation techniques. The basics of résumé preparation are also discussed.

THE 210 Singing for Actors 3 credits
THE 210 allows you to explore and perform musical theatre songs. You will use a pedagogical approach to evaluate your vocal structure and formulate a systematized series of vocal and whole body exercises to develop and enhance your self-confidence and vocal instrument through in-class performance and variety show presentation.

THE 211 Development of Theatre I 3 credits
Prerequisite: THE 116 or permission of the instructor.
THE 211 surveys the history and evolution of drama from Ancient Greece to the Renaissance, emphasizing all aspects of the art from period values to analysis of dramatic literature and performance.
THE 212 Development of Theatre II
3 credits
THE 212 surveys the history and evolution of drama from the Renaissance to the present, emphasizing all aspects of the art from period values to the analysis of dramatic literature and performance.

THE 213 Intermediate Acting I
3 credits
THE 213 continues THE 112. Emphasis is on artistic concentration of voice and movement. A detailed character biography is required.

THE 214 Intermediate Acting II
3 credits
THE 214 emphasizes artistic concentration of voice and movement. Detailed character biography is required. This course is a continuation of THE 213.

THE 215 Playwriting
3 credits
THE 215 gives you the opportunity to learn and practice playwriting techniques, thereby improving creative writing skills. Elements of dramatic structure, dialogue, styles, and theatrical practices are emphasized.

THE 216 Theatre Lighting and Design
3 credits
Prerequisite: THE 116 or permission of the instructor.
THE 216 focuses on the theory and practice of stage lighting. Topics include basic electrical theory, color theory, rigging and design of lighting for the performing arts.

THE 217 Directing I
3 credits
Prerequisite: THE 111 or permission of instructor
THE 217 covers basic techniques for stage directing in contemporary theatre. Topics to be covered include stage composition, script analysis, work with actors, and the collaborative role of the director.

THE 218 Set Design
3 credits
Prerequisite: THE 116 or permission of instructor.
THE 218 emphasizes two-and three-dimensional drawings and designs and color theory. Basic methods of artistic analysis and coordinating with other creative personnel are included. You will construct 3-D models and a theatrical stage set.

THE 219 Sound Operation and Design
2 credits
THE 219 is designed for you to understand and apply fundamental processes required to create a conceptual sound design for a stage play.

THE 220 Directing II
3 credits
Prerequisite: THE 219 or permission of the instructor.
THE 220 continues to explore basic technique for stage directing in contemporary theatre. Subjects to be covered are stage composition, script analysis, work with actors, and the collaborative role of the director. You will direct a one-act theatre piece for the final project.

THE 221 Theatre Production III
3 credits
THE 221 allows you to continue to put into practice the theories of theatre production. Participation in set construction, scenic artistry, costuming, lighting, sound, acting, stage-managing, and administration are available.

THE 222 Theatre Production IV
3 credits
Prerequisites: THE 111, THE 112 or permission of the instructor.
THE 222 allows you to put into practice theories of theatre production. Participation in set construction, scenic artistry, costuming, lighting, sound, acting, stage managing, and administration is available.

THE 230 Directing II
3 credits
Prerequisite: THE 219 or permission of the instructor.
THE 230 continues to explore basic technique for stage directing in contemporary theatre. Subjects to be covered are stage composition, script analysis, work with actors, and the collaborative role of the director. You will direct a one-act theatre piece for the final project.

THE 231 Theatre Production III
3 credits
Prerequisites: THE 111, THE 112 or permission of the instructor.
THE 231 allows you to continue to put into practice the theories of theatre production. Participation in set construction, scenic artistry, costuming, lighting, sound, acting, stage-managing, and administration are available.

THE 232 Theatre Production IV
3 credits
Prerequisites: THE 106 and THE 108
THE 232 explores the basics of costume design and color theory. Construction techniques using regular and industrial sewing machines will be applied in constructing costumes and accessories. You will be introduced to pattern drafting.

THE 233 Costumes and Fashion Design
3 credits
Prerequisites: THE 106 and THE 108
THE 233 explores the basics of costume design and color theory. Construction techniques using regular and industrial sewing machines will be applied in constructing costumes and accessories. You will be introduced to pattern drafting.

THE 234 Stage Properties Design
3 credits
Prerequisites: THE 106 and THE 108
THE 234 explores the basics of costume design and color theory. Construction techniques using regular and industrial sewing machines will be applied in constructing costumes and accessories. You will be introduced to pattern drafting.

THE 235 Theatre Management
3 credits
Prerequisites: THE 111, THE 112 or permission of the instructor.
THE 235 allows you to put into practice theories of theatre production. Participation in set construction, scenic artistry, costuming, lighting, sound, acting, stage managing, and administration is available.

THE 236 Technical Theatre Production
3 credits
Prerequisites: THE 111, THE 112 or permission of the instructor.
THE 236 allows you to put into practice theories of theatre production. Participation in set construction, scenic artistry, costuming, lighting, sound, acting, stage managing, and administration is available.

THE 237 History of Costumes and Fashion
3 credits
THE 237 provides an examination of the clothing and accessories used by humans around the world from Prehistoric to Modern times.

THE 238 Stage Properties Design
3 credits
Prerequisites: THE 106 and THE 108
THE 238 explores the basics of costume design and color theory. Construction techniques using regular and industrial sewing machines will be applied in constructing costumes and accessories. You will be introduced to pattern drafting.

THE 239 Costume Design and Construction
3 credits
Prerequisites: THE 106 and THE 108
THE 239 explores the basics of costume design and color theory. Construction techniques using regular and industrial sewing machines will be applied in constructing costumes and accessories. You will be introduced to pattern drafting.

