

RRCC Colleagues and Students,

RRCC continues to be committed to making the health and safety of our students, faculty and staff our top priority. Our constant goal is to limit disruption to instruction and our classroom learning environment.

As COVID-19 and its impact on RCCC continue to evolve, so must our protocols. Here are some updates:

- Effective **Friday, March 11, 2022** we will stop our testing protocol and will not require weekly COVID tests for unvaccinated individuals.
- Vaccinations are still strongly encouraged as a part of our layered strategy for the health and safety of our students and employees.
- Masks will continue to be required inside campus buildings until further notice.
- Students and employees should continue to use the [COVID Reporting Form](#) to report positive COVID cases for contact tracing.

Please know that our protocols are subject to change. When and if they do, I will update each of you as quickly as possible. The Executive Leadership Team and the COVID Task Force will continue to monitor the occurring changes and any new recommendations we receive. Again, I thank you for your patience, support, and your shared commitment to health and safety.

Please continue to [visit the COVID - 19 Updates page](#) for additional information and resources

Michele Haney

President, Red Rocks Community College
