Belize is home to a variety of marine and terrestrial ecosystems, from rainforest and tropical savanna to mangroves, coral reefs, and more. Examine and compare the country's different natural, unspoiled habitats during this 9-day learning adventure. Observe wildlife and hike in the foothills of the Maya Mountains, explore underground caves, and snorkel the Belize Barrier Reef at Tobacco Caye for a firsthand look at marine biodiversity. Service projects, meetings with researchers, and informative lectures round out the experience.

Space is limited, reserve your spot NOW!