THE 240 Technical Theatre Production
3 credits
Prerequisites: THE 106 and THE 108
THE 240 allows you to put into practice theories of theatre production. Participation in set construction, scenic artistry, costuming, lighting, sound, acting, stage managing, and administration is available.

THE 241 Stage Properties Design
3 credits
Prerequisites: THE 106 and THE 108
THE 241 allows you to put into practice theories of theatre production. Participation in set construction, scenic artistry, costuming, lighting, sound, acting, stage managing, and administration is available.

THE 242 Technical Theatre Production
3 credits
Prerequisites: THE 106 and THE 108
THE 242 allows you to put into practice theories of theatre production. Participation in set construction, scenic artistry, costuming, lighting, sound, acting, stage managing, and administration is available.

THE 243 Costume Design and Construction
3 credits
Prerequisites: THE 106 and THE 108
THE 243 explores the basics of costume design and color theory. Construction techniques using regular and industrial sewing machines will be applied in constructing costumes and accessories. You will be introduced to pattern drafting.

THE 244 Technical Theatre Production
3 credits
Prerequisites: THE 106 and THE 108
THE 244 allows you to put into practice theories of theatre production. Participation in set construction, scenic artistry, costuming, lighting, sound, acting, stage managing, and administration is available.
THE 284 Internship
1-6 credits
THE 284 provides you with the opportunity to supplement course work with practical work experience related to your educational program. You will work under the immediate supervision of experienced personnel at the business location and with the direct guidance of the instructor.

THE 285 Independent Study
1 credit
THE 285 emphasizes structured and guided individualized study that is organized and tailored around the interests and needs of the individual student.

WQM – Water Quality Management Technology

www.rrcc.edu/wqm/

(All courses are approved for OCPO training units. TU's)

WQM 100 Introduction to Water Quality Management
3 credits
WQM 100 introduces the water and wastewater treatment field and acquaints the prospective technicians with the applied science concepts that are used to operate, maintain and monitor water quality. Topics include hydrological cycle, water sources, hydraulics, ecosystems, pollution, water chemistry, water calculations, microbiological aspects of water and water quality control.

WQM 105 Specific Calculations for Water Quality Management
4 credits
WQM 105 provides you with an in-depth study of the calculations associated with water and wastewater treatment. Topics include dimensional analysis, detention time, surface loading, filtration and backwash rates, settleable solids, volatile solids, mean cell residence times, settleability, disinfection, and chemical dosage as relating to trickling filters, ponds, RBC and activated sludge.

WQM 106 Mechanical-Physical Treatment
3 credits
WQM 106 serves as a basic introduction into wastewater treatment. Topics include the technician and their responsibility, effects of waste discharges, natural cycles, solids in wastewater, NPDES permits, collection systems, pretreatment, primary treatment, secondary treatment, advanced treatment, flow measuring, solids handling and disposal.

WQM 107 Biological Treatment
3 credits
WQM 107 covers the major types of wastewater treatment processes, including trickling filters, rotating biological contactors, lagoons and activated sludge. Topics of each system include: design, operating guidelines, process control, testing procedures, maintenance and safety.

WQM 108 Sludge Treatment
3 credits
WQM 108 includes aerobic and anaerobic digestion; solids thickening using gravity, dissolved air, centrifuge, vacuum filters and drying beds; sludge stabilization by chemical means; sludge conditioning by chemical, thermal, wet oxidation or elutriation; volume reduction by composting or mechanical drying; sludge destruction by incineration; sludge storage; and land disposal with environmental controls.

WQM 109 Water Distribution Systems
3 credits
WQM 109 covers the purpose, selection and location of water storage facilities and the operation and maintenance of related equipment. Topics include storage facilities and capabilities, booster pumps, water mains and appurtenances, joints, pipe protection and installation, valves, fittings, and hydrants. Water quality standards, contaminants and degradation inspection and monitoring, system troubleshooting, are also covered.

WQM 110 Water Quality Analysis
4 credits
WQM 110 relates the results of laboratory control tests to the chemistry of water and wastewater treatment. You will gain the skills and techniques to operate within a laboratory. Topics include laboratory equipment and instrumentation identification, written reports and laboratory tests. Laboratory testing includes hardness, alkalinity,
dissolved oxygen, biochemical oxygen demand, inorganic chemicals, pH and disinfectant residuals.

WQM 120 Water Quality Equipment Maintenance
4 credits
WQM 120 provides an in-depth understanding of mechanical and electrical equipment maintenance. Topics include correct use of power and hand tools, preventive and repair maintenance of pumps, motors, chlorinators, motor control units, and other treatment plant equipment and safety procedures.

WQM 121 Environmental Sampling and Volume Measurement
3 credits
WQM 121 is designed to provide you with the knowledge and skills to collect contaminant samples for laboratory analysis, to select and prepare appropriate sample containers; to keep accurate sampling records; access sampling sites and do composite sampling. This course also provides sampling safety skills and sampling quality control and assurance methods.

WQM 122 Instrumentation and Electrical Control
3 credits
WQM 122 provides an understanding of electrical theory, various types of electrical instrumentation equipment found in treatment facilities, operation, troubleshooting electrical problems and safety procedures.

WQM 123 Water Reuse Systems
3 credits
WQM 123 discusses the new and developing area in the industry known as Reuse. Topics include, development, treatment techniques, operations, equipment, source and application uses for wastewater Reuse systems as well as future planning for long term use in the industry.

WQM 124 Water Certification Review for Class C and D
3 credits
WQM 124 helps prepare you for the operators certification test in water at the C or D level. Topics include water principles, mathematics, hydraulics, water filtration, chemical treatment, source control, basic operations, Colorado Primary Drinking Water Regulations, housekeeping and laboratory analysis.

