

INTERESTED IN DOING RESEARCH THIS SUMMER?

Attend an informational webinar to learn more
about RECCS and Geo-Launchpad

Wednesday, January 23rd
5:00pm-6:00pm
HUB Event Center (Room 1241)

Research Experience for Community College Students (RECCS)

Offers 10 summer research internships for Colorado Community College students interested in Environmental Science, Atmospheric Science, Earth Science, Geology, Ecology, Geochemistry, Climate Science, and Geomorphology. These are independent research projects guided by a science mentor. Pay is \$500 per week for a total of \$4,500 over the entire internship period.

Geo-Launchpad

Geo-Launchpad is an 11 week paid summer internship program based in Boulder, CO and is open to all Colorado and New Mexico community college students with an interest in geoscience. Geoscience includes atmospheric science, chemistry, earth science, engineering, environmental science, geography, geology, hydrology, technology, etc. This is a pre-REU (Research Experience for Undergraduates) program that will expose students to geoscience careers, assist in professional development and communication skills, and provide research-ready skills.

For more information contact Melissa English at melissa.english@rrcc.edu or in room 1255 in the HUB.
