

Getting Started with TutorMe: A Student Guide

TutorMe Overview

RRCC offers 24/7 online tutoring, through TutorMe. Students can work with a live tutor and receive help with homework assignments and other coursework, in a variety of academic subjects. This service allows students to meet with a qualified tutor using audio/video conferencing, text chat, screen sharing, document upload, and a shared whiteboard space. Students can also review recordings of their sessions, afterwards, in order to assist with their learning process.

Directions to Access TutorMe from D2L

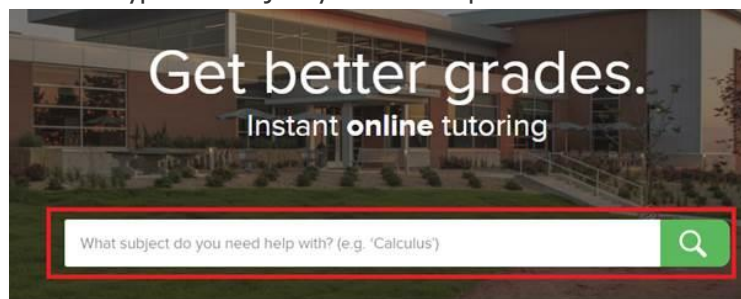

1. Make sure you are logged into D2L
2. Click on the Online Tutoring Link in the D2L Navigation

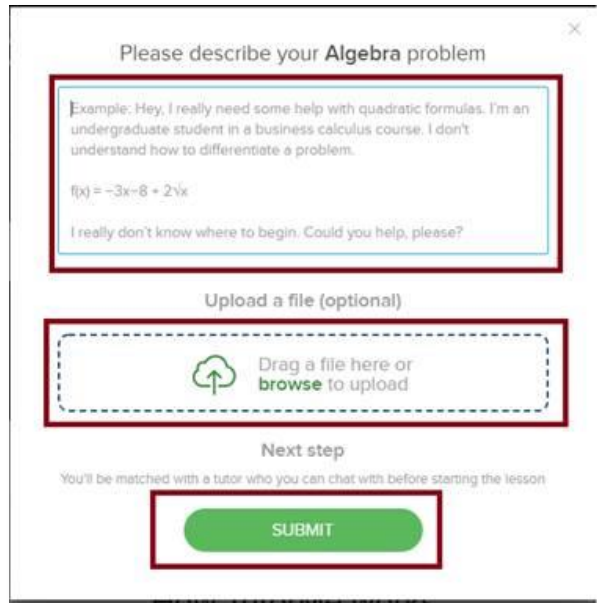

3. On the TutorMe page, click the **Connect with a Tutor** button.

4. Then type the subject you need help with in the **search bar**.

5. A window will pop up allowing you to describe your problem and to upload a file if needed. Finally, submit your issue to be matched with a TutorMe tutor.

The screenshot shows a window titled "Please describe your Algebra problem" with a close button (X) in the top right corner. The window contains the following elements:

- An example text box with a red border containing: "Example: Hey, I really need some help with quadratic formulas. I'm an undergraduate student in a business calculus course. I don't understand how to differentiate a problem." followed by the equation $f(x) = -3x - 8 + 2\sqrt{x}$ and the text "I really don't know where to begin. Could you help, please?"
- An "Upload a file (optional)" section with a dashed red border containing a file upload icon and the text "Drag a file here or browse to upload".
- A "Next step" section with the text "You'll be matched with a tutor who you can chat with before starting the lesson".
- A green "SUBMIT" button at the bottom, highlighted with a red border.