WQM 125 Wastewater Certification Review for Class C and D
3 credits
WQM 125 helps you prepare for the operators certification test in wastewater at the C or D level. Topics include wastewater principles, mathematics, hydraulics, conventional treatment of wastewater, wastewater sedimentation, Colorado Water Quality Control Act, biological treatment of wastewater, effluent standards for wastewater, sludge handling and disposal, disinfection, pumps, safety, housekeeping, and laboratory analysis.

WQM 126 Safety and Security Systems in the Water Quality Industry
3 credits
WQM 126 covers the safety aspects in the water and wastewater industry. Topics include development of safety policies and programs, job safety orientation, driving practices, CPR/first aid, confined spaces, hazardous communication, safety with energy electrical, mechanical, thermal and pressure, trenching, street work, laboratory, treatment equipment, construction vehicles/equipment and chlorine and other chemicals, security and safety standards.

WQM 150 Troubleshooting
3 credits
WQM 150 provides you with troubleshooting practices and procedures for chemical adjustments, equipment failures; electrical, mechanical, pneumatic and hydraulic, source contamination, system control procedures and redundancies.

WQM 160 Source Water Management
3 credits
WQM 160 provides the student with the opportunity to study water resources in the industry. This course is designed to aid with future planning strategies with source water management practices including both ground water and surface water sources. Topics include, demand forecasting, water rights, alternative sources, storage, injection and hydraulic modeling, watershed management and integrated resource planning.

WQM 200 Hydraulics for Water Quality Management
4 credits
WQM 200 introduces the mathematical principles of density, specific gravity, pressures horsepower and energy costs, velocities, weirs, Parshall flumes, venture meters, California pipe method, flows from open-end pipes, settling velocities and classification of flow, distribution system friction losses.

WQM 206 Design Interpretations of Water Quality Systems
4 credits
WQM 206 provides an in-depth study and interpretation of blueprints, scale drawings, contour maps, profile drawings and symbols application to treatment facilities. The course also includes basics in HVAC, lighting, construction techniques, building materials and energy conservation.

WQM 207 Operations and Control of Activated Sludge Systems
4 credits
WQM 207 provides a basic engineering overview of the activated sludge process and develops all process control activities around the biology of the treatment system. Topics include: settle-o-meters, flow concentrations, and oxygen uptake, turbidity, microscopic examination of organisms, trend charting, process control strategies. Classroom activities are reinforced by field trips to various treatment facilities.

WQM 208 Advanced Wastewater Treatment
3 credits
WQM 208 prepares you for the advanced stages of solids removal, nitrogen removal, solids removal, effluent disposal and wastewater reclamation. Topics include: design,
troubleshooting, maintenance, startup and shutdown, monitoring and interpretation of test results.

WQM 212 Drinking Water Regulations
4 credits
WQM 212 instructs you on application, interpretation and implementation of the Colorado Primary Drinking Water Regulations as they apply to all types and sizes of public water systems and their source water.

WQM 216 Biological and Bacteriological Water Quality Analysis
4 credits
Prerequisite: WQM 119
WQM 216 studies microorganisms associated with all phases and concerns of water and wastewater treatment including bacteria, protozoa and algae. Topics include: microorganisms used in treatment, as indicators and the pathogens; regulations, health hazards and laboratory safety. Laboratory work involves media preparation, coliform testing, standard plate count, and biomonitoring.

WQM 217 Disinfection Techniques in Water Quality Systems
4 credits
WQM 217 provides an understanding of disinfection alternatives used in treatment systems such as chlorine, ozone, ultraviolet light and bromine chloride. Topics include chemistry, equipment/maintenance, startup/shutdown procedures, hazards, safety and troubleshooting.

WQM 224 Water Treatment Certification Review for A and B
3 credits
WQM 224 prepares the student for the water operations certification exam at the A and B level. Topics include water treatment principles, water filtration, chemical treatment, Colorado Primary Drinking Water Regulations, calculations, instrumentation, equipment operation and maintenance, utility management, laboratory analysis, and water quality control.

WQM 225 Wastewater Treatment Certification Review for A and B
3 credits
WQM 225 prepares the student for the wastewater operations certification at the A and B level. Topics include activated sludge, nutrient removal, digestion, solids handling, effluent removal, odor control, wastewater reclamation, discharge permit regulations and reporting, calculation, instrumentation, equipment operations and maintenance, laboratory analysis and utility management.

WQM 230 Industrial Monitoring and Treatment
3 credits
WQM 230 provides an understanding of industrial treatment. Various types of treatment systems are reviewed. Also included are safety, collection and preserving of samples, establishing an industrial monitoring program, operational strategies, interpretation of laboratory results, startup/shutdown of systems, maintenance, plans and specification, various types of industrial wastes, and troubleshooting.

WQM 280 Internship
1-6 credits
Contact the Water Quality Management Technology department for information about this course at 303.914.6325.

WQM 285 Independent Study
1-6 Credits
Contact the Water quality management Technology department for information about this course at 303.914.6325.

WEL – Welding

WEL 100 Safety for Welders
1 credit
WEL 100 covers the hazards of welding on health and safety, locating essential safety information from a code or other standard, and identifying and applying shop safety procedures.

WEL 101 Allied Cutting Processes
4 credits
WEL 101 covers setting up equipment and performing cutting and gouging operations utilizing the oxyacetylene, air carbon arc, and plasma arc cutting processes. This course will also provide an introduction to blueprint reading.

WEL 102 Oxyacetylene Joining Processes
4 credits
WEL 102 introduces safety inspections, minor repairs, operating parameters, oxyacetylene welding equipment, and oxyacetylene welding, brazing, and soldering operations. Blueprint reading skills will be practiced in this course.

