

There are 3 intended audiences for the Common Course Numbering System.

1. General Public – These are potential students or anyone else wondering what courses are available and where they are offered for the term selected on the first page of CCNS. The general public audience is only allowed to view current courses.
2. Colorado Community Colleges Faculty and Staff. This audience is meant to access CCNS via SSB and is allowed to view Current, Proposed, and Archived courses.
3. Non Colorado Community Colleges Faculty and Staff. This audience must also access CCNS via SSB and is allowed to view Current, Proposed, and Archived courses.

Access URLs

1. Let's begin with a common starting point for everyone: <http://cccs.edu>. From this page you can click on the Common Course Numbering System menu item about 1/3 of the way down on the left side of the page. Here is a screen shot with the Common Course Numbering System menu item highlighted (a slightly darker shade of grey/tan) to simplify:

Colorado's #1 Source of Higher Education Access and Opportunity

Welcome to the web site for the Colorado Community College System (CCCS). The CCCS comprises the state's largest system of higher education. Its career and academic programs in the 13 state community colleges serve more than 162,000 students annually.

Colorado Community College Common Courses

Colorado Community College Common Courses [website home page.](#)

This curriculum website includes courses taught by the community colleges in CO and courses taught by the 5 area technical schools. Courses with common content, title, credits, description, competencies and outline. These commonly described courses include articulation arrangements for Colorado's secondary and community college students to ensure quality across the colleges.

Introduction for Students

The [Colorado Community College Common Courses](#) include all courses taught at the community college level and at the area technical schools. Each course listing includes credit hours, competencies and a course outline along with a listing of all schools offering the course.

Once you have found the courses you are interested in, it's always a good idea to consult your advisor to be sure it fits in with your educational plan.

Introduction for Faculty and Advisors

We have provided you with all the information you will need to enter new courses into the database. This is the place to find procedures and course guide templates as well as information on Bloom's Taxonomy. We have also included a matrix for awarding credit for prior learning.

For those [faculty and staff](#) who need it, the Proposed and the Archived Databases are password protected. If you don't have the password, it is available from the Registrar, Academic and Student Services.

There is also a link here to the ongoing crosswalk. From the time of original entry, some courses have changed number, changed prefix or perhaps been deleted as duplicates.

More explicitly the links are:

General Public: https://erpdnssb.cccs.edu/PRODCCCS/ccns_pub_controller.p_command_processor

Faculty and Staff: https://erpdnssb.cccs.edu/PRODCCCS/twbkwbis.P_WWWLogin

Bear in mind that the above links are subject to change. The preferred method of accessing CCNS is via the <http://cccs.edu> web site using the menu and links shown above.

If you have an SSB account with one of the Colorado Community Colleges you use your S# to login.

If you are external faculty and staff a specific user has been setup in SSB. That user is:

- User ID: CPG001
- Password: 010159

I will now log into CCNS as an external faculty or staff member. See screen shot below.
