

**Red Rocks Community College Student Election Concerning Any Non-Bond Fees  
(Student Recreation Center Operating fee)**

This email serves as 30-day notification under State Board for Community Colleges and Occupational Education (SBCCOE) Board Policy (BP) 4-20, Student Tuition and Fees/Scholarships, of a student vote concerning the proposal of reducing the Recreation Center Fee and expanding who pays the fee from on campus students to all students, except concurrently enrolled students.

Per BP 4-20, this referendum concerns a student activity fee for recreation services. Student activity fees are defined as: Mandatory fees associated with enrollment in the college and/or campus that are assessed for a specific purpose. These fees include, but are not limited to, student centers, athletics, student government, contract health services, and/or similar services and facilities; non-bonded parking fees; and any general fee, the revenue from which is appropriated by student government for a specific purpose.

The Proposed Fee will be a flat fee of \$55.65 per fall and spring semesters and \$33.38 per summer semester. The Proposed Fee will be assessed to all students at Red Rocks Community College, except it will not be assessed to concurrently enrolled students.

A simple majority of the votes cast determines the outcome. If the students approve the Proposed Fee it must then be approved by the SBCCOE. The Proposed Fee is to be effective starting in Fall 2026, and will be charged for an Indefinite Period. The Proposed Fee will be adjusted for inflation pursuant to the Consumer Price Index on an annual basis.

Currently, the existing Recreation Center Fee is a flat fee of \$59.21 per Fall and Spring Semester and \$35.51 per Summer Semester. It is currently charged only to on-campus students, excluding concurrently enrolled students. This existing fee will remain in effect if the Proposed Fee is not approved.

Please watch for more information during the next 30 days regarding the referendum and details of how to vote.

From April 26 to May 2, all enrolled Red Rocks Community College students will have the opportunity to vote yes or no on the following: Recreation Center Fee - Red Rocks Community College Student Election Concerning Non-Bond Fees

DATE

## Referendum

Students at Red Rocks Community College will vote on whether to change the assessment of the Recreation Center Fee from a flat fee per semester charged only to on-campus students, except concurrently enrolled students to a flat fee per semester, assessed to all students except concurrently enrolled students. If approved, the new Recreation Center Fee will become effective in Fall Term 2026.

The Proposed Fee will be a flat fee of \$55.65 per fall and spring term and \$33.38 per summer term. The Proposed Fee will be assessed to all students at Red Rocks Community College, except it will not be assessed to concurrently enrolled students.

Currently, the existing Recreation Center Fee is a flat fee of \$59.21 per Fall and Spring Semester and \$35.51 per Summer Semester. It is currently charged only to on-campus students and is not charged to concurrently enrolled students. This existing fee will remain in effect if the Proposed Fee is not approved.

The purpose of the Proposed Fee is to provide and support the following services and programs for students: staffing for the recreation center, adventure programs, facility and equipment maintenance and repairs, rock wall, sports clubs, intramurals & drop in's, wellness, group fitness (online and in person), and personal training.

The Recreation Center Fee is intended to remain at the defined rate, regardless of fluctuations in student enrollment, but the fee is subject to annual increases for inflation pursuant to the Denver-Aurora-Lakewood Area Consumer Price Index beginning in Fiscal Year 2028. The proposed fee would be an indefinite fee but will be reevaluated each year to determine if it should be continued, consistent with current practice.