WEL 103 Basic Shielded Metal Arc I
4 credits
WEL 103 covers performing safety inspections, minor repairs, adjusting operating parameters, and operating SMAW equipment utilizing E-6010 and E-7018 electrodes. Layout procedures and practices will also be introduced.

WEL 110 Advanced Shielded Metal Arc I
4 credits
WEL 104 covers safety inspections, minor repairs, operating parameters, operation of SMAW equipment, and SMAW operations on groove and fillet welds utilizing E-6010 and E-7018 electrodes. Layout procedures will be practiced during this course.

WEL 124 Introduction to Gas Tungsten Arc Welding
4 credits
WEL 124 covers welding in all positions and on various joint configurations using the GTAW (tig) welding process on carbon steel, stainless steel and aluminum. Student should be familiar with basic metallurgy pertaining to the weldability of metals, structural joints, and safety in the welding industry.
WEL 130 Maintenance Welding  
2 Credits  
Prerequisites: Permission of the instructor  
WEL 130 provides the student a basic understanding of the Oxyacetylene cutting and Arc welding processes, and introduction to the skills and techniques used to develop fillet and groove welds. Students will be introduced to oxyacetylene, shielded, gas metal arc welding equipment set up, and various welding techniques. Safety will be stressed during the course.

WEL 201 Gas Metal Arc Welding I  
4 credits  
WEL 201 covers safety inspections, minor repairs, operating parameters, operation of GMAW equipment on plain carbon steel utilizing short circuit and spray transfer, and fundamental metallurgy principles.

WEL 202 Gas Metal Arc Welding II  
4 credits  
WEL 202 covers safety inspections, minor repairs, operating parameters, operation of GMAW equipment utilizing a variety of electrodes and base metals, and fundamental principles of welding metallurgy to welding, fabrication, and inspection.

WEL 203 Flux Cored Arc Welding I  
4 credits  
WEL 203 covers safety inspections, minor repairs, operating parameters, operation of FCAW equipment utilizing self shielded wire, and principles of joint design, preparation, and material selection to welding operations.

WEL 204 Flux Cored Arc Welding II  
4 credits  
WEL 204 covers safety inspections, minor repairs, operating parameters, operating FCAW equipment utilizing gas shielded wire, and applying fundamentals of welding applications and cost estimating to welding, fabrication, and inspection.

WEL 224 Advanced Gas Tungsten Arc Welding  
4 credits  
WEL 224 covers welding in all positions on carbon steel, stainless steel and aluminum plate and carbon steel pipe with the GTAW process. Student should be familiar with basic metallurgy pertaining to the weldability of metals, structural joints, and safety in the welding industry.

WEL 250 Layout and Fabrication  
4 credits  
WEL 250 develops welding and associated skills in the use of drawings and blueprints in planning. Includes designing and layout projects.

Vice President, Administrative Services

Faculty

John Arnsparger
Faculty Emeritus, Accounting

Dean Barchers
Associate Professor, Math
M.S., University of Colorado at Colorado Springs, 1998; B.S., Oklahoma Christian University, 1990

Stephanie Berg Oram
Associate Professor, Music

Marjorie Berman
Faculty, History
Ph.D., University of Colorado, 1980; M.A., University of Colorado, 1974; B.A., Case Western Reserve University, 1972

Wendy Bird
Faculty, Business
J.D., Wayne State University, 1993; B.A., Saginaw Valley State University, 1989

Amy Braziller
Associate Professor, English
M.A., New York University, 1993; B.A., Empire State College, 1990

John Breece
Professor, Air Conditioning, Heating and Refrigeration

Bob Brown
Faculty, Fire Science
B.A., Regis University, 2004

Steve Brown
Faculty, Emergency and Medical Services
A.A.S., Red Rocks Community College, 2003

Peggy Burrus
Faculty, Business Technology
B.S., Oklahoma State University, 1975

Christie Burton
Faculty, Computer Information Systems/Computer Science
Microsoft Certified Systems Engineer; Microsoft Certified Trainer

Marty Calderone
Faculty, Math
M.S., Northern Arizona University, 1996; B.A., University of Alaska, 1991; B.A., University of Alaska, 1979

Johanna Carter
Faculty, English
M.A., George Mason University, 1980; B.S., West Chester State College, 1970

Gayle Crane
Faculty, Chemistry
Ph.D., University of Wyoming, 1994; B.A., Chadron State College, 1989

Kathleen DeVries
Faculty, Early Childhood Education
M.A., University of Colorado, 1995; B.A., Vassar College, 1974
Sherry Messina Dewald
Professor, Communication Studies
Ph.D., University of Denver, 2002;
M.A., University of South Dakota, 1977;
B.A., University of Illinois, 1974

Meredith Dick
Faculty, Foreign Language
M.A., University of Kansas, 2002;
B.A., University of Kansas, 1999

Kerry Edwards
Professor, Philosophy
Ph.D., Iliff School of Theology/University of Denver, 1989;
M.Rel., Wycliffe College, Toronto School of Theology/University of Toronto, 1981;
B.A., Roberts Wesleyan College, 1977

Eva Graziano
Faculty, Police Academy Director
B.A., University of Denver, 1984

Bill Haas
Associate Professor, Physical Education & Park Ranger Technology
M.A., University of Northern Colorado, 1998;
B.A., LaSalle University, 1970

Nora Hebert
Faculty, Biology
Ph.D., University of California at Berkeley, 1990;
A.B., University of California at Berkeley, 1983

Craig Hilton
Faculty Emeritus, Art
Licensed Master Plumber

Heather Himes
Faculty, Math
M.A.T., Northern Arizona University, 2001;
B.A., Fort Lewis College, 1998

