### **RMEC 327**

#### ***Cranes and Hoist Management***

The foundation of any crane safety program starts with management commitment and total understanding of lifting operations. Selection of cranes, operating and support personnel will make the difference between success and failure of a project. Crane accidents and their losses can be controlled through proper and effective management. Every person regardless of their position who are involved in crane management must be trained in the prevention of accidents. This crane management program will not only train your management personnel in the correct practices, policies & procedure of crane operations but will supply the much needed knowledge for day-to-day crane & rigging operations. 1.8 CEUs

**RMEC 327 Dates:**

**2006**

Section 001: January 16 - 18

Section 002: June 12 - 14

**TIME:** 3 Sessions, 8:30 a.m. - 4:30 p.m.

**FEE:** \$695.00

### **RMEC 328**

#### ***Crane and Rigging Inspector Training***

This five day training program will cover: Competent Inspector Certification Programs, Overhead Crane/Hoist Inspector Workshop, Mobile Crane Inspector Workshop, Tower Crane Inspector Workshop and Rigging Inspector Inspection Workshop. These programs are designed with classroom and extensive field exercises. 3.0 CEUs

**RMEC 328 Dates:**

**2006**

Section 001: February 27 - March 3

Section 002: July 31 - August 4

**TIME:** 5 Sessions, 8:15 a.m. - 4:30 p.m.

**FEE:** \$1,200.00

## **RMEC 329**

### ***Mobile and Overhead Crane Operations***

This comprehensive mobile crane training program has been specially designed to include mobile cranes, overhead cranes and rigging operations. This program has been designed and developed to combine mobile, overhead and rigging operations and applications.

This is an excellent training workshop for operators, supervisors, managers, safety personnel, equipment managers, site coordinators, site management teams and multi-craft workers and personnel who operate cranes infrequently and are responsible for multiple crane and rigging applications and operations. 3.0 CEUs

#### **RMEC 329 Dates:**

**2006**

Section 001: June 19 - 23

Section 002: November 6 - 10

**TIME:** 5 Sessions, 8:30 a.m. - 4:30 p.m.

**FEE:** \$695.00

## **RMEC 421**

### ***Bloodborne Pathogens for Medical and Research Laboratory Facility Personnel***

This course is designed as an annual review and update course for medical facilities (including clinics, hospitals and freestanding emergency facilities) and research laboratory facility personnel. This course will cover standard changes, treatment updates, ECP review, compliance methods and recordkeeping. .4 CEUs

#### **RMEC 421 Dates:**

**2006**

Section 001: January 20

Section 002: July 7

**TIME:** 1 Session, 8:00 a.m. - 12:00 p.m.

**FEE:** \$100.00

## **RMEC 422**

### ***Bloodborne Pathogens for General Industry and Construction Industry Annual Refresher***

This course is designed to review and update BBPS protocols for first aid and first responders employed in the general and construction industries. This course meets the OSHA criteria for annual training. .2 CEUs

#### **RMEC 422 Dates:**

**2006**

Section 001: February 3

Section 002: August 4

**TIME:** 1 Session, 8:00 a.m. - 10:00 a.m.

**FEE:** \$75.00

## **RMEC 460**

### ***Electrical Safe Work Practices OSHA***

Code requires training on electrical safe work practices. This two-day course will meet these requirements and will cover electrical hazard recognition, lockout procedures, inspection test instruments, accident investigation, electrical risk assessment and the proper selection and use of personal protective equipment requirements. 1.2 CEUs

#### **RMEC 460 Dates:**

**2006**

Section 003: February 9 - 10

Section 004: June 1 - 2

**TIME:** 2 Sessions, 8:15 a.m. - 4:30 p.m.

**FEE:** \$495.00

## **RMEC 500**

### ***Refrigeration and Air Conditioning Fundamentals***

The student will learn the basics of the refrigerant cycle and how it is important in air conditioning diagnostics. The student will learn how to properly troubleshoot, recover the refrigerant, evacuate and recharge a system. Proper flaring and brazing techniques will be part of the class. Time will be divided between lecture and hands on experience. EPA 608 test will be part of this class. *2.4 CEUs*

