Introduction to Woodworking Stuff You Need At The End

1. Completed Assignments
 - a. 20 dovetails (dated)
 - b. Mallet (free shaped object)
 - c. Lathe Turning
 - d. Hand Mill Wood
 - e. Group Project
 - f. Sketch Book Assignments
2. Your complete stool
 - a. Initial Sketch
 - b. Quick Paragraph describing how you made it
 - i. Include type of wood
 - ii. Number of board feet
 - iii. Inspiration – what does it look this way?
 - iv. Problems you had
 - v. Things you learned making it
3. Final Project
 - a. Bid Proposal which includes
 - i. Estimate of Time and Material
 - ii. Sketch
 - iii. Scaled Drawing
 - b. Comparison of estimate to actual
 - i. Copies of receipts to show material cost
 - ii. Copies of Time Logs
 - c. Brief paragraph describing it (as in number 1.b above)
 - d. If it ain't done yet, I want to see as much as you have - drawings design all that sort of stuff
4. Notes from attending the various seminars and workshops
 - a. Final Report:
5. A written paragraph stating what grade you think you should receive and why you think you deserve that grade. (I dislike the grading process – so you can help me out a little)

The format of above can be written and turned in just like you would expect, but better yet, I would like a CD.

I Look Forward to a Great Semester