Lynnette Hoerner
Faculty, Astronomy and Physics
M.S., University of Texas, Dallas, 1989;
B.S., Colorado School of Mines, 1986

Verne Ingram
Faculty, Accounting
M.A., University of Phoenix, 1994;
C.P.A., 1980;
B.S., University of Idaho, 1964

Pamela Jamruszka-Mencher
Professor, Speech
M.F.A., University of Wisconsin, 1981;
B.A., Loretto Heights College, 1967

Carla Joy
Faculty Emeritus, History
M.A., University of Denver, 1969;
A.B., Loretto Heights College, 1967

Steven Kaye
Associate Professor, Biology
M.Ed., University of Hawaii, 1984;
B.A., University of Hawaii, 1981

Liz Kleinfeld
Faculty, English
Ph.D., Illinois State University, 2006;
M.S., Illinois State University, 1994;
B.S., Bradley University, 1992

David Kriznar
Faculty, Computer Information System/Computer Science
A.A.S., Red Rocks Community College, 1987

Sharon Lantz
Faculty, K-12 Teacher Education
M.S., University of Southwestern Louisiana, 1996;
M.A., University of Northern Colorado, 1979;
B.S., Northern Arizona University, 1973

Terri Lukavitch
Professor, Criminal Justice
M.A., University of Northern Colorado, 1986;
B.A., University of Northern Colorado, 1978

Jonas Mabey
Faculty, Philosophy
M.A., St. Johns College, 2000;
M.A., St. Johns College, 1998;
B.A., Bermedji State University, 1996

Barbra Maher
Assistant Professor, Physics
M.S., University of Arizona, 1994;
B.S., Austin Peay State University, 1992;
A.S., San Jacinto College, 1989

Elyse Marsh
Faculty, English
M.F.A., University of Iowa, 2004
B.A., Smith College, 1998

Jequita Potts McDaniel
Faculty, Psychology
M.A., Regis University, 2000;
B.A., Metropolitan State College, 1984

David Nelson
Faculty Emeritus, History
Ph.D., University of Denver, 1969;
M.A., University of Denver, 1964;
B.A., University of Denver, 1963
Walter Nelson
Faculty Emeritus, Literature
M.A., University of Missouri, 1971;
B.A., California State College, Hayward, 1969

Thomas Niehoff
Professor, Math
M.S., University of Colorado at Denver, 1991;
B.S., University of Illinois, Champaign-Urbana, 1981;
A.A., Florida Junior College at Jacksonville, 1977

Niki Nolles
Professor, English
M.A., University of Nevada-Las Vegas, 1980;
B.A., University of Nevada-Las Vegas, 1976

Fawn Oates
Faculty, Psychology
M.A., University of Denver, 1999;
B.A., Sonoma State University, 1997;
A.A., Modesto Junior College, 1995

Delia Ochoa
Faculty, Engineering Graphics
B.A., Arte AC University, 1987

Terry Reeves
Faculty, Math
M.S., University of Colorado-Denver, 1992;
B.S., Oklahoma State University, 1989

Rand Richards
Faculty, Construction Technology
M.S., Montana State University, 1990;
B.S., Montana State University, 1988

Richard Roding
Assistant Professor, Accounting
B.S., Eastern Illinois University, 1970

Leticia Sara
Faculty, Political Science
M.A., University of Wyoming, 1998;
B.A., University of Wyoming, 1994

Berndt Savig
Assistant Professor, Art
M.F.A., University of Southern Mississippi, 2002;
B.A., University of Northern Colorado, 1988

Julie Schneider
Assistant Professor, Computer Information Systems/Computer Science
B.A., University of Northern Colorado, 1997

Christine Shock
Faculty, Multimedia
B.S.S.W., University of Alabama-Birmingham, 1992

Walt Schreibman
Professor Emeritus, Psychology
M.S., Purdue University, 1969;
B.A., University of Colorado, 1967

Chuck Smith
Associate Professor, Math
M.A., California State Polytechnic College-San Luis Obispo, 1969;
B.S., California State Polytechnic College-San Luis Obispo, 1968

Larry Snyder
Associate Professor, Air Conditioning, Heating and Refrigeration
Refrigerant Transition and Recovery Certification, Ferris State University;
Class A Mechanical License, City of Boulder;
National Center for Construction Education and Research Certification in HVAC and Electrical

Cindy Somers
Interim Director, PA Program
Faculty, Chemistry
Ph.D., University of Washington, 1989;
B.A., University of California, 1983

Ellen Speare
Faculty, Health Careers
B.A., San Jose State University, 1976;
A.A., Foothill College, 1973

John Sperling
Professor Emeritus, Carpentry
B.S., University of Colorado, 1970

Sally Stablein
Faculty, Social Sciences
M.A., Humboldt State University, 2001;
B.A., California State University San Marcos, 1998;
A.A., Palomar Community College, 1995

John D. Stanesco
Professor Emeritus, Geology
M.A., University of Northern Colorado, 1974;
B.A., Regis College, 1968

Rita Stoffel
Faculty, Medical Assisting
M.B.A., University of St. Thomas, 1985;
B.S., University of Minnesota, 1978

Irina Strelnikova
Faculty, Economics
M.A., Colorado State University, 2003;
B.A., Colorado State University, 2000

Rich Thatcher
Associate Professor, Electricity Industrial/Commercial
Licensed Master Electrician;
B.M.S., University of Tennessee, 2003;
A.A.S., Red Rocks Community College, 1997
B.U.S., The University of Tennessee, 2005

Bob Thomas
Faculty, Art
M.F.A., University of Denver, 1972;
B.F.A., Indiana University, Herron School of Art, 1969

