

Dear Student:

The facilities that Red Rocks Community College uses for clinicals require that students completing the Nurse Aide and RN Refresher programs submit a drug screen prior to his/her scheduled clinical. The screen (typically referred to as a 7 panel screen) must include testing for the following:

- Barbiturates
- Benzodiazepines
- Cannabinoids
- Cocaine
- ETOH (Alcohol)
- Methamphetamine
- Opiates

The department coordinates a date with Wiz Quiz to come out to our campus and complete the drug screen. Your instructor will give you the date for the drug screen during the first week of class. The cost for this is approximately \$25.

If you have any questions regarding the drug screen, please speak with the program coordinator.

Sincerely,

*Colleen Cleary-Doone*
