

## **Campus Smoking Policy and Smoking Zones**

In 2015 a proposal to develop designated smoking zones on campus was submitted to the RRCC executive leadership team who voted in favor of the proposal. The campus smoking policy was updated, effective January 2016, to reflect that smoking is only permitted in six designated areas on the Lakewood campus. (Link to map here) Smoking zones are not established at the Arvada Campus due to construction. Areas at that campus will be established in Fall 2016.

- The revised policy considers the use of e-cigarettes and electronic vaping devices the same as cigarettes, and therefore these devices are only permitted in the designated smoking areas.
- The smoking area policy does not apply to public rights-of-way (sidewalks, streets) on the perimeter of campus.
- The policy reiterates that the display, consumption, and/or use of marijuana or marijuana concentrate in any indoor or outdoor area on the Red Rocks Community College campus are prohibited.
- Enforcement of the policy will be through education and community outreach. Violations of the policy will be reported to the appropriate agency or institutional office:
  - Students will be referred to the appropriate student conduct office.
  - Employees will be referred to their supervisor, appointing authority, and/or human resources office.
  - Contractors will be referred to their respective employers.
  - Visitors will be asked to leave the campus if they fail to conform to the policy when advised.