Bill Thompson
Teacher, Mathematics
M.S., New Mexico State University, 1971;
B.S., New Mexico State University, 1969

Douglas Yates
Faculty, English
M.A., University of Nottingham, 1999;
B.A., Lehigh University, 1997
Laura A. Zeeman  
Assistant Professor, Geography/Anthropology/History  
M.A., University of Wisconsin, 1979;  
B.A., Southern Connecticut State University, 1977

Michele Haney  
President, President’s Office  
Ph.D., University of Wyoming, 1979;  
M.A., Chapman College, 1970;  
B.A., University of New Mexico, 1967

Rich Hawkins  
Executive Director, Rocky Mountain Education Center  
B.S., Indiana State University, 1979

Colleen Jorgensen  
Vice President, Instruction and Student Achievement  
Instructional Services  
M.S., University of Colorado at Denver, 1987;  
B.A., University of Northern Colorado, 1974

Kathryn Kaoudis  
Controller, Business Services  
B.S.B., Old Dominion University, 1985

Carolyn Mattern  
Director, Student Life  
B.S., University of Wisconsin, Milwaukee, 1977

Peggy Morgan  
Vice President, Administrative Services  
B.S., Mesa State College, 1996;  
B.S., Rutgers University, 1976

Robert Kraus  
Chief of Police, Student Services  
M.S., Regis University, 2000;  
B.S., Metropolitan State College of Denver, 1978;  
A.A., Arapahoe Community College, 1972

Dean Rathe  
Director, Enrollment Services  
Ph.D., University of Northern Colorado, 1990;  
M.A., University of Northern Colorado, 1982;  
B.A., St. Cloud, State University, 1977

Rick Reeves  
Dean of Instruction, Instructional Services  
M.S., University of Colorado at Denver, 1992;  
B.A., University of Colorado at Denver, 1990

Joan Smith  
Dean of Instruction and Institutional Strategic Planning, Planning Research and Strategic Initiatives  
M.P.A., University of Colorado at Denver, 2003;  
B.S., Colorado Christian University, 2000

Marilyn Smith  
Dean of Instruction, Instructional Services  
M.A., University of Washington, 1977;  
B.A., University of Colorado, 1975;  
A.A., El Paso Community College, 1973

Jen Squire  
Director, Human Resources  
M.A., Webster University, 1999;  
B.S., Metropolitan State College of Denver, 1998

Bruce Walthers  
Vice President, Student Services and Enrollment Management  
M.A., Bowling Green State University, 1978;  
B.A., Colorado State University, 1977

Rebecca Woulfe  
Director, Library and Alternative Delivery  
Instructional Services  
M.A., University of Colorado-Denver, 2000;

Clinical Coordinator, Radiology  
B.S., Midwestern State University, 2004; A.S., Horrey-Georgetown Technical College, 1995

Patricia Lopez  
Office Specialist, Rocky Mountain Education Center

Dan Macy  
Academic Advisor/Career Counselor, Arvada Campus  
M.A., University of San Francisco, 1993; B.A., San Jose State University, 1991; A.A., Foothill College, 1980

Lindsay Maitland  
Academic Advisor/Recruiter, Advising & Recruitment  
M.A., Longwood University, 2003; B.A., Virginia Tech, 2003

Kate Martinez  
Assistant Site Manager, School-Age Child Care

Kelly McDermott  
Director, Red Rocks Café  
B.S., Johnson & Wales University, 1992; A.S., Johnson & Wales University, 1990

Walker McDonald  
Assistant Coordinator, English Language Intercultural Services

Sandra McKinley  
Advisor, Financial Aid  
B.A., University of California, 1978

Molly McNally-Dunn  
Director, School-Age Child Care  
B.A., St. Joseph College, 1971

Marilyn Mercer  
Librarian, Library  

Judy Meza  
Coordinator, ESL, English Language Intercultural Services  
M.A., University of Illinois Chicago, 1988; B.A., University of Illinois Chicago, 1988

Deborah Nelson  
Early Care and Education Site Coach, Child Care Innovations  
B.S., Colorado Christian University, 1993

Cathy O’Connell  
Benefit Specialist, Human Resources

John O’Neill  
Telecommunications Technician, Audio-Visual  
B.S., University of Wisconsin, 1982

Elizabeth Ownsby  
OEM Intern, Office of Emergency Services  
A.S., Casper College, 2003
Susan Padgett  
Toddler/Preschool Teacher, Children’s Center

Elizabeth Parks  
Theatre Lab Assistant, Instructional Services  
M.A., Bowling Green State University, 2003;  
B.A., Franciscan University of Steubenville, 2000

Suzanne Payne  
Toddler/Preschool Teacher, Children’s Center

Thyra Powers  
Production Coordinator, Instructional Services  
M.S., University of Leiden, 1982;  
B.S., University of Leiden, 1980;  
A.A., Nieuwland Opleidingen, 1993

Kris Robledo  
Assistant Director, Child Care Innovations  
B.A., University of Northern Colorado, 1981

Cathy Rock  
Project Coordinator, Construction Technology  
Instructional Services  
Certificate of Construction Management, San Jose State University, 1990;  
B.A., Bucknell University, 1975

Stacy Roe  
Interpreter Coordinator, Special Services  
A.A.S., Front Range Community College, 2001

Scott Rolfe  
Bursar, Cashier’s Office  
B.B.A., New Mexico State University, 1991

Alice Rumph  
Coors Learning Center Manager, Rocky Mountain Education Center  
B.S., Ohio State University, 1965

Virginia Ryan  
Assistant Teacher, Children’s Center

Yukiko Saito  
Teacher’s Assistant, Children’s Center  
A.A. Oberlin College, 1975

