

**Important Timelines
for
Fall 2010 Student Employment**

- July 19, 2010** Students can begin the hiring process for fall 2010 student employment. The Financial Aid office will begin giving Work Study referral forms to eligible Work Study students.
- July 30, 2010** Last day of summer 2010 student employment.
- July 31, 2010** First day of fall 2010 student employment.
- July 31 to August 20** Student employees may work up to 40 hours/week while classes are not in session. **Note to supervisors: Please gain approval from your cost center administrator before extending student hourly work hours up to 40 hours/week.**
- August 21, 2010** Student employees (both Student Hourly and Work Study) must resume the maximum allowable 20 hour/work week.
- August 23, 2010** Fall term begins.
- Word of caution:** We will all need to caution fall Work Study students who work 40 hours/week from July 31 to August 20 that their fall Work Study award will be used up very quickly. Based on an average earning of \$8.00/hr., and working the full 20 hours/week beginning August 21st, a Work Study student would run the risk of depleting their \$2500 award by as early as mid-October.