#### **RMEC 500 Dates:**

**2006**

Section 001: January 12 - 14

Section 002: March 30 - April 1

Section 003: June 8 - 10

Section 004: September 21 - 23

**TIME:** 3 Sessions, 8:00 a.m. - 4:30 p.m.

**FEE:** \$600.00

## **RMEC 505**

### ***Low Voltage Controls***

This course will teach the student the basics of low voltage control circuits. Relays, transformers and contractors will be discussed in depth. Circuit development and diagnostics will be discussed and hands on activities will help the student retain as much knowledge as possible. *1.6 CEUs*

#### **RMEC 505 Dates:**

**2005 2006**

Section 001: December 8 - 9 Section 002: April 13 - 14

Section 003: May 18 - 19

Section 004: October 19 - 20

**TIME:** 2 Sessions, 8:00 a.m. - 4:30 p.m.

**FEE:** \$400.00

## **RMEC 510**

### ***Colorado Plumbing Code***

This is a compressed seminar reviewing the sections of the Colorado Plumbing Code that are problematic to most candidates for State plumbing license exams. **This course meets the Colorado Examining Board of Plumbers requirement for 16 hours of instruction.** *1.6 CEUs*

**2005 2006**

Section 001: September 23 - 25 Section 004: February 17 - 19

Section 002: October 21 - 23 Section 005: April 14 - 16

Section 003: December 16 - 18 Section 006: June 2 - 4

Section 007: September 15 - 17

Section 008: October 20 - 22

**TIME:** 3 Sessions, Friday 5:00 p.m. - 9:00 p.m., Saturday 9:00 a.m. - 5:00 p.m.,

Sunday 9:00 a.m. - 2:00 p.m.

**FEE:** \$375.00

## **RMEC 515**

### ***Fuel Gas Pipe, Combustion Air and Venting Design***

This seminar is based on the requirements of the International Fuel Gas Code. Upon successful completion of this seminar, attendees will be able to design these systems meeting code requirements. *1.6 CEUs*

**Note:** Attendees must bring a 2003 International Fuel Gas Code book and calculator.

#### **RMEC 515 Dates:**

**2005 2006**

Section 001: October 13 - 15 Section 002: January 19 - 21

Section 003: April 6 - 8

Section 004: September 7 - 9

**TIME:** 3 Sessions, 8:00 a.m. - 4:30 p.m.

**FEE:** \$450.00

## **RMEC 520**

### ***Colorado Plumbing Code DWV Seminar***

Contractors can continue to install DWV systems that met the prior State Plumbing Code.

The new Colorado Plumbing Code allows contractors cost saving options. This seminar will explain the options available using the International Plumbing Code. *1.2 CEUs*

**Note:** Attendees must bring a 2003 International Plumbing Code book and calculator.

#### **RMEC 520 Dates:**

**2005 2006**

Section 001: November 10 - 11 Section 002: January 12 - 13

Section 003: March 9 - 10

Section 004: May 11 - 12

Section 005: September 28 - 29

**TIME:** 2 Sessions, 8:00 a.m. - 4:30 p.m.

**FEE:** \$375.00

## **RMEC 525**

### ***Colorado Plumbing Code Calculations***

Many candidates preparing for Colorado plumbing license exams and working daily in the field have problems with calculations. This one-day seminar will review these necessary calculations and explain their practical application. *.6 CEUs*

