Fortnightly Nerds Rewards

The opportunity has returned for students to answer a nerdy question for a reward! This fortnight's problem is: An airplane taking off from a runway travels 3600 feet before lifting off. If it starts from rest, moves with constant acceleration, and makes the run in 30 seconds, with what speed does it lift off? Please show all necessary steps. All submissions are accepted until March 17th and should be submitted to room 1652 (there is a plastic wall folder in which to place your submissions) All correct answers will be entered into a raffle to receive a \$25 gift card of the winner's choice!
