Tips, Tricks & Notes:

1. If you cannot find your school in the search, try shortening the name, and using less search criteria.
2. A Parchment account can only be used by one person. Each student must register an account using an email address. Accounts cannot be shared and the name on the account should never be changed to be used by any other person. You can use the same email address for each of the CCCS schools if you attended multiple colleges within the system, but you would need to create a new account for each school.
3. If you have attended more than 1 college/university that uses Parchment, you may have multiple colleges associated to your account. Once you have completed your registration, you may then log into your Parchment account and click on the Profile tab and then click on the Associated Colleges tab to enter additional colleges to your account.
4. Your credit card authorization will be good for 30 days in case there is a delay in processing due to holds etc. If you select the option of “hold for grades or degree” the authorization will be good for 90 days.
5. Unfortunately, you cannot place orders using an iPhone or iPad since this product requires Adobe Flash which is not supported by these devices.

Order History Status

Next to the school that you ordered your transcript from, you can select Order/History to review the status of all your orders both current and past. Below are descriptions of the status and some troubleshooting hints.

Status	What this means	Troubleshooting
Order submitted to school	Your school has received your order. They now need to approve it and then upload the transcript or prepare it themselves.	If your order has been in this status for more than 2 days, you should contact your school to let them know that you've submitted your order and you are now waiting on them to process it.
On hold	Your school placed your order on hold. You should have received an email explaining why.	You need to contact your school for more information.
Available for download	Your electronic transcript has been delivered but the recipient has not downloaded yet.	<ul style="list-style-type: none"> • If you sent your transcript to an in-network school (in other words, when you placed your order, you did not have to enter the email address of the destination) and the school says they do not have it, you should tell them to check their Parchment Inbox. • If you sent your transcript to an email address and the recipient says they do not have it, ask them to check their Spam folder. They would have received an email with instructions telling them how to download the transcript. If they cannot find the email, let us know and we will resend it.
Download confirmed	Your electronic transcript has been downloaded by the recipient.	If your transcript was sent to an in-network school (in other words, when you placed your order, you did not have to enter an email address of the destination) and the school says they do not have it, give them your DID#, which you can find in your Order History. They can then go into their Report section, enter your DID#, and search for your transcript.
Shipped	The school mailed your transcript, or Parchment mailed your transcript. If you read the information on the bottom left of the Order History screen, you will see who shipped your transcript.	<ul style="list-style-type: none"> • If your school sent the transcript, you will need to contact them if it was not received at its destination. • If Parchment sent the transcript and it was not received at its destination, please note that First Class mail can take up to 7 days for delivery. Also, if you sent it to a school, they do not always process transcripts immediately. If you have waited a reasonable amount of time, we will resend the transcript one time free of charge. For security purposes, we can only resend the transcript to the destination you originally provided.