Joseph Sanchez  
Director, Library Services and Learning Resources, Library  
M.L.I.S, San Jose State University, 2006;  
B.A., California State University, 1999;  
A.A., Palomar Community College, 1993

Micheala Sanders  
Office Specialist, Child Care Innovations

Kathy Schissler  
Assistant to the President, President’s Office

Ron Schuetz  
Technical Equipment Coordinator, Rocky Mountain Education Center  
A.A.S., Front Range Community College, 1993

Amy Seelbach  
Site Manager I, School-Age Child Care

Patrick Shannon  
Lab and Shop Manager, Construction Technology

Phyllis Simonton  
Family Child Care and Inclusion Specialist, Child Care Innovations

Kelly Slagel  
Site Manager I, School-Age Child Care

Tana Smith  
Medical Director, Physician Assistant Program  
B.S., University of Denver, 1994; M.S., University of Denver, 1996; M.D., University of Colorado, 2001

Anita Snyder  
Toddler Preschool Teacher, Children’s Center

Shawn Spencer  
Assistant Site Manager, School-Age Child Care

Mark Squire  
Coordinator, Student Life  
B.S., University of Northern Colorado, 1992;  
A.A.S., Red Rocks Community College, 1998

Jacquelyn Stanton  
Director, Special Services  
M.S.W., University of Denver, 1981;  
B.A., Colorado State University, 1979;  
M.S.W.; University of Denver, 1981

Andrew Stevens  
Coordinator, Institutional Research  
B.S.B.A., Colorado State University, 2005

Suzanne Sullivan  
Internship and Job Development Coordinator, Student Employment  
M.A., University Northern Colorado, 1980;  
B.A., St. Joseph College, 1969

Deb Sylvester  
Assistant Controller, Accounting Services  
B.S., Regis University, 2006;  

Wesley Testa  
Site Manager I, School-Age Child Care

Jennifer Thurston  
Academic Advisor/Recruiter, Advising and Recruitment  
B.S., Georgia Institute of Technology, 1991;  
A.A., Charles County Community College, 1988

Maryann Touitou  
Community Learning Center Coordinator, Instructional Services  
M.A., University of Oklahoma, 1996;  
B.A., College of St. Mary’s, 1970

Terms You Need to Know from the RRCC Catalog

Reading this list of words and phrases with their definitions will familiarize you with terms that you will encounter in the RRCC Catalog and throughout your college career. (Also consult the index on pages 240-242, which lists additional terms with specific page numbers.)

Admission:
People ages 17 and above who want to attend RRCC can apply for entry to the college using the procedure described on page 4. The Office of Admissions is directly across from the main entrance of the Lakewood Campus.

Advisors:
RRCC's academic (also referred to as general) advisors help new and continuing students at all stages of their college careers, particularly those seeking certificates, degrees, and/or eventual transfers to four-year colleges or universities. Advising is located next to the Admissions Office on the Lakewood Campus. (Refer to page 4.)

• Faculty advisors also are available to assist students. Many times academic advisors will refer students to faculty advisors for specific information concerning courses and programs. If you are pursuing a certificate or associate of applied science degree, consulting a program area faculty advisor is helpful.

Assessment:
In a community college setting, your reading, writing, and mathematics skills are assessed so that you can begin your college career with the best chance of succeeding. RRCC administers the Accuplacer test: it is NOT an entrance exam but it does give students, advisors, and teachers the information needed to determine which classes students are ready to take. (Refer to pages 4 and 5.)

Once you are enrolled in classes, your teachers will assess your progress regularly using a variety of methods. Yes, exams are one way, but other methods include writing essays, reports, and research papers; giving oral reports; completing exercises and homework assignments; and participating in classroom discussions. It is important that YOU assess your own progress so that you can ask questions and seek help when necessary. (Refer to pages 10-11.)

Audit (AU):
If you want to take a class without earning credit or receiving a final grade, you can choose to do so at the time you register for the class; you cannot change your mind after registering and declare that you want to earn credit and a grade for the class. Also note that you must pay full tuition and fees, and you will not receive the COF stipend. (Refer to page 18.)

Catalog:
The RRCC Catalog lists and describes essential information for all students, advisors, teachers, staff, and administrators. Use the catalog in conjunction with each semester’s schedule of classes. The catalog is a vital resource that you need to read and review regularly. You will graduate under the requirements in effect for the semester that you first enrolled unless you have a one-year break in attendance. You also may choose to use the catalog in effect during the semester you graduate. For more information and/or clarification, meet with your advisor. (Refer to page 21.)

Certificates:
In addition to two-year degrees, you can earn certificates in a variety of specialties. A certificate might require as few as five credits and in some cases can count toward a degree. (Refer to pages 36-37.)

College-Level Examination Program® (CLEP):
The College-Level Examination Program® or CLEP gives students the opportunity to demonstrate college-level achievement through taking exams that can lead to credit for designated undergraduate courses. Refer to www.collegeboard.com/student/testing/clep/about.html for complete information and meet with an academic advisor. (Refer to page 6.)

College Opportunity Fund (COF):
The state of Colorado will pay a portion of the tuition for Colorado residents attending RRCC or any state-supported or participating private college or university, provided they have enrolled in the COF program. Enroll online by going to www.rrcc.edu and clicking on the link to COF. (Refer to page 8.)
Co-requisite:
A co-requisite is a course that is required with another course. For example, a student enrolled in REE 201 (Real Estate Brokers I) must also be enrolled in REE 202 (Real Estate Brokers II). In this particular case, both classes must be taken together; they meet at the same time with the same instructor. (If a co-requisite is required, you will see an explanatory note in the current semester’s schedule and oftentimes in the “Course Descriptions” section of the catalog.) Meet with an academic or faculty advisor before enrolling in classes to learn more about specific co-requisites.

