

PROVIDER POST

Summer/Fall 2014

July – December

Child Care Innovations has existed for more than twenty years, providing training and support to child care providers, building child care capacity, and developing programs to enhance quality. As a contracted partner of Qualistar Colorado, we provide child care referrals, consumer education, and provider services for the counties of Adams, Arapahoe, Broomfield, Clear Creek, Douglas, Gilpin, Jefferson, and Park.

Professional Development Opportunities!

This bi-annual publication provides information regarding training sessions offered by our agency. All sessions are presented by highly qualified part time college instructors. In addition, we provide certificates documenting professional development, we offer participants interactive learning experiences, current information on best practices for early childhood professionals, and connections to supportive community resources...all at affordable prices.

We are also available for consultation and provision of customized training sessions provided at community locations throughout our service delivery area, early childhood professional organizations, or child care centers.

Well trained early childhood professionals are essential to the provision of high quality child care

For information on other workshops, conferences, and training sessions throughout Colorado visit the training calendar at www.qualistar.org

Why Do They Keep Calling?

Dear Providers,

Child Care Resource and Referral Agencies collects data on child care supply and demand and the data is used to:

- Help parents and providers understand average rates in given communities and specific ages
- Help families understand options that best meet their needs
- Help inform recruitment efforts
- Gain information needed to receive funding for quality improvement, scholarships and support of family child care and center providers
- Help establish market rates for the Colorado Child Care Assistance Program (CCCAP)
- Help inform capacity building efforts
- Help determine training and support needs
- Help in communication and outreach to providers, including providing information about grant opportunities
- Help us advocate on behalf of early childhood professionals

The data collected during calls is to update provider profiles. We are contracted to contact every licensed facility at least twice a year to update the information contained in our data base. This information is not shared with the regular public and is used in aggregated form. We realize you are very busy, but encourage you to please take some time to assist us when contacted for an update. If you would like to know what information we have for you or to update, please call our provider line at 303-969-9666. In order to make this process easier for you we have added an update form on our website at <http://www.rcc.edu/childcareinnovations/> which you may download, complete and mail, email or fax to us.

**Also visit our website to read the letter from the
Division of Early Care and Learning
in regard to the importance of these phone calls and especially why you are
asked for your email address.**