**Note:** Attendees must bring a calculator.

#### **RMEC 525 Dates:**

**2005 2006**

Section 001: November 18 Section 002: February 3

Section 003: May 5

Section 004: October 6

**TIME:** 1 Session, 8:00 a.m. - 4:30 p.m.

**FEE:** \$175.00

## **RMEC 530**

### **2005 NEC Code Revisions Update Course**

This is good for the State Electrical Board's 16-hour letter. This class will focus on the NEC changes. Significant revisions to the NEC have been made. Enhance your understanding of the code and its new format. Ensure your installations conform to the "2005" NEC code revisions. The intention is to provide informative coverage of major changes in the 2005 NEC in an understandable format. Who should attend this course: Journeymen, Apprentices, Contractors, Inspectors, Engineers, Designers, Verifiers of Electrical Work and those needing a 16-hour letter. *1.6 CEUs*

#### **RMEC 530 Dates:**

##### **2005 2006**

Section 002: September 12 - 15\* Section 006: February 4 & 11

Section 003: October 1 & 8 Section 007: March 4 & 11

Section 004: November 5 & 12 Section 008: April 1 & 8

Section 009: May 3 & 10

Section 010: June 3 & 10

**TIME:** 2 Sessions, 8:00 a.m. - 4:30 p.m.

\*12:00 p.m. - 4:00 p.m.

**FEE:** \$345.00

## **HOME INSPECTION TRAINING**

There's more to a home inspection than just looking around a building. It's an entire process of communication skills combined with construction knowledge and business savvy. The AHIT intensive, multi-day courses offer training by experienced ASHI®, NAHI and CREIA members covering every aspect of the home inspection business. You can't afford not to attend one of these classes. Learn how to conduct a thorough home inspection from the moment of pulling into the driveway to writing up the report. After completing the course, you'll understand just what is needed to perform an actual inspection. This course is taught per the ASHI®, NAHI, and CREIA Standards of Practice and you'll experience an in-depth look at each component of a house. Hundreds of slides of actual situations are shown in order to give you the best possible learning environment. This unique class takes you through, in detail, all the phases of a home inspection - including three personal on-site inspections. You'll also learn everything you need to do to get your home inspection business up and running. What to do - How to do it - When to do it - Where to do it - How often to do it. All of these questions will be addressed in this class. A 30, 60, and 90 day step-by-step plan to get you going. We will teach how to maximize your "sphere of influence" along with building your referral base of Realtors®, Lenders and Attorneys. How to set up your business - LLC, Partnerships or Corporations. The course will go over developing your image - logos, business cards, brochures and flyers necessary to get your business announced to your referral base. It will also teach you how to give a good Realtor® presentation with proper vocabulary and objection overcomers. What are you going to do when the phone rings. The course will teach you how to inform, sell, close and schedule every call you receive. This course is an absolute must to anyone starting a home inspection business.

#### **Class Dates:**

##### **2005 2006**

October 15 - 21 January 28 - February 3

December 3 - 9 March 25 - 31

June 3 - 9

August 5 - 11

October 7 - 13

**TIME:** 7 Sessions, 7:00 a.m. - 7:00 p.m.

**FEE:** \$1,795.00

**Call 800.441.9411 to register or for more information  
on this exciting new opportunity!**

# ***CASINO TRAINING COURSES***

**Slot Floor Mechanic Course** -This course is designed to prepare the student for a career in the maintenance of slot machines. The course covers daily slot floor attendant procedures, which include identifying errors, pay outs of jackpots, filling empty machines, basic machine malfunctions and compliance with regulatory paperwork. The course will then cover slot mechanic responsibilities which will include: theory of different components of slot machines, troubleshooting and repair, conversions, slot math and accounting practices, slot layout and analysis, progressive theory and programming and regulatory compliance. Class meets four nights a week, Monday - Thursday from 5:00 p.m. to 9:00 p.m. for four weeks. Please call 303.914.6420 to register, space is limited.

**Casino Management Online Program** - RMEC's Online Casino Management program offers students a way to learn about one of the fastest growing industries in the world with the convenience of 24/7 access to course content. The program objectives include:

- Providing management training for qualified incumbent employees;
- Accelerating the career path of future casino leaders;
- Providing newly promoted supervisors with the skills necessary to thrive and succeed;
- Providing a resource to supervisors and managers who have opportunities for growth in their existing departments.