Credit(s):
A credit is a unit of study. The number of credits assigned to each course can be found in the “Course Descriptions” section of the catalog as well as in the listing of courses in the current semester’s schedule. If you have questions concerning credits, the best source of information is an academic or a faculty advisor.

Note: Full-time students are those who take 12 or more credits in a semester; part-time students are those who take fewer than 12 credits in a semester.

Degrees:
RRCC offers a variety of two-year associate degrees:
Associate of Arts
Associate of Science
Associate of General Studies – Specialist
Associate of General Studies – Generalist
Associate of Applied Science

Meet with a faculty or academic advisor and refer to pages 24-35 to learn about the requirements for each degree.

Electives:
Students choose an academic course from a list of options.

English as a Second Language (ESL):
Students for whom English is their second language can find assistance in the ESL/Foreign Language Lab located on the Lakewood campus. (Refer to page 10.)

Financial Aid:
Tuition assistance is available in four types: scholarships, grants, loans, and work-study agreements. To learn more about financial aid and the application process, visit www.rrcc.edu/finaid, call to schedule an appointment with a financial aid representative at 303.914.6256, and/or talk with an academic advisor. (Refer to page 8.)

General Education Courses:
These are courses not directly related to a student’s formal preparation for a career but that need to be part of every college student’s body of knowledge in order for him or her to function as an educated adult. These courses are numbered 100 and above.

General Education Development (GED):
If a student has not graduated from high school, passing the GED certifies that he or she has high school-level academic skills. RRCC offers a free practice test for the GED as well as a GED preparation course. (Refer to page 10.)

Grade Point Average (GPA):
GPA refers to your average grade and is determined by dividing the grade points you have earned by the number of credits you have attempted. (Refer to page 19 for a thorough explanation and a sample calculation.)

Graduation:
Meet with a faculty or an academic advisor BEFORE beginning any program of study; advisors know the requirements and can help you stay on the path to graduation. Upon successful completion of degree or certificate requirements, you can receive recognition for your efforts during annual commencement exercises. (Refer to page 21.)
Graduation Audit and Graduation Application:
When you have successfully completed 42 credits, you are usually only 18 credits away from graduating with one of the associate degrees that RRCC offers. At this point it is important for you to initiate a graduation audit and to meet with your faculty advisor to find out what additional courses you need to take.

1. The graduation audit request form is available from the Admissions Office, or you can find it online at https://adminps.rrcc.edu/audit/requests/form.htm. At this point it is important for you to meet with a faculty or academic advisor so that he/she can assist you as you plan to complete the required courses for the degree you are seeking.

2. Near the beginning of the semester in which you want to graduate, submit a graduation application form by the date listed in the current semester’s schedule. The application form is available from the Admissions Office or online at www.rrcc.edu/admis/gradap.html. Meet with an academic or faculty advisor so that he/she can assist you with the graduation application process.

International Students:
These are students from another country who are admitted to the U.S. on an F1 non-immigrant student visa. (Read page 12.)

Learning and Resources Center (LARC):
The LARC is located next to RRCC’s main entrance and includes the library and quiet study rooms upstairs and study and tutoring areas on the main floor. The LARC offers students free, walk-in tutoring in math, writing, reading, the sciences, accounting, Microsoft applications, and other subjects. Several computers also are available for you to use. (Refer to page 10 and/or call 303.914.6705 for additional information.)

Office of Special Services (OSS):
This office coordinates services for RRCC students with documented disabilities so that they have an equal opportunity to pursue their educational goals. Call 303.914.6733 or 303.914.6737 (TTY). (Refer to page 11.)

Open-Entry Community College:
Anyone who can benefit from RRCC’s instructional programs and courses, including high school graduates, non-graduates, and students 16 years or older who are currently enrolled in high school, are welcome to apply by following the admission procedures on page 4.

Phi Theta Kappa:
RRCC sponsors a chapter of Phi Theta Kappa, the national student honors organization for two-year colleges. (Refer to page 20.)

Plagiarism:
The word is taken from the Greek and means the kidnapping of other people’s words and/or ideas, a serious academic offense listed in the RRCC Catalog as academic dishonesty: “Those committing academic dishonesty will be subject to disciplinary action, such as failing the assignment or course and/or expulsion from the course or college” (page 18). Work closely with your instructors and tutors to avoid plagiarism.

Prerequisite:
This is a course that is required before taking another course. For example, before you can enroll in ENG 122 (English Composition II), you must have taken ENG 121 and passed with an A, B or C. Prerequisites are listed with course descriptions on pages 119-226 of this catalog. Meet with an academic or faculty advisor before enrolling in classes to learn more about specific prerequisites.

State-Guaranteed General Education Courses:
These are general education courses that the state of Colorado requires for students seeking associate of arts (AA) or associate of science (AS) degrees. These courses are listed on pages 25 and 27 of this catalog. A variety of courses are available in the areas of communication, mathematics, arts and humanities, social and behavioral sciences, and physical and life sciences. Meet with an academic or faculty advisor who can help you select the courses that fulfill the AA and AS degree requirements.

Tuition:
The fee charged for instruction by a formal institution of learning is called tuition. Paying tuition and fees allows you the opportunity to earn grades in the classes you take. (Refer to page 8.)

Do not assume you have been dropped from a class if you miss tuition and fee payment deadlines or fail to attend a class. Once you have registered for a class, you are responsible for paying full tuition and fees unless YOU drop the class on or before the drop/refund date listed in the current semester’s schedule. RRCC does not automatically drop students for non-payment or non-attendance.
INDEX

A
AAA - Academic Achievement 10, 120
Academic Integrity 18
Academic Second Chance 19
